### REPORT OF THE AUDITOR GENERAL

# PUBLIC ACCOUNTS

## Introduction

### ANALYSIS OF THE PUBLIC ACCOUNTS

DEPARTMENT OF FINANCE,

OTTAWA, October 31, 1945.

The Honourable J. L. ILSLEY,  
Minister of Finance.

SIR.—In accordance with section 38 of the Consolidated Revenue and Audit Act, 1931, I have the honour to submit to you herewith the Public Accounts of the Dominion of Canada for the fiscal year ended March 31, 1945.

## INTRODUCTION—ANALYSIS OF THE PUBLIC ACCOUNTS

### A. INTRODUCTORY REMARKS

The new form of the Public Accounts of the Dominion of Canada adopted in 1942-43 and revised in 1943-44 has been followed in this presentation of the Public Accounts for the year ended March 31, 1945.

This Introduction will again endeavour to summarize the Dominion's financial transactions in such a way as to assist the reader in grasping the significance of the voluminous details to be found in Parts I and II of the Report, and to assist also in putting them in proper perspective in relation to one another. As was stated last year, the financial reports of a body engaging in so many diverse and extensive activities as the Dominion Government must necessarily be voluminous and complicated even with the best of presentation; by means of this summary however it is hoped that the ordinary reader will be able to follow the general outlines. In furtherance of this object all or nearly all the figures on these pages have been rounded off to the nearest hundred thousand dollars. Those who wish to pursue details will find them in Parts I and II.

The pages to follow will present, with appropriate comments upon the more significant aspects of each item: the Dominion's balance sheet; a brief summary of the expenditure and revenue statement; a statement of the budgetary deficit or the increase in net debt; a more detailed summary of expenditure; a similarly expanded summary of revenue, the percentage distribution of revenue and expenditure; a statement of the requirements for and sources of cash, contrasting such a statement with the summary statement of expenditure and revenue already mentioned; and the indirect or contingent liabilities of the Dominion. Comparative figures are given for the fiscal year, 1943-44, and wherever practicable the total for the six fiscal years ended March 31, 1945, has also been given since this is the cumulative total for the war years to that date.

### B. THE BALANCE SHEET AS AT MARCH 31, 1945.

The first table to be shown is the balance sheet of the Dominion of Canada in summarized form for the fiscal years ended March 31, 1945, 1944, and the last pre-war year ended March 31, 1939.

#### (1) Important Items in the Balance Sheet as at March 31, 1945.

The balance sheet of the Dominion is shown in Part I, pages 2 and 3. Following the practice initiated in 1942-43, it is given on a comparative basis, disclosing not only the amount of each item at the close of the fiscal year 1944-45, but also the corresponding amount at the close of 1943-44, and the change during the year. A reference number is given to each item and on pages 4 to 7 there is an explanatory note for each. Table I gives the same information in abbreviated form and the position at March 31, 1939, as well; the same reference numbers have been used as in Part I.

It will be noted that the aggregate liabilities of the Dominion amounted to \$15,712.2 million at March 31, 1945, an increase of \$3,353.1 million during the year. Nearly 89 per cent of the aggregate liabilities is represented by funded debt (including Treasury Bills, Deposit Certificates, and the estimated refundable portion of the personal income tax and the excess profits tax).

Fortunately, however, the part of the funded debt which is payable in foreign currencies is less than 2.5 per cent of the total—the equivalent of \$12.1 million in London and \$333 million in New York out of a total of \$13,983.8 million. Floating debt (which consists of outstanding cheques and interest, matured funded debt outstanding, and similar demand liabilities) was only \$165.1 million, an increase of \$58.6 million from the comparable figure a year previously. Sundry funds deposited with the Receiver General or held in trust for various purposes amounted to \$993.6 million, and the amounts at the credit of a number of insurance, pension, and guaranty funds totalled a further \$106.5 million. The remaining items on the liabilities side of the balance sheet are: deferred credits (balances whose ultimate accounting treatment is known, but which are held until certain conditions are met), \$26.4 million; sundry suspense accounts (where some uncertainty as to disposition exists), \$81.3 million; provincial debt accounts (settlements arising out of the agreements at the time of Confederation), \$11.9 million; and reserves for certain contingencies (excluding the reserve for the revaluation of active assets, which is deducted from the value of those assets in order to give a truer picture of their realizable value), \$43.6 million.

	15,712.2	12,359.1	3,710.6

NOTE: Due to rounding off, the columns may not add exactly to the totals shown.

<sup>1</sup> See page 2 for full details with respect to 1944-45 and 1943-44.

<sup>2</sup> Less than \$50,000.

<sup>3</sup> See also item 15, reserves for certain contingent liabilities, and footnote thereto.

<sup>4</sup> Excluding the reserve for possible losses on ultimate realization of active assets, which has been deducted from total active assets.

Offsetting these liabilities (and in a measure explaining their existence, because much of the Dominion's debt is attributable to the loans, advances, and investments which form a large part of the assets) are what are known as Active Assets, following the classification adopted in the budget speech of 1920. Essentially, they consist of the earning assets (that is, assets which yield interest or profits and dividends) together with very liquid assets such as cash and bullion.

The principal active assets at March 31, 1945, were: cash, \$157·8 million; departmental working capital, \$7·4 million; recoverable loans and advances, \$3,153·7 million (including loans and advances of \$656·4 million to various railway and steamship companies, of \$850 million to the Foreign Exchange Control Board, and of \$1,151·9 million to the United Kingdom and various foreign governments, all arising largely out of war transactions); investments, \$373·9 million; provincial debt accounts (like the liability item already mentioned, this is part of the settlements arising out of the Confederation agreements), \$2·3 million; deferred charges (the cost of loan flotations, in process of being amortized over the life of the loans), \$86·7 million; and sundry debit suspense accounts, \$757·0 million.

The non-active assets will be described in Section D below, in connection with the net debt.

## **(2) Balance Sheet Changes during the Fiscal Year 1944-45.**

The changes in the balance sheet in any year are of two distinct types: (a) changes in the net debt (item 8 of Table I), which result from the net effect of the annual revenue and expenditure in producing a deficit or a surplus; and (b) more or less autonomous changes in assets and liabilities. The former type will be explained in Section D below, which is entitled "The Deficit, or Increase in Net Debt". With respect to the latter type of change, the Government is frequently called upon to make loans or investments of various kinds in carrying out its policies, or otherwise to acquire active assets, and from time to time it realizes on assets previously acquired. These activities are quite outside the field of annual expenditures and revenues in the strict accounting sense, though of course they must be authorized by Parliament in exactly the same way as expenditures and normally they are related to or complement them. Similarly the changes in liabilities, while they may be affected to an important degree by governmental actions, are in most cases quite unrelated to the annual revenues and expenditures.

The fluctuations in cash need no explanation since it is a residual item dependent mainly on the timing of the receipt of revenues and the proceeds of borrowing operations, on the one hand, and the rate of cash outlay, on the other. Similarly, changes in departmental working balances are easily understood as relating mainly to changing volume of work in progress.

The annual change in loans and advances for 1943-44 and 1944-45 is given in Table II, with a summary of the principal changes in loans and advances from 1939-40 to 1944-45. Some further detail is given in Section H below, which analyzes total requirements for and sources of cash. Complete details will be found in the departmental sections of Part II so far as 1944-45 is concerned, and in the corresponding sections of the Public Accounts for 1943-44. The table follows.

<sup>1</sup> Less than \$50,000.

<sup>2</sup> A substantial portion of these sums relate to previous years' war expenditure.

<sup>3</sup> Includes some departmental accounts too small to appear in this table.

<sup>4</sup> Composed largely of Department of National Defence accounts for the United Kingdom and other governments.

<sup>5</sup> In addition to the two items shown there are write-offs of Canadian Farm Loan Board stock each year, also of Department of Mines and Resources, seed grain and relief accounts, but the amounts are relatively small.

There is one item in the table—Item No. 1, Loans and Advances to the Canadian National Railways—which is of sufficient special interest to warrant more detailed treatment so far as the fiscal year 1944-45 is concerned, especially as the figure in this table is the net result of many transactions, some of which also appear in the revenue and expenditure tables. These transactions are summarized as follows:

Advances—

Under Canadian National Railways Refunding Act, 1938—for retirement of maturing issues.....	\$ 35,000,000
Under Canadian National Railways Refunding Act, 1944—for retirement of maturing issues.....	56,684,000

--	----------------------

Net Total Payments on account of Loans and for Equipment Purchased....	<u><u>\$ 83,607,994</u></u>
--	-----------------------------

It will be noted that the application of 1944 Net Income Surplus to advances amounted to \$23,026,924. This item less a capital loss on abandonments of \$626,872 appears on both sides of the revenue and expenditure statement and is a book-keeping adjusting entry to show the value of the C.N.R. Securities Trust Stock on the Dominion's books at the same amount as on the books of the company. It records the change in the Dominion's equity in the railway.

The changes in the remaining items on the asset side are largely self-explanatory, except for changes in the net debt which will be treated in Section D below.

On the liability side, the changes are also largely self-explanatory. The increase in Floating Debt is made up almost entirely of the increase in Outstanding Cheques. Deposit and Trust accounts increased by \$130.7 million, of which the two special accounts in the name of the Minister of Finance opened for custody purposes accounted for \$112.4 million. Insurance, Pension and Guaranty accounts increased by \$39.8 million, and the Reserve for contingent liabilities of crown companies increased by \$31 million. The increase in the Funded Debt reflects the need to cover the excess of expenditure over revenue as well as the increase in active assets. This will be discussed in more detail in connection with the analysis of requirements for and sources of cash, presented in Section H.

### C. SUMMARY OF EXPENDITURE AND REVENUE.

The following sections deal with Expenditures and Revenues and reflect the magnitude of Canada's participation in the war in terms of dollars. In 1939-40 total expenditures were \$680.8 million including war expenditure of \$118.3 million or 17.4 per cent of the total; in 1944-45, total expenditures were \$5,245.6 million, of which war expenditures were \$4,418.4 million, or 84.2 per cent. For the six fiscal-year period ended March 31, 1945, total expenditures were \$18,770.5 million, of which war expenditures were \$14,939.7 million, or 79.6 per cent. In order to meet the total expenditure of \$5,245.6 million in 1944-45, revenues rose from \$562.1 million in 1939-40 to \$2,687.3 million. In 1939-40 the excess of expenditure over revenue was \$118.7 million, compared with \$2,558.3 million in 1944-45. For the six-year war period this excess amounted to \$8,145.8 million. <sup>1</sup> The distinction between "war" and "non-war" is arbitrary; "war expenditure" means charges to The War Appropriation Acts and "non-war" means all other expenditure.

In any analysis of the foregoing table, it should be remembered that "war expenditure" simply means those expenditures charged to the various war appropriations. Certain increases, such as payments under the Dominion-Provincial Taxation Agreements, and increases in interest on the public debt, to mention only two items, are directly attributable to the war, but are included in the non-war expenditure section. Of course, certain pre-war expenditures have either been reduced or disappeared entirely because of the war. One case in point is the improvement in the finances of the Canadian National Railways which resulted in a deficit being converted into a surplus.

In Table IV which follows an attempt has been made to show the cumulative expenditure and revenue figures from September 1, 1939, to March 31, 1945. Due to the fact that the books of the Dominion are kept on a fiscal year basis, and also because certain earlier expenditures and commitments were made but not recorded at September 1, 1939, the figures which appear in this statement must only be regarded as approximate.

<sup>1</sup> The total for the six fiscal years ended March 31, 1945, as given in Table III, less the total between April 1 and August 31, 1939, from the statement published by the Comptroller of the Treasury in the *Canada Gazette*, Vol. LXXIV, No. 11, September 14, 1940. Subject to the qualification that certain entries after August 31, 1939, may be considered to relate in part to the period from April 1 to August 31, 1939.

Table V which follows gives an interesting comparison of the period in the war of 1914-18 corresponding to that covered in Table IV. The year 1919-20 has been included merely to continue the comparison for the two six-year periods and to show the ratio of Revenue to Expenditure for each year. The enormous increase between that portion of total expenditure raised by taxation and other revenue measures in the war just terminated is particularly striking.

## D. THE DEFICIT OR INCREASE IN NET DEBT.

### (1) The Nature of the Net Debt.

The net debt is made up of two elements. One of these comprises capital and non-active accounts. Included as "Capital" are only those items paid for out of appropriations classified as Capital Expenditure by the various departments in submitting their annual estimates to Parliament. Non-active accounts are those items of expenditures by way of advances, investments and accounts receivable which, in the main, are neither consistently revenue producing nor of a liquid nature. The other element in the net debt is the Consolidated Deficit Account which is the account to which the annual deficits or surpluses since Confederation have been carried. A deficit in any fiscal year must result in a corresponding increase in the net debt of the Dominion, for it can only be covered by an increase in liabilities or a decrease in active assets. Conversely a surplus of revenue over expenditure reduces the net debt.

### (2) The Increase in Net Debt during the Fiscal Year Ended March 31, 1945.

For the fiscal year ended March 31, 1945, the deficit or increase in net debt was \$2,558.3 million. Table VI shows how this increase was made up and compares it with the preceding fiscal year. It also gives a total for the six fiscal years commencing with the year ended March 31, 1940, the first year reflecting war expenditures. As will be explained more fully in Section H below, the deficit should not be confused with the cash deficiency or the net cash requirements. It is simply the net amount by which the liabilities of the Dominion have increased during the year assuming that all active assets are realizable.

## E. ANALYSIS OF EXPENDITURE.

### (1) Ordinary Expenditure.

#### (a) Public Debt Charges.

Interest on the public debt continues to be the largest single item of non-war expenditure, amounting to \$319.0 million in 1944-45. This is not great in relation to total expenditures of \$5,245.6 million and total revenues of \$2,687.3 million—only 6.1 per cent and 11.9 per cent respectively. It is even less in proportion to national income, which is a much more significant comparison since the interest payment is important mainly as a claim upon income.

It has already been noted however that a substantial portion of the Dominion's funded debt is attributable to the acquisition of earning assets. That being so, it is proper to deduct the interest or other return from these investments from the total interest paid out and examine the remainder or net interest payment. The amount will be found at item 2, Table XVI, page XXXV under the heading "Return on Investments"; in 1944-45 this amounted to \$60.7 million, so that the net interest payment was only \$258.3 million. This is 4.9 per cent of expenditure or 9.6 per cent of revenue for the year.

Only the interest payable abroad, however, forms a real drain upon the national income. There is no precise information available concerning the portion of the Dominion's debt which is held abroad, but it may be presumed to approximate the debt payable in foreign currencies. In 1944-45 interest of only \$12.5 million was so payable.

Table VII summarizes these figures over the last ten fiscal years.

TABLE VII

NOTE: Due to rounding off, the figures may not add exactly to the totals shown.

<sup>1</sup> Including interest payable optionally in Canada or New York.

Adding the annual amortization of bond discounts and commissions, the cost of new loan flotations, and certain service charges to the figure of \$319.0 million in interest payments, gives a total of \$339.8 million for all public debt charges during 1944-45. In addition, however, \$17.9 million in discounts and commissions on loans issued during the year were added to Deferred Charges, to be amortized over the life of the respective loans. The comparable figure for public debt charges in 1938-39, was \$133.1 million; the increase during this period is attributable to borrowings for war purposes.

#### (b) Other Uncontrollable Items.

Besides public debt charges, many other items in Ordinary Expenditure are of a contractual nature or are such that for policy or other reasons they could not be curtailed. Some of these uncontrollable items and their relative expenditures in 1944-45 are in millions of dollars:

Unemployment Insurance Act—the government's contribution and cost of administration.....	\$ 17.9
Pensions—old age pensions, military pensions and superannuation payments, etc. ....	75.2
National Revenue Department expenditure.....	20.1
Post Office Department expenditure.....	54.6
Provinces—subsidies, and payments in compensation for vacating the personal income and the corporation tax fields and for the loss of gasoline tax revenue .....	107.8
War Service Gratuities and Rehabilitation Credits.....	20.2
Premium, Discount and Exchange.....	16.3

**(c) Controllable Ordinary Expenditure.**

Out of total ordinary expenditure of \$767·4 million in 1944-45 we have seen that public debt charges and other uncontrollable items account for \$651·9 million. Accordingly controllable ordinary expenditure amounts to only \$115·5 million.

**(2) Capital Expenditure.**

Charges for expenditures classed as Capital amounted to only \$3·2 million during the year. Details will be found on page 10 of Part I and in the sections on the Departments of Public Works and Transport in Part II.

**(3) Special Expenditure.**

Special Expenditure in 1944-45 amounted to only \$7·5 million, compared with \$37·5 in the previous fiscal year. This decrease was due mainly to the decrease in the payments of awards to farmers under the Wheat Acreage Reduction Plan.

**(4) Government Owned Enterprises.**

Expenditures under this heading may be divided into two types: payments to meet the operating deficits of business enterprises wholly owned by the Dominion of Canada, and non-active loans and advances made to such enterprises. Expenditure of the former type during 1944-45 was \$0·8 million for the Prince Edward Island Car Ferry and Terminals and a relatively small amount (\$58,907·04) for the harbour at Churchill—both figures being for the calendar year 1944. An amount of \$0·5 million was provided to the National Harbours Board in non-active advances.

**(5) Other Charges, Including Write-Down of Assets.**

Total charges so classified aggregated \$47·8 million.

The largest item in this category is the amount of \$25,000,000, which has been added to the reserve to meet possible losses on the ultimate realization of active assets. This is the same amount as has been provided in the four previous fiscal years and the total reserve therefore now amounts to \$125,000,000. The annual write-off from active assets of Soldier and General Land Settlement Loans amounted to \$325,000 and the cancellation of Canadian Farm Loan Board Capital Stock amounted to \$1,000. The provision of the reserve and the two write-offs resulted in a proportionate increase in the Dominion's net debt.

There was written-off from non-active assets an amount of \$36,000 representing the yearly established losses on Seed Grain and Relief account administered by the Department of Mines and Resources. As this account is classified as a non-active asset and therefore included in the net debt of Canada it is offset by a similar amount on the Revenue side under "Other Receipts and Credits".

The remaining items in Other Charges totalling \$22,400,000, relate to the Canadian National Railways Securities Trust Stock. The value of this stock which represents the Dominion's equity in the Canadian National Railways increased during the year by \$23,027,000, due to the surplus earnings of the System for 1944, less \$627,000 due to capital abandonments during the year. The Canadian National Railways Securities Trust Stock is carried in the Dominion's books as a non-active asset, and thus the net debt of Canada is not affected by these transactions.

**(6) Total Non-war Expenditure.**

Adding together the amounts shown under the various categories of expenditure in the preceding five subsections we get the total of the so-called non-war expenditure of \$827·2 million. Table VIII which follows gives comparable figures for the fiscal year 1943-44 and 1938-39 with totals for the six fiscal years ended March 31, 1945.

<sup>4</sup> Pensions to the aged and blind, and administration; the government's contribution to Superannuation Account, costs of Plans Nos. 1, 3, 4, and 6, and administration; European War pensions (1914-18); Militia Pensions Act, 1901; R.C.M.P. Act pensions; and pensions to retired judges. There are sundry other pensions paid by the government, but their total is relatively small.

<sup>5</sup> Net after adjusting for line abandonments. This does not affect the residual shown at item 18 however.

<sup>6</sup> The Government's contribution and cost of administration.

<sup>7</sup> Controllable expenditures not specially affected by the war. Note, however, that the war has increased the costs of many of the services concerned.

This table shows how the figure for non-war expenditures is derived and analyses it to show that after the deduction of uncontrollable expenditures the remainder, representing expenditures not specially affected by the war is only \$119.8 million out of \$827.2 million or 14.5 per cent. It is true that the residual line (item 18 in the table) shows a slight increase in 1944-45, but it must not be forgotten that the war has increased the costs of many of the services concerned, particularly those services relating to the welfare and re-establishment of the armed forces.

### (7) War Expenditure.

Total expenditures charged during 1944-45 to the War Appropriation Act and the War Appropriation (United Nations Mutual Aid) Acts amounted to \$4,418 million. This is a decrease from 1943-44 when the total charged to war amounted to \$4,587 million so that it can now be said that Canada reached its peak of expenditures of World War No. 2 during the fiscal year 1943-44. The total war expenditures, not including the amounts charged to Active Assets, from the

beginning of the war to the close of the fiscal year 1944-45 reached the enormous amount of \$14,940 million. This total for a nation of 11·5 million population represents a per capita expenditure of \$1,299.

The Departments of National Defence and Munitions and Supply accounted for \$3,154 million of the total war expenditure for 1944-45 or 71·4 per cent. Mutual Aid added another \$803 million, or 18·2 per cent. The remaining 10·4 per cent is divided among various other departments. Table IX which follows shows the more important items under the various departments and gives the comparable figures for preceding years.

<sup>7</sup> Includes the National Research Council. Also includes \$3 million advances for drawback claims to millers in 1942-43; for similar advances in 1943-44 and 1944-45 see the Department of Finance, item 13 in the table.

<sup>8</sup> For comparable figures in earlier years see under the Department of Pensions and National Health, items 36 to 38 of the table.

In any examination of the individual items appearing in Table IX it must be understood that the annual totals are not strictly comparable principally because the field covered by the expenditures varies from year to year. The principal factors entering into this non-comparability were set out on page XXX of the Public Accounts for 1943-44, and it is not necessary to again refer to them. War expenditures as used here must not be confused with total war requirements during any fiscal year. The prosecution of the war required many outlays in addition to those technically known as "expenditure". It is the total of all outlays including those that will be recovered later or which reduce previously existing liabilities, which must be taken into account when considering financial requirements.

It will be noted that the largest increase in any one item was in the expenditure for Overseas War Establishment under National Defence—Air Services which increased from \$383.9 million in 1943-44 to \$759.1 million in 1944-45. This increase was due to (1) the establishment of additional squadrons overseas (2) provisional payment of \$100 million to the Government of the United Kingdom on reserve stores and pipe line supplies, and (3) an advance payment of \$134 million to the Government of the United Kingdom for advance training of air crew personnel.

A new item of war expenditure which deserves mention is the expenditure of \$50.2 million by the Canadian Mutual Aid Board for military relief. This amount was provided to cover expenditures made during the fiscal year in connection with Canada's share of the cost of relief supplies furnished by the Allied Military Forces in Europe to civilian populations during the period of military responsibility. The large decrease under the Department of Munitions and Supply for the Expansion of War Industry from \$687.8 million to \$215 million was due mainly to the curtailment of capital expenditure and recovery of prior years' working capital, part of which was used for financing operations during the year.

Any discussion of Canada's war expenditures would not be complete without reference to the Mutual Aid program. Under The War Appropriation (United Nations Mutual Aid) Acts, \$803 million was expended in 1944-45. Of this amount \$598.8 million was for the United Kingdom, \$87.4 million for the Union of Soviet Socialist Republics, \$47.7 million for Australia, \$14.7 million for China, \$17.6 million for France, \$7.8 million for New Zealand, \$14.4 million for India and \$3.9 million for British West Indies. The remainder except for a relatively small sum (\$53,051) was for United Nations Relief and Rehabilitation Administration.

## F. ANALYSIS OF REVENUE.

## (1) Total Revenue.

Dominion government revenues for the fiscal year ended March 31, 1945, totalled \$2,687,335,000, a decline of \$77,684,000, or 2·8 per cent, from the previous year, which had been the highest in the Dominion's history. The above figure represents the net revenue after deducting reserves established for the refundable portions of the personal income and excess profits taxes, and refunds and drawbacks against customs duties and excise and other taxes. The decline in total revenue was largely due to the fact that the amounts debited on these accounts were substantially higher than in the previous year. Details relating to these debits are given in later paragraphs.

A feature again prominent in the tax revenue of the year was the large proportion derived from direct taxation of income. This form of taxation is generally recognized as being most equitable. Under the individual income tax it is possible to impose taxation measured approximately by the individual ability to pay, while direct levies on corporations under the corporation and excess profits taxes assure that abnormal and unreasonable profits are not made from war production. The proportion of tax revenue derived from direct taxes in 1944-45 was 62·0 per cent compared with 32·6 per cent in 1938-39, the last pre-war year.

An amount of \$219,500,000 representing taxes estimated to be refundable under the provisions of the Income War Tax Act and the Excess Profits Tax Act has been deducted from the overall total revenue to present a net figure for the year. This amount does not relate solely to taxes collected in the year 1944-45 but includes some additional provision for previous years which are detailed more fully under the sections relating to income and excess profits taxes below. Taken together with the amounts previously set aside on this account the latest provision brings the net accumulated liability to the end of 1944-45 to a total of \$444,271,000 of taxes refundable in the post-war period. Of this amount \$259,772,000 is in respect of individual income tax and \$184,499,000 is in respect of the excess profits tax.

Revenue for the year, classified by major categories, is presented in Table XI, with corresponding figures for previous fiscal years. The aggregate of six years of the war and rehabilitation period beginning April 1, 1914, and ending March 31, 1920 is also given in the following table along with six comparable years during the war recently concluded.

<sup>2</sup> After deducting \$444·5 millions in respect of refundable taxes.

**(2) Direct Taxes on Incomes.****(a) Taxes on Personal Incomes.**

The personal income tax, again the largest single source of revenue, yielded a total of \$767,755,000, including the refundable portion of the tax, compared with collections of \$813,435,000 in the previous year. The decline was due to the fact that collection of the refundable tax ceased after July 1, 1944, thus reducing receipts for the last nine months of the fiscal year.

In 1944-45 a deduction was made of an amount of \$95,000,000 in respect of the refundable portion of the tax which brought net revenue down to \$672,755,000 as shown in Table XII. This was lower than the net revenue of \$698,435,000 in the previous year, a reduction which was largely attributable to the fact that the amount of \$95,000,000 deducted for refundable taxes in 1944-45 related only to the extent of \$70,000,000 to tax revenues of that year, the balance of \$25,000,000 representing an increase in the reserves previously set aside against the two earlier years in which this requirement was in effect. The estimated total accumulated gross liability in respect of refundable taxes paid on personal incomes for the three taxation years, 1942, 1943 and 1944, has now been provisionally established at \$260,000,000. Of this total amount \$60,000,000 relates to 1942, \$130,000,000 to 1943, and \$70,000,000 to 1944. The reserves now provisionally established for 1942 and 1943 represent increases of \$5,000,000 and \$20,000,000 respectively over the amounts established previously for those years, the total increase of \$25,000,000 being included in the figure of \$95,000,000 deducted from revenue of 1944-45 fiscal year.

**(b) Taxes on Interest, Dividends, Rents and Royalties.**

Revenue under the above headings is derived from special taxes imposed on certain income under Section 9b of the Income War Tax Act. In 1944-45 this revenue amounted in total to \$27,053,000, increased by some \$1,382,000, and was derived for the most part from the 15 per cent tax levied on interest and dividends paid to non-residents.

**(c) Corporation Income Tax and Excess Profits Tax.**

Corporation income tax and excess profits tax, both of which are levied on business incomes, may appropriately be discussed together. Revenue from the corporation income tax amounted to \$276,404,000, as compared with \$311,379,000 in 1943-44, while revenue from the excess profits tax, before deducting the estimated refundable portion, was \$465,805,000, only slightly less than the figure of \$468,718,000 for 1943-44.

It will be noted that from the excess profits tax revenue for 1944-45 as shown in Table XII there has been deducted an amount of \$124,500,000 in respect of the refundable portion of the tax, as compared with a deduction of \$40,000,000 in 1943-44. The magnitude of the figure for 1944-45 deserves some comment. It represents a substantial revision in the amounts previously set aside in earlier years and also the establishment of a liability against 1944-45 at a much higher level than was previously anticipated. The explanation of this upward adjustment lies in the fact that the early estimates of the refundable portion of excess profits tax were based on the level of revenue from that tax as indicated by annual receipts under that heading. It has become apparent, however, as an increasing volume of corporation returns for the war years are assessed, that the distribution of tax liability between the corporation income tax and the excess profits tax is weighted more heavily towards the latter tax than the flow of revenue had indicated. This disparity is probably in large part explained by the fact that in making their monthly instalment payments many taxpayers, although paying a correct amount in total, distinguished inaccurately or do not distinguish at all between the corporation income tax and the excess profits tax portions of their payment. It will only be possible to make an exact allocation of revenue between the two sources as assessment of corporation returns progresses and the correct total distribution of tax liability is determined.

This reallocation of revenue will be effected through transfers from one source to the other as returns are assessed, and probably will not be completed for some time. It was felt appropriate, however, to anticipate in so far as possible the final effect of this redistribution in establishing the reserves for the refundable portion of the tax. On the basis of such final figures as are now available it has been estimated that the reserve for refundable portion of excess profits tax revenues collected in 1942-43 and 1943-44 should be increased from the amount of \$60,000,000 then provided to an amount of \$119,500,000, an increase of \$59,500,000, and that the reserve in respect of 1944-45 should be established at \$65,000,000, subject to further change as final and accurate figures become available. With these additions the gross accumulated liability to March 31, 1945, amounted for all years to \$184,500,000.

The Dominion Government has levied succession duties only since 1941, and revenue from this source is showing a gradual increase from year to year. In 1944-45 it amounted to \$17,251,000 as compared with \$15,020,000 in 1943-44 and \$13,273,000 in 1942-43.

**(4) Indirect Taxes.****(a) Customs Duties.**

Net revenue from customs duties for the fiscal year 1944-45 amounted to \$115,091,000, compared with net revenue of \$167,882,000 in the preceding year.

The explanation of this sharp decline in net revenue lies partly in a small reduction in gross customs receipts, but was due primarily to a marked increase in the amount of refunds and drawbacks debited from this source during the year. As explained in the Public Accounts for 1943-44, the taxation of war supplies and munitions produced on behalf of our Allies underwent a development during the war which had a marked effect on government revenues. Prior to April 1, 1943, importations into Canada or purchases in Canada by or on behalf of Allied Governments were granted exemption from customs duty and also from sales tax and any other excise taxes that would normally have applied, although purchases by the Canadian Government for its own account were subject in full to all applicable taxes. With the adoption of the Mutual Aid Program the Canadian Government became the purchaser of a substantial proportion of munitions and other war supplies procured in Canada for the use of other governments, and during the fiscal year 1943-44 only those supplies which were purchased in Canada for cash by Allied Governments were eligible for tax exemption, which exemption was granted in the form of a rebate, subsequent to the time of purchase, of the amount of duties and taxes included in the purchase price. In the fiscal year 1944-45 this policy was extended to provide for the refunding of duties and taxes on goods delivered under Mutual Aid as well as those paid for by cash in Canada.

The effect of this change was to bring within the scope of taxation in the first instance a substantial volume of war supplies excluded prior to April 1, 1943, which was the principal factor in accounting for the rise in gross receipts from customs duties and certain other taxes in the fiscal year 1943-44. At the same time it was known at the end of the fiscal year 1943-44 that a substantial but indeterminate amount of this increased revenue would be subject to rebate, and it was indicated in the Public Accounts for that year that there were arrears of refunds to Allied Governments then outstanding which had not at that time been determined. With the extension of the scope of the refunding procedure to include deliveries under Mutual Aid during the fiscal year 1944-45 it was also evident that the volume of such rebates would be increased over that of the previous fiscal year.

In the course of the fiscal year 1944-45 progress was made in determining and refunding the amount of duties and taxes not only in respect of 1943-44 but also in respect of 1944-45, so that by the time the books for the latter year were closed substantially all rebates on goods delivered to the end of that year had been made. In the results, however, not only the rebates of the year 1944-45 were debited against the revenue of that year but also the arrears of rebates from the previous year, which reduced customs and excise revenues to a much greater extent than if there had been no carry-over of arrears from the previous year and correspondingly left revenue for the previous year higher than if it had been possible to determine and refund the proper amount of taxes allocable to that year. The overall effect on customs refunds and drawbacks was that the total, including refunds on other accounts, increased from \$20,010,000 in the fiscal year 1943-44 to \$58,638,000 in the fiscal year 1944-45. It was this marked increase in refunds, attributable to the causes set forth above, which explains the decline in net customs revenue.

#### (b) Excise Duties.

Excise duties are levied exclusively on alcoholic beverages and tobacco products. Revenue in the fiscal year 1944-45 amounted to \$151,922,000, some \$9,798,000 higher than the previous year, of which increase alcoholic beverages contributed \$6,211,000 and tobacco products \$3,237,000. The increase in the former classification was attributable largely to higher revenues from beer, while cigarettes accounted for the largest part of the latter increase. The extent of the smokers' contribution to the Federal Treasury is indicated by the overall revenue from tobacco products which, including the additional taxes imposed under the Special War Revenue Act on tobacco, cigars, cigarettes and cigarette papers and tubes amounted in the fiscal year 1944-45 to \$152,106,000, or a sum in excess of one-third of the total tax revenue of the government in the last pre-war year, 1938-39.

#### (c) Excise Taxes.

Under "excise taxes" are included the wide variety of commodity, amusement and service taxes levied under the Special War Revenue Act, of which the sales tax and the war exchange tax are the largest revenue sources. Gross revenue from excise taxes in the fiscal year 1944-45 amounted to \$737,784,000, some \$64,823,000 higher than the previous year, but total refunds of \$194,719,000, compared with \$34,342,000 in the previous year, reduced net revenue in 1944-45 to \$543,065,000, some \$95,554,000 lower than 1943-44. The increase in refunds on excise taxes, mostly in respect of the sales tax, was attributable to the same circumstances as were outlined in the section dealing with customs revenue.

The two major revenue sources, sales tax and war exchange tax, showed respectively an increase in gross revenue of \$64,853,000, and a decrease of \$20,749,000. The increase in sales tax revenue is to be attributed mostly to the higher level of munitions production, while the decrease in war exchange tax revenue arose from the exemption of certain imports, including raw cotton and cotton yarns, agricultural implements and several other classes, from application of the tax. All other excise taxes yielded \$235,511,000, exceeding the revenue of the previous

year by \$20,718,000. The significant increases occurred under the following headings (the amount shown is the increase in 1944-45 over 1943-44).

1. Cigars, cigarettes and tobacco.....	\$7,618,000
2. Gasoline.....	4,741,000
3. Transportation and communications.....	1,825,000
4. Stamps, etc., including payment of taxes on jewellery, chinaware, cabaret attendance, etc.....	1,561,000
5. Toilet preparations and soaps.....	1,022,000
6. Furs.....	1,020,000
7. Electric and gas appliances.....	754,000
8. Phonographs, radios and tubes.....	621,000

Certain other revenues, on the other hand, suffered some reduction due largely to rationing of domestic consumption. The most important of these was sugar revenue, which declined from \$13,049,000 to \$11,744,000.

#### (5) Miscellaneous Indirect Taxes.

Small amounts of tax revenue are derived from the tax on the note circulation of the chartered banks, which decreases from year to year with the decline in circulation of such notes as provided by statute; from taxes on the net premium income of insurance companies; from a tax on the export of electrical energy from Canada, and from a tax on the export of furs from the Northwest Territories. Revenue from all these taxes amounted in 1944-45 to \$8,234,000.

### (6) Non-tax Revenue.

Non-tax revenues for 1944-45 amounted to \$145,471,000, an increase of \$12,188,000 over 1943-44. Receipts from the Post Office total \$66,056,000, an increase of approximately, \$1,985,000. The receipts from the Post Office exceeded the cost of operations by about \$11,427,000 without taking into account any credit for service rendered other departments free of charge and without adding to the cost of operations, rentals and other costs of premises occupied by the Post Office. Return on Investments realized \$60,749,000, an increase over the previous year of about \$12,468,000. The larger items making up this total are: interest on advances to Canadian National Railways, \$18,282,000; Bank of Canada profits, \$13,079,000; interest on loans to Foreign Exchange Control Board, \$5,951,000; interest on bonds held in Securities Investment Account, \$5,545,000; interest on loans to National Harbours Board, \$4,000,000; interest on loans to Provinces, \$2,927,000; interest on loans to Canadian Farm Loan Board, \$911,000; Soldier Land Settlement loans, \$797,000, and interest on advances to Canadian National Railways for purchase of railway equipment, \$1,792,000.

### Bullion and Coinage—Royal Canadian Mint.

The revenue from Bullion and Coinage for 1944-45 as shown in Table XVI is \$4,586,000. This represents the revenue receipts, as shown by the Dominion's books, derived from the bullion and coinage operations of the Royal Canadian Mint and of the Dominion Assay Office, a branch of the Mint maintained at Vancouver for the receipt and assaying of deposits of gold produced in the Western provinces, Yukon and the Northwest Territories. (For a detailed explanation of the operations of the Royal Canadian Mint, from the accounting point of view, see the Public Accounts for 1942-43, pages xxxvii-xxxix.)

Details of these receipts will be found in the Department of Finance section of Part II of this Report and may be summarized as follows:—

#### Coinage operations—

Net gain in silver bullion and coinage operations.....	\$2·371 million
Net gain in bronze and tombac coinage operations.....	0·435 "
Net gain in steel coinage operations.....	0·679 "

**(7) Special Receipts and Credits.**

The total amount for the fiscal year 1944-45 under this heading is \$387,237,000 compared with \$194,924,000 for the previous year. Special receipts War Appropriations Acts accounts for \$360,061,000 of the total, made up of (1) Refunds of previous years' war expenditure \$298,626,000, (2) Miscellaneous war revenue \$45,884,000, (3) Sale of surplus war assets, \$8,408,000 and (4) Asset values of properties disposed of under lease purchase option agreements previously charged to the War Appropriation, \$7,143,000. The refunds of previous years' war expenditures totalling \$298,626,000 was accounted for by the Department of Munitions and Supply, \$220,831,000, the Department of National Defence, Army Services, \$52,210,000, Navy Services, \$2,867,000 and Air Services \$20,981,000. The three principal items under the Department of Munitions and Supply were net production refunds representing mainly return of working capital advances from prefabricated plants, \$206,146,000; refunds from contracts in connection with cost audits, voluntary refunds, negotiation of contracts, etc., \$9,121,000, and miscellaneous refunds from sundry companies, \$4,618,000. Included in the amount of \$20,981,000 under Air Services, are amounts totalling \$7,985,000 received from the Governments of the United States, the United Kingdom and other Government departments for materials and equipment supplied, and an amount of \$3,097,000 received from the Government of New Zealand representing certain liabilities due under the terms of the agreements governing its participation in the British Commonwealth Air Training Plan, No. 1. The remainder constitutes chiefly refunds on contracts after cost audits and proceeds from the sale of materials and supplies.

The amount classified as Miscellaneous War Revenue of \$45,884,000 includes \$31,445,000, representing net revenue derived from the operation of Government-owned Companies and Crown Plants—sundry companies. Some of the other items making up this total are net revenue from the sale of gasoline ration books, \$1,581,000; rental of buildings and equipment and return on plant investment and working capital loans from sundry companies, \$1,678,000; sundry permits and sales, Department of National Defence, Army Services, \$2,583,000; Navy Services, \$590,000; Air Services, including equipment and supplies furnished other government departments, \$3,461,000, and Department of Transport, made up mainly of the balance of the operating surplus as at March 31, 1945, of the Dominion Lighthouse depot at Prescott, Ontario, \$2,231,000.

Item No. 6 in the table which follows totalling \$22,400,000 represents the net result of the changes in the Dominion's equity in the Canadian National Railways for the calendar year 1944, due to surplus earnings of the Canadian National Railways of \$23,027,000 less loss on capital abandonments of \$627,000. This item of \$22,400,000 increased the book valuation of Canadian National Railways' securities trust capital stock, and accordingly is offset by a contra amount appearing on the expenditure side under the heading "Other Charges".

**G. PERCENTAGE DISTRIBUTION OF REVENUE AND EXPENDITURE, 1944-45.**

The following table, Table XVIII, shows the percentage distribution of revenue and expenditure for a number of important items. Receipts from various taxes and other sources are shown as percentages both of total revenue and of total expenditure. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditure and of total revenue.

The purpose of this table is to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by the war and the several important services or obligations of government. For example, a glance at the table will show that expenditures charged directly to war accounted for more than 84 per cent of all expenditures and amounted to about one and two-third times total revenue. Also, all ordinary expenditure accounted for 14·6 per cent of total expenditure and absorbed almost 29 per cent of total revenue.

**H. TOTAL REQUIREMENTS FOR AND SOURCES OF CASH.****(1) Introduction and Summary.**

There are excluded from cash requirements certain expenditures which do not involve a cash outlay. Examples of non-cash expenditure are the apportionment of a share of cash outlays made in previous years where these outlays yield services over several years, the writing off of accounts receivable where the debt is uncollectible or has been cancelled, the write up of a non-active asset where the increase in value is reflected in revenues (example, the increase in the Dominion's equity in the Canadian National Railways as reflected in the Securities Trust Stock) and the provision of a reserve for possible losses on the liquidation of active assets. Similarly in itemizing Sources of Cash, all non-cash credits have been excluded. Consequently the cash deficiency which is the difference between cash requirements and cash receipts excluding borrowing, is quite distinct from the annual deficit in that it represents the net amount of financing required for the period of the fiscal year, while the deficit is the net increase in liabilities or decrease in assets for the same period.

Total cash requirements for 1944-45 were \$5,705.2 million. Revenue received in cash was \$2,658.5 million (excluding the refundable portion of taxes, which is included with borrowing), and other receipts were \$91.7 million. Hence the cash deficiency was \$2,955.0 million. This deficiency was met by domestic borrowing which yielded net proceeds of \$3,106.8 million, while the increase in cash balances amounted to \$151.8 million. Table XIX shows the details, with comparative figures for the preceding year and an accumulated total for the six war years ended March 31, 1945.

## NOTES TO TABLE XIX

<sup>1</sup>Transactions classified as non-cash consist of adjustments of the valuation of assets and liabilities and the annual amortization of loan flotation charges. Certain contra accounts have also been omitted.

<sup>2</sup>In 1938-40 outlays and receipts in foreign currency were charged or credited at par of exchange, any difference being absorbed by Premium, Discount, and Exchange Account. Since then these transactions have been converted at the current rate of exchange. But see also footnotes 9, 10, 15, and 16.

<sup>3</sup>War requirements are expenditures charged to the war appropriations, and such other accounts as obviously relate to the war. "Non-war requirements" are expenditures charged to the Premium, Discount and Exchange Account, except where otherwise indicated.

<sup>4</sup>As in Expenditure and Revenue Account, except where otherwise indicated.

<sup>5</sup>Excludes the amortization of bond discounts and commissions, \$10.7 million in 1943-44, \$12.8 million in 1944-45 and \$52.9 million for the six years; also Premium, Discount and Exchange.

<sup>6</sup>Excludes the reserve provision for the deficits of the Canadian Wheat Board in 1941-42 and 1940-41, totalling \$23.1 million.

<sup>7</sup>Fulfillment of guarantees re Saskatchewan Seed Grain Loans, 1936 and 1937.

<sup>8</sup>See Table xx, page XLIV.

<sup>9</sup>Computed by adding the 10% exchange premium to the change as shown on the balance sheet (where foreign currency is converted at par, the difference being absorbed by Premium, Discount and Exchange Account). Excludes U.S. funds held for special purposes.

<sup>10</sup>Including both funded and floating debt, and the 10% exchange premium on U.S. funds. In netting out the proceeds of the refunding issues in 1942-43 the price of the securities to the public has been used, although the amount actually received by the government was less than this by the amount of the underwriters' commissions; these commissions (plus the 10% exchange premiums on U.S. funds) are included at Item 11 in the table.

<sup>11</sup>See Table IX page XXV; but see also footnote 12 re the expenditures of the Department of Munitions and Supply in 1943-44 and 1944-45.

<sup>12</sup>Excludes the reserve provision for contingent liabilities of Crown companies, \$31 million in 1944-45 and \$12.6 million in 1943-44.

<sup>13</sup>The War Appropriation (United Nations Mutual Aid) Acts 1943 and 1944, and The War Appropriation (United Kingdom Financing) Act 1942.

<sup>14</sup>See Table XXI, page XLVI.

<sup>15</sup>Computed at \$4.47 to the pound sterling; on the balance sheet foreign currency is converted at par, the differences being absorbed by Premium, Discount, and Exchange Account. Does not include sterling accumulated between 1939 and 1942 to provide the United Kingdom with Canadian dollar exchange.

<sup>16</sup>Including both funded and floating debt, the former being adjusted for sinking funds and for certain sinking fund holdings temporarily transferred to Securities Investment Account in order to liquidate them (where the sinking fund of a maturing or called issue held bonds of other issues). Excludes the premium paid (in sterling) in excess of the face value, charged to the war appropriations—see item 8 of Table IX, page XXV. The pound sterling was converted at \$4.45 in these debt retirement transactions.

<sup>17</sup>The revolving funds were closed out at the end of 1943-44, but not at the end of 1942-43. The net effect was to defer outlays from 1942-43 to 1943-44.

<sup>18</sup>During 1943-44 and 1944-45 certain items of plant and equipment, charged to the war appropriations as expenditure during previous years, were reclassified as active assets. The resultant increase in assets is included in the preceding items in the 1943-44 column, and this item makes the appropriate deduction. Alternatively, war expenditures could have been revised downward and outlay on active assets revised upward in the earlier years concerned, but that treatment would have been difficult to reconcile with the Public Accounts for the years concerned and would not have altered the cash requirements.

<sup>19</sup>Net after the deduction of commissions and sundry remuneration amounting to \$11.9 million in 1943-44.

<sup>20</sup>Including a revision of Premium, Discount, and Exchange revenue resulting from the valuation of gold, foreign currency, and debt payable in foreign currency at current exchange rates instead of at par. The revised revenue from Premium, Discount and Exchange is \$1.3 million in 1944-45, \$4.9 million in 1943-44, and \$12.7 million for the six years.

<sup>21</sup>See also Table XXIII page XLVIII.

<sup>22</sup>Excluding the following non-cash credits: the reduction of the reserve for losses of the Canadian Wheat Board; the adjustments of the Canadian National Railways Securities Trust Stock; the write-up of assets for the revaluation of war plants in 1943-44, and 1944-45; the balance of the award in the *Im Alone* case, held by the Receiver General for several years and transferred to revenue in 1943-44; the write-off of Dominion "A" stock in 1940-41; and the write-off of non-active assets. The principal component is receipts related to the War Appropriations (refunds etc.), amounting to \$352.9 million in 1944-45, \$98.9 million in 1943-44, and \$488.3 million for the six years.

<sup>23</sup>See Table XXIV page XLIX.

<sup>24</sup>See Table XXV page L.

<sup>25</sup>Excluding conversions and renewals. See also Table XXVI page LI.

<sup>26</sup>See Table XXIX page LVIII.

<sup>27</sup>Mostly changes in outstanding cheques.

<sup>28</sup>The cash deficiency is defined as the excess of cash requirements over sources other than borrowing, and therefore it must equal net borrowing plus the decrease (or minus the increase) in cash balances.

Following the same practice as was followed last year, some receipts shown in Table XIX (as the repayment of certain loans) are netted against other payments, and some outlays (as the return of funds deposited with the Receiver General) are netted against other receipts. This netting out process avoids the necessity of going to such extremes as, for example, to show every deposit in the Post Office Savings Bank as a source of funds and every withdrawal as a requirement for funds. The principal items netted out are shown clearly in the above table, and the subsidiary tables that follow.

Another point relating to Table XIX which calls for some comment is the treatment used in defining cash transactions. Certain items which are strictly not cash transactions have been so defined; for example the interest payments to insurance, superannuation and trust funds, and the Government's contribution to the superannuation and the unemployment insurance funds have been treated as cash expenditure, on the one hand, and as cash receipts on the other, even though they remain on deposit with the Receiver General. The transactions treated as non-cash are adjustments of the valuation of assets and liabilities and the annual amortization of loan flotation charges.

## **(2) Analysis of Cash Requirements.**

Table XIX separates requirements into "war" and "non-war". The former category is composed of charges to the war appropriations and such other accounts as are obviously related to the war; the latter includes all other requirements. As noted in the discussion of expenditures, this division is not a precise one. War requirements amounted to \$4,570.3 million in 1944-45 and non-war requirements amounted to \$1,135 million.

### **(a) Non-war Cash Requirements.**

The total of the first section in Table XIX shows the non-war cash requirements in 1944-45 as \$750.3 million. The non-cash expenditures excluded are the amortization of bond discounts and commissions of \$12.8 million, Premium, Discount and Exchange \$16.3 million, the write down of active and non-active assets, \$25.3 million and the entries adjusting the value of the Canadian National Railways Securities Trust Stock, \$22.4 million.

Secondly, active loans, advances, investments, etc., totalling \$246.5 million were made during the year. The details are given in Table XX which follows:

<sup>9</sup>Those items in Schedules D, F, G, and I to the balance sheet not enumerated in this table or in Table XXI, except contra accounts.

<sup>10</sup>Excluding the Royal Canadian Mint Gold Purchase Account. The changes in this account reflect changes in the Dominion's holdings of gold, and are included in item 12 of Table XIX.

The third type of non-war cash requirements is the cash outlay for loan flotations amortized over the life of the issues as distinct from that charged directly to annual expenditure when incurred. It comprises chiefly discounts, conversion premiums, redemption bonuses and commissions; the amount in 1944-45 was \$17·9 million.

Fourthly there is the Canadian dollar purchase price of the increase in holdings of gold and U.S. dollars of \$119·4 million in 1944-45, and finally, the cost in Canadian dollars of the funds used to reduce New York indebtedness which in 1944-45 amounted to only \$0·9 million.

**(b) War Requirements.**

Cash expenditure from the war appropriations amount to \$4,364·3 million in 1944-45; the only non-cash items deducted are the reserve provision for contingent liabilities of Crown companies \$31 million and purchase of Allied Military Notes \$23·2 million.

Table XXI gives an analysis of the net advances made on war account during the year, and, as with most of the tables in this Introduction, gives comparable figures for 1943-44 and the total for the six-year period ended March 31, 1945. Advances to other governments during 1944-45 were reduced by a net amount of \$38·4 million, of which the most important items were the advances to War Supplies Limited for U.S.A. account, \$71·2 million and the loan to the United Kingdom under the War Appropriation (United Kingdom Financing) Act, 1942, \$55·1 million. Offsetting these net reductions were increases during the year of recoverable expenses under the Air Training Plans of \$81·6 million and United Kingdom food accounts of \$10·6 million. Net advances of \$236·8 million were made to various Crown agencies—\$265 million to the Foreign Exchange Control Board and \$12·7 to the Commodity Prices Stabilization Corporation, Limited. Offsetting these amounts were net repayments of \$10·3 million from Canadian Wool Board Limited, \$10·9 million from Crown plants privately managed and \$19·9 million from Department of Munitions and Supply companies. Other transactions were net advances of \$20·8 million to the Canadian National Railways more fully described on page XVII and a net repayment of \$8 million by certain private contractors.

<sup>7</sup> Includes adjustments affecting previous years.

<sup>8</sup> Less than \$50,000.

<sup>9</sup> Excluding expenses collectible from the U.S.A. under salmon and halibut treaties, which are included in item 24 of Table XX.

The Canadian dollar purchase price of the increase in holdings of sterling funds is included as a war requirement because practically all expenditure in sterling relates to the activities of our armed forces overseas. During 1944-45 sterling holdings decreased by an amount equivalent to \$11.9 million. The remaining item in Table XIX which calls for comment is item 27—Revaluation of war plants, \$7.1 million. This amount represents the increase in assets of certain items of plant and equipment and the amount of \$7.1 million is shown as a negative figure for the reason that the expenditure was included in former years as war expenditure and accordingly cash was not required for the item in 1944-45.

(c) Adjustment of total requirements for and sources of cash to take account of certain C.N.R. transactions.

Table XXII which follows is a summarization of "Requirements for Cash" and "Sources of Cash" with an adjustment with respect to the Canadian National Railways. Certain of the advances made by the Dominion to the C.N.R. were for the purpose of retiring securities held by the Canadian Public; these advances may reasonably be considered as having increased borrowing by the Dominion so the net effect has been merely to replace the C.N.R. securities with direct Dominion obligations. The figure for 1944-45 of \$35.1 million which has been deducted from both categories represents the total of items 2 and 3 in Table XX, namely \$97.4 million less \$56.7 million advanced to the C.N.R. in U.S. Funds and the 10 per cent premium thereon for the retirement of a New York issue.

## (3) Analysis of Sources of Cash.

## (a) Revenue Received in Cash.

Total revenue as shown in Table XI of \$2,687.3 million has been reduced by the following non-cash credits: the credit of \$22.4 million recording the net increase in the Dominion's equity in the Canadian National Railways; the write-up of assets for the revaluation of war plants of \$7.1 million disposed of under a lease-purchase agreement, and a reduction in the reserve for losses of the Canadian Wheat Board of \$0.6 million. An addition of \$1.3 million has been made due to the adjustment of the Premium, Discount and Exchange Account as shown in Item 11 of Table XXIII.

**(b) Other Receipts (except borrowing).**

Miscellaneous receipts relating to the war totalled \$32·2 million and are listed in Table XXIV, while miscellaneous receipts and credits on non-war account totalling \$59·5 million are detailed in Table XXV. The largest item in non-war cash receipts is the net increase in government annuities totalling \$30·0 million which includes interest credited to the fund of \$8·8 million. As explained previously, this amount of interest while not strictly a cash receipt is included here, as the interest payments to all insurance, superannuation and trust funds are included as cash requirements.

### (c) Borrowed Funds and Borrowing Operations.

Again, as in the previous fiscal year, the Dominion did not borrow in foreign markets during 1944-45, outstanding obligations in London being further reduced by continued repatriation of sterling securities. Borrowing within Canada to meet the cash deficiency is summarized in Table XIX, items 49 to 56, and is given in detail in Table XXVI which follows:

<sup>1</sup> Excludes renewals and the conversion of maturing issues (but see also footnote 4). The amounts shown are the net proceeds at the price to the subscriber; see Table XXVIII for terms of issue.

<sup>2</sup> At time of issue only.

<sup>3</sup> Issued in June, 1942, in connection with clearing off the sterling balances accumulated by the F.E.C.B.; not related to the public campaign in February and March, 1942.

<sup>4</sup> This sum is the portion of earlier notes still held by the banks that was converted into Deposit Certificates.

<sup>5</sup> There is no information concerning subscriptions by banks to this issue.

<sup>6</sup> Some small portion of the two war loans and the first Victory Loan was subscribed by the Bank of Canada and the chartered banks, estimated at less than \$30 million for the three loans.

<sup>7</sup> Including the addition of accrued interest.

<sup>8</sup> Issues after September 1, 1939—i.e. all issues except item 8.

Outstanding Treasury Bills increased during the year by \$20 million to \$380 million. The net effective rate of interest continued to show a gradual decline during the year, the last issue being sold at a rate of 0.365 per cent. The corresponding rates for the last six fiscal years are as follows:

	Percent
1939-40.....	0.747
1940-41.....	0.609
1941-42.....	0.552
1942-43.....	0.498
1943-44.....	0.387
1944-45.....	0.365

It is not possible to classify the purchasers of Treasury Bills, but other new issues have been so classified in Table XXVI.

There were no new borrowings from the Bank of Canada during the year, but a further \$210 million of Deposit Certificates were sold to the chartered banks and \$98 million of notes redeemed, making a net increase in borrowing from the chartered banks of \$112.0 million.

The general public purchased \$2,917.4 million of Victory bonds, and \$31.0 million (net after redemptions, but including accrued interest) of War Savings Certificates and Stamps and Non-interest Bearing Certificates. This is almost 96 per cent of the total borrowings for the year which were \$3,080.4 million.

The Sixth and Seventh Victory Loans were each in turn the largest borrowing operations up to March 31, 1945—the Sixth, sold entirely for cash, yielding \$1,405.0 million from 3,077,123 subscriptions, and the Seventh yielded \$1,512.4 million cash from 3,306,101 subscriptions and \$147.5 million in conversion of matured or called bonds from 21,214 subscriptions.

Table XXVII which follows, prepared by the National War Finance Committee, gives the estimated derivation of the subscriptions to the last four Victory Loans at time of issue and an aggregate total of the seven Victory Loans to date.

<sup>1</sup> Excluding \$92.8 million Second Victory Loan issued to the Bank of Canada in June 1942, in connection with clearing off the accumulated balances of sterling.

<sup>2</sup> Includes small commercial and small non-profit entities, the aggregate subscriptions from which would be a relatively small part of the total.

<sup>3</sup> Individuals believed capable of buying \$25,000 or more par value of bonds at the time of issue.

Reviewing the borrowing operations from September 1, 1939, to March 31, 1945—the war period to date—the general public has provided \$8,942·0 million out of a total of \$11,161·0 million “new money” raised (that is, excluding the conversion or renewal of previous issues), or 80·1 per cent. Excluding Treasury Bill purchases, the Bank of Canada has provided only \$442·8 million or 4·0 per cent, and the chartered banks \$1,551·2 million or 13·9 per cent; Treasury Bills accounted for the remaining 2·0 per cent.

Out of these borrowings the unconverted portion of matured or called issues have had to be paid off in cash. The amount was \$350·4 million in 1944-45 as shown in Table XXIX which also gives the corresponding figures for the five previous years.

Another type of borrowing which is included with funded debt is the compulsory savings portion of the personal income tax and the excess profits tax. Certificates are issued to each person contributing in this way and these are binding obligations of the government repayable within a stipulated time limit after the end of hostilities. At the close of 1944-45, the combined estimated total to be refunded was \$444·3 million.

The items so far enumerated make up the total cash receipts from the increase in funded debt during the year. One other item however is included under the heading of borrowing,—the net change in domestic floating debt which in 1944-45 increased by \$59·5 million. Floating debt represents sums payable on demand which in the normal course of events will be presented for payment with reasonable promptness, for example, treasury cheques, interest coupons and cheques, and postal notes and money orders outstanding at the close of the year. An increase is therefore analogous to short term or involuntary borrowing. The amount of \$59·5 million in 1944-45 is mainly accounted for by an increase in unpaid cheques and interest coupons.

To conclude this section on domestic borrowing, three additional tables are presented. Table XXVIII lists the borrowing operations from April 1, 1939, to March 31, 1945, giving details as to maturities, interest rates, issue prices, yields, etc. It differs from Table XXVI particularly in that it includes conversion and renewal issues as well as “new money” issues, and in that it shows all issues at their face value, whereas Table XXVI shows only the amount received in cash from the subscriber.

Table XXIX lists the redemptions of loans, both in cash and by conversions or renewals for the same period.

<sup>1</sup> Excluding the School Lands Debentures amounting to \$33,293,470.55 held by the Provinces of Manitoba, Saskatchewan, and Alberta, which were renewed annually on July 1st, at 4 per cent interest.

<sup>2</sup> Data from the National War Finance Committee.

<sup>3</sup> Of this amount \$40,000,000 was issued to meet in part the 3 per cent issue maturing March 1, 1940; the remainder was issued later (at 99.375 and accrued interest) to meet in part the 1½ per cent issue maturing on June 1, 1940. See also footnote 5.

<sup>4</sup> Issued in June 1942 (at par and accrued interest). Item 6 is in no way related to the public loan campaign; issuance in this form was a matter of convenience only.

<sup>5</sup> Issued to meet in part the 1½ per cent issue maturing on June 1, 1940; see also footnote 3.

\* The banks have participated in some degree in some of these issues, but this has been confined almost entirely to conversions into short-term tranches. It is estimated that cash subscriptions by banks to War and Victory Loans were less than \$30 million. But note also items 24 and 25 and footnote 7.

<sup>2</sup> There is no information as to subscriptions by the banks to this issue.

\* The redemption of 20 per cent of the loan on February 1, 1951, will be at 100.50, and the 20 per cent on February 1, 1952, will be at 101.

\* Redeemable at 101 at maturity.

<sup>10</sup> War Savings Certificates are issued on a discount basis, and yield 3 per cent to the purchaser if held to maturity, seven and a half years after issue.

<sup>11</sup> Including addition of accrued interest.

<sup>12</sup> Issues after September 1, 1939—i.e. all issues except items 24 and 25.

Table XXX shows the average coupon interest rates on the funded Debt of the Dominion for the years 1935-36 to 1944-45 as at the close of each year. The table shows a steady decline in coupon rates throughout the period as well as a decisive narrowing of the spread between the average rate on funded debt payable in domestic currency and that on total funded debt.

The average rate on total debt fell from 3.94 per cent as at March 31, 1936, to 2.51 per cent as of March 31, 1945, while the domestic rate fell from 4.00 per cent to 2.49 per cent.

<sup>1</sup> Debt in foreign currency is converted at par of exchange—£1 at \$4.86½, and \$1.00 U.S. at \$1.00 Canadian.

<sup>2</sup> Years prior to 1938-39 have been adjusted to a basis comparable with that of later years by the omission of securities payable on demand from the totals shown in Appendix I to the Public Accounts for the respective years.

<sup>3</sup> Includes debt payable optionally in Canada or New York.

#### (d) Increase in Cash Balances and The Cash Deficiency.

The Dominion's domestic cash balances increased during the year by \$151.8 million. This amount must be deducted from the net borrowing to arrive at the net cash deficiency which is defined as the excess of cash requirements over sources of cash other than borrowing. It means in effect that \$151.8 million of borrowing was not used for financing operations during the year, but was carried forward to the new fiscal year.

The cash deficiency of \$2,955.0 million in 1944-45 compares with a deficit of \$2,558.3 million. These figures are reconciled in Table XXXI which also reconciles the corresponding figures for 1943-44 with an aggregate total for the six fiscal years ended March 31, 1945.

## I. INDIRECT OR CONTINGENT LIABILITIES: GUARANTEED OBLIGATIONS.

To conclude this review, there follows a discussion of the indirect liabilities of the Dominion and the changes therein during the fiscal year. A footnote to the Balance Sheet calls attention to these indirect liabilities and they are detailed in Schedule V on pages 28 and 29 of Part I of this Report.

### (1) Guaranteed Securities of Government Owned Enterprises.

The total amount of Canadian National Railway System securities guaranteed by the Dominion as to the payment of principal and interest, outstanding in the hands of the public was \$568 million at March 31, 1945, a decrease during the year of \$92.1 million. This decrease was occasioned mainly by the redemption on May 1, 1944, of \$35,000,000 Canadian National Railway Company 3 per cent Bonds and on July 1, 1944, of \$56,684,000 Canadian National Railway 5 per cent Bonds (due July 1, 1969, but called for prior redemption). The funds required to meet these maturities were furnished by the Government by way of loan under the provisions of the Canadian National Railways Refunding Act, 1938, and the Canadian National Railways Refunding Act, 1944.

Railway securities guaranteed by the Dominion as to the payment of interest only were outstanding at the fiscal year end in the amount of \$8.5 million, a decrease of \$0.6 million.

Other securities, representing obligations of the Canadian National (West Indies) Steamships Limited and various Harbour Commissions, which carry the guarantee of the Dominion both as to the payment of principal and interest, were outstanding in the amount of \$30.4 million at March 31, 1945, a decrease of \$47,000.

### (2) Guaranteed Bank Loans for Grain Marketing Purposes.

In order to finance the Canadian Wheat Board's operations with respect to the 1944 wheat crop, guaranteed bank loans were obtained from a group of chartered banks. The amount of such loans outstanding at March 31, 1945, was \$65.6 million. In addition, the Board is authorized to deal in flax and sunflower and rapeseed. The Board's liability to the chartered banks for these accounts at March 31, 1945, was \$5.2 million and \$0.4 million respectively.

### (3) Guarantee of Seed Grain Loans.

The guarantee of bank advances to municipalities in Saskatchewan under the authority of The Seed Grain Loans Guarantee Act, 1938, was required to be implemented during the fiscal year. On December 11, 1944, the Government paid \$16.5 million to the chartered banks and the amount so advanced was charged as a loan to the Province of Saskatchewan which in the first instance guaranteed the advances.

### (4) Commitments in respect of National Housing Act Loans.

Under the Dominion Housing Act, 1935, the National Housing Act, 1938, and the National Housing Act, 1944, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be shared by the Dominion and the lending institution is fixed by the contract. The general principle under the Dominion Housing Act and the National Housing Act, 1938, is that the Dominion bears two-thirds of the loss, if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is, loans not in excess of \$4,000 in the case of a single family dwelling or not in excess of \$700 per habitable room in the case of a multiple family dwelling), the share of the loss to be borne by the Dominion is not more than 80 per cent and not less than 50 per cent of the loss. Under the National Housing Act, 1938, a new provision was added to encourage the making of small loans in such small or remote communities and in such districts or other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7 per cent and do not exceed 25 per cent of the total amount of such loans made in such areas by each such lending institution. Under the National Housing Act, 1944, the Dominion bears the first one-quarter of the loss and agrees to pay losses sustained by any lending institution up to fifteen per centum of the total amount of loans made in any area by each such lending institution.

An amount of \$2,000,000 was appropriated for the fiscal year 1944-45 to provide for advances under the National Housing Act, 1938, not exceeding with the advance made jointly by the approved lending institution, \$4,000 in respect of any one house, for the construction of houses where the Minister was satisfied that permanent houses could be constructed to relieve a serious housing shortage without threatening to create a post-war surplus. Loans to the number of 21,896 have been approved at March 31, 1945, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, in the amount of \$87,767,957. Under the National Housing Act, 1944, to the same date, 862 loans in the amount of \$3,575,785 have been approved. Losses recorded and paid to March 31, 1945, amounted to \$2,644.78, covering the Dominion's proportion of the loss on seven loans. This amount represents total losses to that date under both the Dominion Housing Act, 1935, and Part I of the National Housing Act, 1938. These losses are offset in part by a profit of \$197.74 realized by the sale of eleven properties. The net loss to March 31, 1945, is therefore only \$2,147.04. There have been no losses under the National Housing Act, 1944.

### (5) Guaranteed Home Improvement Loans.

Under the terms of The Home Improvement Loans Guarantee Act, 1937, almost \$50 million (\$19,959,055.31, to be exact) had been loaned up to March 31, 1944, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans was limited to 15 per cent of the aggregate of such loans made by each lending institution. As at October 30, 1940, after four years of operation, the \$50 million loan authorization having been substantially exhausted, the Government's undertaking to provide a guarantee for this type of loan was terminated. After this date, loans made by lending institutions were not accepted for guarantee by the Dominion. As at March 31, 1945, 99.5 per cent of the total amount of all loans made had been repaid and 1,249 claims for losses in the amount of \$454,018 had been paid up to March 31, 1945, of which \$52,204 (including \$11,089 interest) had been recovered. The contingent liability of the Government at the close of the fiscal year under review was the entire balance owing on all loans, i.e., \$245,812. It will be noted that the total of claims paid amounted to only 0.909 per cent of the total amount of loans made.

**(6) Guarantees of Bank Loans under Home Extension Plan.**

By the provisions of the Appropriation Act, No. 5, 1942, provision was made for the Governor General in Council to guarantee loans made by chartered banks for the conversion of already existing dwellings into multiple housing units under regulations similar to those under The Home Improvement Loans Guarantee Act. The maximum amount of loans which may be guaranteed is \$2 million, and the Government's guarantee is limited to fifteen per cent of the total amount of loans made.

As of March 31, 1945, 59 loans had been approved for a total amount of \$109,238 to provide for 114 new units. There have been no claims for losses.

**(7) Guarantees of Bank Loans by Commodity Prices Stabilization Corporation.**

Under the terms of an Order in Council dated April 6, 1944, the Commodity Prices Stabilization Corporation, a Government-owned Corporation, was authorized to guarantee certain advances and interest thereon obtained by any person from a chartered bank in order to purchase, during the summer of 1944, coal, coke or briquettes for residential heating. The liability of the Corporation is limited to ten per cent of the aggregate amount of advances made by each bank, but the maximum amount of the guarantee is \$500,000. The amount of the contingent liability of the Corporation at March 31, 1945, was \$39,277.

Under the terms of an Order in Council dated August 11, 1943, the Commodity Prices Stabilization Corporation was authorized to guarantee certain advances, obtained by any person engaged in the production of logs or lumber, from any chartered bank. The liability of the Corporation is limited to twenty-five per cent of the aggregate amount of advances made by each bank. The amount of the contingent liability of the Corporation at March 31, 1945, was \$27,400.

**(8) Guarantees of Bank Loans and Bank Overdrafts to Finance Munitions Contracts**

The Government guarantees the repayment of bank loans together with interest thereon obtained by certain contractors in connection with contracts placed by the Department of Munitions and Supply. As at March 31, 1945, the amount of such guaranteed bank loans authorized was \$7.2 million, and the amount actually outstanding was \$3.0 million.

Under the terms of an Order in Council dated May 4, 1943, the Government guarantees bank overdrafts obtained by certain Crown companies and management-fee companies doing business under the Department of Munitions and Supply. Prior to the establishment of this system of financing, funds advanced by the Government to the contractors remained idle for considerable periods. The amounts of the various overdrafts are repaid monthly, so no liability is outstanding at the close of the fiscal year in connection with this guarantee. The maximum amount of guarantees authorized at March 31, 1945, was \$110,600,000. Interest paid by the Government on these overdrafts for 1944-45 amounted to \$814,144.

**(9) Guarantees of Provincial Receipts from Gasoline Taxes under Dominion-Provincial Taxation Agreements and Liquor Revenues.**

Under the terms of the Dominion-Provincial taxation agreements, and pursuant to Section 5 of the Dominion-Provincial Taxation Agreement Act, 1942, provision is made for the payment to each province of the amount by which the net receipts from the tax imposed by the Province on gasoline sales are less than the net receipts from this source during the fiscal year of the province ended nearest to December 31, 1940. The gasoline tax revenues that have been thus guaranteed aggregate \$56.7 million. Expenditure in fulfilment of this guarantee during 1944-45 amounted to \$10.4 million.

As announced in the Budget Speech of 1943 and provided for in the Appropriation Act, the Minister of Finance entered into agreements with certain provinces guaranteeing the liquor revenues of the provinces on the basis of such revenues received during the twelve months ended June 30, 1942. No payments have been made to March 31, 1945, under these agreements.

**(10) Guarantees under the Export Credits Insurance Act.**

Pursuant to Orders in Council passed under the Export Credits Insurance Act, the Dominion Government guaranteed the payment to certain contractors for goods supplied and services rendered to the agent of a foreign country. The maximum amount so authorized under the guarantee at March 31, 1945, was \$3,230,000.

**(11) Total Guaranteed Obligations Outstanding as at March 31, 1945.**

For the details of the above and a number of other indirect or contingent liabilities, some of which are indeterminate as to amount, see Schedule V on pages 28 and 29 of Part I.

Total outstanding guarantees of the Dominion of Canada at March 31, 1945, excluding indeterminate amounts, were as follows:

## COMMENTS ON THE BALANCE SHEET

General.—The following comments deal in the main with the broad categories of Assets and Liabilities. The new form of comparative balance sheet adopted in 1942-43 and revised in 1943-44 has been continued with no major changes in the grouping of items under the several established headings. The individual accounts are dealt with throughout Part II under the various departments to which they relate.

## ASSETS

1. (a) Cash in Current Deposits represents balances at credit of the Receiver General of Canada in banks in Canada, London and New York as at the close of the relative fiscal years. While balances held in London are converted at \$1.86½ to the pound sterling and in New York at \$1 Canadian to the U.S. dollar, expenditures and revenues are recorded at the current rate of exchange, and the corresponding difference carried to the Premium, Discount and Exchange Account. The account in Schedule A shows a negative balance in total deposits in Canada. This is occasioned mainly by the revenues of the Dominion received after April 1st of each year being credited almost entirely to the new fiscal year while expenditures continued to be charged up to and including April 30th to the old fiscal year pursuant to Section 32 (1) of The Consolidated Revenue and Audit Act. At no time were the Dominion's bank accounts overdrawn.
1. (b) Special Deposits consist of cash balances in the hands of the fiscal agents of the Government for purchase or redemption of Dominion of Canada securities and for payment of interest.
2. Departmental Working Capital Advances constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments and represent work in progress and the value of stock or material on hand as shown in detail in the Schedule.
3. (a) These amounts represent the net outstanding advances made to Railway and Steamship Companies for capital expenditures, purchase of railway equipment and for debt retirement. Interest in full is currently paid on that part that is by contract interest bearing.
3. (b) These are advances to enable the Foreign Exchange Control Board to finance the purchase of gold and foreign exchange. Interest is paid at the rate of 1 per cent per annum.
3. (c) These are net advances outstanding made to various government agencies of an independent or quasi independent nature, for working capital, construction, etc. Included in this category are advances made under the War Appropriation Acts to Crown Companies and Crown Plants organized under the direction of the Department of Munitions and Supply and the Department of Finance and advances under the authority of the Veterans' Land Act.
3. (d) Under this heading there has been grouped loans to Provinces under Relief Acts and other legislation, and loans to Municipalities under the Municipal Improvements Assistance Act.
3. (e) This category combines advances made to allied countries under Section 3 of the War Appropriation Acts, the loan to the Government of the United Kingdom under the authority of the War Appropriation (United Kingdom Financing) Act, 1942, and certain loans made following the war of 1914-18. There is also included in this category an item of \$200,000,000 representing an adjusted liability of the United Kingdom to Canada in connection with the British Commonwealth Air Training Plan.
3. (f) This category comprises a number of miscellaneous loans and advances, such as those made under the Dominion and National Housing Acts and those made through the Department of Munitions and Supply to private companies under the authority of the War Appropriation Acts.
4. (a) This amount represents the cost of the Government's investment in the entire capital stock of the central bank of Canada acquired under the authority of The Bank of Canada Act Amendment Act, 1938.
4. (b) Under the Central Mortgage Bank Act, a Central Mortgage Bank was created with an authorized capital stock of \$10,000,000 all of which was subscribed for by the Dominion Government. The \$250,000 represents the amount of stock issued and paid for at the rate of \$2.50 in respect of each \$100 share. Due to the war the bank has remained inoperative.
4. (c) This account represents the principal outstanding of amounts furnished the Canadian Farm Loan Board to be loaned on farm property and fishermen's land. Interest in full is being currently paid by the Board on its bonds and on initial capital advances.
4. (d) The main item under the heading of Miscellaneous Investments is the securities investment account consisting chiefly of the cost of acquisition of Dominion Government direct and guaranteed securities, including victory bonds held under instalment purchase plans for civil servants and members of the armed forces.
5. In this account are recorded financial adjustments with some of the provinces at the time they entered the Dominion. Interest is paid half-yearly by the provinces.

6. This account consists of discounts, commissions, redemption bonuses and conversion premiums on loan flotations since 1930 remaining to be charged off annually to expenditures in proportion to the term of the respective loans. The amortization of these costs is shown in detail by loan issues in Appendix No. 2, page 40. The increase in the amount of \$5,078,359.53 is due to new loan flotation costs to be amortized, less the annual write-off as follows:

New loan flotation costs to be amortized—

Two Year Notes 1944-46.....	\$ 150,000 00
Sixth Victory Loan, 1944-48.....	\$ 972,209 98
1944-60.....	7,390,372 52

Seventh Victory Loan, 1944-48.....	\$ 1,331,546 71
1944-62.....	8,026,604 01

9,358,150 72

Less—annual amortization charged to expenditure.....	17,870,733 22
	12,800,996 86

5,069,736 36

Plus net adjustments made after amortization had been established.....	8,623 17
--	----------

\$ 5,078,359 53

7. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposition. The accounts are cleared when the necessary information becomes available. The main items in this account are two contra accounts appearing in sections 10 and 13 included in the liabilities and are therefore merely book-keeping entries.

\*This item reflects the annual increase of \$25,000,000 in the reserve account set up for possible losses on ultimate realization of active assets.

8. The net debt of the Dominion is divided to show expenditures that have been charged in the Dominion's books to (a) Non-active Assets, and those charged to (b) Consolidated Deficit Account. All expenditures charged to non-active assets classified as between "Capital" and "Other", are shown in schedules K and L to the Balance Sheet. Changes in these accounts may be readily ascertained by referring to the last column in the schedules.

The Consolidated Deficit Account (formerly designated the Consolidated Fund) is the account to which the excess of expenditures over revenues or revenues over expenditures is transferred annually exclusive of capital expenditure and other non-active accounts mentioned in the preceding paragraph and included in Schedules K and L. The excess of expenditures over revenues during 1944-45 carried to Consolidated Deficit Account was \$2,533,519,757.78. This amount added to the net increase in expenditures on capital and other non-active accounts of \$24,757,367.02, gives the total deficit or increase in the net debt for the year of \$2,558,277,124.80.

## LIABILITIES

9. This category covers obligations that are payable on demand. Generally, the creditors are in possession of some form of the Dominion's negotiable paper that is due and payable forthwith.

The consist of Post Office account (9) (e) as at March 31, 1945 will be found in Appendix I to the Post Office Department Section of Part II of this report.

10. (a) Deposits in the Post Office Savings Bank during 1944-45 exceeded the withdrawals by \$4,601,093.37. An amount of \$581,041.74 representing the estimated accrued interest at the rate of two per cent per annum was added, bringing the total amount at credit of depositors' accounts on March 31, 1945, to \$33,468,686.68.
10. (b) An amount equal to five per cent of their average outstanding note circulation is maintained by each chartered bank with the Receiver General of Canada, as required by section 64 of the Bank Act, 1944, to secure redemption of their outstanding notes in the event of the suspension by a bank of payment in specie or Bank of Canada notes. The amount is adjusted annually on June 30th and interest at the rate of three per cent per annum is allowed to each bank on the deposit required.
10. (c) The accounts in this category represent the Dominion's liability for monies deposited for various purposes. They fall into two broad classes. The first of these are the deposit accounts which cover those cases where the government: (a) acts as custodian of funds as a matter of policy; or (b) has received the monies in prepayment of war supplies, or as a guarantee that work will be properly performed. The other class, comprising the large majority of the accounts, consists of those where the government acts virtually as trustee, administering the funds in accordance with the purposes for which they were created.
11. (a) The value of all outstanding annuities at March 31, 1945, stood at \$243,537,624. Interest credited to the fund at the rate of four per cent per annum amounted to \$8,826,237.74 for 1944-45, and the amount credited to the fund to maintain the reserve during the year was \$257,288.
11. (b) and (c) These categories record the Dominion's liability as an insurer of certain persons and as administrator of certain pension funds. The government receives premiums or similar assessments, and in turn pays out specific benefits. There is also included the uninvested portion of the Unemployment Insurance Fund administered by The Unemployment Insurance Commission.
12. This category, Deferred Credits, comprises certain departmental credit balances where accounting treatment is known but which are held for final disposition pending completion of certain conditions.
13. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposition. The accounts are cleared when the necessary information becomes available.
14. This account represents the difference, with subsequent adjustments, between the actual and the established debt of the provinces on entering the Dominion. Interest is paid to the provinces half-yearly on their relative debt allowance.
15. (a) The reserve account for losses on wheat marketing guarantees was first established in 1940-41. As at the close of the fiscal year 1943-44, this account related solely to the 1939 wheat crop account. During 1944-45, under authority of Order in Council, P.C. 2955 of April 24, 1945, and pursuant to Dominion guarantee, an advance was made from the Reserve Account to enable the Board to discharge its liability in connection with the marketing of the 1939 wheat crop. The account was accordingly closed out as at the close of 1944-45.
15. (b) This reserve account, more fully dealt with under the Department of Munitions and Supply, Part II, Page MA-14 was set up for the adjustment of interim billings and for unascertained losses and other contingencies of certain crown companies.
16. Obligations both due and outstanding payable in sterling and U.S. dollars are recorded in the balance sheet at par of exchange. Similarly on the asset side of the balance sheet, as previously mentioned, cash and special deposits held in London and New York are shown at \$4.86½ to the pound sterling and \$1 to the U.S. dollar.

Details of the unmatured funded debt of Canada may be found on page 27. The increase during 1944-45 of \$3,046,932,033.90 is accounted for as follows:

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In that year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises was also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under the various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

† Includes \$25,000,000 as reserve against possible losses on assets.

	<u>\$ 36,407 00</u>	<u>\$ 36,407 00</u>	<u>\$ 33,440 07</u>

The annual contributions agreed upon by the 1936 conference expired with the fiscal year ended March 31, 1942. The conference recommended that, should it be proved impracticable to assemble the next conference

before the autumn of 1941, the existing scale of contributions would be maintained, pending the calling of a conference when circumstances permit. The payments, therefore, represent Canada's usual contributions as follows: Farnham House Laboratory, £1,250; Imperial Agricultural Bureau, £3,875, plus £656 additional for potato research; Imperial Bureau of Entomology, £1,100; Imperial Bureau of Mycology, £600.

The difference between the amounts voted and those expended is due to the fact that the former were calculated at the par rate of exchange, viz. \$4.86½, while payment was made at the official rate of \$4.47.

**Vote 17—Health of Animals—Compensation for Animals Slaughtered..... 372,620 00**  
**Expenditures.....\$ 191,792 80**

These expenditures represent compensation to owners of cattle and other animals slaughtered in the control and eradication of contagious diseases, as provided in the Animal Contagious Diseases Act. The basis of compensation is two-thirds of the market value of the slaughtered animal as determined by a departmental inspector, but within certain limits stated in the Act.

The following is a distribution of expenditure by provinces: Prince Edward Island, \$146; Nova Scotia, \$3,552; New Brunswick, \$100; Quebec, \$50,918; Ontario, \$110,068.20; Manitoba, \$20,161; Saskatchewan, \$6,199; Alberta, \$396.60; British Columbia, \$252.

**Vote 464 Health of Animals—Payment of compensation to owners of animals affected with diseases coming under the operation of the Animal Contagious Diseases Act, which have died or have been slaughtered under circumstances unprovided for under the above Act and Regulations thereunder, in the amounts detailed in the Estimates**

Wages of labourers and casual employees amounted to \$4,278.85.

A Payments amounting to \$19,494.20 were made to the Canadian Fairbanks-Morse Co. Limited for 1,810 hog scales to be re-sold to producers of hogs at cost, by authority of P.C. 1444 of February 27, 1941, and P.C. 5/2814 of April 7, 1943. Proceeds from sales amounting to \$13,063.95 were credited to this allotment.

Includes the purchase of 6 new cars at a net cost of \$8,054.68 after deducting allowances of \$1,951 for 3 used cars.

B Consists of the following groups of payments:—

Horse Breeders' Clubs, \$14,868.56 (Manitoba, \$3,367.76; Saskatchewan, \$9,767.40; Alberta, \$1,733.40). The Department pays 75 cents for every mare bred plus 25 per cent of the service fee on such mares as prove to be in foal, plus \$1 for each registered pure bred mare in foal.

Grants to Horse Breeding Stations, \$5,062. A proprietor of a Breeding Station must own or control three or more stallions. The basis of the grant is \$187.50 per stallion.

Premiums under the Ram Club Policy, \$3,255.50. Under this policy, ram clubs deposit with the Department stated amounts for rams. The Department purchases the animals and absorbs the differences in costs.

Club Work (prize money, etc. shared jointly with the provinces) \$18,082.91—Cattle Clubs, \$12,183.05; Swine, Sheep and Poultry Clubs, \$2,433.11; Sheep Fairs, Bacon Shows, Foal Clubs, etc., \$3,466.75.

The amounts shown represent the Dominion's share.

Many departmental live stock policies entail payments in the nature of grants to clubs and the absorption of losses in free or partially free distribution of live stock. All are made on ministerial authority from the primary allotment included in the vote and approved by Parliament for this class of assistance.

C Premiums to owners of pure bred stallions, \$31,931.90 (Prince Edward Island, \$630; Nova Scotia, \$570; New Brunswick, \$847.50; Quebec, \$22,185; Ontario, \$6,998.15; British Columbia, \$701.25). These premiums, which are shared jointly with the provinces according to a schedule for each province prepared by a Dominion-Provincial Board, are based on the class of stallion and the number of mares left in foal. The amounts shown represent the Dominion's share.

Ram Premium Policy, \$861.50 (shared jointly with the provinces—Prince Edward Island, \$137; Nova Scotia, \$349; New Brunswick, \$375.50).

D Represents payments for the purchase of live stock and expenses of distribution under the following policies:

Sire Loan Policy, \$83,245.39 (bulls, \$80,570.45; rams, \$99.75; boars, \$2,326.45; miscellaneous expenses, \$248.74);

Sow Distribution Policy, \$1,073.08. Payments for purchase of sows and expenses of distribution amounted to \$5,834.16; receipts from sales amounted to \$4,761.08 and were credited to this allotment.

Surplus Boar Policy, \$859.22.

Artificial Insemination Project, \$1,250.

E The following employees, whose salary rates were under \$2,400 on that date, received travelling expenses of \$300 or over: S. Bergey, \$1,998.75; W. A. Blackburn, \$2,031.13; J. R. Subsidies are paid on the following basis:—

- On completion of building, 15 per cent of the amount expended in construction, refrigeration, etc.;
- At the end of the first year thereafter, 7 per cent of the said amount;
- At the end of the second year thereafter, 4 per cent of the said amount;
- At the end of the two next succeeding years, 2 per cent of the said amount.

Where no expenditures were made, the amounts have been re-submitted in the Estimates for 1945-46.

Grants: Payments under this heading are made in instalments as in the case of subsidies. The companies listed did not conform at the outset with the provisions of the Cold Storage Act, therefore payment by way of grant was authorized by the Appropriation Act.

Prairie Farm Assistance Act, c. 50, 1939—Amount transferred to meet the deficit in the	
Prairie Farm Emergency Fund .....	\$1,294,957 83

The above transfer was necessitated because the levy on grain (\$5,711,762.95) plus refunds (\$16,621.69) was insufficient to meet expenditures, a distribution of which by provinces and crop years follows:

In the year 1942, crop conditions were so generally satisfactory that no payments were made under the Act.

Under the Act, authority for appointments and rates of pay are vested in the Governor in Council.

As of March 31, 1945, there were 33 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date or at date of separation follows. Salary rates do not include cost of living bonus. Dates of separation are shown in parentheses. W. C. Barrie, \$3,200 (July 22); G. C. Bruce, \$2,400; H. J. Hamilton, \$2,400; A. W. Johnson, \$2,400; R. F. McGregor, \$4,500; J. C. Riddell, \$3,200 (Sept. 1); S. Sinclair, \$3,200.

A Certain details of these expenditures are merged with those detailed under Vote 31. The administration of this Act is interlocked with that of the Wheat Acreage Reduction Program, and the major portion of travelling expenses is charged to the latter.

The aim of the Wheat Acreage Reduction Act, c. 10, 1942, as amended, is to encourage a reduction in the number of acres sown to wheat in the Prairie Provinces by compensating farmers who effect such reduction.

Appointments and remuneration of administrative and technical officers and employees receive the approval of the Governor in Council; field, clerical and other assistance may be engaged by the Minister, but at rates of pay approved by the Governor in Council.

As of March 31, 1945, there were 59 salaried employees being paid from this account.

A Represents payments, authorized by the Governor in Council, to rural municipalities for assistance rendered in connection with the handling of application forms.

The Agricultural Prices Support Act, c. 29, 1944, authorizes the establishment of the Agricultural Prices Support Board consisting of three members to be appointed by the Governor in Council, with powers subject to, and in accordance with, regulations approved by the Governor in Council, to support by way of subsidy or otherwise the prices of agricultural products during the transition from war to peace. The Act defines Agricultural Product as any natural product of agriculture, except wheat, designated by the Governor in Council, and includes processed meat, dairy and poultry products if so designated.

By P.C. 6165 dated August 16, 1944, J. G. Taggart was appointed Chairman of the Board at a salary of \$8,000 per annum, with two officers of the Department of Agriculture to be members pro tempore to serve without special remuneration.

As at March 31, 1945, J. G. Taggart and 1 other salaried employee were being paid from this account.

A J. G. Taggart received travelling expenses of \$1,296.62 (including travelling expenses received from the War Allotment as Chairman of the Meat Board).

<b>Allotment: Assistance in moving to Eastern plants hogs marketed in the West in excess of plant capacity</b>	<b>23,746 30</b>
<b>Expenditures.....</b>	<b>\$ 12,321 86</b>

Because of the heavy marketing of hogs in Western Canada which exceeded the capacity of packing plants in that section, it was deemed necessary to ship the surplus to Eastern packing plants for processing. P.C. 1168 dated January 12, 1944, authorized the Meat Board to equalize returns to Western hog producers by reimbursing shipper or processing plant for any additional transportation or other incidental expenses on shipments made to Eastern Canada on and after October 1, 1943.

Due to a similar situation existing in the Maritime Provinces, P.C. 2 8848 dated November 22, 1944, authorized the Meat Board to provide assistance on hogs shipped from the Maritimes for slaughter in the Provinces of Ontario or Quebec on and after October 10, 1944.

<b>Allotment: Dairy Products Board—Administration</b>	<b>16,317 00</b>
<b>Expenditures.....</b>	<b>\$ 14,647 39</b>

P.C. 2138 dated May 23, 1940, authorized the establishment of the Dairy Products Board, the aim of which is to ensure that supplies of dairy products will be exported as required and that satisfactory prices will be paid to producers.

As of March 31, 1945, there were 4 salaried employees being paid from this account.

Total salaries paid amounted to \$7,447.41 (including cost of living bonus, \$1,017.89); travelling expenses, \$1,338.91; sundry expenses, \$5,861.07.

<b>Allotment: Purchase of creamery butter for storage and export</b>	<b>1,500,000 00</b>
<b>Expenditures.....</b>	<b>\$ 9,616 73</b>

To support the butter market as may be necessary, P.C. 1082 dated February 24, 1944, authorized the Dairy Products Board to purchase creamery butter for storage and to pay the necessary storage, insurance and freight charges.

Gross expenditures for the year amounted to \$1,007,442.86: Refunds from sales credited to this allotment were \$997,826.13, and to Special Receipts, Refunds of Previous Years' War Expenditures, \$3,172.69.

<b>Allotment: Special Products Board—Administration</b>	<b>56,441 00</b>
<b>Expenditures.....</b>	<b>\$ 56,191 52</b>

P.C. 2520 dated April 15, 1941, authorized the establishment of the Special Products Board to obtain and export any agricultural product with the exception of meat and dairy products.

As of March 31, 1945, there were 20 salaried employees being paid from this account. J. Tucker was receiving a salary at an annual rate of \$3,300 inclusive of war duties supplement on that date.

Total salaries paid amounted to \$29,644.41 (including cost of living bonus, \$3,542.53), sundry expenses, \$26,547.11.

Travelling expenses of \$300 or over were paid to: J. A. Dumaine, \$895.07; D. A. Fletcher, \$1,761.19; H. N. Plotten, \$301.30; J. F. Haggerty (included under Vote 27); C. F. Ironside, \$348.65; C. K. Johns (included under Vote 27); A. E. Payne, \$1,255.58; J. Tucker, \$785.19.

<b>Allotment: Seed Export Office .....</b>	<b>23,106 00</b>
<b>Expenditures.....\$</b>	<b>20,208 97</b>

This office was established at Lindsay, Ontario, by the Special Products Board under authority of P.C. 5428 dated July 9, 1943, to purchase certain specified seeds for export to Allied Countries or to store for future disposal.

As of March 31, 1945, there were 6 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. S. A. Flavelle, \$3,600; F. G. Perrin, \$6,500.

Total salaries paid amounted to \$14,539.98 (including cost of living bonus, \$705.95), sundry expenses, \$5,668.99.

F. G. Perrin received travelling expenses of \$1,248.17.

<b>Allotment: Services of forwarding agencies in connection with the shipment of fruit and vegetables to the British Ministry of Food .....</b>	<b>350 00</b>
<b>Expenditures.....\$</b>	<b>245 34</b>

<b>Allotment: Payment for dehydrated agricultural products prior to receipt of payment from ultimate purchasers—1943 .....</b>	<b>\$ 5,000 00</b>
<b>Expenditures .....</b>	<b>nil</b>

P.C. 10/93 dated January 7, 1944, authorized the Special Products Board to contract for a quantity of dehydrated products for resale to the British Ministry of Food and other purchasers. It was anticipated that the cost of such products together with freight, storage and other charges would be recovered in full.

Gross expenditures during the year amounted to \$1,121,632.14. Receipts from sales totalling this amount were credited to the allotment and the excess receipts of \$737,097.04, representing sale of product paid for from previous year's War Allotment, to Special Receipts, Refunds of Previous Years' War Expenditures.

The original allotment was \$2,700,000 but, towards the close of the fiscal year, it was reduced to the above amount.

<b>Allotment: Payment for dehydrated agricultural products prior to receipt of payment from ultimate purchasers—1944 .....</b>	<b>5,500,000 00</b>
<b>Expenditures.....\$</b>	<b>\$1,828,149 19</b>

P.C. 10/5177 dated July 7, 1944, authorized payments similar to those made for 1943.

Gross expenditures during the year amounted to \$4,617,203.89. Receipts from sales totalling \$2,789,054.70 were credited to the allotment, leaving a net expenditure of \$1,828,149.19.

<b>Allotment: Compensation to Seed Dealers .....</b>	<b>20,000 00</b>
<b>Expenditures.....\$</b>	<b>17,617 38</b>

P.C. 5428 dated July 9, 1943, authorized the Special Products Board to purchase and export surpluses of certain agricultural seeds and to pay producers of such seeds any net profits resulting from its transactions.

For services rendered in connection with the issue of participation certificates, on the basis of which the distribution of profits was made, and for supplying certain information, the Board agreed to pay seed dealers one eighth cent per pound of clean seed. P.C. 1/3900 dated May 24, 1944 approved this policy and authorized the above allotment.

<b>Allotment: To increase the income of farmers in the Spring Wheat Area of Western Canada .....</b>	<b>3,000 00</b>
<b>Expenditures.....\$</b>	<b>2,479 65</b>

In view of the prospective inadequacy of return from wheat and other grains produced in the spring wheat area of Western Canada in the crop year 1941, the Prairie Farm Income Plan was put into effect to augment the income of farmers by approximately \$20,000,000.

Regulations governing the distribution of these funds were established by P.C. 8126 dated October 22, 1941, which authorized the payment of seventy-five cents per acre on one-half of the cultivated acreage of each farm with a maximum payment of \$150 per farm, the crop yield having no bearing on the award.

Expenditures for the year covered outstanding claims relating to the 1941 crop year and were distributed by provinces as follows:—

	No. of Claims	Amount
Manitoba. . . . .	3	184 87
Alberta. . . . .	6	423 63
Saskatchewan. . . . .	26	1,871 15
	35	\$2,479 65

The regulations further provided that the administrative work in connection with this plan be carried out by the organization established for Prairie Farm Assistance and Wheat Acreage Reduction and that all administrative expenses be paid out of moneys provided for one or both of these activities.

<b>Allotment: Agricultural Food Board—Administration. . . . .</b>	<b>38,623 14</b>
<b>Expenditures. . . . .</b>	<b>\$ 24,074 84</b>

P.C. 1563 dated March 1, 1943, authorized the establishment of the Agricultural Food Board to develop and direct the policies and measures of the Department of Agriculture for the war-time production of food.

As of March 31, 1945, there were 7 employees being paid salary from this account. A. L. Stevenson was receiving a salary at an annual rate of \$3,600 inclusive of war duties supplement on that date.

Total salaries paid amounted to \$11,019.55 (including cost of living bonus, \$1,045.39); travelling expenses, \$8,381.79; sundry expenses, \$4,673.50.

Travelling expenses of \$300 or over were paid to: W. F. Chown (included under Vote 23); H. A. Mason (included under Vote 24); C. A. Morrison (included under Vote 24); A. E. Richards (included under Vote 23); A. H. Turner (included under Vote 23).

<b>Allotment: Subsidies on milk for butter, for fluid milk, for cheese and for concentration purposes—1943-44 . . . . .</b>	<b>3,483,000 00</b>
<b>Expenditures. . . . .</b>	<b>\$3,482,750 38</b>

P.C. 2709, April 2, 1943, and P.C. 7142, September 9, 1943, authorized the Agricultural Food Board to pay subsidies as follows:

- (a) 8 cents per pound on butterfat used in the manufacture of creamery butter during the months of January to April, 1944.
- (b) 25 cents per hundred pounds on milk used for fluid milk consumption from May 1 to September 30, 1943, and 55 cents per hundred pounds for the period October 1, 1943, to April 30, 1944.
- (c) 30 cents per hundred pounds on milk used for concentration into whole milk products between October 1, 1943, and April 30, 1944.
- (d) 30 cents per hundred pounds on milk used in the manufacture of cheddar cheese between October 1, 1943, and April 30, 1944.

Payments were made to milk distributors, butter and cheese factories and manufacturers of concentrated milk who had allowed the subsidy to producers at time of purchase.

<b>Allotment: Subsidies on milk for butter, for fluid milk, for cheese and for concentration purposes—1944-45 . . . . .</b>	<b>39,885,000 00</b>
<b>Expenditures. . . . .</b>	<b>\$38,801,248 85</b>

P.C. 1082 dated February 24, 1944, authorized the Agricultural Food Board to pay subsidies as follows:

- (a) 10 cents per pound on butterfat used in the manufacture of creamery butter during the period May 1, 1944, to April 30, 1945.
- (b) 35 cents per hundred pounds on milk used for fluid milk consumption during the period May 1 to September 30, 1944, and 55 cents per hundred pounds from October 1, 1944, to April 30, 1945, provided that in areas where 25 cents per hundred pounds is considered adequate, the subsidy shall be limited to that amount.
- (c) 15 cents per hundred pounds on milk used for concentration into whole milk products between May 1 and September 30, 1944, and 30 cents per hundred pounds from October 1, 1944, to April 30, 1945.
- (d) 20 cents per hundred pounds on milk used in the manufacture of cheddar cheese between May 1, 1944, and April 30, 1945.

Payments were made to milk distributors, butter and cheese factories and manufacturers of concentrated milk who had allowed the subsidy to producers at time of purchase.

<b>Allotment: Subsidies on milk used in the manufacture of Lactose or milk sugar</b> .....	<b>51,000 00</b>
<b>Expenditures</b> .....	<b>45,086 20</b>

P.C. 2299 dated March 30, 1944, authorized the Agricultural Food Board to pay a subsidy of 30 cents per hundred pounds on milk used in the manufacture of milk sugar from April 1 to April 30, 1944, 15 cents per hundred pounds from May 1 to September 30, 1944, and 30 cents from October 1, 1944, to April 30, 1945.

Payments were made to manufacturers who had allowed the subsidy to milk producers at time of purchase.

<b>Allotment: Subsidies to producers of tomatoes, corn, beans and peas—1943 crop</b> .....	<b>10,000 00</b>
<b>Expenditures</b> .....	<b>7,078 71</b>

To encourage the production of vegetables, P.C. 2/2105 dated March 13, 1943, authorized the payment of subsidies on 1943 crops as follows: tomatoes, \$3 per ton; corn, \$1 per ton; peas, \$10 per ton shelled weight or \$2 per ton straw weight; beans, \$7.50 per ton. Payments were made to canners who had allowed the subsidy to producers at time of purchase of crops.

A distribution of expenditures follows: Quebec, \$1,218; Ontario, \$5,860.71.

<b>Allotment: Subsidies to producers of tomatoes, corn, beans and peas—1944 crop</b> .....	<b>2,600,000 00</b>
<b>Expenditures</b> .....	<b>\$2,541,427 65</b>

P.C. 1611 dated March 9, 1944, authorized the continuation of the 1943 policy and increased the subsidy on tomatoes to \$6 per ton.

A distribution of the expenditures follows: Nova Scotia, \$9,851.29; New Brunswick, \$2,693.96; Quebec, \$445,194.28; Ontario, \$1,814,266.27; Manitoba, \$3,993.86; Alberta, \$62,931.68; British Columbia, \$202,496.31.

<b>Allotment: Subsidies on fruit used in the manufacture of jams—1943</b> .....	<b>138,974 00</b>
<b>Expenditures</b> .....	<b>\$ 114,462 36</b>

P.C. 1/4225 dated May 21, 1943, provides for the payment of subsidies at specified rates on strawberries, raspberries, loganberries, boysenberries, gooseberries and currants used in the manufacture of jams and on canned raspberries. The above expenditure consisted of payments to manufacturers who had allowed the subsidy to producers at time of purchase of crops.

A distribution of the expenditures follows: Prince Edward Island, \$14,776.77; Ontario, \$51,241.27; British Columbia, \$48,444.32.

<b>Allotment: Subsidies on fruit used in the manufacture of jams—1944</b> .....	<b>600,000 00</b>
<b>Expenditures</b> .....	<b>\$ 380,882 86</b>

P.C. 4340 dated June 4, 1944, authorized payments similar to those for 1943.

A distribution of expenditures follows: Quebec, \$44,704.53; Ontario, \$99,535.50; British Columbia, \$236,642.83.

<b>Allotment: Test shipment of eggs to Great Britain</b> .....	<b>10,000 00</b>
<b>Expenditures</b> .....	<b>\$ 7,763 59</b>

P.C. 5/7746 dated October 4, 1944, authorized the Special Products Board, with the co-operation of the National Research Council, to make test shipments of shell eggs to Great Britain to determine the best method of processing, storage and shipment.

<b>Allotment: Outstanding Participation Certificates</b> .....	<b>125 00</b>
<b>Expenditures</b> .....	<b>\$ 120 20</b>

Due to the fact that prices for certain agricultural seeds were considerably higher in the United States and other Allied countries than in Canada, it was impossible to control exports in a manner equitable to producers and at the same time to assure retention and distribution in Canada of supplies for domestic requirements. P.C. 5428 dated July 9, 1943 authorized the Special Products Board to purchase and become sole exporter of agricultural seeds and to arrange for distribution to producers of any net profits resulting from its transactions in this regard. Participation certificates were issued to producers on the basis of clean seed purchased by seed dealers at time of purchase and a distribution of approximately 10,500 cheques totalling \$165,619.33 was made. The transactions were recorded in the Open Account, Special Products Seed.

After distribution of profits was made it was found that certain holders of participation certificates had not received their shares. The above expenditure covers the amounts due.

The above accounts record the financial transactions having to do with the acquisition of agricultural products for the British Ministry of Food which are authorized under Section 3 of the War Appropriation Act, 1944. The balances shown in these accounts represent the amounts due from the Ministry at the close of the fiscal year. Purchases of lard to the value of \$2,653,310.44 for Russia were financed through the Meat Board account while purchases of seed for Russia, \$244,228.61, United States, \$411,339.13, Belgium, \$18,020, Netherlands, \$62,950.71, France, \$325,607.75, and Uruguay, \$149,387.47 were also made through the Special Products Board account. Both accounts were re-imbursed in this connection during the fiscal year.

During the year the Cheese Account and the Concentrated Milk Account were amalgamated under Dairy Products Board and the several Special Products accounts were amalgamated under that entitled Special Products Board.

At the termination of the scheme, the value of the outstanding warrants was charged against the appropriation provided for relief purposes and credited to this account to provide for their subsequent redemption.
- B Funds have been provided annually for a number of years for payments to Western farmers under the Wheat Acreage Reduction Program. Payments were made by warrants and, at the close of each fiscal year, the value of the outstanding warrants was charged against the appropriation and credited to this account to provide for their subsequent redemption.
- C Funds were provided from the War Appropriation for payments to hog producers under the Hog Premium Program. Payments were made by warrants and, at the close of each fiscal year, the value of the outstanding warrants is charged against the appropriation and credited to this account to provide for their subsequent redemption.
- D At the close of the fiscal year, each imprest account is examined by the official in charge and funds to meet cheques which have been outstanding since the close of the previous fiscal year are withdrawn from the imprest bank account and deposited herein. If any of these cheques are subsequently cashed, the imprest bank account is then recouped in the usual way and this account adjusted concurrently.

A This account is in connection with the financial transactions of the Superintendent of Farnham House Laboratory (a scientific institution with headquarters in England), who was transferred to Canada for the duration of the war to continue his biological work on the control of harmful insects.

The organization is supported by annual contributions from several Empire countries, including Canada (see Vote 4), which are credited to this fund and from which expenses are met.

B The Prairie Farm Assistance Act, c. 50, 1939, provides for a levy of one per cent to be deducted by all licensed purchasers of grain, the amount so deducted to be transferred to the Board of Grain Commissioners for deposit to the credit of a special account known as the Prairie Farm Emergency Fund. Awards are made under the provisions of the Act to farmers in the spring wheat area and are payable from this fund; if, at any time, the fund is insufficient to pay these awards, the Act provides that the Minister of Finance, with the approval of the Governor in Council, may make an advance to the fund of the amount required to meet the deficit. An amount of \$1,294,957.83 was transferred this year, see page A-31.

## GENERAL COMMENTS

The War Appropriation (United Nations Mutual Aid) Act, c. 15, 1944, an Act to amend the War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, and for granting aid for the purposes of the said Act, authorized payments out of the Consolidated Revenue Fund of a sum or sums not exceeding \$800,000,000, exclusive of any cash purchases of war supplies by any of the United Nations to which such supplies would be made available. The unexpended balance of the sum appropriated under the 1943 Act, amounting to \$87,396,779.66, was also available for Mutual Aid purposes in the current fiscal year.

Amounts totalling \$62,721,000 were allotted from the War Appropriation, 1944, for expenditures in connection with military relief.

Expenditures represent payments for goods actually delivered. By P.C. 9546 of December 14, 1943, P.C. 9967 of January 14, 1944, and P.C. 9485 of February 2, 1945, temporary financing of orders placed with the Department of Munitions and Supply by the Board was authorized to be provided through the Munitions Production Allotment Fund—see page MA—9 of the Department of Munitions and Supply section of this report.

\* The unexpended balance of this amount, i.e., \$84,051,076.91, is available for expenditure in the fiscal year 1945-46. In the summarized statement of appropriations, expenditures, etc., by departments, for the year ended March 31, 1945, which will be found at the beginning of Part II of this Report, the amount shown under "Appropriations" represents (a) net expenditures of \$803,345,702.75 from the amounts available under the War Appropriation (United Nations Mutual Aid) Acts, 1943 and 1944, plus (b) the amount of \$62,721,000 allotted from the War Appropriation, 1944.

<b>Allotment: Military Relief—Miscellaneous Supplies .....</b>	<b>36,000,000 00</b>
<b>Expenditures.....</b>	<b>\$ 24,967,848 11</b>

This allotment was provided to cover expenditures made during the fiscal year in connection with Canada's share of the cost of relief supplies provided by the allied military forces in Europe to civilian populations during the period of military responsibility.

The allotment, originally for \$45,000,000, was granted to the Department of National Defence—Army Services which had accepted responsibility for the expenditure of funds for this purpose. However, under P.C. 1728, March 13, 1945, this responsibility was transferred to the Canadian Mutual Aid Board together with the allotment which, with Treasury Board approval, was subsequently reduced to \$36,000,000.

Expenditures consisted of purchases of the following commodities: evaporated milk, \$322,209.28; wheat, \$23,921,230.10; fish, \$93,157.74; paper, \$328,266.43 and binder twine, \$302,984.56.

As of March 31, 1945, there were 20 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over exclusive of cost of living bonus on that date follows: M. Cain, \$2,400; K. C. Fraser, \$8,500; S. A. MacKay-Smith, \$6,000; E. E. Wasson, \$6,000; F. Weiss, \$3,600.

A Travelling expenses of \$300 or over were paid to: S. V. Allen, \$525.52; K. C. Fraser, \$2,576.14; G. R. Heasman, \$449.40; S. A. MacKay-Smith, \$539.22; A. M. McCrimmon, \$518.17; E. E. Wasson, \$1,570.97.

B Payment was made to the National Film Board.

C The Bell Telephone Co. of Canada, Ltd., was paid \$3,477.50.

<b>Allotment: Mutual Aid .....</b> <b>Expenditures.....</b>	<b>887,337,251 80</b> <b>\$803,292,651 34</b>
--	--

Of the above expenditure, the sum of \$26,828,304.49 was expended directly by the Canadian Mutual Aid Board. The balance was spent by the following departments, acting as agents of the Board: Agriculture, \$78,246,029.34; Fisheries, \$3,184,945.68; Munitions and Supply, \$599,662,614.51; Trade and Commerce, \$95,370,757.32. However, in addition to the foregoing expenditures, the procurement departments disbursed a further sum of \$1,167,399,655.50 which was provided by the Government of the United Kingdom for its requirements in addition to the aid granted by Canada. The total disbursements were, therefore, \$1,970,692,306.84. A classification of "Mutual Aid" showing cumulative as well as current fiscal year expenditures appears on pages BA—5 to BA—8.

Suppliers and contractors receiving \$10,000 or more, in connection with expenditures from the above allotments, are included in a list further on in this section.

B Government of Belgium.....		950,000 00	950,000 00	
		299,716,984 36	299,716,984 36	

A Under the authority of Section 3 of the War Appropriation Act, 1944, and P.C. 2335 of March 30, 1944, the Board was granted authority to obtain temporary loans not exceeding \$300,000,000 to pay for deliveries of munitions of war, food and other supplies in fulfilment of the requirements of any of the Allied Governments receiving mutual aid from Canada. These loans were repaid out of funds subsequently made available in the Mutual Aid Appropriation.

B P.C. 1346 of February 27, 1945, authorized the purchase on behalf of the Government of Belgium of supplies urgently required by that Government, the expenditures to be temporarily financed out of an account to be established under authority of Section 3 of the War Appropriation Act, 1944. Disbursements represent advances to procurement departments, while receipts cover repayment by the Government of Belgium.

A Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45 there were no bonds held in respect of this Board.

B This account is credited with advances from the Belgian Government for the purchase of urgently needed supplies, and is debited with the value of relative shipments.

C This account is credited with advances from the United Kingdom Government which are disbursed solely to supplement Mutual Aid funds at the discretion of the Board.

## Details

Ordinary Revenue—	
Tax Revenue:	
A Chartered Banks—Note Circulation Tax.....	350,005 86
The Chartered Banks Note Circulation Tax is collected under the authority of Part I of the Special War Tax Act, c. 179, R.S., and amendments, at the rate of one-fourth of one per cent upon the average quarterly amount of the notes in circulation of each bank, less adjustment for notes in circulation outside of Canada.	

B Insurance Companies—Tax on Net Premiums.....	7,181,560 88
<p>Part III of the Special War Revenue Act, c. 179, R.S., as amended, levies a tax on net insurance premiums received by companies authorized under the laws of the Dominion or any Province thereof, of (a) 2 per cent on net premiums of companies, other than a mutual company, not carrying on the business of life insurance, an exchange, or an association of persons formed on the plan known as Lloyds; (b) 3 per cent on net premiums received by every association of persons formed on the plan known as Lloyds, and every mutual company not carrying on the business of life insurance and not carrying on business on the premium deposit plan; (c) 4 per cent upon net premiums received by every mutual company carrying on insurance business on the premium deposit plan and by every exchange. The tax does not apply to marine insurance. Under the same authority, a tax of 10 per cent is levied on net premiums paid by any resident of Canada for insurance on property with companies not authorized under the laws of the Dominion or any Province thereof. For the fiscal year 1944-45, taxes on premiums of licensed companies amounted to \$7,177,770.87, and taxes on insurance carried with unauthorized companies to \$3,790.01.</p>

**Fees for making loans in remote localities, National Housing Act, c. 49, 1938. . . . . \$ 5,310 00**

Section 4 (h) of the Act authorizes the Minister of Finance, in order to encourage the making of loans in small or remote communities, to enter into contracts with approved lending institutions providing for the payment by the Dominion of inspection fees not exceeding \$20 and expenses for each necessary inspection trip in connection with loans not exceeding \$4,000.

The following amounts were paid to lending institutions in accordance with the above: Canada Life Assurance Company, \$1,190; Confederation Life Association, \$10; The Equitable Life Insurance Company of Canada, \$200; The London Life Insurance Company, \$570; The Mutual Life Assurance Company of Canada, \$1,000; The Ontario Loan and Debenture Company, \$40; The Sun Life Assurance Company of Canada, \$2,300.

**To provide for tax payments, National Housing Act, c. 49, 1938. . . . . \$ 6,229 44**

Section 22, Part III, of the Act, authorizes the Minister of Finance to pay the municipal taxes (if levied) on houses valued at not more than four thousand dollars which were constructed during the period commencing June 1, 1938, and ending on December 31, 1940, or on such earlier date as might be set by the Governor in Council, on the following basis: 1st tax year—100 per cent; 2nd tax year—50 per cent; 3rd tax year—25 per cent.

By P.C. 4021 of December 5, 1939, payments were restricted to taxes on houses, the construction of which was commenced before May 31, 1940.

Tax payments summarized by provinces were as follows: Alberta, \$509.57; British Columbia, \$1,708.94; Nova Scotia, \$158; Ontario, \$3,852.93.

**Home Improvement Loans—Losses, Home Improvement Loans Guarantee Act, c. 11, 1937. \$ 7,784 18**

The Act guarantees approved lending institutions against losses sustained on defaulted home improvement loans, but stipulates that the Government's liability in this regard shall not exceed 15 per cent of the aggregate amount of home improvement loans made by any such approved lending institution. Payments were made to the following lending institutions: Canadian Bank of Commerce, \$421.90; Dominion Bank, \$17.43; Imperial Bank of Canada, \$965.06; Bank of Montreal, \$978.58; Banque Canadienne Nationale, \$95.94; Bank of Nova Scotia, \$26.49; Royal Bank of Canada, \$2,449.46; Heating and Plumbing Finance Company Limited, \$2,799.32.

Repayments totalling \$10,395.87 were received during the year from debtors in default and credited to Revenues—Refunds of Expenditure. A further amount of \$2,028.43 representing interest on past-due balances was received and credited to Revenues—Return on Investments.

**Vote 51** To enable the Minister of Finance, subject to regulations approved by the Governor in Council which shall in general be similar to the relevant provisions of the Home Improvement Loans Guarantee Act, 1937, and the regulations made thereunder, to guarantee approved lending institutions against losses which they may sustain as a result of loans or advances made by them for the purpose of financing the conversion of existing houses into multiple-family houses in order to increase the supply of housing accommodation in congested urban areas, provided that in no case shall the liability of the Government of Canada in respect of guarantees given under this authority to any approved lending institution exceed fifteen per cent of the aggregate amount of such loans made by the said approved lending institution, and provided further that the aggregate amount of such loans which may be guaranteed under this authority shall not exceed two million dollars, and provided further that any payments necessary to fulfil the guarantees given under this authority shall be paid out of any unappropriated moneys in the Consolidated Revenue Fund. . . . . \$

Expenditures . . . . . 1 00  
nil

As of March 31, 1945, 59 loans had been approved for a total amount of \$112,725.28. There were no claims for losses. The Government's contingent liability, limited to fifteen per cent of the aggregate of such loans made by each lending institution, amounted to \$16,908.79 as at March 31, 1945.

**Payment of Dominion's share of Pensions, Old Age Pensions Act, c. 156, R.S. . . . . \$ 32,187,184 66**

Under the provisions of the Old Age Pensions Act, c. 156, R.S., and amendments, the Governor in Council may enter into an agreement with the government of any province for quarterly payment to such province of an amount equal to 75 per cent of the net sum paid out during the preceding quarter by such province for old age pensions and pensions to the blind pursuant to a provincial statute providing for payment of such pensions. The maximum pension is \$240 yearly, and the Dominion has the right to audit provincial pension accounts. Under the terms of P.C. 6367 dated August 10, 1943, the Governor in Council further authorized the Minister of Finance to enter into supplementary agreements with the governments of the several provinces for increasing payments to pensioners to meet wartime conditions. A special supplement not to exceed \$5 monthly was agreed upon, of which the Dominion Government's share would be 75 per cent. A sum of \$8,800,000 was allotted from the War Appropriation to meet these increased payments, and expenditures of \$8,787,820.86 were made therefrom.

Details of expenditure, including the sum expended from the War Appropriation allotment, are shown in the following table:

	<u>\$ 147,249 07</u>	<u>\$ 147,249 07</u>	<u>\$ 145,016 66</u>

This vote was provided for the expenses of administering the Civil Service Superannuation and Retirement Acts.

As of March 31, 1945, there were 129 salaried employees being paid from this account: G. L. Gullock was receiving a salary at an annual rate of \$4,440, inclusive of war duties supplement, on that date.

The amount of \$15,294.07 was transferred from Vote 67 (see page F-26) under authority of T.280315B. of March 22, 1945, to supplement the allotments provided for salaries, cost of living bonus and other pay-list items.

<b>Vote 54 (and Vote 437, Further Supplementary Estimates) Government's contribution to the Superannuation Fund.....</b>	<b>2,340,795 00</b>
<b>Expenditures.....</b>	<b>\$2,340,793 07</b>

Regulations approved by P.C. 45/1147, June 16, 1927, pursuant to the Civil Service Superannuation Act, 1924, provide that the contribution by the Government to the Superannuation Fund shall be equal to the amount contributed by employees under the Act. The sum of \$2,340,793.07 is equal to the net current contributions to the fund by such employees in the fiscal year 1943-44.

<b>Vote 55 To provide for retiring allowances to former employees of the Department of Public Printing and Stationery.....</b>	<b>1,110 00</b>
<b>Expenditures.....</b>	<b>\$ 1,085 85</b>

Expenditures are payments of retiring allowances, under P.C. 2146, October 22, 1919, to a number of former employees of the Department of Public Printing and Stationery, such allowances being graded according to age, length of service and salary received. No further retirements may be authorized under the above Order in Council.

<b>Superannuation allowances, Civil Service Superannuation and Retirement Act, c. 17, R.S., 1906.....</b>	<b>\$ 106,511 50</b>
---	----------------------

This represents superannuation allowances paid to civil servants appointed prior to April 1, 1893, and retired under the provisions of the above Act. Payments to those appointed after April 1, 1893, and eligible for superannuation under the above Act, are made from the Open Account bearing the same title (see page F-63).

<b>Retirement Allowances, Public Service Retirement Act, c. 67, 1920.....</b>	<b>\$ 128,124 47</b>
---	----------------------

Under authority of this Act, provision was made for the retirement and payment of allowances, under stipulated conditions, to certain members of the Public Service who were not eligible for annual retiring allowances under the Superannuation and Retirement Act, c. 17, R.S., 1906. Retirements were all effected prior to November 1, 1924, on which date the retirement provisions of the Act expired (c. 69, 1924).

Widows' Annuities, Civil Servants' Widows' Annuities Act, c. 74, 1927.....\$ 71,661 51

This Act provides that the Governor in Council may grant to a widow an annual allowance, payable until death or remarriage, of an amount equal to one-fourth of the allowance her husband received under the Superannuation and Retirement Act, c. 17, R.S., 1906, or would have received if, at the time of his death, he had been retired under the Act.

Retirement Benefits, Royal Canadian Mint Act, c. 48, 1931.....\$ 10,082 94

Payments to former employees of the Royal Mint of the portions of their retirement benefits referable to their services in the Ottawa branch of the Royal Mint were as follows: J. Burke, \$883.44; F. J. Cletheroe, \$1,050; G. V. W. Howard, \$1,657.44; H. S. Low, \$1,104; E. A. Maginnes, \$2,711.05; T. H. Mansell, \$1,140; R. G. J. Pearson, \$804.47; R. C. Roe, \$960.

Refunds by the British Government on account of the portion of the benefits for the year ended March 31, 1945 of F. J. Cletheroe and T. H. Mansell referable to their services in the Royal Mint and amounting to \$54.56 and \$172.90 respectively were credited to this account during the year.

Gratuities to families of deceased employees, Civil Service Act, c. 22, R.S.....\$ 7,850 00

### PUBLIC DEBT CHARGES

Interest on Public Debt, Consolidated Revenue and Audit Act, c. 27, 1931.....\$318,994,820 53

	Treasury Bills .....	142 09
	Deposit Certificates .....	108 00
		<u>\$7,877,686 56</u>

Administrative and promotional expenses in connection with the flotation of various Victory Loans and sales of War Savings Certificates and stamps were incurred by the National War Finance Committee, the establishment of which was approved by P.C. 45, January 7, 1942, as amended. A detailed breakdown of these expenses will be found in Appendix 4 to this section, page F-77.

Additional expenditures on account of the Fourth, Fifth, Sixth and Seventh Victory Loans totalling \$17,879,356.39, were charged to Deferred Charges—Unamortized discounts and commissions on loans (see under Open Accounts further on in this section) to be written off annually over the life of the loans. Of the total, \$5,924,740.47 was paid to canvassers for commissions on bonds sold to persons who were not (a) included on a special names list, (b) classified under "employee subscriptions" or (c) members of the Armed Forces; \$6,784,025 to dealers and brokers, and \$4,836,171.93 to Banks, Trust and Loan Companies as authorized by P.C. 3586, May 15, 1944, and P.C. 8210, October 24, 1944. The balance of \$334,418.99 was the cost of the premium allowed on conversions.

An amount of \$71,867.18 representing profits on the Bond Trading Account was credited against the above expenditures for the Sixth and Seventh Loans.

A At the close of the fiscal year, only a small portion of the expenses in connection with the Eighth Victory Loan had been paid.

B Expenditures on account of Non-Interest Bearing Certificates included payments to the Bank of Canada for postage and sundry printing and stationery.

The following table exhibits details of sales and expenses (excluding premiums and discounts) of the first seven Victory Loans as at March 31, 1945:

Funds made available under the above allotments were used to alleviate an acute shortage of housing accommodation in certain urban areas by the conversion of suitable large dwellings into multiple housing units. The original authorities restricted the estimated expenditures to \$1,500 per dwelling unit, but P.C. 5392 of July 13, 1944, amended this restriction by authorizing an estimated expenditure of not over \$2,000 per unit for units containing more than 1 bedroom.

A As of March 31, 1945, there were 121 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown:

The Wartime Prices and Trade Board was constituted by P.C. 2516, September 3, 1939, under authority of the War Measures Act, 1914 "to provide safeguards under war conditions against any undue enhancement in the prices of food, fuel and other necessities of life, and to ensure an adequate supply and equitable distribution of such commodities." From September 3, 1939, to December 1, 1941, the Board's activities were confined to selective controls of supplies and prices. The overall price ceiling became effective December 1, 1941, under authority of P.C. 8527, November 1, 1941, establishing the "Maximum Prices Regulations" and the powers of the Board to administer the ceiling were broadened by P.C. 8528, November 1, 1941. The "Maximum Rentals Regulations" were authorized by P.C. 8965, and the "Wartime Leasehold Regulations" by P.C. 9029, both dated November 21, 1941. The terms of the "Maximum Prices Regulations" stipulate that the highest price at which any person may sell any goods, or services defined in the regulations, is the highest lawful price at which he sold those goods or services during what is known as the "basic period"—September 15 to October 11, 1941—unless the Wartime Prices and Trade Board has ordered otherwise. To maintain equitable and orderly distribution of goods in short supply, the Board has issued a number of orders to regulate distribution, and administers coupon rationing of various food items. To assist the Board in controlling prices and maintaining supply, four companies wholly owned by the Crown, have been incorporated: Commodity Prices Stabilization Corporation Limited, Wartime Food Corporation Limited, Canadian Wool Board Limited and Wartime Salvage Limited. Assistance is given through payment of subsidies, modification or remission of duties and taxes, and government bulk purchasing when the "squeeze" cannot be absorbed or offset by trade and industry.

As of March 31, 1945, there were 5,235 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown.

		<b>107,337,501 40</b>
<b>Expenditures .....</b>		<b>\$107,337,501 40</b>

P.C. 9870, December 17, 1941, as amended by P.C. 5863, July 7, 1942, authorized the Minister of Finance to cause the incorporation and organization of the Commodity Prices Stabilization Corporation Limited as a Crown company under the Companies Act, 1934, and to execute an agreement with the Corporation authorizing it to perform such duties and to enter into such transactions as the Minister or the Wartime Prices and Trade Board may authorize or direct it to perform for the purpose of assisting the Wartime Prices and Trade Board in controlling prices and maintaining supply of food, fuel and other necessities of life by the payment of subsidies and bulk purchasing in accordance with principles formulated by the Wartime Prices and Trade Board and approved by the Minister. Under the same authority, the Corporation was empowered to carry on its duties and responsibilities through the incorporation and organization of subsidiary companies, and under this provision a subsidiary, Wartime Food Corporation Limited, was established. The Order in Council authorized the Minister, with the approval of Treasury Board, to advance funds for administrative and other expenses of the Corporation. The advances are recorded in Loans and Advances (shown under Open Accounts further on in this section); expenses of the Corporation are met from these advances and, periodically throughout the year, the account is credited and the War allotment debited with such expenses. The advances in the present fiscal year amounted to \$120,000,000 (of which \$116,400,000 was advanced to Commodity Prices Stabilization Corporation, Ltd., and \$3,600,000 to Wartime Food Corporation, Ltd.), while the expenditure charged to War allotment totalled \$107,337,501.40. The difference was debited to the advances outstanding as at March 31, 1944, which balance was increased accordingly.

The expenditures were as follows:

## Allotment: To cover expenditures in connection with Wartime Prices and Trade Board—

Canadian Wool Board Limited.....	500,000 00
Expenditures.....	<u>\$ 340,855 69</u>

P.C. 1835, March 10, 1942, authorized the Minister of Finance to cause the incorporation and organization of the Canadian Wool Board Limited as a Crown company under the provisions of the Companies Act, 1934, and to execute an agreement with the company authorizing it to perform such duties and to enter into such transactions as the Minister or the Wartime Prices and Trade Board may authorize or direct it to perform with respect to the acquisition, conservation and distribution of domestic and foreign wool and related products as may be deemed necessary. Under the same authority the Minister may, with the approval of the Treasury Board, advance funds for administrative and other expenses of the Company. The advances are recorded under Loans and Advances (see Open Accounts—further on in this section); expenses are met from these advances and, periodically throughout the year, the account is credited and the War allotment debited with such expenses. There were no advances made to the Company in the present fiscal year. The above expenditures of \$340,855.69 represent the net loss for the year, and this amount together with cash repayments amounting to \$10,000,000 made by the Company during the year was credited to outstanding advances.

The balance sheet as at March 31, 1945, and operating statements for the present fiscal year as furnished and certified by the Auditor General will be found in Appendix 6 to this section, page F-85.

## Allotment: To cover expenditures in connection with Wartime Prices and Trade Board—

Wartime Salvage Limited.....	6,000 00
Expenditures.....	<u>\$ 5,697 97</u>

P.C. 2530, March 30, 1942, authorized the Minister of Finance to cause the incorporation and organization of Wartime Salvage Limited as a Crown Company under the provisions of the Companies Act, 1934, and to execute an agreement with the company authorizing it to perform such duties and to enter into such transactions as the Minister or the Wartime Prices and Trade Board may authorize or direct it to perform with respect to the acquisition, conservation, salvage and disposition of waste or used matter of all kinds as may be deemed necessary. Under the same authority the Minister may, with approval of the Treasury Board, advance funds for administrative and other expenses of the company. The advances are recorded under Loans and Advances further on in this section; expenses are met from these advances and periodically throughout the year the account is credited and the War allotment debited with such expenses. The above expenditures of \$5,697.97 represent the net loss for the period from April 1 to December 31, 1944, and the amount was credited to outstanding advances. The balance of the outstanding advances was liquidated by refunds made by the Company during the same period. The Company ceased to carry on business on December 31, 1944.

The balance sheet as at December 31, 1944, and operating statements for the period April 1 to December 31, 1944, as furnished and certified by the Auditor General, will be found in Appendix 6 to this section, page F-96.

<b>Allotment: Payments to millers and other manufacturers of wheat products for human consumption to enable them to sell at prices not in excess of the maximum prices during the basic period, September 15 to October 11, 1941.....</b>		<b>19,700,000 00</b>
<b>Expenditures.....</b>		<b>\$19,700,000 00</b>

The above amount represents advances made to the Canadian Wheat Board under authority of P.C. 7319, September 19, 1944, to provide for payments during the 1944-45 crop year.

Cash in current deposits represents the total of the balances at credit of the Receiver General of Canada in the several banks in Canada, London and New York at the close of the relative fiscal years. The negative year end balance in Canada is due mainly to the revenues of the Dominion received during April being credited almost entirely to the new fiscal year while expenditures continued to be charged to the old fiscal year up to and including April 30 pursuant to Section 32 (1) of the Consolidated Revenue and Audit Act. The account was not actually overdrawn at any time.

Cash in special deposits consists of balances in the hands of fiscal agents of the Government for the purchase or redemption of bonds and the payment of interest on the public debt, etc.

A This account relates to the transactions in gold at the Dominion of Canada Assay Office in Vancouver. Gold deposits, which include the silver content of the deposits, are purchased from mining companies and individuals for shipment to the Royal Canadian Mint, this account being debited with the value of the former transactions and credited with the value of the latter. The closing balance represents the statutory value of the gold, including that of the silver content, on hand in the Dominion Assay Office on that date.

B The amount shown as receipts arises from the transfer of gold bullion to the Bank of Canada and sales of fine gold to the public; while disbursements represent (a) payments made by the Royal Canadian Mint for newly-mined gold, old jewelry, dental scrap, etc., and (b) the amount of the net operating profit for the year which was transferred to Revenue—Bullion and Coinage. The closing balance represents the statutory value equivalent to \$20.67+ the ounce fine of the gold on hand at that date.

C Receipts in these accounts represent the face value of all coin issued to the Bank of Canada and in the case of the Silver Purchase Account, the proceeds from the sale of fine silver to the public. Disbursements are (a) the value of all metals purchased for coinage purposes as well as the net value of mutilated coin withdrawn from circulation and (b) the amount of the net operating profit for the year which was transferred to Revenue—Bullion and Coinage. The closing balances represent the cost value of the metals on hand at that date.

A Advances are made to this Board under the provisions of the Exchange Fund Order, 1940, and the War Appropriation Acts to provide capital to carry on its foreign exchange transactions. Disbursements are additional advances made during the year. Interest due to November 1, 1941, at 1 per cent per annum, and amounting to \$5,951,510.21 was received and credited to Revenue—Return on Investments.

B Under authority of P.C. 1835, March 10, 1942, this Government-owned Company was incorporated under the Companies Act for the purpose of buying and selling foreign and domestic wools, fabrics, fibres and commodities and operated under the control of the Wartime Prices and Trade Board. Advances as required were made by the Minister of Finance under authority of the War Appropriation Act and were debited to this account. Current receipts include administrative expenses and losses in trading for the year (which are charged to the War Appropriation) together with refunds, totalling \$10,000,000, on account of advances made to the Company in previous years.

C Under authority of P.C. 9870, December 17, 1941, this Government-owned Corporation was incorporated under the Companies Act and placed under the control of the Wartime Prices and Trade Board. The Corporation buys and sells commodities and subsidizes firms and individuals for the purpose of controlling the prices of goods, ware and merchandise in Canada, and in this connection, the Minister of Finance is

authorized to advance \$10,000,000, further advances being obtained as required under authority of the War Appropriation Act. All advances issued to the Corporation are debited to this account. Each month an adjustment is made, crediting this account and charging the War Appropriation with the subsidies paid, losses on commodity trading and administrative expenses.

Wartime Food Corporation, Limited, is a subsidiary.

- D This Government-owned Company was incorporated under the Companies Act under authority of P.C. 2530, March 30, 1942, and operated under the direction of the Wartime Prices and Trade Board. The Company bought, processed, stored and sold goods such as waste paper, metal, etc. Advances as required were made by the Minister of Finance under authority of the War Appropriation Act and debited to this account. Monthly adjustments were made by charging the War Appropriation and crediting this account with operating deficits and administrative expenses. The balance of advances was refunded during the year, and the Company ceased to carry on business on December 31, 1944.
- E Subsection 3 of Section 10 of the Act prescribes that for any part of the subscription to the capital stock of the Corporation, the Minister of Finance shall pay to the Corporation an equal amount to be credited to capital surplus account. The amount of \$500,000 is equal to the capital investment made during the year (see under Investments further on in this section).
- F This loan was renewed under authority of P.C. 7046 of September 12, 1944 for a period of 1 year from September 1, 1944. Interest at 3 per cent per annum amounting to \$10,500 was received and credited to Revenue—Return on Investments.
- G No further loans were made to the provinces during the year for unemployment or agricultural assistance. Repayment as shown was received from the Province of Saskatchewan while the receipts and disbursements in the case of Alberta represent renewals of \$25,907,000 and repayments of \$19,500. The Province of British Columbia repaid \$66,181.43 and the renewals totalled \$34,533,321.48. Interest amounting to \$2,766,918.15 was received and credited to Revenue—Return on Investments.
- H The loan of \$57,600 to the Province of Saskatchewan authorized by P.C. 4891 of September 17, 1940, to enable the Saskatchewan Power Commission to extend its power and light system to the Bombing and Gunnery School at Dafoe, Saskatchewan, bears interest at  $3\frac{1}{2}$  per cent and is repayable in thirty half-yearly instalments, beginning May 15, 1941. Repayment of principal totalling \$3,840 was received during the year while interest amounting to \$1,579.20 was also received and credited to Revenue—Return on Investments.
- I Advances were made by the Dominion Government to the Province of Saskatchewan for the purchase of seed grain. The receipts represent repayments.
- J Under the Seed Grain Loans Guarantee Act, c. 13, 1938, the Governor in Council may authorize the guarantee of the principal and interest of any loans made by any chartered bank which were guaranteed by the Province of Saskatchewan under the authority of the Municipalities Seed Grain and Supply Act of 1938, of Saskatchewan, the Local Improvement Districts Act, 1936, of Saskatchewan, and any amendments thereto, or any acts passed in substitution therefor for purchasing seed grain and providing other assistance to farmers in connection with seeding operations during the spring of 1938; provided, however, that the liability of the Government of Canada in respect of principal under all guarantees given under this Section shall be limited to \$14,500,000. Section 6 of the Act provides that the Minister of Finance may pay out of any unappropriated moneys in the Consolidated Revenue Fund the amounts necessary to fulfil any guarantee given under the authority of this Act. The disbursements represent payment of \$13,253,329.36 for principal and of \$3,215,523.13 for interest, while receipts are reimbursements received during the year.
- K The disbursements represent advances on loans which were authorized in previous fiscal years under the Municipal Improvements Assistance Act, c. 33, 1938, while the receipts represent repayments. No further loans were authorized during the fiscal year. Interest at a rate of 2 per cent, amounting to \$112,837.37 was received and credited to Revenue—Return on Investments.
- L No payments of principal or interest were received during the year on account of advances made to the Governments of Greece and Roumania in 1919-20 and 1920-21.
- M This credit was established under authority of Section 3 of the War Appropriation Act, 1942 and pursuant to an agreement between Canada and the Union of Soviet Socialist Republics approved by P.C. 7822 of September 1, 1942, for the purchase by Russia of Canadian wheat and flour. Interest at 3 per cent per annum amounting to \$295,013.44 was received and credited to Revenue—Return on Investments.
- N Under authority of the War Appropriation (United Kingdom Financing) Act, 1942, sterling balances held by Canada in an amount equivalent to \$700,000,000 at the exchange rate of \$4.45 to the pound sterling were converted into a Canadian dollar obligation of the Government of the United Kingdom which, under the provisions of the Act, is non-interest-bearing until after the termination of the war. Receipts in this account represent repayments made during the present fiscal year.
- O This account was for the purpose of recording the purchase of \$5,000 Sixth Victory Loan Bonds, to be sold to government officials, etc., in the Northwest Territories and northern Quebec. Bonds for the full amount advanced were sold, the amount of \$62.27, being profit on bond sales, was credited to Revenue—Miscellaneous.
- P This is a non-interest-bearing deposit made by the Dominion under the terms of the agreements providing for the establishment of the bank. The deposit was made in 1930-31.

- Q Disbursements are the Dominion's share of loans made under the National Housing Act, c. 49, 1938, Vote 412, 1944-45 (which provided for further advances not exceeding \$2,000,000) and the National Housing Act, 1944. An amount of \$36,479.57 was advanced under the statutory authority and \$1,076,992 under that of the Vote. Receipts are repayments of such loans as well as those previously made under the Dominion Housing Act, c. 58, 1935. There were no losses reported in the present fiscal year.
- R This amount represents advances to the New Westminster Harbour Commission to assist in the construction and for other purposes connected with the development of the harbour. While these advances are interest-bearing, no interest has been received since July 1, 1941.
- S The amount in this account represents advances to the Saint John Bridge and Railway Extension Company, for the construction of a bridge and rail connections at Saint John, N.B., as authorized by Chapter 26 of the Statutes of 1883. The liability was subsequently assumed by the Canadian Pacific Railway Company. Interest at 4 per cent is received annually and credited to Revenue—Return on Investments.

- A This account records the investment of the Government as the sole owner of the capital stock of the bank which was acquired under authority of the Bank of Canada Act Amendment Act, c. 42, 1938. Of this amount, \$5,000,000 represents the par value of 100,000 shares of capital stock, and the balance of \$920,000 premium paid in respect of the acquisition in 1938 of shares held by the public. Amounts of \$225,000 from dividends and \$18,078,893.71, being the Government's share of the net surplus for the year, were credited to Revenue—Return on Investments.
- B This account records the investment of the Dominion Government in the Central Mortgage Bank. Under the provision of Section 13 of the Central Mortgage Bank Act, 1939, the Minister of Finance was empowered to subscribe for one hundred thousand shares of the capital stock of the bank at par at such times and in such amounts as the Governor in Council might determine. P.C. 1984 of July 27, 1939, authorized the payment by the Minister of two dollars and fifty cents in respect of each one hundred dollar share. Due to the state of war and to the uncertainties regarding the effects which the war might have on its proposed business, the bank remained inoperative during 1944. The net surplus for the calendar year 1944 consisting of earnings on the investment of the capital subscriptions, less expenses incurred, amounted to \$4,414 and was credited to Revenue—Return on Investments.
- C No advances were made to the Canadian Farm Loan Board during the year and amounts totalling \$5,001,146 were credited to these accounts. Capital stock amounting to \$1,146 was written off to Consolidated Deficit Account leaving a debit balance of \$2,243,670 in the capital stock subscription account on March 31, 1944. Canadian Farm Loan Board bonds amounting to \$5,000,000 were redeemed during the year. Interest

amounting to \$910,311.64 was received during the year and credited to Revenue—Return on Investments. Of the total, \$175,000 represented interest on initial capital advances and \$735,311.64 interest at 3½ per cent on Farm Loan Bonds.

No advances for initial capital or subscriptions for capital stock were made during the year under authority of the Canadian Fisherman's Loan Act, c. 52, 1935. Interest of \$725 was received on Initial Capital Advances and credited to Revenue—Return on Investments.

D The Corporation was incorporated under the Exports Credit Insurance Act, c. 39, 1944, to promote the revival of trade by the provision of Dominion Government guarantees to encourage exports from Canada. The disbursements represent the initial subscription for capital stock of the Corporation by the Minister of Finance as authorized by subsection 2 of section 10 of the Act.

E The amount represents the balance still owing by various municipalities for sums advanced from the Treasury of the United Provinces of Upper and Lower Canada, for the purpose of building toll roads in the vicinity of Montreal. Interest at the rate of 6 per cent is received annually and credited to Revenue—Return on Investments.

F This account reflects the operations in securities investments and consists mainly of Dominion of Canada direct and guaranteed securities.

- A This account represents the liability of the Bank of Montreal for the redemption of provincial notes stolen from its branch at St. Catharines in 1869, at the time the Bank was agent for the issue and redemption of these notes for the Receiver General. The original liability was \$46,000. As the stolen notes are presented for payment, the Minister of Finance redeems them at face value and is recouped by the Bank.
- B This account records the sale of United States and sterling funds to the Canadian National Railways. The Government is reimbursed monthly.
- C This account records the net difference between overpayments and underpayments to banks by the Cheque Adjustment Branch. The debit of \$181.62, representing the net difference for the fiscal year 1943-44, was authorized by T.281202B. of April 12, 1945.
- D The entries in this account represent, at statutory values, the receipt and sale of gold by the Bank of Canada acting as fiscal agent of the Dominion.
- F This account records the sale of United States funds to the National Harbours Board (to be used for the redemption of certain interest coupons), and the repayment by the Board to the Dominion.
- G The debits in this account represent the purchase of securities, at the prices at which they were vested by the Government of the United Kingdom. Clearance was subsequently made to the proper accounts.
- H The debits in this account represent overpayments which were made to individuals for the period up to and including March 31, 1944, from the Retirement Fund. The credit of \$49.82 represents reimbursements received during the present fiscal year.
- I The cost of repatriated securities purchased was charged to this account. Clearance was subsequently made to the proper accounts.
- J This amount, which was originally considered as a war donation, was subsequently deemed to have been for the purpose of subscribing to Victory Bonds and War Savings Certificates and was refunded under authority of Vote 477, Supplementary Estimates, 1944-45.
- K Payments to the Bank of Canada to cover cheques which have been received for the purchase of War Savings Certificates and found non-negotiable are debited to this account. It is credited with the amounts involved should such cheques subsequently be made negotiable, or should it become necessary to cancel the relative certificates.

A The Bank Circulation Redemption Fund consists of amounts deposited with the Minister of Finance by the chartered banks to secure the redemption of their outstanding notes, as required by Section 64 of the Bank Act, 1934. Interest at 3 per cent amounting to \$96,483.67 for the fiscal year was allowed on the required deposit of each bank and was charged to Interest on Public Debt.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, there was 1 bond (Surety) for an amount of \$950 held in respect of the Housing Administration.

C This amount represents securities deposited with the Salvage Officer which were still unclaimed when the work of that office was taken over by the War Assets Corporation.

F These accounts reflect the balances of amounts remitted by the liquidators of certain defunct trust and insurance companies and represent unclaimed dividends due the ordinary creditors.

G During the year, moneys held in these accounts for the purpose of redeeming notes still in circulation were paid to the Bank of Canada in accordance with Section 120 of the Bank Act, c. 30, 1944. The closing balances represent unclaimed dividends of the banks' assets due the depositors.

I The balances of these accounts represent the amounts deposited with the Government to meet matured bonds and interest coupons which, for the convenience of investors, have been made payable at the offices of the Assistant Receivers General (and now at the agencies of the Bank of Canada). The receipts represent cash received from the Canadian National Railways while the disbursements were for interest coupons redeemed by the Bank of Canada.

I The fund represents the proceeds from the sale of lands set apart under 12 Vic., 1849, Chapter 200, for the support and maintenance of common schools in Upper and Lower Canada, now Ontario and Quebec. Income from the sales is apportioned to the two provinces on the basis of population. Interest, apportioned on the same basis as the proceeds, is paid semi-annually to the above-named provinces at the rate of 5 per cent per annum and is charged to Interest on Public Debt.

J This account was established under authority of P.C. 144 of January 18, 1936, whereby the amount to be paid into Consolidated Revenue Fund is limited to \$500,000, made up of a Government grant of \$100,000 and deposits by the Trustees of public contributions. Interest on this fund, at 3 per cent per annum, is paid to the Trustees and charged to Interest on Public Debt under the above-mentioned authority. The receipt of \$10,000 in the present fiscal year represents a deposit by the Trustees.

K This represents the unexpended balance of amount received from the liquidators of the Home Bank and the Commissioner under the Home Bank Creditors' Relief Account, to provide for outstanding relief cheques, and to pay any claims of depositors which should have been, but were not, dealt with by the Commissioner.

L The balance in this account represents declared but unpaid dividends of estates, paid to the Receiver General in accordance with the provisions of the Bankruptcy Act.

M This is the balance of a bequest made by the late William Scott, for the benefit of soldiers who served in the 1914-18 war. Payments are made on the application of the Canadian Pension Commission.

A The Civil Service Insurance Fund increased by \$1,017,889.44 during the fiscal year. Receipts consisted of premium revenue amounting to \$373,741.21 and interest of \$1,020,244.35. Disbursements included payment of death benefits, \$332,808.96, payment of cash surrender values, \$41,706.57, and refund of overpaid premiums, \$1,580.59.

B Receipts credited to this fund during the year consisted of premiums, at the rate of 20 cents per \$100 of coverage, amounting to \$64,741.16, and interest at 2½ per cent, \$8,752.80. Disbursements were made to various departments to cover defalcations amounting to \$904.74, and for refund of overpayment of premiums, \$58.43.

C This account is credited with premiums received under the General War Risk Insurance Scheme (War Risk Insurance Act, 1942); the disbursements consist of compensation, indemnities, administration expenses and refunds of overpayments of premiums.

D Under authority of P.C. 10229, November 19, 1942, amended by P.C. 11161, December 8, 1942, a blanket insurance scheme was established for the insurance of grain in commercial storage in Canada and in transit. The premium is obtained by means of a levy, which levy is collected by the Board of Grain Commissioners from elevator operators. Out of this account, in addition to claims, there is paid interest at the rate of four per cent per annum to elevator managers in respect of outstanding advances of the foregoing levy made by such managers on behalf of owners of grain.

E P.C. 2/8917 of September 30, 1942, authorizes that, under the War Risk Insurance Act, c. 35, 1942, and the War Measures Act, c. 206, R.S. 1927, the property of His Majesty in right of the Dominion of Canada be insured against war damage. The receipts represent premiums which are charged to the appropriations of the departments concerned. Should damages arise, the cost will be charged to this account.

F No contributions are now being made under the Civil Service Superannuation and Retirement Act, c. 17, R.S. 1906. Section 19A of the Civil Service Superannuation Act, chap. 34, 1944-45, directs that the balance at the credit of Superannuation No. 2 shall, on the 15th day of August, 1944, be transferred to the Superannuation Account kept under this Act. Disbursements totalling \$9,538.30 were made from this account to August 31, 1944, and the balance of \$1,655,010.66 was then transferred to the Superannuation Account.

G The balance at the credit of the Superannuation Account (previously entitled Civil Service Superannuation Act, 1924) increased by \$11,694,628.13 during the fiscal year. The amount contributed by employees was \$3,503,568.47, that by the Government, \$2,340,793.07 and interest amounting to \$2,701,150.74 was added. Under Sections 17A and 19A of the Civil Service Superannuation Act, c. 34, 1944-45, the amounts of \$7,606,263.07 from the Civil Service Retirement Fund and \$1,655,010.66 from Superannuation Fund No. 2 were transferred to this account. Superannuation payments amounted to \$5,830,404.31, gratuities to \$40,352.49, withdrawal allowances to \$224,834.41 and a payment of \$16,566.67 was made to the Bank of Canada under authority of Section 15 of the Bank of Canada Act.

H The balance of the credit of the Civil Service Retirement Fund decreased by \$5,081,302.71. This is due to the transfer of the amount of \$7,606,263.07 to the Superannuation Account as authorized under Section 17A of the Civil Service Superannuation Act whereby any civil servant who was subject to the provisions of the Retirement Act on the 15th day of August, 1944, is eligible within one year after the said date to become a contributor and to be entitled to all the benefits and privileges of the Superannuation Account. Receipts consisted of deductions from salaries amounting to \$4,898,033.35 and interest of \$650,463.28; disbursements were lump sum payments on retirement or death of contributors, certain adjustments and transfers.

- A The will of the late Ernest Davis, who died on May 12, 1936, provided that the residue of his estate should be paid to the Dominion Government. Receipts during the fiscal year represent further proceeds from this estate. When it is finally wound up, the amount will be transferred to Revenue.
- B Accrued interest collected from those purchasing bonds after the issue date is credited to these accounts and, on first due date, is transferred to Interest on Public Debt.
- C To this account are credited the income tax deductions from employees paid through the Central Pay Office; such deductions are subsequently paid to the Department of National Revenue.
- D Deductions from the salaries and wages of Dominion Government employees paid through Central Pay Office are credited to this account pending payment to the Unemployment Insurance Commission.
- E Deductions from the salaries of employees of the Commission are credited to this account and cheques are drawn against it in favour of the Bank of Canada as the certificates become fully paid.
- F Deductions from the salaries of Dominion Government employees paid by Central Pay Office are credited to this account and cheques are drawn against it in favour of the Bank of Canada as the certificates become fully paid.
- G These accounts were established to record instalment purchases of Victory Loan bonds by employees of the Dominion Government, Crown corporations and other government agencies. Receipts are the instalments, while disbursements are payments to the Bank of Canada for bonds fully subscribed.

A This credit represents the balance of the proceeds from the liquidation of the assets of this Association which was wound up in the fiscal year 1887-88.

B The amounts of remittances which are not immediately classifiable are credited to this account. Upon receipt of the necessary information, clearance is made to the proper accounts.

C Donations received from various sources and designated as non-war contributions are credited to this account and, at the close of the fiscal year, the balance is transferred to Revenue—Special Receipts.

- D These amounts are interim payments from estates which were bequeathed to the Government as a contribution toward the war effort. When the wills have been probated the net proceeds of the estates will be transferred to Revenue—War donations.
- E Unclaimed matured bonds which cannot be delivered are cancelled and the value, including that of any interest coupons, is credited to this account. Disbursements are made to the owners of such bonds upon application.
- F To this account are credited the amounts collected by payroll deductions in connection with two housing loans. This money is being held pending a decision as to its disposal.
- G This is a bond trading account in connection with the furtherance of the sale of Victory Loan bonds generally.
- H Obligations payable in other than Canadian currency, such as those portions of the Funded and Floating Debt payable in London and New York are recorded in the Balance Sheet at par of exchange. Similarly assets held in London and New York such as cash, special deposits, and security investments are shown at \$48½ to the pound sterling and \$1 to the American dollar. In all other transactions, the current market values are used and the difference is adjusted by charging or crediting this account as required. At the close of the fiscal year the excess of disbursements over receipts was charged to Expenditures—Premium, Discount and Exchange.
- The following table shows the transactions, apart from certain adjusting entries, in this account for 1944-45:
- |  |                  |
|--|------------------|
| Expenditure—   |                  |
| Premium paid on gold and on United States funds purchased .....  | 77,425,341 37    |
| Discount on sterling funds sold.....                             | 16,431,878 72    |
| Premium paid on Dominion of Canada sterling securities redeemed— |                  |

|  | 93,860,346 17    |
| Revenue—   |                  |
| Premium received on gold and on United States funds sold .....   | 62,070,922 50    |
| Discount on sterling funds purchased .....                       | 15,441,230 87    |
|  | 77,512,153 37    |
| Net Expenditure .....  | \$ 16,348,192 80 |
- I Amounts deducted from the payments for gold deposited with the Royal Canadian Mint and the Dominion of Canada Assay Office, Vancouver, to cover the costs of packing, insurance, express, etc., on shipments of fine gold out of Canada, are credited to this account, while certain of the actual expenses are debited hereto. For this fiscal year, the total deductions exceeded the expenses charged to this account by \$961,276.87 which was transferred to Revenue—Bullion and Coinage account.
- J The receipts in this account represent payment by the Government of Newfoundland of brokerage charges on coinage minted for it by the Dominion. The disbursements constitute payment by the Dominion to the brokerage firm concerned.
- K A subsidiary of Cash Suspense, dealing with funds relating to salvage and operated separately for accounting convenience.
- L Amount received from the Registrar, British Columbia Admiralty District which had been on deposit in his account for more than twenty years. Payment will be made if a valid claim for the money should be submitted.
- M All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of issue are credited to these accounts.
- N The chartered banks of Canada submit semi-annually to this department lists of outstanding drafts and receipts on Government Account. Certain of these drafts and receipts are credited to this account pending information as to the department or services concerned. Clearance is made upon receipt of such information.
- O To this account is credited the value of War Savings Certificates and Stamps which are returned to the Bank of Canada, War Savings Division, for various reasons. When owners are located or identified, disbursements are made.
- P This represents undelivered cheques issued in favour of canvassers for the 1917, 1918 and 1919 Victory Loans. Full particulars of these cheques are on file in the Finance Department. There have been no claims presented since March 31, 1924.
- Q This account has to do with incomplete subscriptions to the 1917, 1918 and 1919 Victory Loans. On November 29, 1930, the Governor in Council approved the principle of refunding, on application by the subscriber, the amount of any instalment paid.
- R These accounts are similar in purpose to the one described in "Q" above.
- S To this account are credited donations towards the Canadian war effort. At the close of the fiscal year, the credit balance is transferred to Special Receipts.
- T Receipts which cannot immediately be allocated are credited to this account pending clearance to the proper accounts.

The amount of \$2,296,151.87, included as an asset in the Dominion Balance Sheet, consists of amounts due on debt account by the Provinces of Nova Scotia, Prince Edward Island and Quebec.

The amount of \$11,919,968.64, included as a liability, represents the amount of the debt allowances granted to the provinces as a result of the financial settlements of Confederation.

Details of the interest paid and received in connection with these accounts will be found in Appendix 5 to this section, page F-79.

## [15] Reserves for Certain Contingent Liabilities

	Cr. Balance Apr. 1, 1944	Receipts	Disbursements	Cr. Balance Mar. 31, 1945
A Reserve for losses on Wheat Market- ing Guarantees .....	\$ 8,816,210 36	\$ 186,444 58	\$ 9,002,654 94	
B Reserve for possible losses on ul- timate realization of active assets....	\$100,000,000 00	\$ 25,000,000 00		\$125,000,000 00

A This reserve was provided to cover losses in connection with the wheat marketing operations of the Canadian Wheat Board. The opening balance related solely to the liability in respect of the 1939 Crop. Receipts were the amount of accrued bank interest from August 1, 1944 to April 30, 1945 on the deficit on 1939 Crop Account, such amount being charged to Special Expenditures (see page F-27).

Disbursements consisted of (a) a reduction of \$589,360.17 in the reserve as a result of an improvement in the balance sheet position based on operations of the Board calculated as at July 31, 1943 and 1944, a credit of a corresponding amount being shown in Revenues—Special Receipts and Other Credits; and (b) a payment of \$8,413,294.77 to the Board, under authority of P.C. 2955 of April 24, 1945, to enable it to discharge its liability to the lending banks.

B During the year this reserve was increased by a further \$25,000,000, such amount being charged to Expenditures (see page F-54).

## Appendix 6

## GOVERNMENT-OWNED COMPANIES

Government-owned companies formed in connection with the work of the Wartime Prices and Trade Board are:

The Canadian Wool Board Ltd.;

The Commodity Prices Stabilization Corporation Ltd., (with a subsidiary:

Wartime Food Corporation Ltd.); and

Wartime Salvage Ltd.

They were all incorporated under Part I of the Companies Act, 1934, as companies with share capital. The only shares issued—other than in the name of the Minister (of Finance) in trust for His Majesty the King in right of Canada—are directors' qualifying shares, all directors having made assignments in blank of such qualifying shares.

Agreements between the Minister and each of these companies provide, in substance, for:—(1) the performance by the company of such transactions as may be delegated to it by the Minister or the Wartime Prices and Trade Board; (2) the setting up of branch offices or the incorporation and organization of subsidiary companies; (3) the keeping of proper accounts of operations and the rendering of financial statements for each monthly period and for the fiscal year; (4) the Minister to be kept advised of the principles followed in the operation of the business; (5) express consent in writing of the Minister to be obtained for operations other than those necessary or incidental to the carrying out of the agreements; (6) amendments or supplements to the agreements to be approved by the Minister.

The Commodity Prices Stabilization Corporation Ltd., has to do with the control of prices of goods, ware and merchandise in Canada, and the payment of subventions, subsidies, bonuses, etc., in accordance with principles formulated by the Wartime Prices and Trade Board and approved by the Minister. The Canadian Wool Board Ltd. was formed to regulate the acquisition, conservation and distribution of domestic and foreign wool and related products, and to increase the production of wool in Canada by assuring sheep growers a stable market at known prices for all production of wool during the present war and one producing year thereafter. Wartime Salvage Ltd. was organized for the purpose, in co-operation with Dominion Government departments and agencies, of acquiring and disposing of waste or used matter of all kinds and operated independently of salvage work conducted by the Army Salvage and Disposal Board, the Scrap Disposal Branch (Department of Munitions and Supply), the Salvage Officer (Treasury), and the National War Services Department. It ceased to carry on business on December 31, 1944.

Round sum advances to the companies are made at intervals under the authority of the War Appropriation Act. The accounts of the companies are audited by the Auditor General and the balance sheets and operating statements included herein were furnished, and certified, by him.

## COMMODITY PRICES STABILIZATION CORPORATION LIMITED

Ottawa, June 19, 1945.

To the Shareholders,  
Commodity Prices Stabilization Corporation Limited,  
Ottawa, Ontario.

Gentlemen:

In accordance with the requirements of section 4 of Order in Council P.C. 9870 of December 17, 1941, I have audited the accounts of your company to March 31, 1945, and submit herewith the following statements:

Balance Sheet as at March 31, 1945.....	Schedule "A"
Inventory of Commodities as at March 31, 1945.....	Schedule "B"
Statement of Operations for the fiscal year ended March 31, 1945.....	Schedule "C"
Statement of Subsidies Paid for the fiscal year ended March 31, 1945.....	Schedule "D"
Statement of Profit and Loss on Commodity Trading for the fiscal year ended March 31, 1945.....	Schedule "E"
Administrative expenses for the fiscal year ended March 31, 1945.....	Schedule "F"

Subsidies paid by the corporation are subject to adjustment under the provisions of Limitation on Subsidies undertakings and contracts, and, in the case of commodities exported or used as ships' stores, to refund under the Repayment of Subsidy Order. Subsidies paid are also subject, in some instances, to investigation and adjustment by officers of the corporation after payment. Therefore, payments now recorded may not be regarded invariably as final.

Subsidy claims in process, but not approved at March 31, 1945, have not been considered as liabilities of the fiscal year ended that date.

The management has certified that all commodities in inventory at March 31, 1945, were held in warehouse or were in transit at that date. Due to the volume of stock on hand, particularly in the case of tea, it was not possible to reconcile completely the corporation's inventory records with stocks in warehouse at February 28, 1945, as certified by the several warehousemen. No deficiency was noted during the course of the audit. However, some adjustments may be necessary on the final disposal of stocks.

Yours faithfully,

WATSON SELLAR,

*Auditor General.*

## FEDERAL DISTRICT COMMISSION

Ottawa, September 19, 1945.

The Chairman,  
Federal District Commission,  
Ottawa.

Dear Sir,

The receipts and disbursements of the Federal District Commission for the year ended March 31, 1945, have been audited pursuant to the provisions of section 18 of the Federal District Commission Act, c. 55, Statutes 1927, and I submit herewith the following statements:

Receipts and Disbursements of the Federal District Commission for the year ended March 31, 1945.....	Schedule "A"
Investments in Securities and Cash Balances as at March 31, 1945.....	Schedule "B"
Comparison of expenditures during the year ended March 31, 1945, with original and revised estimates approved by the Governor in Council....	Schedule "C"
Balance Sheet as at March 31, 1945.....	Schedule "D".

I have received all the information and explanations I have required and in my opinion, the statement in Schedule "A" annexed hereto is properly drawn up so as to exhibit a true and correct view of the receipts and disbursements of the Commission for the fiscal year ended March 31, 1945.

Vote 63 of 1944-45 granted \$133,500 to the Federal District Commission for the maintenance and improvement of grounds adjoining Government buildings, Ottawa, and improvements to the parkway system under the control of the Commission. Expenditures for Government Grounds totalled \$148,450.57 for 1944-45, of which \$14,950.57 has been charged to Statutory Grant.

As at March 31, 1945, the accounting system and records of the Commission were revised to permit the production of statements of assets and liabilities and of revenues and expenditures. The Balance Sheet as at that date, shown in Schedule "D" annexed hereto, has been submitted by the Commission as the basis on which the new system was inaugurated on April 1, 1945.

It is recommended that consideration be given to the installation and maintenance of a system of stores records for the purpose of controlling the receipt, disposal and custody of supplies and materials, and of facilitating the accurate allocation of costs.

Yours faithfully,

WATSON SELLAR,  
*Auditor General.*

## NATIONAL BATTLEFIELDS COMMISSION

Ottawa, September 21, 1945.

Lt.-Col. L. J. A. Amyot,  
Chairman,  
National Battlefields Commission,  
Battlefields Park,  
Quebec, Quebec.

Dear Sir,

The receipts and disbursements of the National Battlefields Commission for the fiscal year ended March 31, 1945, have been audited pursuant to the provisions of section 14 of the National Battlefields at Quebec Act, c. 57, 1908, and I submit herewith the following statements:

Statement of Receipts and Disbursements for the fiscal year ended March 31, 1945.....	Schedule "A"
Statement of Cash Balances and Investments in Securities, etc., as at March 31, 1945.....	Schedule "B"
Comparison of expenditures for the fiscal year ended March 31, 1945, with estimates approved by the Governor in Council.....	Schedule "C"
Statement of Assets and Liabilities as at March 31, 1945.....	Schedule "D"
Statement of Revenues and Expenditures for the fiscal year ended March 31, 1945.....	Schedule "E".

I have received all the information and explanations I have required, and in my opinion, the statement in Schedule "A" annexed hereto is properly drawn up so as to exhibit a true and correct view of the receipts and disbursements of the Commission for the year ended March 31, 1945.

Certain expenditures, as shown in Schedule "C" annexed hereto were in excess of the estimates for the fiscal year as approved by the Governor in Council by Order in Council P.C. 73/3088 of April 27, 1944, pursuant to the provisions of section 11 of the National Battlefields at Quebec Act.

The statements of assets and liabilities and of revenues and expenditures contained in Schedules "D" and "E" annexed hereto have been submitted by the National Battlefields Commission. Progress has been made in the revision of the accounting records and system to facilitate the production of accurate and comprehensive statements of the operations and affairs of the Commission but further consideration should be given to the valuation of fixed assets as the capital cost of the grading and development of the Battlefields Park is understated. Consideration might also be given to the adequacy of depreciation reserves established in respect of the property and improvements of the Commission.

Yours faithfully,

WATSON SELLAR,  
*Auditor General.*

The Fisheries Research Board Act, c. 31, 1937, provides for the constitution of a Board of fifteen members as follows: two from the Department, two representing the fishing industry on the Atlantic Coast, two representing the fishing industry on the Pacific Coast and nine scientists selected from a list including nominations which may be made by any Canadian university having on its staff scientists engaged in research work in any way bearing upon fishery problems. The duration of office and subsequent appointment are provided for in the Act.

Section 6 of the Act provides that the Board shall have charge of all Dominion fishery research stations in Canada and shall have the conduct and control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

Section 11 of the Act provides that the Board may expend such sums as are necessary for its work from moneys appropriated by Parliament for the work of the Board or from funds received as bequests, donations, etc.

The Board received \$10,384.80 from the following sources: contributions from the Province of British Columbia, \$6,656.70; rent of properties, sales of publications, etc., \$3,728.10.

An amount of \$343.30, due at the close of the fiscal year 1944-45 by the Province of British Columbia, was transferred to the Province of British Columbia Fisheries Research Board of Canada Account under Loans and Advances.

The Treaty between Canada and the United States, ratified by the Northern Pacific Halibut Fishery (Convention) Act, c. 36, 1937, is designed to enable international control for the preservation of the Halibut Fishery of the North Pacific Ocean and the Bering Sea. The Commission is required to make all necessary study and investigation in relation to the Fishery and to regulate fishing.

The Treaty provides that each country appoint two commissioners, and pay the salaries and expenses of its own appointees and one-half the joint expenses incurred by the Commission.

The total disbursements for the year amounted to \$53,561.28, apportioned as follows: Canada, \$26,898.63; United States, \$26,662.65. Of the United States portion, \$1,835.93 has been repaid and, pending collection, the balance of \$21,826.72 was transferred to the Pacific Halibut Treaty Special Account under Loans and Advances.

Canada's portion of the expenditure includes an amount of \$236 covering non-shareable expenses incurred by a Canadian Commissioner.

No salaries were paid to the Canadian Commissioners.

As of March 31, 1945, there were 14 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. The Treaty between Canada and the United States, ratified by the Sockeye Salmon Fisheries (Convention) Act, c. 10, 1930, is designed to enable international control for the preservation of the Sockeye Salmon Fisheries of the Fraser River and waters contiguous thereto. The Commission is required to make all necessary study and investigation in relation to such Fisheries for the purpose of regulating fishing.

The Treaty provides that each country appoint three commissioners and pay the salaries and expenses of its own appointees, and one-half the joint expenses incurred by the Commission.

The total disbursements for the year amounted to \$77,472.98, apportioned as follows: Canada, \$38,838.32; United States, \$38,634.66.

Non-shareable expenses incurred by the Canadian Commissioners amounted to \$200.10.

During the fiscal year, the United States refunded \$4,129.16, and, pending collection, the balance of \$34,505.50 was transferred to the Pacific Salmon Treaty Special Account under Loans and Advances.

As of March 31, 1945, there were 20 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,100 or over on that date or at date of separation follows. Salary rates do not include cost of living bonus. Fishing Bounty—Deep Sea Fisheries Act, c. 74, R.S.....	\$ 158,232 10
--	---------------

Under authority of the Deep Sea Fisheries Act, the Governor in Council may authorize the payment, out of the Consolidated Revenue Fund of Canada, of an annual grant not exceeding one hundred and sixty thousand dollars, to aid in the development of the sea fisheries of Canada, and the encouragement of the building and fitting out of improved fishing vessels, and the improvement of the condition of the fishermen.

Provision was made under the authority of P.C. 1222, dated February 27, 1945, that the sum of \$160,000 be distributed for the year 1944-45 upon the following basis:—

Boats: Fishermen engaged in fishing boats, who shall also have complied with the regulations entitling them to receive bounty shall be paid the sum of \$7.15 each, and the owners of fishing boats shall be paid the sum of \$1 per boat.

**Vessels:** The owners of the vessels entitled to receive bounty shall be paid \$1 per registered ton, provided, however, that the payment to the owner of any one vessel shall not exceed the sum of \$80 and all vessel fishermen entitled to receive bounty shall be paid the sum of \$7.60 each.

The bounty was distributed as shown in the following statement which includes a number of outstanding claims of 1943-44:—

<b>Vote 83 To provide for Canadian share of expenses of the International Pacific Salmon Fisheries Commission to overcome obstructions to the ascent of sockeye salmon at Hell's Gate Canyon, and for investigating and overcoming obstructions to such salmon at other points on the Fraser River Watershed.</b>	
Expenditures	1,000,000 00 93,155 00

Under Article III of the treaty between Canada and the United States for the preservation of the sockeye salmon of the Fraser River System, ratified by the Sockeye Salmon Fisheries (Convention) Act, c. 10, 1930, the Commission is authorized to recommend removing or otherwise overcoming obstructions to the ascent of sockeye salmon, in any of the waters covered by the Convention, where investigation may show such removal of or other action to overcome obstructions to be desirable.

The cost of all work done is to be borne equally by the two Governments, and the above expenditures represent Canada's share. Of the United States' portion, \$19,625.06 has been repaid and, pending collection, the balance of \$73,529.94 was transferred to the Pacific Salmon Treaty (Hell's Gate) Special Account under Loans and Advances.

Canada's share of the expenditures was classified as follows: salaries and wages, \$45,102.71; supplies and materials, \$28,370.09; travelling expenses, \$5,927.78; exchange on U.S. funds, \$3,390.32; sundries, \$10,363.90.

Travelling expenses of \$300 or over were paid to: M. C. Bell (included under Vote 77); C. W. Harris, \$715.92; E. S. Pretious (included under Vote 77).

<b>Vote 84 (and Vote 481, Supplementary Estimates) To provide for the extension of educational work in co-operative producing and selling among fishermen.</b>	
Expenditures	56,000 00 54,033 60

Under P.C. 2991 of April 24, 1944 and P.C. 6851 of September 1, 1944, expenditures were authorized for the extension of educational work among fishermen, to be carried on by educational institutions possessing the necessary facilities, to prepare them for taking part in co-operative production and disposal of their products.

The following allocations were authorized: Saint Francis Xavier University, Antigonish, for the Maritime Provinces, \$39,000; High School of Fisheries of the College of Sainte Anne de la Pocatiere, Quebec, for the Gaspé Peninsula and the north shore of the Gulf of Saint Lawrence, \$12,000; University of British Columbia, Vancouver, for the Province of British Columbia, \$5,000.

Payments were made to: Saint Francis Xavier University, Antigonish, \$37,563.41; College of Sainte Anne de la Pocatiere, Que., \$12,000; University of British Columbia, Vancouver, \$4,470.19.

<b>Vote 482 To provide for improvement of shore facilities for the handling of fisheries products by the erection of a pilot unit fish processing plant or plants, or otherwise, subject to the approval of the Governor in Council.</b>	
Expenditures	250,000 00 nil

No expenditures were made from this vote as the plan for the handling of fisheries products was not sufficiently advanced at the close of the fiscal year.

<b>Vote 483 To provide for Administrative Expenses of the Fisheries Prices Support Act, 1944</b>	
Expenditures	\$ 20,000 00 nil

In view of the prices obtained for fish during the year, it was not found necessary to put the Act in operation, and therefore no expenditures were incurred for administrative expenses.

**Allotment: Payment of War Bonus to crews of Fisheries Protection Vessels and Fisheries**

Patrol Vessels operating in War Zones within dangerous waters.....	20,000 00
Expenditures.....	\$ 16,690 68

P.C. 14/275 of January 13, 1943, authorized the payment of a Special War Bonus to the officers and crews in the Fisheries Protection Service for the periods during which they would be operating in dangerous waters determined as war zones by the Minister. P.C. 71/6181 of August 4, 1943, extended the payment of this special war bonus to the Fisheries Patrol Service.

The expenditures by services and provinces were as follows:—Fisheries Protection Service: British Columbia, \$1,699.72; Fisheries Patrol Service: Nova Scotia, \$1,971.73; Prince Edward Island, \$231.23; New Brunswick, \$1,337.14; British Columbia, \$1,450.86.

<b>Allotment: Salt Fish Export Regulations (Administration).....</b>	<b>18,000 00</b>
<b>Expenditures.....</b>	<b>\$ 17,927 33</b>

On June 18, 1943, Canada signified her adherence to a recommendation of the Combined Food Board of the United Nations which involves a plan for allocating the supplies of salted fish which would be available to the United Nations and friendly neutral countries.

In order to ensure the fulfilment of Canada's obligations in a manner least likely to disturb unduly the salt fish industry, the power to control and direct the export of salted fish was conferred on the Minister of Fisheries by P.C. 6289 of August 6, 1943.

A Salt Fish Advisory Committee was established, the members of which serve without remuneration but are allowed reasonable travelling and living expenses while away from their places of residence on official business.

For the administration of the regulations, the Minister is authorized to appoint, with the approval of the Governor in Council, such employees as may be necessary, to fix their remuneration and to provide the necessary accommodation, stationery, equipment and telephones.

A distribution of expenditures follows: salaries, \$9,908.48; cost of living bonus and other pay-list items, \$719.95; printing and stationery, \$44.69; travelling expenses, \$4,145.25; sundries, \$3,108.96.

As of March 31, 1945, there were 5 salaried employees being paid from this account. B. McInerney was receiving a salary at an annual rate of \$5,500 on that date.

Travelling expenses of \$300 or over were paid to: D. C. Bacon, \$811.31; M. Campbell, \$455.62; C. D. Cann, \$343.13; F. M. Gibaut, \$339; B. McInerney, \$848.47; F. H. Zwicker, \$703.87.

<b>Allotment: To provide for the purchase and transfer of fish to the Greek Government....</b>	<b>172,500 00</b>
<b>Expenditures.....</b>	<b>\$ 172,409 93</b>

To assist in relieving famine and starvation among the people of Greece, the Combined Food Board allocated a quantity of salted fish from Canada and P.C. 27/4729 of June 20, 1944, authorized the purchase and transfer of the salted fish to the Greek Government.

Suppliers receiving \$5,000 or more: Adams & Knickle, Lunenburg, N.S., \$19,057.83; Gorton-Pew (New Brunswick) Ltd., Caraquet, N.B., \$5,787.20; Gulf Fishing & Trading Co., Ltd., Shippegan, N.B., \$5,149.39; W. <b>Allotment: Construction of Fishermen's Floats, Prince Rupert, B.C.....</b>	<b>80,000 00</b>
<b>Expenditures.....</b>	<b>\$ 2,607 16</b>

Due to the exigencies of war, practically no wharf facilities were available at Prince Rupert for use by the fishing fleet and as the major industry of Prince Rupert is that of fishing and large amounts of the fish taken are required for war purposes, the construction of suitable floats, under the direction of the Department of Public Works, for the accommodation of fishing vessels and boats was authorized by P.C. 4807 of June 23, 1944.

A Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. There were no bonds held at the close of 1944-45 in respect of this Department.

B The Atlantic Herring Investigation Committee was established in 1944 by the Governments of Canada, Newfoundland, Nova Scotia, Prince Edward Island, New Brunswick and Quebec. Each participating government contributes assistance on a unit basis and the contributions are credited to this account. Disbursements are made directly from the Open Account and at the close of the fiscal year any credit balance is refunded on a pro rata basis to the contributors.

A This account covered the purchase of canned and frozen fish for the British Ministry of Food through credit arrangements established by the British Government with the Bank of Canada but this procedure was discontinued on September 30, 1943, after which payments for purchases were made through funds provided by the Canadian Mutual Aid Board. The above item covers an adjustment on a claim paid prior to the date mentioned.

B Under authority of Section 4 (1) of the War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, funds were made available to the Department by the Canadian Mutual Aid Board to cover expenditures incurred in supplying canned, frozen and salted fish to the United Nations (other than Canada). Of advances totalling \$21,438,521.45, an amount of \$21,168,321.94, consisting of \$3,184,945.68 from Mutual Aid funds and \$17,983,376.26 cash provided by the United Kingdom, was expended for this purpose and the balance refunded to the Board at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board section of this Report.

Under the provisions of the Department of Insurance Act, c. 45, 1932, the expenditure incurred by the Dominion during each fiscal year in connection with the administration of the Canadian and British Insurance Companies Act, c. 46, 1932, the Foreign Insurance Companies Act, c. 47, 1932, the Loan Companies Act, c. 28, R.S., the Trust Companies Act, c. 29, R.S., the Small Loans Act, c. 23, 1939, and amendments, is assessed against the companies transacting business thereunder, in the proportion which the net premiums in Canada or income of each bears to the total amount of such premiums or income received during the preceding calendar year.

Expenditures for the fiscal year 1943-44 were \$172,463.34. Added to this was \$11,232.51 for estimated rent, char service, lighting and sundries charged to Department of Public Works, Vote 260, thereby increasing the total expenditures to \$183,695.85. Credited against this were: salaries on account of Civil Service Insurance administration, etc., \$6,268.06; work done for other departments, \$6,000; revenue from sale of publications, \$336.25; net penalties received, \$90. These credits total \$12,694.31 and reduce the total amount of expenditure to be assessed against the companies to \$171,001.54, which amount, with 48 cents premium on exchange, equals the total revenue collected from assessments as above.

Net Penalties collected during current year..... 371 00

Gross penalties amounting to \$6,071, including \$1 premium on foreign exchange, were received during 1944-45 from companies which did not file the business statements called for under the

terms of the Acts in the required time. Rebates totalling \$5,700 were subsequently made by the Governor in Council under the provisions of section 33 of the Consolidated Revenue and Audit Act, c. 27, 1931, leaving net penalties of \$371 referred to above.

The Judges Act, c. 105, R.S., directs that the salaries of Judges be a charge to Consolidated Revenue Fund and paid as follows:

Supreme Court of Canada: Chief Justice, \$15,000; 6 puisne Judges, each \$12,000.

Exchequer Court of Canada: President, \$10,000; 1 puisne Judge, \$9,000.

Local Judges in Admiralty of the Exchequer Court, one Judge in each district, Nova Scotia, New Brunswick, Quebec and British Columbia, each \$1,000; Prince Edward Island, \$800; Toronto, \$600.

Nova Scotia: Chief Justice, \$10,000; Judge in Equity and 5 puisne Judges, each, \$9,000; Judge of the Court of Divorce and Matrimonial Causes, \$500; 7 County Court Judges, each, \$5,000.

Prince Edward Island: Chief Justice, \$10,000; 2 assistant Judges, each \$9,000; 3 County Court Judges, each \$5,000.

New Brunswick: Chief Justice of New Brunswick and Chief Justice of the Court of King's Bench Division, each, \$10,000; 2 puisne Judges of the Court of Appeal and 3 puisne Judges of the King's Bench Division, each, \$9,000; Judge of the Court of Divorce and Matrimonial Causes, \$500; 6 County Court Judges, each, \$5,000.

Quebec: Chief Justice, Court of King's Bench and Chief Justice of Superior Court, each, \$10,000; the puisne Judge of the Superior Court appointed to perform duties of the Chief Justice in the district as constituted for the Court of King's Bench (sitting in Appeal), within which the Chief Justice does not reside, \$10,000; 11 puisne Judges of the Court of King's Bench and 35 puisne Judges of the Superior Court, each, \$9,000; Circuit Court, Senior Judge, \$8,000; 3 Judges, each, \$7,000.

Ontario: Chief Justice of Ontario and Chief Justice of High Court, each, \$10,000; 7 Justices of Appeal, each, \$9,000; 12 Justices of the High Court, each, \$9,000; 75 Judges and Junior Judges, each, \$5,000.

Manitoba: Chief Justice of the Court of Appeal and Chief Justice of the Court of King's Bench, each, \$10,000; 4 puisne Judges of the Court of Appeal and 5 puisne Judges of the Court of King's Bench, each, \$9,000; 9 County Court Judges and 1 Junior County Court Judge, each, \$5,000.

Saskatchewan: Chief Justice of Saskatchewan and Chief Justice of the Court of King's Bench, each, \$10,000; 4 puisne Judges of the Court of Appeal and 6 puisne Judges of the Court of King's Bench, each, \$9,000; 18 District Court Judges, each, \$5,000.

Alberta: Chief Justice of Alberta and Chief Justice of the Trial Division, each, \$10,000; 4 Justices of Appeal and 5 Justices of the Supreme Court, each, \$9,000; 12 District Court Judges, each, \$5,000.

British Columbia: Chief Justice of the Court of Appeal and Chief Justice of the Supreme Court, each, \$10,000; 4 Justices of Appeal and 5 puisne Judges of the Supreme Court, each, \$9,000; 14 Judges and Junior Judges of the County Courts, each, \$5,000.

Section 21 of the Judges Act provides for, in addition to his moving or transportation expenses, a per diem allowance of \$10 in cities and \$6 elsewhere, to a Judge of the Exchequer, Superior or County Courts during periods he is attending at any place other than that at which he is, by law, obligated to reside. The per diem allowance is paid for each day or part of a day a judge is absent from his lawful place of residence. Travelling expenses of Judges of the Exchequer Court of Canada, amounting to \$2,211.43, were charged to Vote 94.

Each Judge of a District Court in Ontario by Section 22, subsection 4 of the Judges Act receives \$500 per annum as a travelling allowance, and such payments in 1944-45 were made to 11 judges.

Section 21 of the Judges Act states that the travel allowance to a Superior Court Judge shall be "in addition to his moving or transportation expenses". However, this does not apply to Judges travelling between Quebec and Montreal who are paid on a basis of \$25 per trip for transportation expenses, nor to Judges travelling between Vancouver and Victoria who are paid on a basis of \$15.

	<u>\$5,375,150 00</u>	<u>\$5,375,150 00</u>	<u>\$5,112,626 95</u>

During the fiscal year 1944-45, the Unemployment Insurance Commission continued to administer certain phases of the National Selective Service program. Although the additional expenses incurred in carrying out this program were properly a charge to an allotment from the War Appropriation, it was found impossible to segregate the expenses as between Unemployment Insurance and National Selective Service activities because—(i) a considerable part of National Selective Service work would have been undertaken in the ordinary placement of workers; (ii) staff were engaged on both classes of work and did not devote their time exclusively to one or the other; and (iii) many of the new National Selective Service offices were operated by trained staff of the Unemployment Insurance Commission. In view of these circumstances, expenditures that were solely due to National Selective Service activities or to the work of the Unemployment Insurance Commission were charged accordingly and the remainder of the expenditures was charged originally to this vote and subsequently divided pro-rata between the two services; and the following details relate to both expenditures from this vote and the war allotment.

As of March 31, 1945, there were 6,392 salaried employees being paid from this vote and from the war allotment for National Selective Service. Those receiving salaries at annual rates of \$2,400 or over on that date, or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown.

†Transferred to War Allotment.

‡Travelling expenses paid all or in part from other accounts.

The following employees receiving salaries at annual rates of \$2,400 or over were receiving living allowances as at March 31, 1945, or date of discontinuance, at rates listed: N. F. Newton, \$600 (Dec. 16); E. V. Whiting, \$480.

During the fiscal year minor overpayments of salaries occurred, due, in practically all cases, to the fact that the necessary information with respect to the separation did not reach Treasury in time for the adjustment to be made. The Administration is endeavouring to secure repayment.

The following employees, whose salary rates were under \$2,400 on that date, were paid travelling expenses of \$300 or over: M. Ainslee, \$360.41; B. L. Albert, \$899.30; L. Albright, \$774.68; E. C. Anderson, \$345.11; H. Andrews, \$693; R. G. Annand, \$327.29; E. Arbour, \$410.94; H. C. Archambault, \$472.47; F. T. Armstrong, \$593.63; W. M. Ballantyne, \$790.97; P. O. Balhazar, \$375.85; J. E. <b>Vote 110 To provide for Relief Projects (undischarged commitments).....</b>	<b>100,000 00</b>
<b>Expenditures.....</b>	<b>\$ 27,840 50</b>

---

Under the provisions of the Relief Act, 1932, agreements were entered into with the Provinces, except Prince Edward Island, for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of material aid by placing such families on the land. Renewal agreements under the Relief Acts of 1934, 1936 and 1940, provided for continuity of settlement made under former agreements and also for additional placement of families. In organized municipalities, the Dominion, Province and Municipality concerned each contributes one-third of the maximum amount provided under the agreements. In unorganized municipalities, the Dominion and the Province share equally in the expenditures.

The following amounts were paid to the Provinces: Quebec, \$27,488.87; Manitoba, \$351.63.

Payments were made to the provinces as follows: Quebec, \$29,481.70; Ontario, \$121,258.56.

<b>Allotment: Transportation expenses of Members of the Armed Forces who have been granted harvest leave.....</b> <b>Expenditures.....</b>	<b>240,000 00</b> <b>\$ 226,993 55</b>
---	---

P.C. 96/7505, September 27, 1944, and P.C. 40/9555, December 23, 1944, authorized this allotment to pay the cost of transporting to their places of employment members of the Armed Forces granted harvest leave in connection with the program for Assistance to the Provinces in Recruiting, Transporting and Placing Workers on farms.

Payments amounting to \$162,293.14 were made to transportation companies by the Department of National Defence—Army Services on a recoverable basis from the Department of Labour.

By an arrangement between the aforesaid Departments, certain designated personnel of the Armed Forces were granted up to 60 days harvest leave without pay or allowances, the cost of transportation to be borne by the soldier. In such cases, the soldier was reimbursed by the Department of Labour direct, upon submission of a claim for reimbursement signed by the claimant and duly certified by his Commanding Officer. Payments under this section amounted to \$64,700.41.

Under Dominion-Provincial Agreements to assist the provinces in the more effective organization of manpower in agriculture or other closely associated industries, the provinces agree to reimburse the Dominion for fifty per cent of the cost of transporting members of the armed forces within the province. Payments of Dominion claims received from the provinces are credited to this account.

<b>Allotment: Assistance to the Provinces in Recruiting and Placing Labourers on farms. . . . .</b>	<b>500,000 00</b>
<b>Expenditures. . . . .</b>	<b>\$ 482,435 40</b>

Under the terms of P.C. 3620, May 4, 1943, and P.C. 3492, May 12, 1944, the Dominion entered into agreements with the provinces by which the Provincial Governments would be reimbursed fifty per cent of the costs in recruiting farm labourers, male or female, and transporting and placing them on farms within the province.

Payments to the provinces were made as follows: Prince Edward Island, \$3,512.90; Nova Scotia, \$14,999.13; New Brunswick, \$6,577.36; Quebec, \$20,890.54; Ontario, \$161,594.99; Manitoba, \$30,902.58; Saskatchewan, \$89,475.87; Alberta, \$70,330.19; British Columbia, \$60,625.85.

P.C. 3492, further provided that the Dominion pay the costs of general publicity to include newspaper and radio advertising, printing and mailing of circulars, posters, letters, etc., and the production and distribution of films, as deemed necessary for the successful operation of the farm labour program. Payments under this section amounted to \$23,525.99.

Suppliers receiving \$5,000 or more: Dominion Government, National Film Board, \$6,974.91; R. C. Smith & Son, Limited, Toronto, \$10,904.52.

<b>Allotment: Assistance to the Provinces in transporting labourers to Farms. . . . .</b>	<b>475,000 00</b>
<b>Expenditures. . . . .</b>	<b>\$ 333,936 39</b>

Under the terms of P.C. 3620, May 4, 1943, P.C. 3492, May 12, 1944, and P.C. 40/9555, December 28, 1944, the Dominion assumed the cost of transporting farm workers from one province to another, in order that they would be available for employment where most urgently required. Included in the expenditures is the cost of transporting 801 Western farm workers proceeding to Eastern Canada to assist in the harvest and 6,477 Eastern farm workers and university students proceeding to Western Canada for the same purpose. The full cost of the special harvest excursion fares was paid by the Dominion in the first instance, but a part of this cost was later refunded by the railways in accordance with their agreement to refund to the Dominion moneys realized from fares sold to labourers returning to the East at \$10 each and to the West at \$5 each.

Also included in the above amount is \$8.86, being refundable expenditures made on behalf of the Province of Nova Scotia and the Province of Quebec.

<b>Allotment: Expenses in connection with General Labour Transference in War Industries and Agriculture. . . . .</b>	<b>500,000 00</b>
<b>Expenditures. . . . .</b>	<b>\$ 491,249 27</b>

Under the National Selective Service Civilian Regulations, established by P.C. 246, January 19, 1943, as amended, the Dominion assumed the cost of moving workers needed to meet the demands of war industries and agriculture in cases where a sufficient supply of labour was not available locally.

Under the regulations, the cost of transportation of workers, their dependents and effects to and from such places of employment is advanced by the Dominion. If the worker remains in the employment for the period he was directed to remain or if, for reasons beyond his control, he was unable to enter it, he is deemed to have repaid the full amount of the advance. Otherwise, his indebtedness is reduced by \$5 for each week he remains in the new employment and the balance is repayable. Such advances may be paid to transportation companies rather than to the worker direct. The worker is also paid at the rate of forty cents per hour on the basis of an eight-hour day and six-day week during the time spent in travelling or during any period when he is requested to hold himself available for referral to employment.

In some instances, the Dominion pays the total transportation expenses. This includes expenses of alternative service workers, workers going to the Queen Charlotte Islands, and expenses, as far as the British Columbia border, for workers on the Prince Rupert Highway. Advances are also made to transportation companies for transportation of workers which are, by agreement, repayable by employers.

Advances may be made to defray living expenses during the first week of employment and to enable the purchase of the necessary work clothing, the maximum amount in each case having been set at \$15. These advances are recoverable from the first salary or wages earned.

At the discretion of the minister, supplementary weekly wage allowances of \$5 each and supplementary weekly separation allowances of \$7.50 each (the latter having been amended by P.C. 2454 of May 26, 1944, from \$5 each) may be paid either to the employee or to the employer on his behalf.

The expenditures comprise payments made on behalf of employees, \$476,288.26, and employers, \$14,961.01.

<b>Allotment: Army Labour Annual Revolving Fund.....</b>	<b>400,000 00</b>
<b>Expenditures.....</b>	<b>\$ 385,190 46</b>

P.C. 6434, August 13, 1943, authorized a program for the use of the Armed Forces of Canada to provide for emergency farm labour needs throughout Canada.

An allotment was made from the War Appropriation to provide working capital for financing, by means of an annual revolving fund.

The expenditures represent payments to the Department of National Defence—Army Services for the costs of transportation, other travelling expenses and work clothing supplied to members of the armed forces who were granted farm leave on compassionate grounds, or were detailed for farm service, also the costs of transportation and travelling expenses of officers and other ranks detailed to assist in the maintenance of discipline.

Receipts from farmer-employers for the services of members of the armed forces assigned for farm service were credited to this account pending the submission of claims by the Department of National Defence—Army Services for the recovery of such amounts.

<b>Allotment: Prisoners of War Labour Projects Annual Revolving Fund.....</b>	<b>\$ 1 00</b>
<b>Expenditures.....</b>	<b>nil</b>

P.C. 2326, May 10, 1943, and other related Orders in Council (subsequently revoked and consolidated by P.C. 6495, August 18, 1944), authorized a program to utilize the services of prisoners of war in agriculture and other labour.

An allotment of \$225,000 was provided as working capital which, being in excess of requirements, was later reduced to the nominal sum of \$1. At the end of the fiscal year, the position of the fund, which was operated as an annual revolving account, showed an excess of moneys paid in over moneys paid out to the extent of \$625,681.91, which amount was transferred to Special Receipts, Cash Surplus from Operations.

A statement of receipts and payments for the year ended March 31, 1945 follows.

Allotment: Japanese Wood Projects Annual Revolving Fund.....	\$	1 00
Expenditures.....		nil

P.C. 4365, May 28, 1943, authorized an undertaking to utilize the services of employable persons of the Japanese race for wood fuel cutting and timber operations.

An allotment of \$250,000 was provided as working capital which, being in excess of requirements, was later reduced to the nominal sum of \$1.

At the end of the fiscal year, the position of the fund, which was operated as an annual revolving account, showed an excess of moneys paid in over moneys paid out to the extent of \$12,787.52 which amount was transferred to Special Receipts, Cash Surplus from Operations.

The following is a statement of receipts and payments for the year ended March 31, 1945.

A distribution of expenditures follows: travelling and living expenses, \$2,759.05; indemnities, \$16,900.

## HOUSE OF COMMONS

<b>Allotment: Accountable advance to the Empire Parliamentary Association (Canadian Branch)</b> .....		<b>2,400 00</b>
<b>Expenditures</b> .....		<b>\$ 2,400 00</b>

Expenditures represent advances to the members of a delegation from the Association consisting of three Members of Parliament and a Member of the Senate who proceeded to Australia in 1943-44. At the close of that fiscal year, the current allotment was reduced by the above amount, an allotment obtained from the War Appropriation, 1944, and the outstanding advances transferred thereto as it was anticipated that an accounting would be received. However, it has been established that the travelling expenses of the members of the delegation were greatly in excess of the amounts advanced, and consequently it is impractical to furnish itemized accounts making up the exact amounts of such advances. The administrative direction is therefore that such advances should be regarded as contributions toward the expenses of members of the delegation.

<b>Allotment: To provide for actual travelling and living expenses of each Member of the House of Commons who attended that part of the present Session which commenced on November 22, 1944, and also to provide for payment of \$20 per day additional Sessional indemnity to such Member for each day's attendance at such Session, in accordance with the terms and conditions of Order in Council P.C. 33/9555 of December 28, 1944</b> .....		<b>75,100 00</b>
<b>Expenditures</b> .....		<b>\$ 73,964 78</b>

Payments were made as follows: travelling and living expenses, \$7,704.78; indemnities, \$66,260.

This vote provides for the expenses of the Dominion Water Power Bureaux throughout the Dominion, including hydrometric measurements, international water flow data, and the administration of the Water Power and Irrigation Acts.

The Dominion receives contributions from the Provinces towards the costs of water power investigations. The amounts received during this fiscal year, totalling \$33,068, were deposited to revenue—see revenue section hereof.

As of March 31, 1945, there were 64 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Date of separation is shown in parenthesis and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown.

Treasury Board authorized the change in the Primary Allotments from the form set out in the Estimates Details, as, in the opinion of the Department, circumstances rendered it desirable that the vote should be administered and controlled by the specific services indicated by the Special Committee of Parliament at the time the vote was first provided.

During the Session of 1926-27, a Special Committee of the Senate and House of Commons dealt with matters pertaining to Indians, more particularly the policy adopted in the early days of paying annuities to individual Indians. Upon consideration of the changed conditions throughout the country, the Committee found that the need and usefulness of such per capita payments to Indians in British Columbia would be negligible and recommended that, in lieu of payments to them such as are allowed in other provinces, a sum of \$100,000 should be expended annually on technical education, provision of hospitals and medical attendance, in the promotion of agriculture, stock-raising and fruit culture; and in the development of irrigation projects. The Committee concluded that the said purposes would seem to be far more applicable to the Indians in their present condition than the payment of any per capita amount.

The recommendation of the Committee was approved by Parliament at the 1926-27 Session.

A As of March 31, 1945, there was 1 salaried employee being paid from this account. H. E. Gerry received travelling expenses of \$669.90. Payments totalling \$39,445.50 were made to various hospitals, and St. Paul's, Vancouver, received \$10,897.15 of this amount.

B A distribution of expenditures follows: farm equipment, maintenance and live stock, \$8,219.39; improvements, clearing land, etc., \$5,731.58; seed and fertilizer, \$15,388.03; sundry, \$564.08.

C Expenditures in the various agencies, including \$2,000 salary and \$636.05 travel for W. C. Warren (listed in details under Vote 148) follow: Kamloops, \$3,068.62; Kootenay, \$721.61; Lytton, \$5,081.30; Nicola, \$149.15; Okanagan, \$3,000.06; Williams Lake, \$69.74; generally, \$4,124.96.

D Ten residential schools received a total of \$7,430 for the services of manual training instructors. The remainder was expended in the purchase of educational equipment and supplies.

A Receipts consist of collections of principal and the disbursements are the payments to provinces of 50 per cent share of collections in accordance with agreements.

The balance as at March 31, 1945, represents that portion of the principal outstanding on seed grain and relief advances issued prior to 1926, which is considered as an Active Asset (see page M-50 for status of advances regarded as Non-Active Assets).

B This account is operated under the authority of Section 945 of the Indian Act. Under the Act, the Superintendent General is empowered to make loans to Indian Bands, groups of Indians or individual Indians, under regulations established by the Governor in Council. The purpose is to render assistance in agricultural and handicraft pursuits. The loans outstanding may at no time exceed \$350,000.

Interest collections of \$6,697.26 and covering the period from January 1, 1939 to March 31, 1945, are shown in Indian Affairs revenue as Return on Investments.

C This account represents the outstanding balance of the Canadian Government's share of passage loans furnished to migrants under the Empire Settlement Act 1922, on a shareable basis with the United Kingdom. As the scheme is now terminated, the 1944-1945 transactions consist only of repayments by the individuals to the Dominion Government and reimbursement of the Government of the United Kingdom for its share of these repayments.

A Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Department of Mines and Resources amounted to \$437,500.

- B This account is maintained for W. M. Cory, Solicitor in the Department, who is Public Administrator and Official Guardian for the Districts of Franklin and Keewatin, Northwest Territories.
- C This fund was created under authority of the Land Titles Act c. 118, R.S., to indemnify title holders who have suffered loss because of mis-descriptions in titles, and from other causes specified in the Act. Fees are collected from the parties who register deeds with the Registrars of Land Titles in the Northwest Territories and the Yukon. Interest is added to the fund annually, the present rate being 3 per cent. The receipts consisted of fees, \$144.95, and interest, \$573.33. Over a long period of years, no claims for compensation have been paid from the fund.
- D Net revenues from the sale of liquor in the Northwest Territories is credited to this account and disbursements are made for territorial purposes in accordance with the Territorial Liquor Ordinance of April 27, 1939, as amended. The Province of Saskatchewan acts as territorial liquor agent and operates stores at Fort Smith and Yellowknife. After deduction of certain agreed costs, the net receipts are forwarded to the Receiver General. Receipts are: liquor profits, Fort Smith store, \$32,988.13; liquor profits, Yellowknife store, \$36,401.66; fines, \$695. Disbursements are: grant for road-building, \$5,000; travelling expenses, \$3,701.15; purchase of fire-fighting equipment, \$3,524.38; services of geographers, \$3,223.93; allowances, \$480; miscellaneous payments, \$387.91.
- E Funds advanced by the Calgary Power Company for payment of fees and expenses of a consulting engineer, a landscape consultant and an inspecting engineer, in connection with construction and operation of a dam for the storage of a limited amount of the waters of the Cascade River and Devil's Creek in Lake Minnewanka (P.C. 7382 of December 13, 1940) were credited to this account.
- F The sum of \$25,000 was advanced by the Provinces of New Brunswick, Nova Scotia and Prince Edward Island jointly, and an equal amount was provided by the Dominion Government, as represented by the Department (see page M-48), and credited to this account, to meet expenditures incurred in connection with the investigation by H. G. Acres and Company, Niagara Falls, Ont., of tidal power possibilities of the Bay of Fundy at the confluence of the Petitcodiac and Memramcook Rivers in the Province of New Brunswick, in accordance with the terms of P.C. 5346 of July 13, 1944. Disbursements represent payments to the above company.
- G The Indian Trust Funds represent moneys belonging to the Indian Bands throughout Canada. Receipts cover: earned interest, land rentals, land sales, mining dues, timber royalties, oil land rentals and fines, and a grant of \$8,000 from the statutory vote, Indian Annuities to assist in the payment of the Robinson Treaty annuities. Disbursements comprise capital and interest distribution, improvements to Indian Reserves, upkeep of Band property and general assistance to Indians.

## GENERAL COMMENTS

During the year, certain powers, duties and functions vested in the Minister of Munitions and Supply were transferred by P.C. 7995 of October 13, 1944 (supplemented by P.C. 8368 of October 30, 1944) to the Minister of Reconstruction. Included in such transfer were the powers, duties and functions in respect of the disposal and allocation of war materials and other assets no longer required in the prosecution of the war, either through the Crown Assets Allocation Committee or War Assets Corporation.

Therefore, when the Department of Munitions and Supply transfers surplus assets to the Department of Reconstruction, it clears its records (at cost) and is relieved of subsequent responsibility, both accounting and otherwise.

In reporting expenditures chargeable to this Department, consideration has been given to agreements between the Minister of Munitions and Supply and the Governments of the United Kingdom and of the United States with respect to refraining from the publication of information which might be of value to the enemy.

Because of the nature of the expenditures made from year to year, it is felt that the cumulative picture is of equal, and perhaps of more, importance than the current one. Since the appropriation and allotment accounts deal only with the current situation, a balance sheet presentation has been included (see page MA—16) which summarizes the expenditures from commencement of the war to March 31, 1945. It will be noted, though, that certain aspects of the information contained in the supporting schedules thereto supplement the details given in the appropriation and allotment accounts.

During the year, certain adjustments were made in the accounts to include the Deficits, Surpluses and Reserves of the various Crown Companies and Crown Plants—Government Operated. Since their final statements were not received until after the date upon which the books of the Dominion were closed for the fiscal year 1944-45, these adjustments were based on information appearing in the latest Interim Financial Statements previously submitted by the respective Plants.

There are five Appendices attached to this Section, commencing at page MA—15. The first contains the departmental balance sheet and supporting schedules; the second, list of certain salaries and travelling expenses of Departmental staff; the third, lists of payments and receipts of \$10,000 or over; the fourth, balance sheets and operating statements, certified by the Auditor General of Canada, of Crown Companies operated under agreements with the Minister; the fifth, balance sheets and operating statements of the Dominion Arsenals at Lindsay and Quebec.

### INVESTMENT IN PLANT AND EQUIPMENT

Expenditures under this heading are for plant extensions and alterations, construction of new buildings, purchase and installation of machinery, equipment and tools, construction of fitting-out berths, etc., to enable the production of munitions, weapons, and other war supplies including airplanes and ships. Such expenditures are carried on the Department of Munitions and Supply Balance Sheet under a similar heading, see page MA-16.

<b>Sub-Allotment: Crown Companies</b> .....	<b>145,426,992 96</b>
<b>Expenditures</b> .....	<b>\$145,426,992 96</b>

The above expenditures were made in connection with the acquisition and construction of plant and equipment for these companies. Generally speaking, accountable advances to these companies were made available by way of bank overdraft, clearance being given upon receipt of properly certified periodic accounting returns.

For details of current expenditures, see Schedule A to the Department of Munitions and Supply Balance Sheet, page MA-17.

<b>Sub-Allotment: Crown Plants—Government-operated.....</b>	<b>949,055 50</b>
<b>Expenditures.....</b>	<b>\$ 949,055 50</b>

The above expenditures were made direct by the Department of Munitions and Supply in connection with the acquisition and construction of plant and equipment required for these crown plants.

For details of current expenditures, see Schedule B to the Department of Munitions and Supply Balance Sheet, page MA—18.

---

<b>Sub-Allotments: Crown Plants—Privately Managed.....</b>	<b>13,410,745 85</b>
<b>Expenditures.....</b>	<b>\$13,410,745 85</b>

The above expenditures were made in connection with the acquisition and construction of plant and equipment for these companies. Generally speaking, accountable advances were made to these companies by reimbursement of bank overdrafts authorized by P.C. 3542, dated May 4, 1943, clearance being given upon receipt of properly certified periodic accounting returns. In the main, all machinery and equipment was supplied through Citadel Merchandising Co., Ltd.

For details of current expenditures see Schedule C to the Department of Munitions and Supply Balance Sheet, page MA—19.

There were certain direct expenditures, and from these, payments of \$10,000 or over were made to the suppliers and contractors as per list exhibited in Appendix 3.

---

<b>Sub-Allotment: Crown Assets in Private Contractors' Plants.....</b>	<b>6,319,294 69</b>
<b>Expenditures.....</b>	<b>\$6,319,294 69</b>

The above expenditures were, with the exception noted, made direct by the Department of Munitions and Supply in connection with the acquisition of plant extensions, machinery and equipment for these companies. In the main, all machinery and equipment was supplied through Citadel Merchandising Co., Ltd.

For details of current expenditures, see Schedule D to the Department of Munitions and Supply Balance Sheet, page MA—22.

A list of suppliers and contractors receiving \$10,000 or more is exhibited in Appendix 3.

---

<b>Sub-Allotment: Miscellaneous Property Acquired.....</b>	<b>2,836,662 82</b>
<b>Expenditures.....</b>	<b>\$2,836,662 82</b>

The above expenditures were made direct by the Department of Munitions and Supply in connection with the acquisition and construction of miscellaneous assets.

For details of current expenditure see Schedule E to the Department of Munitions and Supply Balance Sheet, page MA—34.

A list of suppliers and contractors receiving \$10,000 or more is exhibited in Appendix 3.

---

<b>Sub-Allotment: Acquisition of United Kingdom Assets.....</b>	<b>1,963,965 85</b>
<b>Expenditures.....</b>	<b>\$1,963,965 85</b>

This expenditure represents the final payment made to the United Kingdom Government. Acquisition was authorized by P.C. 1569, March 1, 1943, and the value of these assets has since been established at \$206,963,965.85. Payments amounting to \$205,000,000 were made in previous fiscal years.

## INVESTMENT IN PRODUCTION ASSETS

Expenditures under this heading have to do with the provision of working capital to government-owned and pre-financed companies to enable them to manufacture munitions, weapons and other war supplies including airplanes and ships, and also for the acquisition of special stores required for war purposes. Such expenditures are carried on the Department of Munitions and Supply Balance Sheet under a similar heading, see page MA-16.

Sub-Allotment: Munitions Production Allotment Fund..... nil

During the year an allotment of \$100,000,000 was made but was later cancelled as current receipts from sales exceeded current advances for working capital. For the fiscal year, the total receipts exceeded payments by \$206,145,654.74. This amount was transferred to Special Receipts, and the working funds were affected as follows:

Munitions Production (Pool).....	131,587,972 61 Cr.
A General (Munitions).....	62,665,999 72 Cr.
Aircraft Production.....	25,565,145 09 Cr.
Ship Production.....	25,463,145 61
Miscellaneous Stores.....	11,789,682 93 Cr.
	<u>\$206,145,654 74 Cr.</u>

Receipt and payments of \$10,000 or over are listed in Appendix 3.

Details are shown on Schedules G-1 to G-6 (incl.), Appendix 1, page MA-38; balance sheets and operating statements of Crown Companies are shown in Appendix 4, page MA-82, and Dominion Arsenals in Appendix 5, page MA-171.

## A Included under this heading are:

(i) Refund of \$521,517.07 received from the Department of Mines and Resources, which operates a plant at Renfrew, Ont. No financial statement has been received covering operations for the current fiscal year; particulars of the refund are as follows:

\*The difference between this balance and that at the commencement of the year represents a decrease of \$96,785,367.86. The footnotes on schedules to the Department of Munitions and Supply balance sheet show the various balances making up this decrease as follows: A—\$1,920,011.85 Dr; C—\$41,524.28 Dr; F—\$73,552,666.26 Cr; G-1—\$10,951,275.40 Cr; G-2—\$14,242,962.33 Cr; Total—\$96,785,367.86 Cr.

A These accounts are maintained in connection with loans and advances made to these companies for the acquisition, storage and disposal of certain commodities; for extension to plants; and for working capital and other like purposes.

A-1 This company acts as agent of the Department and makes loans to Atlas Steels Ltd. (Contractor) for working capital purposes. These loans bear interest at 4 per cent per annum and are to be repaid within one year after cessation of hostilities or termination of agreement.

B These accounts are maintained in connection with disbursements, made on a recoverable basis for the United Kingdom and other Allied Governments under the authority of section 3, War Appropriation Act, 1944.

C These accounts are maintained in connection with loans and advances to various companies for working capital and other purposes.

C-1 The closing balance comprises two items: the first is the asset value of property disposed of under lease-purchase option agreement amounting to \$6,706,587.14; the second a loan amounting to \$1,989,312.93 to be repaid by January 1, 1962. Annual instalments are to be made on the latter, the amounts of which are to be based on operating results and extra payments may be made if desired.

C-2 This is asset value of property disposed of under lease-purchase option agreement.

C-3 This consists of two loans, the balances at March 31, 1945, being \$2,370,907.90 and \$1,731,405.26 respectively. The first loan is to be repaid by November 30, 1952; instalments are due quarterly and interest at 5 per cent per annum is assessed on arrears. During the current fiscal year a total of \$296,875 was repaid on this loan. The second loan is to be repaid by April 1, 1954, with interest at 3½ per cent per annum; annual instalments are to commence one year after completion of the plant, but the first instalment not later than April 1, 1945. During the year there were advances made of \$1,040,257.45 and the first instalment of repayment amounting to \$192,711.70 was received.

C-4 This is final instalment due under the agreement.

C-5 This loan has now been fully advanced and is to be repaid in annual instalments, the amounts of which are based on operating results. If not fully repaid within six months after cessation of hostilities, there is provision for adjustment.

C-6 This loan is being repaid on the basis of a fixed price per ton of carbide sold and delivered and if not fully refunded within six months after cessation of hostilities, there is provision for adjustment.

C-7 Details exhibited in Schedule "F", Department of Munitions and Supply balance sheet, page MA-36.

C-8 This loan is to be repaid in monthly instalments with interest at 5 per cent per annum. When the power installations are no longer required for war purposes, there is provision for adjustment on any payments not due at that time.

C-9 This is final instalment due under the agreement.

A Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Department of Munitions and Supply amounted to \$1,281,100.

B—F These accounts are credited with advances from the respective governments for the purchase of war supplies and debited with the value of the relative shipments.

G This covers accruals of semi-annual deposits by Sorel Industries Limited for net depreciation charges assessed against that portion of the plant owned by the Government of Canada. Under the contract, the Company is allowed to charge special depreciation rates on its portion of the plant, and similar rates are assessed on the Crown investment.

When the value of actual replacements in the Crown plant do not equal the annual amount of depreciation assessed, the unused balance is remitted and credited to this account. The Company is permitted to draw upon this fund when the situation is reversed.

- B All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue, are credited to this account.
- C This account is credited with advances from the Canadian Mutual Aid Board for the purchase of war supplies for the United Nations (other than Canada) and for supplies for military relief. Debits represent (a) the value of such purchases (\$599,662,614.51 from Mutual Aid funds, \$820,223,917.40 from cash provided by the United Kingdom, and \$25,230,922.07 from the War allotment—Military Occupation Relief) and (b) refunds of the unexpended balances of the advances at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board section of this Report.
- D The interim balance sheet of the Company, as at March 31, 1945, indicated that the total reserve was reduced by the sum of \$2,042,993.88 during the year.
- E P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees who are not paid through the Central Pay Office. This account reflects the incomplete subscriptions, under this plan, of employees who have left the Government service and have not applied for refunds.

Notes.—(1) It was originally intended that this balance sheet would be prepared upon a comparative basis as between March 31, 1944, and March 31, 1945. However, during 1944-45 it was decided that, from the administrative viewpoint, it was desirable to re-group the balance sheet asset accounts to bring out the character of the expenditure rather than sources of expenditure which was the aim of the grouping of such accounts in the 1943-44 presentation. For that reason, it became impracticable to prepare a comparative balance sheet this year.

(2) For contingent liabilities see Schedule S, page MA-61.

† The sum of the two balances shown for Polymer Corporation Ltd. under "Fiscal Year 1944-45" amounts to \$869,864.87. However, during the year capital assets to the value of \$1,000,146.38 were transferred to Department of Reconstruction; the two amounts making the figure of \$1,920,011.85. The value of the assets so transferred is also included in the figure of \$17,995,509.48 shown above.

The above covers Crown Companies whose operations have required the investment of fixed capital. Other Crown Companies require no plant, their functions being either trading or supervising. The balance sheets and operating statements of all Crown Companies are included in Appendix 4, page NIA-52.

## Schedule C—Concluded

NOTE: 1944-45 Adjustments, as follows:—

Dr. Investment in Companies marked * treated as "Active Assets"	41,521.28†
Cr.	
Sales and Recoveries.....	11,703,889.31
Transfers between Balance Sheet Accounts.....	24,151,174.09
	35,855,063.43
	\$35,813,539.15 Cr.

†The composite sum of the amounts shown under "Other Adjustments" for the Companies marked with asterisks is \$14,058.79. However, during the year capital assets to the value of \$27,465.19 were transferred to Department of Reconstruction, the two amounts making the figure of \$41,521.28. The value of the assets so transferred is also included in the figure of \$24,151,174.09 shown above.

Firms, the names of which are inset, are suppliers of components for main plants underneath which they are listed.

A-J The current years' credit balances under "War Allotment Expenditures", represent recovery of previous years' expenditure.

- A Chumshell Crane: for bunkering of vessels in the harbour facilities of the National Harbours Board; Dominion Coal Co. Ltd., to pay a surcharge of 50 cents per ton of coal delivered until such time as cost of crane and expenses in connection with its transfer from point of manufacture to point of erection, are amortized.
- B Coal Handling Bridge: removal and re-erection of coal handling bridge complete with equipment; Dominion Coal Co., Ltd., to pay 10 cents per ton for each ton of coal discharged by the bridge from car or vessel, until such time as His Majesty has been reimbursed the costs. The Company agrees to purchase the bridge from His Majesty at the cessation of hostilities, for the sum of \$100,000. However, if at the date of purchase the Company has not reimbursed His Majesty the total costs of dismantling, transportation, and re-erection, the Company is not to be obliged to pay any balance then remaining unpaid.
- C These aircraft were turned over to Trans-Canada Airlines Ltd., in connection with the inauguration of a Canadian Trans-Atlantic Air Service for the purpose primarily of carrying mail for troops Overseas and of transmitting important official Government mail and documents.
- E Lay-to Wharf: construction of wharf, dredging of berth, and providing of pipe-line for fuelling ships; Imperial Oil Ltd., to remit surcharge of 10 cents per barrel on all oil handled.
- BDF The current credit balances under "War Allotment Expenditures", represent recovery of previous years' expenditure.

## Appendix 2

## SALARIES, TRAVELLING EXPENSES, ETC., PAID FROM WAR ALLOTMENT

As of March 31, 1945, there were 3,814 salaried employees being paid from war allotments, including 70 employees in the London, England, office paid in sterling funds, and 18 employees in the United States offices paid in U.S. funds. From these accounts, reimbursement was also made to firms for salaries of their employees on loan to the Department, and to the Department of National Defence for pay and allowances of military personnel attached to the Department for duty. Those receiving salaries at annual rates of \$2,400 or over on that date, or at date of separation, are listed below. Salary rates include war duties supplements where applicable, but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling or living expenses of these employees, where the amount was \$300 or over, are also shown.

## Appendix 4

## GOVERNMENT-OWNED (MUNITIONS) COMPANIES

In accordance with the powers contained in Section 6 (3) (a) of the Department of Munitions and Supply Act, the companies listed below were operating under agreements with the Minister. The agreements provide in general that the Minister shall at all times have the right to exercise such control over the affairs and operations of the Company as he may in his absolute discretion think fit, and that the Company shall do or refrain from doing, as the case may be, all such things as the Minister may from time to time direct, and that all obligations of His Majesty under this agreement are conditional upon the Company acting accordingly.

In accordance with Section 6 (3) (c) of the above mentioned act, the Auditor General is the Auditor of such companies, and the balance sheets certified to, by him, together with related statements are furnished herewith.

The assets referred to in the footnote on the balance sheets included in this appendix represent the Government's investment in plant and equipment, and were acquired from advances set out in Schedules A and J to the Department of Munitions and Supply Balance Sheet, see pages MA—17 and MA—49.

NOTE: Order in council P.C. 3329 of May 7, 1945, recites that prior to the acquisition by His Majesty of all the shares of the capital stock of the predecessor Company, Eldorado Mining and Refining Limited, that Company had entered into certain agreements relating to the sale or other disposition of its products, respecting which agreements there is no evidence appearing that there have been irregularities. The Order empowers the Minister of Munitions and Supply to cause an inquiry to be made into and concerning any or all matters relating to the affairs of Eldorado Mining and Refining Limited and the present Corporation (including matters relating to any sales or sales agency agreements entered into). The inquiry is now in progress and it may be established, as a result, that amounts are recoverable by the Corporation by reason of irregular transactions which may be found to have taken place.

Approved on behalf of the Board.

## NOTES:

As at March 31, 1945, there may have been drawings and advances, of which the Company had not received notification, chargeable against "red clause" letters of credit totalling \$12,656,914.54 (£2,612,224-9-10 and \$883,127.08 U.S., converted at current rates of exchange) guaranteeing drawings made on shipment and also, in certain cases, advances made prior to shipment. Of this total, a part may be represented by the amount of \$392,144 due to unidentified creditors, for rubber received in Canada but not covered by necessary proprietary documents, and in connection with these and certain other receipts of rubber, the Company had entered, jointly and severally with its bankers, into bonds of indemnity and/or guarantees to the amount of \$1,912,022.55 (including \$384,704.92 U.S., converted at current rate of exchange) in favour of the steamship companies concerned.

Pursuant to Order in Council P.C. 5750 of July 20, 1943, as amended by P.C. 3905 of May 26, 1944, the Company's inventories of crude rubber on hand and in transit were written up to market value as at June 30, 1943, the amount of the write-up being carried to Inventory Appreciation Reserve. Subsequent purchases of crude rubber, made below normal replacement cost, were added to the inventory at the equivalent of replacement cost. As decrease in the market of synthetic rubber became effective, from time to time, the inventory was revalued accordingly, corresponding reductions being made in Inventory Appreciation Reserve. Since June, 1943, costs of sales have been computed on the basis of the inventory values thus established.

## NOTES:

As at June 30, 1945, there may have been drawings and advances, of which the Company had not received notification, chargeable against "red clause" letters of credit totalling \$12,656,914.54 (£2,612,224-9-10 and \$883,127.08 U.S., converted at current rates of exchange) guaranteeing drawings made on shipment and also, in certain cases, advances made prior to shipment. Of this total, a part may be represented by the amount of \$300,885.15 due to unidentified creditors for rubber received in Canada but not covered by documentary documents, and in connection with these and certain other receipts of rubber, the Company had entered, jointly and severally with its bankers, into banks of indemnity and/or guarantee to the amount of \$1,912,022.46 (including \$384,764.92 U.S., as amended at current rate of exchange) in favour of the steamship companies concerned.

Pursuant to Order in Council P.C. 3750 of July 20, 1943, as amended by P.C. 3905 of May 26, 1944, the Company's inventories of crude rubber on hand and in transit were written up to market value as at June 30, 1945 (the amount of the write-up resulting in a corresponding credit to Inventory Appreciation Reserve Account). The inventory accounts were maintained thereafter on this basis (the assets were taken over and the liabilities assumed by Polymer Corporation Limited as at June 30, 1945, and the Company ceased to carry on business as of that date).

Approved on behalf of the Board.

J. A. HODGSON,  
Director.  
J. R. NICHOLSON,  
Director.

I have examined the accounts of Polymer Sales & Service Limited for the period from April 1 to June 30, 1945, and have obtained all the information and explanations I have required.

In my opinion, a general reserve exists to the extent that the amount shown for Inventory Appreciation Reserve is in excess of an amount equivalent to the difference between the inventories of crude and synthetic rubber at market value, and their ceiling selling price value as at June 30, 1945.

Subject to the foregoing, I certify that, in my opinion, the above Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Company's affairs as at June 30, 1945, according to the best of my information and the explanations given to me and as shown by the books of the Company.

- (a) This expenditure is for the fiscal years 1942-43 and 1944-45 only. Expenditures prior to the fiscal year 1942-43 and for the fiscal year 1943-44 were provided for under Army Services allotment.
- (b) Prior to the fiscal year 1942-43, expenditures on internment operations were divided between the Department of the Secretary of State and the Department of National Defence. Pursuant to the provisions of P.C. 36/500, dated January 20, 1943, the administration of Internment Operations and Refugee Camps was transferred to this department.

## GENERAL COMMENTS

*Sundry Services.*—Included under the heading of Sundry Services in the following details of expenditures are the costs of services of a special nature and services which pertain to the three main Services (Army, Navy and Air) collectively.

*Purchase of Material.*—Aside from local purchase authority granted to various National Defence officials, the Department of Munitions and Supply purchases all material.

*List of Suppliers.*—A list of suppliers and contractors receiving \$10,000 or over is given further on in this section.

*Payments made to Commodity Prices Stabilization Corporation Limited.*—Under the terms of P.C. 625, February 1, 1944, the principle was established that if any commodity purchased by a department of the government is subject to payment of a subsidy by the Corporation, the cost of such subsidy is to be borne by the department concerned and not by the Corporation. Accordingly, and as the Corporation pays these subsidies initially, this Department refunded to the Corporation during the year the amounts it had expended for subsidies on commodities purchased by this Department as follows: beans, \$38,431; beef, \$35,568; broom corn, \$44,100; coal, \$78,249; cocoa, \$9,662.12; coffee, \$25,861; fresh milk, \$762,297; oranges, \$87,991; petroleum products, \$129,212; potatoes, \$331,001; rice, \$130,418.

*Purchases in the United States.*—Effective June 30, 1944, the general practice of payment in advance of shipment was discontinued.

Prior to June 30, 1944, payment for purchases from private firms was made in advance of shipment by means of requisition for cheque submitted by the Department of Munitions and Supply. Total of advances made was \$4,900,073.24: at the end of the fiscal year 1944-45 advances amounting to \$509,582 were still outstanding. Considerable improvement in reducing these advances was noted during the present fiscal year. Subsequent to June 30, 1944, invoices were processed and certified for payment in the same manner as for Canadian suppliers.

Certain supplies, by reason of priority, were obtained from the Government of the United States through the Office of Lend Lease Administration. Purchases of this nature are known as Canpay Requisitions and payments are made to the Treasury of the United States. Conditions and circumstances generally remain the same as described in the Public Accounts for the fiscal year 1943-44. No additional payments were made during the fiscal year 1944-45, and certified vouchers were received amounting to \$29,285,179.43, leaving a balance of advance payments to be accounted for of \$198,264,820.57.

*Cancellation of Contracts.*—Due to various factors, but mainly that of diminishing requirements, contracts are subject to termination when considered necessary. The procedure concerning compensation charges is covered by regulations of the Department of Munitions and Supply pursuant to the provisions of P.C. 9018 dated November 23, 1943, and P.C. 136 dated January 21, 1944.

P.C. 929, dated February 13, 1945, authorizes all payments under or in respect of any settlement of a termination claim under a munitions contract which is terminated in whole or in part before completion.

Claims settled for the fiscal year 1944-45 amounted to \$319,474.62. Interim advances made during the fiscal year pending final settlement amounted to \$473,222.59. Such advances are to be recovered from the Department of Munitions and Supply and credited to the Consolidated Revenue Fund (T.28366 B, dated June 5, 1945).

*Engineers' Firm-price Construction Contracts.*—As in previous years, these were negotiated by the Department of Munitions and Supply except a few concerned with Railway Sidings, Municipal Sewage, and Disposal Plants, etc., which the Department of National Defence arranges on authority of the Minister of Munitions and Supply. Increased costs were noted on some contracts as a result of higher lumber costs authorized by the Timber Controller and wage increases authorized by the National War Labour Board. A number of contracts let by the Department of Munitions and Supply deviated from the regular firm-price basis in that they quoted an estimated total calculated from estimated quantities at firm unit prices. These were applicable to road-building and proving ground construction. Some contracts were terminated in part during the year, and claims paid as formally approved by the Contract Settlement Board.

*Building and Property Accommodation.*—During the year, some of the numerous holdings acquired by the Department of National Defence on a rental basis became surplus to requirements. Leases on these were terminated, and any necessary settlements made as provided by P.C. 6204 of August 11, 1944. The Order in Council stipulates that these cases be referred to the Crown Assets Allocations Committee, for review with regard to possible alternate use by the Government of the property, before final disposal.

*Payment in Allied Military Notes.*—The Allied Military Control Commission issued currency to the Canadian Forces in conquered territories and in territories formerly occupied by the enemy. The amounts are shown in the Open Accounts (see page N-34).

*Capitation rate for Maintenance of Canadian Army Forces in the United Kingdom.*—By P.C. 59/2814, dated April 7, 1943, authority was granted for financial settlement with the United Kingdom Government on the basis of capitation rates for the maintenance of Canadian Army Forces from the date of their arrival in the United Kingdom to September 30, 1942, inclusive, at the following rates:

(a) Canadian Army Forces, other than Nursing Sisters and Canadian Women's Army Corps—50 pence per man day.

(b) Nursing Sisters and Canadian Women's Army Corps—27 pence per man day.

Following further negotiations between overseas representatives of the Department of National Defence—Army Services and officials of the War Office of the United Kingdom, agreement has been reached for settlement, covering the further period October 1, 1942, to March 31, 1943, on the basis of the following capitation rates to cover the maintenance of the Canadian Forces in the United Kingdom.

(a) Canadian Army Forces, other than Nursing Sisters, Canadian Women's Army Corps and Auxiliary Services Supervisors—59 pence per man day.

(b) Nursing Sisters, Canadian Women's Army Corps and Auxiliary Services Supervisors—28 pence per man day.

Advances have continued to be made subsequent to March 31, 1943, and necessary adjustments will be effected when final rates are approved.

Hereunder are details of the items making up the current as well as the previously authorized rates:

For the period from the commencement of hostilities to March 31, 1943, the accounting has, subject to the foregoing, been completed, payments amounting to \$101,574,657.98 being made to the United Kingdom Government.

From April 1, 1943, to March 31, 1945, the following advances were made in Ottawa through the Bank of Canada for which no accounting has yet been received: 1943-1944, \$84,734,125; 1944-45, \$375,872,471.81; total, \$460,606,596.81. The amount for the fiscal year 1944-45 included \$321,023,000 for maintenance in theatres of operations outside the United Kingdom.

Advances are made monthly, the theatres of operations in which Canadian Troops serve being determining factors in arriving at a tentative amount for each monthly payment. Advances for maintenance in theatres of operations outside the United Kingdom are based on a tentative rate of 25 shillings per man day.

*Initial equipment supplied from British sources to the Canadian Army in the United Kingdom.*—This comprises engineer stores, signal stores, general stores, certain types of vehicles, artillery ammunition, small arms ammunition, medical stores, clothing and personal equipment, etc., supplied from time to time from British stocks to the Canadian Army in the United Kingdom. British and Canadian stocks are pooled and settlements made periodically are based upon Canadian contributions to and withdrawals from such stocks.

*Capitation rate for Ocean Transportation on chartered vessels to and from the United Kingdom.*—Original arrangements covering ocean transportation of Canadian Armed Forces to and from the United Kingdom on vessels chartered by the British Ministry of War Transport were to the effect that Canada was to pay the actual hire and operating costs of each vessel for the period that it was in use transporting Canadian Forces.

As this method of payment was found impracticable, a tentative agreement was reached with the British Ministry of War Transport which has been authorized to accept settlement on the basis of a per capita rate, the following rates for eastbound or westbound single passage, including equipment and baggage, on chartered troopships between Canada and the United Kingdom.

As approved by P.C. 5824 dated July 29, 1943, and P.C. 65/1983 dated March 21, 1944, the capitation rates are:

Period	Canadian Equivalent		Authority
	Sterling	at \$4.47 to the £	
Beginning of War to Dec. 31, 1940.....	£23	\$102 81	P.C. 5824
Jan. 1, 1941, to Dec. 31, 1941.....	21	93 87	"
Jan. 1, 1942, to Dec. 31, 1942.....	17	75 99	"
Jan. 1, 1943, to Dec. 31, 1943.....	17	75 99	P.C. 65/1983
Jan. 1, 1944, until review requested by either Government...	15	67 05	"

Rates for children entitled to transportation in 1943 and 1944 are authorized by P.C. 65 1983 of March 21, 1944 as follows: Over 5 years up to 12 years—50 per cent of adult rate; over 1 year up to 5 years—25 per cent of adult rate; up to 1 year—15 shillings.

The foregoing per capita rates are applicable to the following personnel: Canadian Army Forces, Royal Canadian Air Force, Royal Canadian Navy, all Canadian Government civilian employees and to other authorized persons the payment of whose passage is a responsibility of the Canadian Government.

For the period from the commencement of hostilities to December 31, 1943 the accounting has been completed, payments amounting to \$23,660,796.51 being made to the United Kingdom Government. In addition, payments totalling \$1,097,352.59 were made direct to Steamship Companies, or an aggregate of \$24,758,149.10 for the period.

From January 1, 1944 to March 31, 1945, payments were made at Ottawa to the Bank of Canada for deposit to the credit of the United Kingdom Government, totalling \$7,239,978.69.

The total, therefore, from the commencement of hostilities to March 31st, 1945 is \$31,998,127.79.

Prior to August 12, 1944, the cost of transporting soldiers' dependents from the United Kingdom to Canada was borne by the Immigration Branch of the Department of Mines and Resources. By P.C. 6422 of August 12, 1944, authority was given to have these costs borne by the Department of National Defence—Army Services. Total expenditures from August 12, 1944 to March 31, 1945, are \$150,354.38. This amount is included in the amount of \$7,239,978.69 referred to above.

*Joint United Kingdom and Canada Ordnance Depot.*—This depot, situated in Canada, is a joint undertaking for the purpose of receiving, assembling, issuing and shipping to the United Kingdom or any theatre of war, technical stores and vehicles manufactured in Canada and in the United States, for Canadian account, United Kingdom account and the accounts of other Allied governments.

A basis for the division of capital costs had not been agreed upon at the close of the fiscal year but it is proposed that operating costs be pro-rated on the basis of tonnage shipped.

*Inter-Service financial adjustments pertaining to Army, Navy and Air Force Services.—*

(a) Damages.—Claims against the Crown, P.C. 62 9745 dated December 27, 1943, provides, "that claims for damages to vehicles, stores or other public property and for expenses and non-effective charges incurred relative to injured Service personnel, arising out of any accident between vehicles of any two or more of the Armed Services of Canada be dealt with on the basis of mutual forbearance of claims (knock for knock basis).

"That damages payable for personal injuries to, or damage to property real or personal of, persons or corporations other than the Armed Services or the members thereof, arising out of or caused by or through accidents involving vehicles of any two or more of the said Services, be borne by and debited to the Service whose vehicle, in the opinion of the Judge Advocate-General, was primarily responsible therefor.

"That the provisions of this Order apply to all outstanding claims not finally disposed of as of the date hereof". This Order in Council further provides "that all claims for \$200 or more made by persons or corporations other than the Armed Services or the members thereof shall be referred to the Deputy Minister of Justice pursuant to the provisions of P.C. 80/1045, dated March 19, 1940, with a request for his opinion as to whether or not in the circumstances, there is any legal liability on the part of the Crown, and if so, whether the claim should be settled in full or an endeavour made to obtain a compromise." Similar arrangements are in force as between Canada, the United Kingdom and the United States.

(b) Dental Services.—A simplified system of financial adjustments covering costs of Canadian Army dental companies attached to the Naval Services was inaugurated during 1943-1944. An agreement was reached whereby the Army, in return for a lump sum payment from the Naval Services based upon the estimated cost of the services to be rendered by the dental companies and detachments, would assume the actual cost as a charge to Army Appropriation.

Accordingly, as authorized by Treasury Board Minute T.257851 B., dated February 24, 1944, an amount of \$1,053,045 was received from the Department of National Defence—Naval Services to cover expenditures during the fiscal year 1944-45 for pay and allowances, travel, transportation and accommodation of personnel of the Canadian Dental Corps serving the Royal Canadian Navy, and credited to the allotment for Army Services.

Arrangements, whereby actual pay and allowances, travel, transportation, rations and accommodations of Canadian Dental Corps personnel of the Army serving the Royal Canadian Air Force are paid from Air Force funds, have been in operation since 1942.

(c) Medical Stores.—P.C. 90/3303, dated April 23, 1943, provides, "that authority be granted for the Department of National Defence—Army Services, to render unitemized bills on a lump sum basis to the Department of National Defence—Naval Services and the Department of National Defence—Air Services and that these Departments be empowered to make settlement on that basis and for such amounts as may be agreed upon."

As provided in this Order in Council, payments were made by the Naval and Air Services of \$500,000 and \$900,000 respectively, for anticipated procurements, during the fiscal year ending March 31, 1945, and credited to the allotment for Army Services.

*Inter-Department financial arrangements.—*Medical arrangements for the Defence Forces in Canada: When services pertaining to hospitalization of Army Personnel are performed by the Department of Veterans Affairs, the agreement now in effect provides that payments of accounts covering such services are absorbed by that Department in a War Allotment obtained for the purpose. Consequently, no accounts in this connection are submitted to the Department of National Defence.

When such hospitalization or treatment services are not performed by the Department of Veterans Affairs, the accounts are paid by the Department of National Defence in the usual manner.

*Medical and dental attention to Canadian personnel in the United States of America and to United States personnel in Canada.—*Arrangements have been completed whereby personnel of the United States Navy, United States Army, and any other units of the Armed Forces of the United States, while on duty, on furlough, or on leave of absence in Canada, and who cannot reasonably obtain medical care (including outpatient, medical or dental treatment and hospitalization) from the medical and dental facilities provided by their own Government, receive such medical care as is necessary to meet their immediate requirements from the medical and dental facilities under the jurisdiction of the Armed Forces of Canada, to the extent that such facilities are available. This is on a free and reciprocal basis. Should the period of this medical care exceed thirty days, the authorities concerned are notified with a view to transferring the patients to medical or dental facilities in their own country.

Salaries and wages are those of civilians employed by Army Services, including: surveyors and engineers employed by the Engineer Services; clerks and stenographers in Army offices and ordnance depots; caretakers, firemen and others employed at Army properties. Wages of employees on day labour projects performed by Engineer Services are included in D—Construction and Repairs; and wages of personnel employed at ordnance depots as packers, helpers, etc., are included under Casual Labour.

As of March 31, 1945, there were 15,320 civilian employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over, are also shown.

The following employees, serving without salary, were receiving living allowances as at March 31, 1945, at daily rates listed: B. A. Cockburn, \$10; A. S. Ellis, \$20; H. S. Parkes, \$10; C. S. Pipe, \$10.

L. W. Brockington was paid a per diem travelling allowance of \$20 and received \$1,080.

Travelling expenses of \$300 or over were paid to: B. A. Cockburn, \$724.46; H. S. Parkes, \$1,650.07; C. S. Pipe, \$657.01.

A These pay and allowances are in respect of all formations and units on active service or which have been embodied for continuous military service including the Canadian Women's Army Corps, recruits called out under the National Resources Mobilization Act, personnel of the Reserve forces for local headquarters training and at camps of instruction.

Expenditures of this nature in respect of Departmental Administration, the Dependents' Allowance Board, Internment Operations, and other divisions shown under the heading, Sundry Services, are not included.

Pay and allowances of the Reserve Army during the fiscal year amounted to \$3,279,768.94. The standard rates of pay are the same as the minimum permanent force rates ranging from 60 cents per day for a boy to \$9.20 per day for a colonel. No allowances are paid to dependents. Extra pay rates are: adjutants, 50 cents per day; tradesmen, 25 cents to 35 cents per day. In certain circumstances, trained personnel may be paid a special rate of extra pay not exceeding \$1.50 per day. Field allowances range from \$3 per day for Camp Commandants to 10 cents per day for rank and file. Subsistence allowance (where rations are not provided during the period prior to arrival or following the departure of troops) is \$1.70 per day for officers and 85 cents per day for other ranks.

Reserve Recruits called out under the provisions of the National Resources Mobilization Act, 1940, receive the same rate of pay and allowances as personnel of the Active Army.

Active Army Rates of Pay: Staff rates of pay for classified appointment of officers range from \$6 to \$24 per day. In addition, subsistence allowance in lieu of quarters and rations is payable at \$1.70 per day. Per diem rates of standard pay, tradesmen's pay and medical officers' and dental officers' pay are set out below.

In addition to these rates, officers in command of units of 500 or more men receive \$1 per day extra and officers appointed as adjutants within the establishment of a unit are entitled to 50 cents per day extra.

Officers, warrant officers, non-commissioned officers and men who are ordered to fly in the course of military duty or training are entitled to additional pay for every day on which they fly, pursuant to such orders as follows: officers, \$2 per day; other ranks, 75 cents per day.

An officer or soldier posted to a Parachute Unit as a parachute jumper within the authorized War Establishment, or an officer or soldier attached to a Parachute Training Unit where parachute jumping is an essential part of his duty or training, in addition to his regular pay, tradesmen's rates or any other additional pay to which he is entitled (with the exception of flying pay) is granted extra pay as follows: officers, \$2 per day; other ranks, 75 cents per day.

Officers posted or attached to an Airborne Unit or Airborne Formation where an essential part of their duty involves flights in gliders or other aircraft, but does not involve parachute jumping are entitled to extra pay of 50 cents per day from the date so posted or attached, until ceasing to be so posted or attached. Provision is made, however, for the continuation of such extra pay in both cases for periods from 28 days to 91 days, if absent from such duty on account of injuries or sickness incurred during such duties, while posted or attached to Airborne Units or Formations.

A cadet, while attending an Officers' Training Centre, until he is gazetted to commissioned rank or removed from the course for any reason, receives the Regimental rates of pay of his substantive rank provided, however, that a cadet does not receive a lower rate of pay than \$3 per day.

Personnel of the Permanent Force who were serving at the outbreak of war have the option of remaining on Permanent Force (pre-war) rates of pay and allowances, but as Active Service rates are, in the main, higher than those of the Permanent Force, there are only a few isolated cases where these latter rates are being paid.

Canadian Women's Army Corps: Per diem standard rates of pay are:

In addition to the ordinary rates of pay, Canadian Women's Army Corps officers holding staff or administrative appointments receive extra pay ranging from \$1 to \$3 per day. Subject to such conditions and limitations as are authorized, volunteers are entitled to receive, in addition to the ordinary pay of their ranks, tradesmen's pay ranging from 25 cents to 75 cents per day.

A cadet, while attending a Canadian Women's Army Corps Training Centre for the purpose of qualifying for a commission, receives, until she is gazetted or removed from the course for any reason, the ordinary rates of pay for her substantive rank provided, however, that a cadet does not receive a lower rate of pay than \$2.40 per day.

Volunteers not issued with underclothing and toilet articles are paid an allowance in lieu thereof of \$15 on enlistment and \$3 quarterly thereafter.

**Subsistence Allowance:** When quarters and rations are not provided in kind, a subsistence allowance is paid as follows: \$1.70 per day to officers; \$1.25 per day to other ranks. In cases of officers and soldiers on duty in the United States, when circumstances arise where the rates of subsistence allowance stated above are not equitable, the Minister may authorize in lieu thereof special rates ranging from \$3.50 to \$8 per day for the period of such duty.

**\*Outfit Allowances (\$1,306,053.53):** Prior to January 19, 1944, Officers, including Nursing Sisters, were entitled, on appointment to the Active Army, to an allowance of \$150 to provide themselves with uniforms. Effective January 19, 1944 and not retroactive, this allowance was increased to \$250. An additional amount of \$50 is allowed officers ordered to serve in tropical areas. On transfer to or from a Highland unit, an officer is entitled to receive an additional allowance ranging from \$60 to \$75 according to specified circumstances.

For officers of the Reserve Army called out for duty under Section 63 or 64 of the Militia Act, this allowance is payable in three instalments, one of \$100 and two of \$75 based on the completion of continuous duty of 3, 6 and 12 months duration.

A Warrant Officer, Class 1, is entitled to receive \$100 as an outfit allowance.

**\*Assigned Pay (\$155,082,979.38):** An officer is not required to assign pay to his wife or children, unless it is shown that inadequate financial provision is made by the officer, when a compulsory assignment up to fifteen days' pay of rank but not in excess of one hundred dollars per month may be ordered for the reasonable maintenance of the dependents in question.

An officer must assign five days' pay of rank if dependents' allowance is issuable to any other dependent relative.

A soldier on whose account dependents' allowance is issuable must assign a portion of his pay each month, as set out hereunder for the benefit of his dependents. The maximum amount that can be assigned each month by a soldier is twenty days' pay of rank and twenty days' tradesmen's pay. The following amounts are deemed to be fifteen days' pay of rank, which is required to be assigned each month for the benefit of a wife or of children, or, if a soldier has no wife or children, for the benefit of another dependent relative to whom dependents' allowance is issuable: Warrant Officer, Class 1, \$60; Warrant Officer, Class 2, \$45; Warrant Officer, Class 3, \$40; Staff Sergeant and Sergeant, \$35; Ranks below Sergeant who are in receipt of regimental pay exceeding \$1.40 per day, \$23; Ranks below Sergeant who are in receipt of regimental pay not exceeding \$1.40 per day, \$20; Boy, \$10. If dependents' allowance is issuable to another dependent relative, as well as to a wife or to children, an additional five days' pay of rank must be assigned.

In addition to these assignments, an officer or soldier may assign pay for certain specified purposes.

\*Dependents' Allowances (\$134,319,559.45): These include only the allowances administered by the Dependents' Allowance Board. Supplementary allowances paid from the Dependents' Supplementary Grants Fund are shown under Sundry Services.

Awards by the Dependents' Allowance Board are in such amounts as the Board decides, not exceeding the following maximum monthly allowances:

(a) For a wife or a dependent female relative responsible for the care of the dependent children of an officer above the rank of Major, \$62.20; Major, \$57.20; Captain, \$52.20; Lieutenant and 2nd Lieutenant, \$47.20; Warrant Officer, Class 1, \$42.20; all other ranks, \$37.20.

(b) For dependent children falling within either of the undermentioned classes, \$13.92 for the first such dependent; \$12 for the second; \$10 for the third and \$8 for each of the fourth, fifth and sixth such children: (1) A dependent son under 16 years and a dependent daughter under 17 years of age. However, if such child is following and is making satisfactory progress in a course of instruction approved by the Board, an allowance may be paid until such child reaches his or her nineteenth birthday. (2) A dependent son or daughter of any age when such child is unable, owing to physical or mental infirmity, to provide for his or her own maintenance.

It is further provided that, where there is no wife, nor a dependent female relative responsible for the care of the children, the Board may award up to \$20 for each such child not exceeding in total \$50 for three, \$60 for four, \$70 for five, or \$80 for six such children.

(c) For a dependent parent or foster parent, a dependent brother under sixteen years of age, or sister under seventeen years of age, a dependent brother or sister who prior to the applicant's enlistment was a member of his household, and owing to physical or mental infirmity is unable to provide for his or her own maintenance and is solely supported by the applicant; a divorced wife, if the applicant is under a legal obligation to contribute to her support; \$30 in respect of such dependents of officers above the rank of Major, \$25 in respect of such dependents of all other commissioned officers, Warrant Officers, Class 1, and all other ranks.

Canadian Prisoners of War: Under the terms of the Geneva Convention, officer prisoners are advanced monthly payments by the detaining Power equivalent to amounts paid officers of corresponding rank of that Power. Amounts so advanced in accordance with the scale laid down by the Convention as well as any other recurring debits such as assigned pay, etc., are charged to the officer's pay account monthly, which continues to be credited with pay during his detention. The balances then remaining are either deposited to the officers' bank accounts or held to their credit.

\*Clothing Allowances on Discharge (\$3,372,285.50): These allowances are paid to personnel upon discharge to provide them with civilian clothing. Prior to November 1, 1943, this allowance was \$35 if the member had served for six months, or, if less than that time, \$27 or \$17, depending upon the time of year discharge took place. Effective November 1, 1943, this allowance was increased to \$65, and payable generally irrespective of period of service or time of discharge; and effective August 1, 1944, it was further increased to \$100 and was authorized for officers, as well as for other ranks, with no limitation as to period of service.

\*Rehabilitation Grants (\$3,490,948.84): Members of the Military Forces of Canada who have served continuously on active service during the present war for a period of not less than one hundred and eighty-three days are, with certain exceptions mentioned hereunder, entitled to a rehabilitation grant equal to thirty days' pay plus married and/or dependents' allowance, upon discharge, retirement or ceasing to serve. This grant is not payable to members who have ceased to serve by reason of a conviction by a Service or a civil court or who have been retired, discharged or permitted to resign for the purpose of immediate appointment to any other of the Forces of Canada, His Majesty or His Majesty's Allies. The governing authority is P.C. 7521 of December, 1940, and amendments thereto.

Various types of leave granted soldiers and conditions governing same are outlined hereunder.

Coal Miners' Leave.—Owing to the national emergency created by the shortage in Canada's coal production, it became necessary to arrange that skilled coal miners be returned to service in the mines. Soldiers, whose civil occupation was coal mining, may, if they so volunteer, be given leave of absence without pay and allowances to return to their former occupations, provided the military exigencies of the services will so permit, and that they are to be employed in the actual production of coal from "face to pithead" inclusive. Return transportation and meal tickets are paid by this Department.

Compassionate Leave.—Leave may be granted without pay and allowances to a soldier when undue hardship would be caused to the soldier or his family if the leave were not granted, or in other exceptional circumstances. The maximum is three months and is subject to extension. The cost of transportation is borne by the soldier.

Compassionate Home Leave.—This leave, granted on individual application, is without pay or allowances of any kind, medical or dental attention, hospitalization or compensation due to illness, injury or death while on such leave. Return transportation together with meal tickets are issued by the Department. Prior to February 25, 1945, the cost of transportation with sleeping accommodation and meals, if the soldier's destination was not more than 500 miles from his station, was recovered from the Department of Labour. If the distance exceeded 500 miles, the soldier was required to reimburse this Department for his transportation and meals in respect of the excess distance. Subsequent to February 25, 1945, the total cost of transportation, meals, etc., on this leave is payable by the soldier.

\*Included in the amounts shown as pay and allowances on page N-11.

**Farm Duty** (Authority of P.C. 5931, July 24, 1943).—A soldier detailed for farm duty proceeds under military orders and remains attached to his unit during the period of such duty. He is provided by this Department with return transportation, together with meal tickets, the value thereof to be ultimately recovered from the Department of Labour. He continues to receive his normal pay and allowances, including trades pay and dependents' allowance if in effect, but not including subsistence allowance as accommodation and meals are supplied by the farmer with whom he is employed.

The Department of Labour pays to this Department, for each day a soldier is employed, the minimum daily rate per soldier hereinafter set forth:—

(a) Western Canada, to include Military Districts Nos. 10, 12, 13 and Pacific Command—\$4 per day.

(b) That portion of Ontario not included in Military District No. 10—\$3.50 per day.

(c) Quebec and the Maritime Provinces—\$3 per day.

Prior to November 30, 1944, upon termination of such employment, if the amount payable by the farmer to the Department of Labour in respect of the services performed by the soldier exceeded the amount of his pay and allowances, the amount of such excess was payable to the soldier. Effective December 1, 1944, under the authority of P.C. 9148, dated December 5, 1944, the soldier receives only his service pay and allowances.

**Forestry Leave**.—Upon application, forestry leave may be granted without pay and allowances of any kind, and personnel will not be entitled to medical or dental attention, hospitalization, or compensation due to illness, injury or death while on such leave. This Department supplies return transportation and meal tickets and is repaid by the Department of Labour. (P.C. 36/6467, August 17, 1944.)

**Hog, Dairy and Beef Production Leave**.—Leave without pay and allowances may be granted to any soldier not eligible for reinforcement duty including a soldier who has returned from overseas on rotation leave. Cost of transportation is borne by the soldier.

**Industrial Leave**.—An employer desiring the return of a soldier to temporary civil employment in war industry may apply to the Soldier's Commanding Officer, stating the nature of the soldier's employment before enlistment or enrolment, the proposed future employment including nature of work, grading and rate of wages, verification that no other suitable man can be obtained from an employment bureau or other source, and the estimated length of time for which the soldier's services will be required.

A soldier granted leave without pay for employment in war industries is granted such leave only in the capacity and with the employer shown on the application for such leave.

Maximum leave to be granted will be for six months, subject to renewal. The cost of transportation is borne by the Department of Labour.

**Logging Leave in British Columbia**.—Leave without pay may be granted soldiers up to six months, with extensions not exceeding three months for the purpose of working in lumbering camps as loggers and lumbermen under authority of P.C. 8197 of October 22, 1943. Cost of transportation is borne by the soldier.

**Railway Duty**.—As provided by P.C. 9079 dated December 7, 1943, a soldier ordered to perform railway duty is supplied by the Railway Companies with return transportation and meals while travelling to place of employment. He continues to receive his normal pay and allowances including trades pay and dependents' allowance if in issue but not subsistence allowance as meals and accommodation are provided by Railway Companies. Payment is at the rate of not less than \$4 per day per soldier and is payable to the Department of Labour which, in turn, reimburses this Department. Prior to November 30, 1944, if the amount earned by the soldier was in excess of his normal pay and allowances, such excess earnings were payable to the soldier concerned. Effective December 1, 1944, under the authority of P.C. 9148, December 5, 1944, the soldier receives only his service pay and allowances.

**Rotation Leave for Overseas Troops**.—All ranks having five years satisfactory continuous service overseas are entitled to apply for leave to Canada, with first preference to those who have served in operations against the enemy.

In determining priority in individual cases, service in an operational theatre (the Mediterranean Area or North Western Europe) shall count double, the number of months of such service being added to the number of months of continuous service overseas. Despatch to Canada was to be on a monthly quota basis, the first quota being that of December, 1944. Allocation of the quotas to these operation theatres and the United Kingdom shall be in proportion to the number of qualified applicants. The leave will be regarded as a privilege subject at all times to the exigencies of the service.

**Spring and Harvest Leave**.—Leave without pay and allowances may be granted to any soldier not eligible for reinforcement duty and who can be spared for the purpose of sowing crops, harvesting and aiding in spring or harvest operations, provided, however, that only soldiers having actual experience in farm work will be eligible. Cost of transportation will be borne by the soldier.

B This amount is the total of transportation expenses in connection with the movement of personnel at home and abroad. Transportation expenses of the Reserve Army amounted to \$420,827.03. Travelling expenses of civilian employees, where the amount was \$300 or over were shown with the salary lists immediately after the opening comments on this allotment.

C The main items are: fuel, \$6,985,131.80; light, power and water, \$3,003,749.45; rents, \$1,804,442.93; sanitary services, \$171,548.11.

D These expenditures are in connection with the designing, construction and maintenance of works and buildings.

E The main items are: telephone service, \$332,326.20; telephone tolls, \$459,516.32; telegraph service, \$400,157.88.

F The main items are: advertising and recruiting expenses, \$933,056.99; compensation for damage to property and person, \$1,095,589.81; miscellaneous professional and special services, \$233,609.97; National Defence Headquarters telephone facilities, \$282,444.18; photo and motion picture equipment, materials and chemicals, \$198,566.28; postage, rental of post office boxes and meter postal machines, \$469,943.46.

G This amount represents advance payments of \$375,872,471.80 made to the United Kingdom Government during the fiscal year 1944-45 for maintenance of Canadian Army Forces overseas and \$461,790.22 balance of payment made for initial equipment covering supplies of equipment from British Sources to the Canadian Army in the United Kingdom (October 1, 1942, to March 31, 1943).

The Board is charged with the administration of the Financial Regulations and Instructions governing the payment of dependents' allowances and consists of a civilian chairman, two representatives from each of the Services and one from the Treasury. It has representatives at all Military Districts, Naval Commands, and R.C.A.F. Air Commands throughout Canada. Three representatives, one from each of the Services, are stationed overseas. In June, 1944, a Committee of the Dependents' Allowance Board was set up at Canadian Military Headquarters, London, England, with full power to handle all cases where Overseas Dependents are concerned.

As of March 31, 1945, there were 457 civilian employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date or at date of separation follows. Salary rates include war duties supplements where applicable but do not include cost of living bonus. The Dependents' Board of Trustees, with headquarters at Ottawa, operates under authority of the Minister of National Defence by virtue of the Dependents' Board of Trustees Order, P.C. 18, January 2, 1942, as amended by P.C. 9239, dated December 2, 1943. This Board administers the Dependents' supplementary Grants Fund and is authorized to grant, in special cases of difficulty and hardship, supplementary assistance to qualified dependents, i.e., those who have qualified for marriage or dependents' allowances, of members of the Canadian Armed Forces below the rank of warrant officer Class 1. Such assistance is granted only after investigation of individual applications by competent welfare agencies or by other investigators approved by the Board.

By P.C. 58/11348 of December 15, 1942, the provisions of P.C. 18, January 2, 1942 (as amended) were extended to the dependents resident in Canada of all Royal Air Force, Royal Australian Air Force and Royal New Zealand Air Force personnel serving with the Royal Canadian Air Force.

The Board is composed of a chairman and nine members. All members of the Board, other than the executive secretary, and all members of the local or regional dependents' advisory committees serve without remuneration. They are, however, reimbursed for out-of-pocket expenses.

The Board operates through regional Dependents' Advisory Committees, each with a specifically defined area of jurisdiction. Since January 2, 1942, twenty-one regional committees have been organized in Canada and one in the United Kingdom.

Applications and re-applications for financial and non-financial assistance filed with the regional Dependents' Advisory Committees in the period January 2, 1942, to March 31, 1945, total 195,917. Grants actually paid in the same period on authority of the Board or Committees amount to \$6,221,154.76 divided as follows: Army, \$4,642,787.82; Navy, \$413,480.25; Air \$1,164,886.69.

Outstanding developments in the fiscal year ending March 31, 1945, included the following: (i) organization of the United Kingdom Dependents' Advisory Committee, with office in London, England, to deal with applications for assistance from dependents, resident in the United Kingdom, of members of the Canadian Armed Forces; (ii) amendments by Orders in Council to Dependents' Board of Trustees Order, empowering the Board, at its discretion, to grant special emergency assistance to qualified dependents of: (a) former members of the Canadian Armed Forces resident outside Canada and awaiting transportation to Canada, P.C. 53/5275, July 11, 1944; (b) members of the Armed Forces undergoing detention or imprisonment in excess of six months, P.C. 55/4729, June 20, 1944, (c) Royal Navy ratings serving temporarily with the Naval Forces of Canada, while resident in the Dominion, P.C. 9027, December 19, 1944; and (iii) completion of arrangements with the Canadian Hospital Council (and with virtually all Canadian Hospitals) in respect of payments by the Board of hospitalization expenses of dependents.

Disbursements are detailed under two headings: (1) administrative expenses; and (2) grants and assistance.

Administrative expenses include out-of-pocket expenses of members of the Board and Advisory Committees, staff salaries and investigation expenses of the Board.

Under grants and assistance are shown the amounts of relief disbursed on behalf of the Armed Services personnel and a distinction is made between recurring and non-recurring payments. Recurring payments are continuous supplementary grants, an example of the use of which would be the education of a dependent. Non-recurring payments consist of grants to meet exigencies such as illness, accident, death, loss by fire or other necessitous conditions. Authorization of the former type of grant is given only by the Board of Trustees at Ottawa.

As of March 31, 1945, there were 269 civilian employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date or at date of separation follows. Salary rates do not include cost of living bonus. E. J. Lawson received travelling expenses of \$357.22.

By P.C. 4568 of June 25, 1941, regulations governing the treatment and administration of internees were approved, a Commissioner of Refugee Camps was appointed and the relative responsibilities of this Department and the Department of the Secretary of State were set forth in detail. The Department of External Affairs was made responsible for dealing with all prisoner of war and internment problems in their international aspects.

By P.C. 10571 of November 19, 1942 and P.C. 36/500 of January 20, 1943, the entire responsibility for prisoners of war, enemy aliens, and other internees with the exception of the international aspects referred to above was transferred to this Department. This Department became responsible for the supervision and implementation of the policy of the Canadian Government in respect of the guarding, discipline, control, censorship of mail, and welfare of prisoners of war, internees and refugees, and the maintenance and operation of all camps.

Financial arrangements were made by Treasury Board Minute T.236550 B. of January 14, 1943, which approved necessary transfers of estimates of expenditures and cash allotments from the Department of the Secretary of State to the Department of National Defence.

The above expenditures represent the Canadian costs, as those in connection with the United Kingdom refugees and prisoners of war from the United Kingdom are charged to United Kingdom—Army account under Open Accounts which are shown further on in this section.

By agreements, Canada bears the cost of all military guards posted to internment camps.

As of March 31, 1945, there were 73 civilian employees being paid from this account. L. M. Burke was receiving a salary at an annual rate of \$2,400, exclusive of cost of living bonus, to date of separation (Sept. 16).

<b>Allotment: Inspection Board of the United Kingdom and Canada.....</b>	<b>9,300,000 00</b>
<b>Expenditures.....</b>	<b>\$8,362,070 37</b>

---

Payments made covering Canada's share of the expenses in connection with the Inspection Board have, to date, been given provisional approval. The agreed method of arriving at a division of costs is to take as a basis the value of production in Canada for United Kingdom and Canadian account, respectively, as computed by the Economics and Statistics Branch of the Department of Munitions and Supply, less such classes of output as are not inspected by the Board. Included in Canada's proportion are estimated costs for inspection of goods purchased by War Supplies Limited for sale to and use by the United States Government, as well as a portion of running costs in respect of the Board's operations in the United States.

The cost of inspection of goods for War Supplies Limited account is paid by the Department of National Defence and subsequently recovered from the Department of Munitions and Supply.

The total expenditure for the fiscal year 1944-45 includes the following provisional payments; \$6,900,709.41 covering Canada's share of the operating costs of the Board for the period April 1, 1944 to March 31, 1945; \$262,359.29 for Canada's share of capital expenditure made by the Board during the period July 1, 1943 to December 31, 1944.

In addition to the provisional payments mentioned above, an additional amount of \$736,557.30 was paid in connection with the period January 1, 1942, to December 31, 1944.

Duties and taxes paid in the first instance by the Inspection Board of the United Kingdom and Canada and wholly refunded by the Department of National Defence—Army Services, amounted to \$1,048,582.81.

Recoveries from War Supplies Limited during the fiscal year 1944-45 amounted to \$2,896,527.93.

As of March 31, 1945, A. H. Brown, receiving an annual salary of \$6,000, was the only employee paid from this account.

- A The balance represents the remaining portion of the amount set aside to redeem outstanding relief vouchers issued to persons formerly enrolled at relief camps under the control of the Department of National Defence.
- B At the close of the fiscal year, each imprest account is examined by the official in charge and funds to meet cheques which have been outstanding since the close of the previous fiscal year are withdrawn from the imprest bank account and deposited herein. If any of these cheques are subsequently cashed, the imprest bank account is then recouped in the usual way and this account adjusted concurrently.

A Fifty per cent of the daily rate of pay is withheld from those soldiers stationed overseas who have not made assignments. From those whose assignments are less than fifty per cent, the difference between such assignments and fifty per cent of their pay is withheld. The deferments commence from the first of the month following the date of departure from Canada and are held in trust, to be paid to the soldiers upon discharge or upon appointment to commissioned rank. In exceptional circumstances on the recommendation of the Commanding Officer, authority may be given by the Minister permitting an advance from deferred pay, where the request arises out of a situation beyond the control of the soldier, such as illness of relatives, etc., or where a soldier is permitted to proceed to Canada on furlough at his own expense. Interest at three per cent per annum calculated on minimum monthly balances semi-annually, is allowed on deferred pay. Receipts represent transfers from the war allotment for Army Services, while disbursements are authorized releases of individual balances.

B Money found in effects of deceased Army personnel, balances of their pay and allowances, and their bank balances when not exceeding \$1,000 in Canada or \$2,000 Overseas are credited to this account and distributed to the legal heirs through the Estates Branch, National Defence Headquarters.

C This account was established under authority of P.C. 75/3088 dated April 27, 1944, and is credited with all moneys received as donations for the benefit of the members of the Canadian Army in recognition of gratuitous services rendered by the Troops in emergencies. These moneys may be paid to the "Army Show and Benefit Fund" in such amounts as may be approved from time to time by the Deputy Minister, Department of National Defence, or may be otherwise expended for the benefit of members of the Canadian Army in such manner and under such terms and conditions as may be approved from time to time by the Governor in Council. Of the closing balance, \$12,000 is held in bonds which are in the custody of the Department of Finance.

D Moneys held in trust for Canadian Internees are credited to this account.

E Residual net profits of canteens operated for the benefit of personnel of the Armed Forces are credited to this account. The main organizations contributing to this fund are the Canadian Legion War Services Incorporated, Young Men's Christian Association, Salvation Army and Knights of Columbus. By P.C. 7/3183 dated April 21, 1942, it was provided that the money be deposited and held in trust for the benefit and welfare of members and ex-members of the Forces and their dependents. Interest at the rate of two and one-half per cent per annum on the minimum monthly balances is credited hereto semi-annually.

F This account pertains to the estates of deceased members of the armed forces of the 1914-18 war. Money found in effects of such personnel, credits in personal bank accounts, or money due on account of pension as well as balance of pay and allowances were credited hereto until heirs are located.

G This account was credited with the sum of \$12,500 received in 1941 from a private citizen and his wife as a donation for the purpose of providing a welfare hut at Camp Borden, construction of which has now been completed.

H Entry fees, at the rate of 4 cents per contestant, of Cadet Corps interested in the Miniature Rifle Matches for Youth of the Empire are credited to this account. Entrance fees are accepted up to October 31 each year and are forwarded to the office of the High Commissioner for Canada, for transmission to the Secretary, National Rifle Association of Great Britain.

- I This fund was established in 1907 by the late Lord Strathcona. The interest is to be expended in encouraging physical and military training in the public schools of Canada. Payments of interest are made to the Trustees semi-annually at the rate of four per cent per annum, and are charged to Interest on Public Debt.
- J All moneys received for prisoners of war for (a) service pay, (b) earnings from work projects, (c) proceeds from sale of hand-made souvenirs and (d) donations from relatives, etc., are credited to this account. Disbursements represent payments from time to time to, or on behalf of, prisoners in the internment camps.
- K Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45 there were no bonds held in respect of this Department.

The liability of the Department in respect of this account reflects only deposits made prior to the outbreak of the present War, as subsequent contracts were under the jurisdiction of the Department of Munitions and Supply. The amount appearing under receipts represents the annual interest on deposits.

- A These accounts record the Canadian dollar equivalent of the value of notes issued by the Allied Control Commission to the Canadian Forces in conquered territories and territories formerly occupied by the enemy. The closing balances represent amounts for which payment has not been made.

- B P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees, who are not paid through the Central Pay Office. The receipts reflect the incomplete subscriptions, under this plan, of employees who have left the Government Service. The closing balance represents unclaimed instalments.
- C Receipts which cannot be allocated immediately are credited to this account pending further advice.
- D The balance in this account represents allowances due men who were in Department of National Defence relief camps and who left without receiving payment therefor.
- E All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue are credited to this account.
- F Certain remittances received in the form of Receiver General drafts are credited to this account pending advice of proper allocation.

A list of suppliers immediately precedes the Open Accounts at the end of this section. Civil salaries and wages consist of (a) \$7,348,832.29 for the Minister's office staff, the Deputy Minister and his staff, employees at Naval Service Headquarters, dockyards, bases and depots, as well as those employees of the Radio Branch, Department of Transport, performing special part-time duties; less (b) a credit of \$99,456.89 resulting from the overhead percentages added to the labour cost of work performed for other governments, private firms, persons and other departments.

As of March 31, 1945, there were 13,385 civilian employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees (exclusive of the cost of transportation warrants) where the amount was \$300 or over, are also shown.

Women's Royal Canadian Naval Service—Pay: Commander, \$8; Lieutenant-Commander, \$6.20; Lieutenant, \$5.20; Sub-Lieutenant, \$4; Probationary Sub-Lieutenant, \$3.40; Chief Wren, \$2.40-\$3.15; Petty Officer Wren, \$1.75-\$2.50; Leading Wren, \$1.35-\$2.10; Wren, \$1.10-\$1.95; Probationary Wren, \$1.05.

Extra Pay: In addition to the above rates, extra pay, from 5c to 60c a day, is granted to officers and ratings performing extra duties or incurring extra responsibilities not ordinarily applying to their particular ranks and also for service under difficult circumstances.

Non-substantive pay: Paid to ratings, who qualify in special subjects, at rates of 5c-60c per day. Payment continues as long as they remain proficient in those subjects.

Officers' Allowances: Command Money, 50c-\$2.50; First Lieutenant's Allowance, 35c-60c; Navigating Allowance, 25c-\$1.25; Specialist's Duties, 25c-60c; Secretarial, 25c-\$2.25; Staff Pay, \$1-\$2.25; Charge Allowance, \$1.

Assigned Pay: A rating on whose account dependent's allowance is issuable must assign to the recipient not less than fifteen days' pay of his rating per month. Officers are not required to assign pay to their wives or children, but must assign five days' pay of rank if dependents' allowance is issuable to any other dependent relative. In the case of a rating, if dependents' allowance is issuable to another dependent relative as well as to a wife or to children, an additional five days' pay of rating must be assigned. The maximum amount assignable each month is twenty days' pay of rating, except assignments by prisoners of war and assignments for certain specified purposes.

Dependents' Allowance: Expenditure for this purpose totalled \$21,110,027.99. Dependents' allowance may be paid on behalf of an Officer or rating for a wife and not more than six dependent children. In addition, Dependents' allowance may also be paid for a mother or a father under the terms of sub-paragraph (c) below:

NOTE:—Dependents' allowance may be paid on behalf of members of the Women's Royal Canadian Naval Service under sub-paragraph (c) but not under sub-paragraphs (a) or (b) of this paragraph (P.C. 3/5932 of July 24, 1943).

An award may be for such an amount as the Dependents' Allowance Board may decide, but no award may exceed—

(a) For the wife of an officer or rating holding rank as shown below, or if there is no wife, or the wife has abandoned her domestic responsibility or is confined to an institution by reason of mental or physical incapacity, and in the opinion of the Board the continued maintenance of a home for his dependent children is justified, for the daughter, step-daughter, mother, step-mother, mother-in-law, sister, step-sister, sister-in-law, aunt or female first cousin, responsible for the care and management of the home for his dependent children:

	Per Month
Officers above the rank of Lieutenant-Commander.....	\$ 62 20
Lieutenant-Commander .....	57 20
Lieutenant .....	52 20
Sub-Lieutenant .....	47 20
Warrant Officer .....	42 20
Ratings .....	37 20

(b) For a dependent son to the age of sixteen years and for a dependent daughter to the age of seventeen years and, if such child is following and is making satisfactory progress in a course of instruction approved by the Board, an allowance may be paid until such child reaches his or her nineteenth birthday. Also for a dependent son or daughter of any age when such child is unable, owing to physical or mental infirmity, to provide for his or her own maintenance; for the first child, \$13.92; the second, \$12; third, \$10; the fourth, fifth and sixth child, \$8 each per month.

(c) For any other dependent relative of an Officer or rating holding rank as stated herein who may qualify within the terms of the regulations, Officers above the rank of Lieutenant-Commander, \$30, other Officers and ratings, \$25.

Allowances in lieu of Quarters and Rations: An amount of \$7,181,172.60 was paid to compensate officers and ratings in lieu of board and lodgings, at the following daily rates: in Canada, \$1.25-\$4.10; in United Kingdom, \$2-\$4; in U.S.A., \$3.50-\$8; in Newfoundland, \$1.75-\$3.

Uniform Allowances: Expenditures for this purpose amounted to \$408,395. To outfit themselves with uniforms, Officers (except Medical Officers), Warrant Officers and Cadets (on promotion to Midshipman, Midshipman (E) or Paymaster Midshipman) receive an allowance of \$250 which was increased from \$150 effective January 19, 1944, but not made retroactive. Medical officers of the Royal Canadian Navy (permanent force) receive an allowance of \$300.

Clothing Gratuity (Kit Upkeep Allowances): Expenditures for this purpose totalled \$2,900,655.65. Annual allowances are paid to ratings, on completion of one year's service, for the upkeep of kit at the following rates:

Chief Petty Officers and Confirmed Petty Officers.....	\$ 64 00
Petty Officers and men dressed as seamen.....	44 00
Petty Officers not confirmed and men not dressed as seamen.....	60 00

Civilian Clothing on Discharge: Expenditures amounting to \$335,435.98 were made for the purpose of providing personnel with civilian clothing on discharge. The rate was \$65 until July 31, 1944, when an increase to \$100 was authorized (P.C. 200/7093 of September 13, 1944, effective August 1, 1944).

B Transportation and traveling expenses of Naval personnel and civilian employees of the Department of National Defence—Naval Services. A list of certain civilian travelling expenses is shown immediately following the opening comments on this allotment.

C Sundry expenses such as light, heat, power and water, maintenance of grounds, snow and garbage removal, cleaning of offices and other miscellaneous expenses incurred in the operation of dockyards, barracks, armament and supply depots, signal stations, bases and R.C.N.V.R. divisions.

D Acquisition and construction of vessels, \$68,171,833.58; repair and upkeep of ships, \$28,579,897.86; charter of vessels, \$397,537.51.

E Purchase of new machinery, \$941,342.84; repairs to machinery, \$118,261.75.

F Construction of buildings, \$8,537,188.43; purchase of lands and buildings, \$828,221.93.

G This represents the net expenditure, including maintenance, in respect of such stores as: clothing, provisions, mess traps, first fitting outfit stores, special equipment, spare gear, medical stores, armament stores, fuel, printing and stationery, furniture, training and office equipment. An amount of \$754,256.27 resulting from overhead percentage added to the cost of material issued to, or used in work performed for other governments, private firms, persons and other government departments, has been credited to this account.

H Expenditures include dental expenses, \$1,061,960.18, composed of a sum of \$1,053,045 paid to the Department of National Defence—Army Services, for pay, allowances, travel, transportation and accommodation of personnel of the Canadian Dental Corps serving with the Royal Canadian Navy (T. 247976 B., September 30, 1943) and a further amount of \$8,915.18 for dental care where not available from service sources; telephone tolls, telegrams and cables, \$498,781.86; postage, \$143,788.43; tuition fees, \$108,757.24; pilotage and canal tolls, \$56,797.46; cost of courts martial, \$19,318.29; funeral expenses, \$7,303.07; payments to National Research Council for scientific services, \$214,838.61; unemployment insurance stamps, \$140,010.44; rehabilitation grants, \$501,393.06; bounty pay for drill attendance, R.C.N.V.R., \$42,588.45; miscellaneous, \$389,912.05.

<b>Allotment: Equipment Division .....</b>	<b>\$</b>	<b>1 00</b>
<b>Expenditures .....</b>		<b>nil</b>

The Equipment Division was established under authority of P.C. 6094 dated October 29, 1940, for the purpose of procuring the production of the necessary component parts of anti-submarine equipment and of assembling these components into sets.

The sets were sold to the Royal Canadian Navy and to the Royal Navy on the basis of actual cost so far as it was possible to determine this cost, and for the period from October 29, 1940 to April 30, 1942, the selling prices were based on the amounts paid for components used in the assembling of the sets, plus an overhead charge of 20 per cent to cover pay and allowances, civil salaries and wages, rent, telephone and other operating expenses, provided for in the allotment for Naval Services. This overhead charge of 20 per cent was discontinued on April 30, 1942, as the operations of the Equipment Division to that date showed a substantial credit balance, which, together with the additional credit anticipated as a result of the net total of downward adjustments of purchase prices of components resulting from the Treasury cost audits of suppliers accounts, was deemed adequate to cover all future overhead charges applicable to this project.

A statement of transactions through the allotment provided for this purpose by fiscal years follows:

	Gross Expenditures	Sales	Balance
1941-42 .....	4,448,794 83	3,398,495 95	(Dr.) 1,050,298 88
1942-43 .....	5,365,946 54	9,587,698 38	(Cr.) 4,221,751 84
1943-44 .....	447,566 97	851,412 48	(Cr.) 403,845 51
1944-45 .....	119,275 41	189,467 42	(Cr.) 70,192 01
	<u>\$10,381,583 75</u>	<u>\$14,027,074 23</u>	(Cr.) <u>\$3,645,490 48</u>

The credit balances were transferred to Special Receipts—Refunds of Previous Years' War Expenditures. They do not take into account the value of equipment on hand at the beginning or close of the fiscal years concerned.

The production, assembly and installation of anti-submarine equipment being completely organized by July 10, 1942, authority was obtained to dissolve this Division after completion of the programs which it had on hand at that date.

Allotment: Sea Cadet Corps.....	463,687 00
Expenditures.....	\$ 460,278 22

A distribution of expenditures follows:

Civil Salaries and Wages.....	3,999 96

At the close of the fiscal year, each imprest account is examined by the official in charge and funds to meet cheques which have been outstanding since the close of the previous fiscal year are withdrawn from the imprest bank account and credited to this account. If any of these cheques are subsequently cashed, the imprest bank account is then recouped in the usual way and this account adjusted concurrently.

A Receipts are sums deducted from the pay of ratings of the Royal Navy who are on loan to the Canadian Navy and disbursements are quarterly payments to the British Admiralty under loan agreement.

B The establishment of this fund was authorized by P.C. 42/10672 of November 23, 1942, for the purpose of providing assistance to personnel of the Royal Canadian Navy who may be in distress before and after discharge and to the needy dependents of deceased ex-members of the Naval Services. The fund is made up of donations from the canteens and messes of Royal Canadian Naval Ships and Establishments and other sources, and includes the residue of the Naval Prize Fund (1914-1918) which was transferred under the authority of P.C. 133/1950 of March 13, 1943.

C Receipts in this account represent a contribution of \$113,640 from Y.M.C.A. War Services for constructing a recreation building at Avalon Barracks, St. John's, Newfoundland. Disbursements represent payments to various contractors for constructing recreational centres at Point Edward Naval Base, Sydney, N.S., Avalon Barracks, St. John's, Newfoundland, and Annapolis Royal, N.S.

D The closing balance represents moneys, realized from the estates of deceased naval officers and ratings, awaiting distribution to those entitled to them.

E Receipts are deductions from the pay of officers of the Royal Canadian Navy who are prisoners of war to offset payments which may be made to them by an enemy power. Deductions are made monthly from officers up to the rank of Sub-Lieutenant at the rate of \$30 and at the rate of \$40 from those of higher rank. The liability is to detaining powers at the close of hostilities.

F This account records transactions relating to deposits by cadets to finance essential personal expenses as required by College regulations.

G A fund, originally raised by subscription in Canada, for providing gunnery prizes for H.M.S. *Dominion*, has been transferred to the Department for the purpose of providing prizes for efficiency in gunnery and torpedo in the Royal Canadian Navy.

## General Comments

The four war allotments listed above provided for all Royal Canadian Air Force expenditures during the fiscal year. A more complete description of these allotments as well as details of expenditures is given further on in this section.

*Procurement of Supplies and Equipment.*—The Department of Munitions and Supply purchases all supplies and equipment except that acquired by local purchase authority granted to various R.C.A.F. officials.

During the year the practice of making purchases from private contractors in the United States on a prepayment basis was discontinued with certain exceptions. Generally speaking, after July 28, 1944, normal accounting procedure was in vogue, with payments being made on proof of delivery; however, a small number of these advance payments, made in previous fiscal years, remain outstanding and these are being gradually liquidated as deliveries are completed.

Certain supplies available only in the United States were purchased from the United States Government through the Office of Lend Lease Administration. Purchases of this nature are known as Canpay requisitions, which are submitted by the Department of Munitions and Supply to the various procurement divisions of the United States Government. Payment of such purchases was to be made monthly against actual shipments; however, due to difficulties which developed in obtaining proper documentation, substantial deliveries were received for which payment has not yet been made. Pending receipt of such documentation, advances totalling \$144,609,765.26 were made to the Treasurer of the United States to apply against Canpay purchases, of which the sum of \$39,159,501.30 was advanced during the present fiscal year. At the close of 1944-45, the balance of such advances to be accounted for was \$64,761,196.39.

Equipment and supplies, chiefly aircraft, engines and aero gasoline in considerable quantities were furnished either directly or indirectly by or on behalf of the Government of the United Kingdom, as contributions in kind for use in the British Commonwealth Air Training Plan. The value placed on such contributions in the fiscal year, \$136,411,563.49 is credited against the liability of the United Kingdom in respect of their share of the cost of the Training Plan.

*Overhaul and Repair of Aircraft and Equipment.*—During the year, the major portion of overhaul and repair of the Royal Canadian Air Force equipment was carried out by civil contractors under cost plus contracts with the Crown. The policy at present is to perform such work, as far as possible, at the R.C.A.F. Repair Depots and, as a result, a number of contracts have been terminated or are in the process of termination. Progress claims submitted by the contractors do not always indicate to which allotment the expenditures should be charged, but an interim distribution has been made and, as cost audits of contractors' accounts are completed, a redistribution will if necessary, be made to the proper accounts.

Overhaul and repair work is also carried out on behalf of No. 45 (Atlantic Transport) Group (R.A.F.). Royal Norwegian Air Force, United States Army Air Force and United States Navy Air Force. As the charges for such work become known, the Governments are billed in the usual manner.

A list of contractors and suppliers receiving \$10,000 or over appears further on in this section.

*Pay and Allowances.*—Particulars of rates of pay and main allowances in effect as at March 31, 1945, are as follows:

\* Officers on the non-flying list receive \$2 per day less.

Staff rates of pay for classified appointments of officers range from \$6 to \$24 per day.

The following officers were paid consolidated per annum rates: Chief of the Air Staff, \$10,000; Air Attaché, Washington, \$8,500.

A special rate of \$29 per day was authorized by P.C. 1/94, January 6, 1944, for the Air Officer Commanding-in-Chief Overseas. This officer also receives an entertainment allowance of \$150 per month.

Special Group Pay: Airmen mustered to the Special Group are paid daily rates ranging from \$3.20 for Sergeant Air Gunners to \$5.70 for Pilots, Navigators, Air Observers and Air Bombers holding the rank of Warrant Officer, Class 1.

Flying Pay: Officers on the non-flying list are paid \$2 for each day of flying in the course of duty except when flights are in licensed commercial aircraft. Those who are undergoing aircrew training receive \$2 per day for that part of their training which involves continuous flying. Airmen and other ranks receive 75 cents per day. Airmen pilots and observers not on special rates receive \$1 per day flying pay, while air gunners receive 75 cents.

Command Pay: Officers, except those of air rank or in receipt of special rates, in command of (a) operational or training units of 200 or over or (b) non-operational units of 500 or over receive \$1 per day in addition to ordinary pay.

Adjutant's Pay: Officers appointed as adjutants receive 50 cents per day in addition to pay of rank.

Headquarters Pay: Officers appointed to positions on the establishment of Air Force Headquarters, or of a Command or group headquarters, receive additional pay of 50 cents per day.

Medical (Nursing Service) Branch: Officers of this branch are entitled to the pay and allowances prescribed for the equivalent ranks of male officers of the non-flying list. A Nursing Sister detailed as Assistant to a Matron, or as a Nursing Sister-in-Charge of 100 or more beds in a casualty clearing station or hospital, may receive additional pay of 50 cents per day.

Personnel of the R.C.A.F. regular force who were appointed or enlisted prior to January 1, 1940, may retain the pay and allowances of their rank in issue at September 30, 1940, until such time as by promotion or a change in status, Active Service rates become more beneficial. All R.C.A.F. (Regular) officers have elected Active Service rates of pay. The number of airmen who are still in receipt of R.C.A.F. (Regular) rates of pay is insignificant in relation to the total strength of the Force, and, therefore, regular rates of pay and allowances are omitted.

Subsistence Allowances: Officers and airmen serving in Canada receive \$1.70 and \$1.25 per day, respectively, in lieu of quarters and rations. Special rates are applicable at isolated points and in other countries.

Assigned Pay: An airman or airwoman on whose account dependents' allowance is issuable must make a qualifying monthly assignment of not less than fifteen days' pay of rank to the recipient. An officer must assign five days' pay of rank per month if dependents' allowance is issuable to a parent, brother or sister, but is required to make an assignment to a wife or to children only if a compulsory assignment is ordered for reason of inadequate financial provision by the officer. Such compulsory assignments must not exceed fifteen days' pay of rank or one hundred dollars per month, whichever is lower.

The following is considered as fifteen days' pay of rank for award of dependents' allowance:—Airmen: Warrant Officer, Class 1, \$60; Warrant Officer, Class 2, \$45; Flight Sergeant and Sergeant, \$35; Corporal and Leading Aircraftman, \$23; Aircraftman, Class 1 and Class 2, \$20; Boy, \$10; Airwomen: Warrant Officer, Class 1, \$50; Warrant Officer, Class 2, \$35; Flight Sergeant, \$30; Sergeant, \$25; Corporal, \$20; Ranks below Corporal, \$15.

If dependents' allowance is issuable to a parent, brother or sister of an airman, as well as to his wife or children, an additional five days' pay of rank must be assigned.

The maximum monthly assignment is twenty days' pay of rank, except assignments by prisoners of war and assignments for certain authorized purposes.

Dependents' Allowances: Awards of allowances are in such amounts as decided by the Dependents' Allowance Board, but not exceeding maximum monthly allowances as follows:

- (a) For a wife or a dependent female relative responsible for the care and management of a home for the dependent children of: an officer above the rank of Squadron Leader, \$62.20; Squadron Leader, \$57.20; Flight Lieutenant, \$52.20; Flying Officer and Pilot Officer, \$47.20; Warrant Officer, Class 1, \$42.20; all other ranks, \$37.20.
- (b) For a dependent son to the age of 16 years and for a dependent daughter to the age of 17 years and, if such child is following and is making satisfactory progress in a course of instruction approved by the Board, an allowance may be paid until such child reaches his or her nineteenth birthday; also for a dependent son or daughter of any age who is unable owing to physical or mental infirmity to provide for his or her own maintenance:—\$13.92 per month for the first such child; \$12 for the second; \$10 for the third; \$8 for the fourth, fifth and sixth.

If there is no wife nor dependent female relative responsible for the care of the children: \$20 per month for each dependent child, not exceeding in total \$50 for three children; \$60 for four, \$70 for five or \$80 for six.

- (c) For a dependent relative who may qualify within the regulations: \$30 for such dependent of an officer above the rank of Squadron Leader and \$25 in respect of other officers and other ranks. Dependents' allowance may be paid on behalf of a member of the R.C.A.F. (Women's Division) to a dependent relative at the rates and under conditions mentioned in this paragraph.

Dependents' allowance is not payable to the wife of an officer or airman who marries subsequent to appointment or enlistment until such officer or airman has completed six months' continuous service. Wives of officers and airmen who themselves are appointed or enlisted in the Defence Forces of Canada are entitled to dependents' allowance, so long as the total of their pay and such dependents' allowance does not exceed \$2,100 per annum.

Outfit Allowances: An allowance of \$250 is granted to officers, warrant officers, class 1, and nursing sisters to provide themselves with the necessary uniform and equipment. It was increased from \$150 on January 19, 1944, but the increase was not made retroactive. An officer who formerly held the rank of warrant officer, class 1, and previously received an outfit allowance of \$150 is entitled to a further allowance of \$100, and if he previously received \$250 to a further allowance of \$25. In cases where officers and warrant officers, class 1, of the R.C.A.F. (Women's Division), or officers of the Medical (Nursing Service) Branch, are permitted to resign for reasons other than ill-health and have not completed six months' service, they are required to refund a proportion of outfit allowances, determined by length of service. Warrant officers, class 2, non-commissioned officers and aircraftwomen of the R.C.A.F. (Women's Division) receive, upon enlistment, an underclothing allowance of \$15, and a quarterly allowance of \$3, thereafter, for the purpose of replenishments.

Civilian Clothing Allowance: An officer or airman, on cessation of active service, is entitled to a clothing allowance of \$100 for the purpose of providing himself with civilian clothing.

Under authority of P.C. 6422, August 12, 1944, the Department of National Defence assumed responsibility for the costs of sea transportation and transportation in Canada to designated places of residence for wives and other dependents of members of these services who married while serving outside of Canada on active service.

Authority was granted by P.C. 64/505, January 24, 1945, for the provision of medical attention and hospitalization to dependents of members and former members of the armed forces, who are being transported at the cost of the Government of Canada, in cases of emergency during the inland journey to their future homes in and beyond Canada; when the journey of such dependents is in or through the United States of America, authority is granted for payment in United States funds of standard rates for meals on trains.

The R.C.A.F. (University Air Squadrons) and the R.C.A.F. (Air Cadets) were authorized as further components of the Royal Canadian Air Force by P.C. 2983, May 13, 1942, and P.C. 1,3004, April 22, 1943, respectively.

Officers and airmen in the R.C.A.F. (U.A.S.) may draw pay up to a maximum of forty-five days, under certain conditions, at the following per diem rates: Wing Commander, \$8; Squadron Leader, \$6.50; Flight Lieutenant, \$5.50; Flying Officer, \$4; Pilot Officer, \$3; Warrant Officer, Class 2, \$2.60; Flight Sergeant, \$2.50; Sergeant, \$2.25; Corporal, \$1.75; Leading Aircraftman, \$1.50; Aircraftman, Class 1, \$1.45; Aircraftman, Class 2, \$1.30.

An officer of the R.C.A.F. (A.C.) is entitled to pay for a maximum of fifty-five days in any one year under certain conditions. Rates of pay are as follows: Wing Commander, \$7.70; Squadron Leader, \$6.50; Flight Lieutenant, \$5.20; Flying Officer, \$3.60; Pilot Officer, \$3.

An officer of the R.C.A.F. (U.A.S.) or the R.C.A.F. (A.C.) is entitled to an outfit allowance of \$150; but is not eligible to have issued to him, or on his behalf, dependents' allowance, flying pay or rehabilitation grant.

In addition to the allowances set out in the foregoing, personnel attached to the R.A.F. or serving overseas with the R.C.A.F. outside the United Kingdom are entitled to other financial benefits, the amounts of which are dependent upon the area in which the personnel are serving.

This allotment provided for all expenses of the Royal Canadian Air Force Overseas Headquarters, Royal Canadian Air Force Overseas Squadrons and certain ancillary formations; and for pay, dependents' allowances and certain other allowances and expenses of R.C.A.F. personnel serving with the Royal Air Force.

A Personnel costs comprise:

Salaries and wages, \$171,182.10, paid to civilian employees at R.C.A.F. Overseas Headquarters.

Pay and Allowances, \$106,190,147.46, includes pay issued to personnel, \$57,610,737.11; assigned pay, \$29,500,436.01; dependents' allowances, \$17,969,782.95; outfit allowances, \$1,101,545.13; rehabilitation grants, \$7,646.26. Details of rates of pay and allowances are shown under General Comments.

Transportation, \$3,018,954.50, consists mainly of ocean transportation of R.C.A.F. personnel and travelling expenses of service personnel and civilians attached to Overseas Headquarters.

Laundry, \$11,806.72; medical services, \$17,990.52; rations, \$93,932.96.

B This expenditure consisted chiefly of operating expenses, including rentals, heat, light, water, and char services at properties occupied by the R.C.A.F. overseas administrative staff. An amount of \$43,944.04 was paid for construction of the R.C.A.F. wing at East Grimstead Hospital, England.

C This is comprised of payments made to the Government of the United Kingdom in respect of the following:

Royal Canadian Air Force Overseas Squadrons, \$412,609.968, covering maintenance and initial capital costs for equipment of the R.C.A.F. Overseas Squadrons and certain ancillary units.

With the exception of pay and dependents' allowances, all maintenance costs are included herein. These are comprised mainly of: aircraft wastage—replacement of destroyed, missing and certain other aircraft; rentals of accommodation—hangars, workshops, stores, operational buildings, etc.; personnel services—rations, barrack accommodation, sick quarters, etc.; aviation fuel and oil; bombs and ammunition; transportation; station administration and miscellaneous items.

Capital charges include the cost of aircraft required for the initial equipment and immediate reserve for squadrons established during the year, together with the cost of unit equipment. Also included is difference between the total cost of new types of aircraft and the original capital cost of the aircraft replaced on re-equipment of squadrons during the fiscal year. Aircraft and unit equipment so acquired become the property of Canada. Other facilities of a capital nature, such as aerodromes and buildings, are provided by the United Kingdom on an annual rental basis and expenditures in connection therewith are included as maintenance charges.

Costs in respect of ancillary units have been incurred chiefly in connection with the operation of the Personnel Reception Centre, Bournemouth; the Personnel Disposal Centre, Warrington; and No. 6 Bomber Group Headquarters.

Payments, at capitation rates, have also been made under this heading for clothing supplied by the R.A.F. to R.C.A.F. airmen serving in the United Kingdom and elsewhere overseas.

Monthly payments are made to the United Kingdom based upon the estimated cost of the foregoing. The basis of computation and the elements of cost included therein are reviewed by responsible R.C.A.F. officials in the United Kingdom and financial adjustments are arranged when necessary.

Charges are billed quarterly by the United Kingdom Air Ministry as an accounting for the monthly payments. Under this arrangement, a total of \$728,974,205 has been paid since July, 1943, of which \$418,885,442 remained to be accounted for at the close of the fiscal year.

The large increase in expenditures under this heading as compared with the previous fiscal year is attributable to the establishment of additional squadrons and the introduction of heavier aircraft.

Reserve Stores and Pipe Line Supplies (\$100,000,000): Expenditure represents a provisional payment to the United Kingdom in respect of Canada's share of the cost of reserve stores and pipe line supplies required to maintain Royal Canadian Air Force Overseas Squadrons. As at July 31, 1944, Canada's liability in connection with the foregoing was estimated to be approximately \$125,000,000, after excluding, by tentative agreement, such items as equipment held by contractors at works and repair establishments on embodiment or contract loan, and food, coal, gas and oil.

Due to many factors which complicate the problem of determining a fair basis of final settlement, this provisional payment was authorized. It is proposed to defer the question of final settlement until the end of hostilities, when Canada's liability can be more accurately assessed. Provisional payments will be taken into account when the amount of the final settlement has been agreed upon.

Advanced training, \$134,000,000: Provisional payments totalling this amount were made to the United Kingdom applicable to the cost of advanced air training in the United Kingdom of all aircrew personnel required for service in Royal Canadian Air Force Overseas Squadrons. The cost for the period April 1, 1943, to March 31, 1945, is estimated at \$160,000,000, and, when a formal claim is submitted, all provisional payments will be taken into account.

No. 162 Bomber and Reconnaissance Squadron, \$1,321,057: This amount represents the total of provisional payments made during the fiscal year to the United Kingdom for supplies and services in connection with the operation of this squadron in Iceland. Operations consisted of anti-submarine patrol activities in the North Atlantic area and were carried out from the Royal Air Force Station, Reykjavik. Charges are reviewed by responsible R.C.A.F. officers and provisional payments will be taken into account when formal claims are submitted by the United Kingdom Air Ministry.

D F Cost of miscellaneous equipment and supplies, mechanical transport, printing and stationery and communication services at Overseas Headquarters.

E This includes cost and maintenance of transport aircraft for use of Royal Canadian Air Force Headquarters Overseas.

	<u>\$227,941,624 83</u>

This allotment provided for expenditures in respect of all R.C.A.F. units and formations engaged in connection with defensive operations in the Western Hemisphere, including coastal patrol and convoy protection duties off the Atlantic and Pacific coasts and flying control and maintenance of the Northwest Staging Route. In April, 1943, authority for embodiment of units of the Air Cadet Corps as a component of the R.C.A.F. was granted by P.C. 1/3004 of April 22, 1943. Certain training and administrative expenses of the R.C.A.F. Air Cadets and forty-five per cent of expenditures of Air Force Headquarters were paid from this account.

Salaries and wages are those of civilian employees whose duties were connected with Western Hemisphere Operations of the R.C.A.F. with the exception of those engaged in construction work, whose salaries and wages were charged under Construction and Maintenance.

As of March 31, 1945, there were 3,254 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over, on that date or at date of separation, are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown.

Travelling expenses and allowances of civilian and service personnel amounted to \$5,817,093, and freight and drayage on equipment and supplies were \$2,536,224.21.

A Pay and allowances of service personnel engaged in Western Hemisphere Operations comprised: pay issued to personnel, \$35,962,451.69; assigned pay, \$19,881,624.40; dependents' allowances, \$10,506,632.23; rehabilitation grants, \$3,871,509.84; outfit allowances, \$300,035.38; civilian clothing allowances, \$3,191,064.54; miscellaneous allowances, \$147,958.40.

B Comprises expenditures for: fuel, \$3,509,993.35; light, power and water, \$770,697.36; rents, \$405,994.12; miscellaneous, \$90,534.56.

C These expenditures are classified as follows: work under contract, \$6,346,266.76; acquisition of land, \$41,303.70; aerodrome development by the Department of Transport, \$10,487,089.94; sundry building materials, \$1,090,888.06; repairs, alterations and maintenance, \$1,036,112.49.

D This amount represents the cost and maintenance of aircraft, aero engines, spares and accessories for use in Western Hemisphere Operations.

Also included in this amount are advance payments totalling \$38,850,000 authorized by P.C. 3010, April 26, 1945, made to the Government of the United States on account of equipment and supplies received or on order, such payments forming part of the total advances referred to in the General Comments.

E This amount covers the administrative and training expenses of Air Cadet Squadrons; pay and allowances of Air Cadet Officers; a grant of \$25,000 to the Air Cadet League of Canada under authority of P.C. 166 6181, August 4, 1943; grants paid under authority of P.C. 165/6181, August 4, 1943, to Air Cadet Squadrons as follows: capitation grants of 50 cents for each junior air cadet and \$1 for each senior air cadet to graduate during the year; uniform maintenance grant of \$1.25 for each uniform issued; band grant of \$2 per instrument. A nominal charge, payable in instalments, is levied for uniforms supplied.

F The major portion of this expenditure is for telephone and teletype facilities, including long distance calls, telegrams and cables, postage and post office box rentals.

G These expenditures are classified as follows: medical services, \$376,169.70; laundry, \$245,764.26; miscellaneous, \$381,547.81.

Net United Kingdom liability as at March 31, 1945, in respect of B.C.A.T.P.

No. 2 (see also under Loans and Advances—Open Accounts further on in this section). ....	\$249,504,053 18
--	------------------

Under an agreement authorized by P.C. 666, June 7, 1945, adjusting the liabilities under the B.C.A.T.P. agreement of June 5, 1942, the United Kingdom Government assumed liability for a sum of Canadian dollars equivalent to fifty per cent of the total cost of the British Commonwealth Air Training Plan No. 2 for the period July 1, 1942, to March 31, 1945, less payments received by the Government of Canada from or on behalf of the Governments of Australia and New Zealand in respect of training for the period July 1, 1942, to March 31, 1945.

Under a separate agreement between the Governments of the United Kingdom, Australia, New Zealand and Canada, the Governments of Australia and New Zealand renounced all claims to residual assets of the plan and were relieved of all their liabilities in respect of plan obligations accruing and winding up costs incurred after termination as originally provided for under the B.C.A.T.P. agreement of June 5, 1942.

The Governments of Australia and New Zealand having agreed to the foregoing, the Government of Canada, on termination of the Plan Agreement, assumed liability for any obligations accruing in respect of the plan and any costs incurred in the winding-up process. In consideration of being relieved of the aforementioned liabilities, the Government of the United Kingdom agreed to forego its entitlement, as originally provided, to share in the residual assets of the plan, and accordingly the residual assets, other than defence articles supplied to the Government of the United Kingdom by the Government of the United States of America under the Lend-Lease Act, shall become the property of Canada. Provision is made, however, that the Government of Canada will make available to the Government of the United Kingdom, without cost, any equipment acquired for plan purposes and declared surplus to the requirements of the Canadian Armed Forces and junior training organizations and civil flying clubs in Canada, which is required by the Government of the United Kingdom for certain specified purposes.

It has been agreed that the total cost of B.C.A.T.P. will be arrived at by adding to the amount of total expenditures as of March 31, 1945, certain amounts not already included, and deducting therefrom certain non-shareable expenditures included therein and certain amounts in respect of assets disposed of during the training period. At the close of the fiscal year the exact amounts had not been determined.

Further details of expenditures are as follows:

Salaries and wages are those of civilians employed in connection with the B.C.A.T.P., with the exception of those engaged on construction projects, whose salaries and wages are included under C—Construction and Maintenance. A list of those receiving salaries at an annual rate of \$2,400 or over follows these comments.

Transportation includes expenses in connection with the movement of both service and civilian personnel, subsistence while travelling, \$12,283,987.35, and the transfer of stores and equipment, \$2,939,072.77. Lists of civilian employees whose travelling expenses amounted to \$300 or over follow these comments.

As of March 31, 1945, there were 3,964 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employees in receipt of war duties supplements are indicated by asterisks.

The travelling expenses of these employees where the amount was \$300 or over are also shown

Wilson, \$898.19; J. Wishart, \$332.40; B. H. Witherspoon, \$350.25.

A This amount is made up as follows: pay issued to personnel, \$95,737,599.09; assigned pay, \$11,752,221.81; dependents' allowances, \$24,861,693.69; outfit allowances, \$2,838,899.85. Details of the rates of pay and particulars of the main allowances have been dealt with under General Comments.

- B This expenditure comprises: fuel, \$3,567,603.52; light, power and water, \$2,109,397.34; rents, \$501,532.76; miscellaneous operating expenses, \$147,248.70.
- C A general classification of this expenditure follows: construction by contract, \$4,397,614.14; construction by the Department of Transport, \$2,525,587.55; construction by the R.C.A.F. Construction and Engineering Division, \$496,495.21; repairs, alterations and maintenance, \$3,058,727.18.
- D This amount represents the total cost, including maintenance, of aircraft, aero engines, accessories and spare parts for training purposes or incidental thereto.
- E Under agreement with the Crown, privately owned companies operated and maintained Elementary Flying Training Schools and Air Observer Schools. Total payments to these companies in 1944-45 amounted to \$18,573,862.73. Refunds totalling \$3,113,739.32 were received and credited to this allotment. These were made by operators of: (a) Elementary Flying Training Schools, \$1,925,532.80; and (b) Air Observer Schools, \$1,188,206.52; and covered a portion of the savings in operation and maintenance of such schools.
- F This amount comprises: medical services, \$1,788,254.05; laundry, \$829,918.23; sundries, \$252,947.16.
- Included in sundries are expenditures amounting to \$31,301.13, in connection with the final operations and winding up of the Dominion Aeronautical Association Limited. P.C. 738, January 31, 1941, authorized the organization of this Association, which was incorporated as a Crown Company under the Dominion Companies Act, for the purpose of securing qualified pilots and skilled personnel for service as civilians in connection with the activities of the British Commonwealth Air Training Plan.
- During the period of operations, advances were made to the company amounting to \$489,706.68. It was agreed that an audited copy of the Company's Balance Sheet as at June 30, 1944, together with the supporting schedule of administrative and operating expenses, would be accepted by the Department of National Defence for Air as an accounting for the advances made. These have been submitted by the Auditor General and appear as an Appendix to this section. It was also agreed to assume the outstanding liabilities as of June 30, 1944, which subsequently during the fiscal year, were liquidated on behalf of the Company.

Disbursements are made on a recoverable basis for the United Kingdom and other Allied Governments under authority of Section 3, War Appropriation Act, 1944, and individual Orders in Council.

A Disbursements are for transportation, stores, equipment and services and receipts represent repayments.

B These accounts originally were operated in connection with the liabilities of the Governments concerned arising from the participation in B.C.A.T.P. No. 1 and B.C.A.T.P. No. 2. The Government of the United Kingdom having assumed responsibility in this connection, they are now closed out (the closing credit balance shown was liquidated subsequent to the closing of the fiscal year).

C That part of the total costs of the British Commonwealth Air Training Plan No. 2 which is the liability of the Government of the United Kingdom is charged to this account. Credit has been allowed therein for: the value of contributions in kind furnished by or on behalf of the United Kingdom; cash payments received from the United Kingdom representing the estimated total of R.A.F. pay (but not allowances) of all R.A.F. service personnel, both staff and pupils in the B.C.A.T.P.; cash payments received from and on behalf of the Governments of New Zealand and Australia for their pupils trained in the B.C.A.T.P.; other remittances received on behalf of the Government of the United Kingdom relating to its share of the costs.

Total charges to this account from July 1, 1942, to the close of the fiscal year 1944-45 amounted to \$715,751,207.74, particulars of which are shown in the statement under the allotment for British Commonwealth Air Training Plan, No. 2 (see page NB—13).

D Under authority of P.C. 107/7730, October 6, 1943, it was agreed between the Government of Canada and the Government of the United Kingdom to settle, with certain exceptions, all outstanding accounts between the Department of National Defence—Air Services and the United Kingdom Air Ministry, up to and including June 30, 1942, for the amount of \$200,000,000, as being due from the Government of the United Kingdom to the Government of Canada.

A A portion of the pay of certain categories of R.C.A.F. airmen and airwomen serving overseas is withheld and credited to their deferred pay accounts upon which interest, chargeable to Interest on Public Debt, is allowed at 3 per cent per annum, calculated annually on month end balances. The amount of such deferments is periodically charged to the proper War Allotment and credited to this trust account, pending release to the individuals concerned under certain conditions set forth in R.C.A.F. regulations.

B This account is credited with the balances of pay and allowances due deceased personnel and other amounts realized by the Administrator of Estates who directs distribution therefrom to creditors and beneficiaries.

C Under a Deed of Gift of the late J. Dazell McKee, securities to the value of \$1,000 are held in trust by the Department. Interest derived therefrom is credited to this account and used to defray certain expenses in connection with the annual award of the McKee Trophy to the individual who is considered by the Minister, upon recommendation of the selection committee, as having made the most outstanding contribution towards the advancement of Canadian aviation. The above balance includes the value of the securities.

D The credits to this account represent accumulations of the amounts debited to the pay accounts of prisoners of war to offset the pay (computed at the rates prescribed by the Geneva Convention) credited to the Camp Trust accounts of such prisoners of war, by the captor governments. The liability is to detaining powers and will be liquidated after cessation of hostilities.

A Pension deductions made under R.C.A.F. regulations from the pay of R.A.F. personnel on loan to the R.C.A.F. are credited to this account. The amount credited will be transferred to Special Receipts—Refunds of Previous Years' War Expenditures in appropriate proportions as a reduction of the expenditures of B.C.A.T.P. No. 1 and B.C.A.T.P. No. 2 as authorized by P.C. 111/8890, November 29, 1944.

B Deductions for Victory Loan Bonds and War Savings Certificates from the salaries of certain employees not paid by Central Pay Office and from the pay of service personnel are credited to this account pending transmittal to the Department or agency concerned.

A All cheques which remain undelivered after six months subsequent to the date of their issue, with the exception of those drawn against Open Accounts, are credited to this account.

B The amounts of certain Receiver General drafts are credited to this account pending receipt of advice which will enable proper allocation.

C From time to time, remittances are received without sufficient information to enable credits to be made to the effective accounts. The amounts thereof, are credited to this account pending receipt of advice which will permit of proper allocation.

D P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees, who are not paid through the Central Pay Office. This account has to do with the incomplete subscriptions under this plan of employees who have left the Government service.

Less refunds, \$56; disbursements from customs and excise seizures, \$153,881.48 .....	153,937 48	
		148,512 94

The revenues from customs and excise seizures were derived mainly from seizures under the provisions of the Customs Act, c. 42, R.S. as amended and the Excise Act, 1934, as amended. The disbursements of \$153,881.48 were made under authority of the said Acts, and were in respect of (i) expenses incidental to the making of the seizures and for moieties paid to the seizing officers and informers, and (ii) repayments of deposits, in whole or in part, to persons accused of violations of the Customs and Excise Acts.

Payments of \$1,000 or over were made on account of legal services in connection with customs and excise seizures to the following: S. Hart Green, Winnipeg, Man., \$1,721; and Richard S. Hinton, Summerside, P.E.I., \$1,556.92.

#### General Comments

As at March 31, 1945, there were in operation 151 Ports of Customs and Excise, and, under the survey of these ports, 172 Outposts, 61 Preventive Stations, and 41 Postal Collecting Stations. The cost of operation exceeded the revenues collected at the Port of McAdam, N.B., where expenditures were \$34,180.27 and revenues \$18,556.13 and at that of Gretna, Man., where expenditures were \$6,767.54 and revenues \$3,831.91.

In order to expedite the release of perishable and other imported goods, and as a guarantee of payment of customs duties and excise taxes thereon, and of sales and excise taxes payable by licensees, securities are deposited with the Department and placed with the Department of Finance for safekeeping. At March 31, 1945, the securities so deposited were \$1,357,550 for customs purposes and \$2,683,600 for excise purposes.

† Of the above employees, the salaries of the following have been repaid by the organizations to which they were on loan: J. M. Fell, R. Lang, J. D. C. Mahaffy, E. McNally (war duties supplement only). The salaries and living allowances of certain officers stationed in the United States, whose time was occupied in servicing railway transportation companies, were repaid by these companies. Repayments were made by the Commodity Prices Stabilization Corporation Limited, \$5,750; Foreign Exchange Control Board, \$600; Wartime Prices and Trade Board, \$420; and the railway transportation companies, \$8,070. Of these repayments, \$14,420 is included under the heading "Services and Service Fees" in the "Details" of the departmental statement of revenues given on a previous page. The balance, amounting to \$420, was refunded to the vote.

A Distributed as follows: printing, \$3,293.49 and stationery, \$3,304.99. Payments were made to the Department of Public Printing and Stationery.

B This expenditure includes \$480.25 for living expenses of officers while acting in a relieving capacity away from their place of residence, also \$760.90 for removal expenses of officers.

The following employees, whose salary rates were under \$2,400 on that date, or whose salaries were paid from other accounts, received travelling and living expenses of \$300 or over: A. L. Armstrong, \$484.85; G. A. Belanger, \$561.60; F. Breton, \$357.40; I. S. Carroll, \$641.91; S. W. Chisholm, \$822.97; D. P. M. Clarke, \$1,267.41; J. W. Delve, \$680.80; W. J. Frazer, \$1,052.52; G. W. K. Holmes, \$645.89; P. P. Last, \$513.85; J. C. B. MacMillan, \$332.43; A. R. Morgan, \$491; E. J. Reed, \$963.80; L. E. Rolston, \$976.52; H. D. Sleggs, \$912.47; J. A. Vallerand, \$623.21; H. K. W. Young, \$1,247.43; H. M. Young, \$1,913.57.

- C As of March 31, 1945, 363 officers were bonded for amounts ranging from \$500 to \$5,000 under the Government Officers' Guarantee Fund.
- D The charges to this allotment include: postage and post office box rentals, \$3,694.68; office rentals and lighting, \$501.45.

	<u>\$ 57,775 00</u>	<u>\$ 57,775 00</u>	<u>\$ 56,848 15</u>

This vote was provided to meet salaries, cost of living bonus and other expenses of the staff of the Undervaluation Unit, whose duty it is to investigate infractions of the customs laws (except cases of smuggling) involving the importation and entry of goods under false invoices or declarations regarding values and duties payable.

As of March 31, 1945, there were 21 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. Salary rates do not include cost of living bonus. H. L. Carson, \$3,720; C. E. Gress, \$2,760; L. H. Hall, \$2,760; G. E. M. Hunter, \$3,720; R. C. Maxwell, \$2,760; B. A. Neville, \$2,760; U. A. Paquette, \$2,760; I. Savard, \$3,720; C. H. Tyers, \$2,760.

The Commodity Prices Stabilization Corporation Limited repaid the sum of \$7,095.36 (included under "Services and Service Fees" in the "Details" of the departmental statement of revenues given on a previous page) for services of the following employees of this Department on loan to the Corporation: H. E. Ball, \$2,760; C. S. Fisher, \$2,760 (half time); T. B. Hurson, \$2,760.

Nine of the officers who were paid from this allotment also received seizure awards of moieties payable under the Customs and Excise Acts. The payments were made from seizure revenue and amounted to \$3,343.82.

- A In addition to the charges to this allotment, \$1,487.71 for travelling expenses of officers was paid from seizure revenue. Payments of \$300 or over, from the allotment and/or from seizure revenue were as follows: J. W. Brault, \$593.06; B. A. Neville, \$435.26; J. H. Noble, \$809.99; U. A. Paquette, \$805.93; I. Savard, \$515.88; C. H. Tyers, \$318.87.
- B As at March 31, 1945, 15 officers were bonded for amounts ranging from \$1,000 to \$5,000 under the Government Officers' Guarantee Fund.

**Vote 188 Ports, Outports and Preventive Stations, including pay for overtime of officers, notwithstanding anything in the Civil Service Act, and temporary buildings and rentals**

In addition to the payments from this account, salaries, etc., totalling \$61,260.66 were paid to 442 Customs and Excise officers by other departments.

The salaries of certain officers, charged to this account, were repaid by the organizations to which they were on loan. Repayments were made by the Commodity Prices Stabilization Corporation Limited, \$2,688.41; Department of Veterans Affairs, \$375.07; Wartime Prices and Trade Board, \$2,112.01. Of these repayments, \$2,487.08 was refunded to the vote, and \$2,688.41 is included under the heading "Services and Service Fees" in the "Details" of the departmental statement of revenues given on a previous page.

A The following employees receiving salaries at annual rates of \$2,400 or over were receiving living allowances as at March 31, 1945, at rates listed: J. A. Simmons, \$1,500; J. O. Williams, \$1,500.

B Extra services during regular hours and overtime services on Sundays, holidays and outside of regular hours were performed for the accommodation of railway companies and business firms. The cost of extra services and a large proportion of the overtime services are paid for by the parties accommodated. As shown under the departmental statement of revenues given on a previous page, \$197,198.54 was recovered in this connection. In some instances the officers are allowed compensating time off in lieu of overtime pay.

C For the purpose of providing uniforms for distribution to customs officers, cloth is purchased by the Department for resale to clothing manufacturers who tailor the garments and bill the Department for the completed uniforms.

Cloth sales were: Walter Blue and Co., Ltd., Sherbrooke, \$2,580.96; Gordon Campbell, Ltd., Vancouver, \$1,719.94; Clayton and Sons, Ltd., Halifax, \$3,207.57; Coppley, Noyes and Randall, Ltd., Hamilton, \$5,311.75. These amounts were credited to the allotment; and the value of the cloth on hand as at March 31, 1945, was \$7,134.71.

Payments for uniforms were: Walter Blue and Co., Ltd., \$5,527.84; Gordon Campbell, Ltd., \$4,517.51; Central Overall Cleaners and Supply Co., Ltd., \$29.05; Clayton and Sons, Ltd., \$6,721.90; Coppley, Noyes and Randall Ltd., \$12,258.80; Robert Crean and Co., Ltd., \$70.20; Fleming's Costumiers and Furriers, \$172; William Scully, Ltd., Montreal, \$1,000.71.

D Distributed as follows: printing, \$76,971.56, and stationery, \$38,138.13 (including \$2,790.90 for the acquisition of mechanical equipment). Payments were made to the Department of Public Printing and Stationery.

E This allotment includes \$59,775.30 for living expenses of officers while acting in a relieving capacity away from their place of residence, also \$1,631.87 for removal expenses of officers.

Travelling and living expenses of \$300 or over were paid to: H. Beardmore, \$340; C. J. Beaton, \$847.73; G. B. D. Berton, \$1,552.05; R. H. Biggin, \$737.15; J. J. A. Boisseau, \$543.50; F. E. ## Comparative Statement of Accounts Receivable

	March 31, 1945	March 31, 1944
Current Year	749,887 17	9,788 87
Previous Years—Collectable	63,772 42	2,747 87
—Uncollectable	2,698,959 14	69,044 34
	<b>\$3,512,618 73</b>	<b>\$ 81,581 08</b>

In the above statement, the figures as at March 31, 1945, include accounts receivable in respect of seizures and excise taxes, while those as at March 31, 1944, do not.

In connection with excise taxes, the amount outstanding in respect of previous years is \$2,679,061.11, and administrative officials state that it is not possible to determine precisely how much can be considered as collectable, but after careful study, have decided that approximately \$50,000 can be considered as within this category. The balance, \$2,629,061.11, is classified as uncollectable. Excise taxes owing by limited liability companies when such companies have been discharged in bankruptcy are not included in the foregoing statement.

<i>Outstanding Cheques and Warrants—</i>				
Outstanding Imprest Account Cheques.....		\$ 388 21		\$ 388 21

At the close of the fiscal year, each imprest account is examined by the official in charge and funds to meet cheques which have been outstanding since the close of the previous fiscal year are withdrawn from the imprest bank account and deposited herein. If any of these cheques are subsequently cashed, the imprest bank account is then recouped in the usual way and this account adjusted concurrently.

<i>Miscellaneous—</i>				
Contractors' Securities—Cash—Customs and Excise.....	\$ 2,258 41	\$ 1,757 12	\$ 1,603 26	\$ 2,412 27

Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Department of National Revenue amounted to \$2,050.

- A Under authority of Section 61 of the Income War Tax Act, c. 97, R.S., persons appealing to the Exchequer Court from a decision of the Minister of National Revenue as to their assessments are required to give security for the costs of the appeal, to the satisfaction of the Minister, in a sum not less than \$100. The decision of the Exchequer Court determines the final disposition of the deposit. If the appellant is successful, the amount is returned to him. If he fails, the amount or such part of it as is required to pay the taxed costs of the Crown, is transferred from this account as a revenue item. No interest is allowed on the deposit.
- B C D E Arrears of income tax were collected by the Dominion Government during the fiscal year and paid to the Provinces in accordance with the provisions of the Dominion-Provincial Taxation Agreement Act, c. 13, 1942.
- F All cheques, except those drawn against Open Accounts, which remained undelivered after six months subsequent to the date of issue, are credited to this account.

This vote provided for expenditures of the National Film Board which, under the National Film Act, c. 20, 1939, advises upon and approves film activities of the various Government Departments and produces and distributes documentary films in the interests of Canada. Where the Board acted as agent for Government Departments or other organizations, billings were made at cost.

Under authority of P.C. 119/3735, May 9, 1944, an annual revolving fund was established to provide working capital for the Board's activities. All payments were, initially, made from such fund and, consequently, the usual details of salaries and other expenses are reported thereunder (see Revolving Fund for Production of Films, page PA—17).

<b>Allotment: War Charities Division—Auxiliary Services.....</b>	<b>14,984,394 34</b>
<b>Expenditures.....</b>	<b><u>\$14,968,729 84</u></b>

Under authority of the War Measures Act, c. 206, R.S., P.C. 2199, March 20, 1942, provided for payments of accountable grants to the Canadian Legion War Services Incorporated, Knights of Columbus Army Huts Fund, Canadian Y.M.C.A. War Services Fund, Y.W.C.A. National War Services Fund, Navy League of Canada, and the Salvation Army Red Shield Fund, for the purpose of financing reasonable and necessary expenses incurred by said organizations in pursuing their objects of providing war auxiliary services, as approved by the Department of National Defence, to the forces of the Army, Navy and Air and to the Merchant Seamen.

P.C. 5248, June 22, 1942, constituted the National War Services Funds Advisory Board to advise the Department of National War Services in connection with, inter alia, the administration of the provisions of the above mentioned P.C. 2199. The members of the Board serve without salary but may be reimbursed their actual out-of-pocket expenses.

Pursuant to regulations, issued under P.C. 2199, March 20, 1942, audit firms acceptable to the Comptroller of the Treasury and the Auditor General were appointed by the Department to perform the necessary audits and report to the Department.

The budgets of the organizations and reports based upon the financial statements submitted by the auditors are considered by the Board with a view toward making appropriate reports and recommendations to the Minister, in accordance with the terms of P.C. 5248, as to "whether or not, in its opinion, the moneys heretofore procured by such organizations have been wisely and properly expended". The following statements show the accountable grants made, and exhibit the current status thereof.

#### NATIONAL FILM BOARD

<b>Allotment: Special War Film Library.....</b>	<b>40,000 00</b>
<b>Expenditures.....</b>	<b><u>\$ 36,218 97</u></b>

Expenditures were incurred in maintaining a special war film library in the National Film Board to meet the needs of various Government departments in the production of films of wartime activities.

Details of certain expenditures are merged with those shown under "Revolving Fund for production of films" see below.

<b>Allotment: Acquisition of Film Prints for Sale.....</b>	<b>15,000 00</b>
<b>Expenditures.....</b>	<b><u>\$ 6,806 83</u></b>

This allotment was originally approved pending the passing of a supplementary vote to augment the National Film Board appropriation (Vote 194) by authorizing a separate primary allotment. However, as it was found that the majority of the prints for sale were war prints, T.280267B., March 23, 1945, authorized that expenditures remain a charge against the War Appropriation.

Details of certain expenditures are merged with those shown under "Revolving Fund for production of films" see below.

<b>Allotment: Stills Production and Distribution.....</b>	<b>115,500 00</b>
<b>Expenditures.....</b>	<b><u>\$ 115,482 76</u></b>

The activities of this branch are primarily concerned with producing and distributing still photographs depicting Canadian life and work, with particular emphasis on those phases dealing directly with the war effort.

Details of certain expenditures are merged with those shown under "Revolving Fund for production of films" see below.

<b>Allotment: Wartime Information Film Program.....</b>	<b>1,090,000 00</b>
<b>Expenditures.....</b>	<b><u>\$1,086,636 03</u></b>

The Wartime Information Film Program includes the production and distribution of theatrical and non-theatrical motion pictures designed to publicize the scope and progress of Canada's war effort including the activities of Canadian Active Service Forces, and the distribution of these pictures throughout Canada, the United States and Overseas.

Details of certain expenditures are merged with those shown under "Revolving Fund for production of films" see below.

<b>Allotment: Revolving Fund for Production of Films.....</b>	<b>500,000 00</b>
<b>Expenditures.....</b>	<b><u>\$ 96,253 24</u></b>

An annual revolving fund was authorized by P.C. 119/3735, May 19, 1944, to provide working capital for National Film Board activities in producing films on war and other subjects and purchasing photographic equipment, supplies and film prints for war and other purposes both for its own account and pursuant to orders received from other Government Departments. Practically all expenditures made during the year were charged

Under authority of the Post Office Act, c. 161, R.S. (as amended), and the Savings Banks Act, c. 15, R.S., the Post Office Department, under the direction of the Postmaster General, is entrusted with the management and operation of the postal services of Canada and the Post Office Savings Bank. In addition, the Department performs certain services of an agency nature for other departments (without remuneration in some instances), the more important of which are: postmasters are required to act as deputy registrars under the provisions of the National Registration regulations; payments on Dominion Government annuities are received; unemployment insurance stamps, radio licences, war savings stamps and certificates are sold; mail is examined for the Foreign Exchange Control Board; and supplies of forms, literature, etc., are distributed to the public on behalf of the Department of National Revenue, Taxation Division, and the Wartime Prices and Trade Board.

Post Offices are divided into two main groups, namely, staff offices and revenue offices. The postmasters and staffs of staff offices are paid from parliamentary appropriations whereas the postmasters of revenue offices, and through them their staffs, except letter carriers, are paid on a commission basis by means of commission warrants issued from headquarters at Ottawa, and cashed out of Post Office funds in their hands. Letter carriers are paid from parliamentary appropriations in all cases. The various post offices are grouped according to postal districts, each district being under the superintendence of a District Director or Superintendent, controlled from departmental headquarters at Ottawa. District Offices are situated at Halifax, Charlottetown, Saint John, Quebec, Montreal, Ottawa, Toronto, London, North Bay, Winnipeg, Moose Jaw, Saskatoon, Edmonton, Calgary and Vancouver.

This year, there are two appendices to this section. The first contains a statement of the Post Office Account (Dominion balance sheet account 9(c)) as at March 31, 1945; while the second contains a departmental balance sheet as at the same date.

Payment of overtime compensation was authorized by the following Orders in Council: (i) P.C. 100/3183 of April 21, 1942, authorized pro rata payments, effective April 1, 1942, to letter carriers for overtime in excess of a forty-eight hour week; (ii) P.C. 130/11160 of December 9, 1942, extended these benefits, effective September 1, 1942, to mail porters acting as letter carriers and by P.C. 119/3711 of May 5, 1942, they were extended effective April 1, 1943, to postal clerks acting as letter carriers; (iv) P.C. 10/5677 of July 19, 1943, and P.C. 162/8855 of November 17, 1943, authorized overtime pay for employees in the classes of postal clerk, mail porter, senior mail porter, postal garage repairman and postal chauffeur, engaged in the operating

service on manipulative duties in excess of the regular weekly period, at the pro rata hourly rate of pay, provided that the minimum rate shall be 60 cents an hour. Such payment is to be made at the end of the month following the month in which such overtime was worked, provided that corresponding time off has not been allowed in the interim. Compensation for overtime also applies to letter carriers, senior letter carriers and letter carrier overseers for work performed on statutory holidays and during the Christmas heavy mailing period only, and to senior postal clerks during the latter period only. Letter carriers and clerks, grades 1, 2 and 3, acting as postal clerks, and clerks grade 4 are also to receive, during the Christmas rush period only, the benefits of overtime compensation while working on manipulative duties.

A Payments were made to the Department of Public Printing and Stationery.

B A large portion of this expenditure was for uniforms, boots, etc., for postal employees, as follows: uniforms and uniform repairs, \$129,532.17; caps, waterproof clothing and other accessories, \$23,575.85; cash allowances for boots, \$69,622.50; cloth for uniforms, \$62,502.02, less cloth sold to uniform manufacturers, \$59,961.68 (cloth purchased in previous years was also sold to clothing manufacturers for \$1,169.74, and is included in the statement of Revenues under the heading—Other Revenue, Proceeds from Sales).

Other expenditures in excess of \$5,000 were: gasoline and oil, \$10,199.17; mechanical and sorting equipment, \$60,011.21; post office box repairs, keys, etc., \$5,053.20; sanitary supplies, \$9,665.58; scales, repairs and supplies, \$5,643.32; stamping material, etc., \$35,559.17; tractors, supplies and repairs, \$17,535.97; trucks, supplies and repairs, \$10,574.12.

Suppliers receiving \$5,000 or more: Barringham Rubber Co., Ltd., Oakville, \$5,363.61; Canadian Postage Meters and Machines, Ltd., Toronto, \$17,578.04; Master Craft Uniform Co., Reg'd., Quebec, \$118,503.46; Office Specialty Manufacturing Co., Ltd., Newmarket, \$15,078.32; Pritchard-Andrews Co. of Ottawa, Ltd., \$9,272.48; Richmond Tailors, Ltd., Richmond Hill, \$6,038.10; T. E. Ryder Machinery Co., Montreal, \$9,959.82; J. E. Wiegand & Co., Ltd., Kitchener, \$13,431.27; Jay Wolfe, Inc., Montreal, \$10,748.75.

C Suppliers receiving \$5,000 or more: Bell Telephone Co. of Canada, \$19,980.39; Dominion Government, Department of Public Works, \$6,104.53 (this amount was originally paid to the Bell Telephone Co. by the Department of Public Works, that Department later being recouped from the Post Office Department Appropriation).

Robinson and Son Converters, Ltd., Toronto, \$22,585.50.

<b>Allotment: Mail Service for Troops Overseas—Publicity .....</b>	<b>216,545 02</b>
<b>Expenditures .....</b>	<b>\$ 211,644 83</b>

The expenditures from this allotment were made for the purpose of explaining to the public the proper method of addressing mail to the troops overseas, the precautions which should be taken in packing parcels for shipment, the danger involved in forwarding inflammable materials through the mails, etc.

All payments were made to the Walsh Advertising Co., Ltd., Windsor.

<b>Allotment: Purchase of Tobacco Labels for Services Purchase Cigarette Scheme—</b>	
<b>Revolving Fund .....</b>	<b>500,000 00</b>
<b>Expenditures .....</b>	<b>\$ 500,000 00</b>

This allotment was provided for the costs of the operation of a new system developed jointly by the Postmaster General, the Minister of National Defence—Army Services and the Minister of National Defence—Air Services, for the supplying to members of the Canadian Armed Forces in Italy, and subsequently to those located in the United Kingdom, on the Continent of Europe and at other points, of some seven popular brands of Canadian cigarettes.

In brief, the new system, which went into effect in June, 1944, insofar as men in the Mediterranean theatre were concerned, involved the purchasing from four tobacco companies of unaddressed labels at a cost of \$1 per label. On the receipt of the equivalent of \$1 from a member of the Armed Forces, together with an order for a carton of 300 cigarettes of the brand desired, a label addressed to the remitter was attached to a carton, which was shipped from stocks of cigarettes maintained by the tobacco companies in depots in Italy and the United Kingdom.

From the commencement of the Cigarette Scheme to the close of the fiscal year 1944-45, labels to the value of \$1,451,456 were purchased, while remittances from members of the Armed Forces amounted to \$951,456. The remittances were utilized for the purchase of replacement labels.

The values of unused labels on hand as at March 31, 1945, were as follows:

Benson and Hedges (Canada) Ltd. ....	3,040 00
Imperial Tobacco Sales Co. of Canada Ltd. ....	266,000 00
W. C. Macdonald Inc. ....	149,000 00
Tuckett Ltd. ....	81,960 00
	<b>\$ 500,000 00</b>

At the termination of the scheme, the above companies will refund the value of unused labels returned to them.

<b>Allotment: Reimbursement of Tobacco Companies for Loss or Damage to Consignment</b>	
<b>Stocks of Cigarettes .....</b>	<b>1,000 00</b>
<b>Expenditures .....</b>	<b>\$ 836 25</b>

This allotment was provided to pay tobacco companies in respect of loss or damage to consignment stocks of cigarettes during transit from Canada to Overseas Tobacco Depots, and whilst in the custody of the Canadian Postal Corps prior to the individual parcels being forwarded to the addressees. The governing authority provides that such payments, inclusive of any necessary cartons or containers and handling charges, are not to exceed \$2 per thousand cigarettes.

A As at April 1, 1944, the balance at the credit of depositors in the Post Office Savings Bank was \$28,286,551.57. Deposits during the year amounted to \$18,577,961.70, and interest credited to the accounts, \$581,472.63; (the latter item is an estimated amount transferred from Interest on Public Debt pending a reconciliation with the accounts of the Post Office Savings Bank). Withdrawals during the year totalled \$13,977,299.22. The balance of \$33,468,686.68 at the credit of depositors as at March 31, 1945, therefore represented a net increase of \$5,182,135.11.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Post Office Department amounted to \$2,500.

NOTE.—Lands, buildings and furnishings are provided through the Department of Public Works, consequently, such items are not included among the assets. In so far as the financial outcome of the year's operations is concerned, this may be regarded as approximate only, because (a) services rendered without charge by or to the Post Office are not taken into consideration; and (b) Special War Revenue Act taxes are included in postal revenue; the sum paid by use of postage stamps cannot be accurately established, but the tax so far as money orders and postal notes are concerned amounted to \$862,807.10.

Certified correct.

P.C. 3333, July 19, 1940, authorized the Minister of National War Services to co-ordinate existing public information services of the Government and undertake programs to obtain the utmost aid from the people of Canada in the national emergency which has arisen. By P.C. 8099, September 9, 1942, such powers were transferred to the Wartime Information Board, the latter to be composed of a Chairman, Vice-Chairman and

eight members and to be responsible to the Prime Minister in his capacity of President of the Privy Council and Chairman of the War Committee of the Cabinet. The Order further provided that the Board should (a) co-ordinate the existing public information services of the government and supervise the release from government sources of Canadian war news and information in and to any country outside of Canada, and (b) provide means and facilities for the distribution, both within and without Canada, of Canadian war news and information.

An extensive program to supply war news and information to Canada's armed forces in Canada and overseas was undertaken, the cost of which for the year totalled \$153,655.99. Of this amount, the sum of \$119,717.40 was refunded by the Department of National Defence—Army Services and credited to this account.

The following details include expenditures of \$13,536.13 and \$3,450 debited to Wartime Information Board—Economic Stabilization Information Program and Wartime Information Board—Demobilization and Rehabilitation Information Committee respectively to cover cost of office facilities and services of staff partially engaged on work relating to those activities.

As of March 31, 1945, there were 151 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employee in receipt of war duties supplement is indicated by an asterisk.

Living allowances of these employees and their travelling expenses where the amount was \$300 or over are also shown.

The Public Printing and Stationery Act, c. 162, R.S., as amended by c. 5, 1928, authorizes advances from Consolidated Revenue Fund to the King's Printer, not exceeding \$700,000, "to enable him to purchase material for the execution of orders given or requisitions made under the provisions of the Act, and to pay the wages of workmen engaged in the execution of such orders or requisitions". All moneys collected from the Public Service are treated as repayments.

In order to enable the provisions of the Act to be carried out and the expenses of orders attributable to war activities to be met, P.C. 124/7590 of October 1, 1943 authorized that, in addition to the statutory advance, a further amount of \$1,300,000 be made available under authority of the War Measures Act, c. 206, R.S., and the War Appropriation Act, 1943.

It is the practice of the King's Printer to add a percentage to the cost of the Stationery purchased to offset the cost of operation and this charge is absorbed by the various departments in their purchases; in the Printing Branch the charge for work done is made on a unit price basis for the various classes of work executed. The cost of light, heat, power, telephone services, etc., paid by the Department of Public Works, is not taken into account.

From the closing balance of \$2,223,524.82 shown above must be deducted the sum of \$1,132,299.54 representing amounts due the King's Printer by other departments and other Governments at the close of the fiscal year, and which are allowed as deductions under Section 38 (as amended) of the Act in determining net advances outstanding.

The following is a statement of the operations for the year as shown in the King's Printer's Advance Account:

A This account was closed during the fiscal year by the transfer of the small balance to Ordinary Revenue—Miscellaneous.

B Under the terms of the Dry Docks Subsidies Act, c. 191, R.S., amounts deducted from subsidies paid to the Burrard Dry Dock Company, Ltd., are credited to this account, to which interest at the rate of 3 per cent compounded annually is also credited. The moneys are to be used for the renewal of the pontoons in connection with the dry dock.

C Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Department of Public Works amounted to \$638,550.

D This account records the value of contractors' securities and earnings held pending the settlement of claims made by their creditors. Payments, made in accordance with the terms of such settlements, are debited hereto.

E By authority of P.C. 2965, October 4, 1939, the Department of Public Works took over from the Province of British Columbia for maintenance and operation the railway bridge at New Westminster, known as the Fraser River Bridge, the transfer being effective from December 1, 1939.

All tolls collected from the railways using this bridge are credited to this account. The cost of ordinary maintenance and operation is met from moneys voted by Parliament and such vote, entitled "Maintenance and Operation of the New Westminster Bridge", is recouped at the end of each fiscal year from the revenues collected. In addition, expenses amounting to \$109,997.16 in connection with the contract with the Dominion Bridge Co., Ltd., for large repairs were paid directly from this account.

The balance remaining in the fund is to accumulate for the ten years specified in the agreement pending final settlement with the Province.

F Monetary gifts and bequests to the National Gallery are credited to this account. They include the following received during the year: Beardmore & Co., Ltd., \$702; Canada Packers, Ltd., \$702; Canadian Bank of Commerce, \$621; Canadian Pool Agencies, \$702; Carnegie Corporation of New York, \$3,300; Christie Brown Co., Ltd., \$702; Cook Clothing Co., Ltd., \$702; R. ## DEPARTMENT OF RECONSTRUCTION

The Department of Reconstruction was established by the Department of Reconstruction Act, c. 18, 1944. Under section 6 of the Act, the Minister is empowered to: (a) institute any inquiry deemed necessary by him to obtain information respecting reconstruction plans, and for such purpose may, with the approval of the Governor in Council, appoint a person to conduct any necessary inquiry and a person so appointed shall have the authority of a commissioner appointed under Part I of the Inquiries Act, and the provisions of the Inquiries Act shall apply in respect of any such inquiry; (b) require of any person in Canada a return of information which the Minister may require relating to reconstruction; (c) consult with representatives of primary producers, industry, science and labour upon any question connected with reconstruction; (d) establish committees or boards and use existing organizations and agencies to assist him in carrying out the purposes of this Act; (e) inaugurate conferences of representatives of primary producers, industry, science and labour as well as representatives of dominion, provincial and municipal authorities engaged or likely to engage in any reconstruction plan.

The following excerpt from P.C. 7995 of October 13, 1944, lists the various powers, duties and functions transferred to the Minister of this Department under and by virtue of the provisions of the Department of Reconstruction Act, 1944, and of the Public Service Re-arrangement and Transfer of Duties Act, c. 165, R.S.

- "(a) with respect to the disposal and allocation of war materials and other assets no longer required in the prosecution of the war, which powers, duties and functions were vested in the Minister of Munitions and Supply under the Surplus Crown Assets Act, 1944, and by P.C. 9108 of Nov. 29, 1943, P.C. 5297 of July 12, 1944, and any other Orders.
- "(b) with respect to the disposal and allocation of war materials and other assets no longer required in the prosecution of the war, which powers, duties and functions were vested in the Minister of Munitions and Supply under P.C. 1342 of March 4, 1944, P.C. 4013 of May 29, 1944, P.C. 5296 of July 12, 1944, P.C. 5301 of July 12, 1944, and any other Orders.
- "(c) those vested in the Minister of Trade and Commerce with regard to the National Research Council, including the chairmanship of the Committee of the Privy Council on Scientific and Industrial Research, P.C. 1266 of June 6, 1916, Research Council Act, c.177, R.S.
- "(d) with respect to civil aviation vested in the Minister of Transport under the Aeronautics Act (c. 3, R.S. as amended) and the Department of Transport Act, 1936, and P.C. 3076 of July 8, 1940, as amended and any other statutes or Orders."

In connection with the direction in (d) above, it should be noted that the relevant expenditures are reported under the Department of Transport, as the allied appropriations are voted in the Estimates of that Department and the Deputy Minister thereof continues to administer Civil Aviation.

Allotment: National Research Council—Special War Activities .....	2,970,000 00
Expenditures .....	\$2,931,924 01

Expenditures were incurred in undertaking scientific and development work related to Canada's war effort in the solution of problems submitted by Departments, Boards and industry. The figure shown above for expenditures is the net after applying the sum of \$597,538.12 which was transferred from the Open Account "Special Fund" (see page VA—10) to this allotment.

As of March 31, 1945, there were 792 salaried employees being paid from this account. Those receiving salaries at annual rates of \$2,400 or over on that date or at date of separation are listed below. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Dates of separation are shown in parentheses and employee in receipt of war duties supplement is indicated by an asterisk.

The travelling expenses of these employees where the amount was \$300 or over are also shown.

A All money received for royalties or patent rights in connection with an invention or process developed in the National Research Laboratories is credited to this account pending the decision of the National Research Council as to its disposal. Disbursements in the current fiscal year represented the purchase of bonds. Of the closing balance, \$162,000 is held in bonds which are in the custody of the Department of Finance.

B This account is credited with revenues of the National Research Council derived from laboratory fees, sale of publications, work done by war employees, etc., which by authority of the Research Council Act, c. 177, R.S., may be expended by the Council. Disbursements include \$94,025 transferred to parliamentary appropriations and \$597,538.12 transferred to the War Allotment—Special War Activities in reduction of expenditures therefrom, as well as \$55,600 transferred to the Trust Fund.

C This fund is used to provide the means for the initiation, expansion or completion of specific proposals relating to Canada's war effort. Receipts represent patriotic donations from companies or individuals while disbursements are made, as directed by the War Technical and Scientific Development Committee, on projects selected from a list presented by the President of the National Research Council.

D To this Fund, which is for the furtherance of research work, are credited (a) contributions received from organizations and individuals, (b) incidental revenues arising from National Research Council activities, (c) allotments made by the Council from Parliamentary appropriations, (d) amounts transferred from the National Research Council Special Fund, and (e) amounts transferred from Sir Frederick Banting Fund—War Technical and Scientific Development Committee. Disbursements represent advances which have been made during the year to various associate committees and individuals, all of which, with the exception of \$18,834.68, have been accounted for as at March 31, 1945.

NOTE:—Bonds to the value of \$10,000 are held by the Department of Finance in connection with National Research Council contracts.

#### TREASURY NOTE:

The "surplus" referred to in the above balance sheet represents the Dominion's investment in the predecessor company, War Assets Corporation Ltd. Such investment is carried in the Dominion balance sheet under "Investments," per Schedule "I".

I have examined the accounts of War Assets Corporation for the period from July 12, 1944, the date of establishment, to March 31, 1945, and have obtained all the information and explanations I have required. In my opinion, the above Balance Sheet as prepared and drawn up so as to exhibit a true and correct view of the state of the Corporation's affairs as at March 31, 1945, according to the best of my information and the explanations given to me and as shown by the books of the Corporation.

As of March 31, 1945, there were 23 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. Salary rates include war duties supplements where applicable, but do not include cost of living bonus. Employees in receipt of war duties supplements are indicated by asterisks. A. J. Anderson, \$2,700; \*M. H. Armoni, \$3,060; \*G. T. Hann, \$5,220; J. A. Lynch, \$3,420; \*E. A. Ranger, \$2,520; \*A. H. Tremblay, \$2,520; I. Zivian, \$4,320.

A Rates of pay are authorized by the Governor in Council under the provisions of the Royal Canadian Mounted Police Act, c. 160, R.S. The strength of the General Administration in the various commissioned and non-commissioned ranks as at March 31, 1945, was as follows: 1 commissioner, 1 deputy commissioner, 3 superintendents, 4 inspectors, 1 sub-inspector, 7 staff sergeants, 20 sergeants, and 26 corporals.

As at March 31, 1945, the officers were in receipt of the following annual rates of pay exclusive of extra war duties pay referred to in the succeeding paragraph: S. T. Wood, commissioner, \$10,000; R. Bettaney, \$2,920; A. Goodman, \$2,540; J. Healey, \$2,540; J. Leopold, \$2,140; F. J. Mead, \$4,500; A. H. Parsons, \$2,000; C. E. Rivett-Carnac, \$3,120; D. C. Saul, \$2,720; J. F. Thrasher, \$2,440.

In addition to the regular pay drawn by the personnel, the following number of officers and non-commissioned officers received during the fiscal year 1944-1945 extra war duties pay authorized by P.C. 135/1385 of March 3, 1944, and P.C. 191 9417 of December 20, 1944, at the following rates: 10 officers at \$1.25 per diem; 53 non-commissioned officers at \$1 per diem.

B This allotment includes payments for electric light, electric power and fuel for private quarters of officers and also rent for private quarters of officers who live in leased apartments and houses. These payments, together with allowances as and when received under Allotment C, are in addition to the pay shown under Allotment A.

C Expenditures represent payment of allowances to members of the Force as authorized by the Governor in Council under the Royal Canadian Mounted Police Act, c. 160, R.S.

Under P.C. 50/2766 dated November 4, 1938, allowances may be granted to members of the Force in lieu of either quarters, fuel, rations, light, etc., or of all of them where they cannot be provided by the Force, and where such allowances are deemed to be an economy in the public interest, or where the requirements of the service will be best served by granting them.

Allowances are in no case to exceed the cost of services which the Government would otherwise have to provide, nor the following maxima: (a) general living allowance (in lieu of quarters, rations, fuel and light combined): officers at rates as authorized by the Minister; non-commissioned officers and constables, married \$2.25 per diem, single \$1.50 per diem; (b) ration allowances: all ranks—married \$1.20 per diem, single 60 cents per diem; (c) meal allowance: officers at rates as authorized by the Minister; non-commissioned officers and constables \$1.20 per diem.

The Minister may grant other allowances not herein provided for as may be required in the public interest, and as may be deemed advisable from time to time. In special circumstances, such allowances have been granted to officers of the Force as authorized by the Minister. Generally, these consist of rent allowance to officers who own their houses; also general living allowance at rates governed by prevailing conditions in localities in which these officers are stationed for duty.

P.C. 128/2936 of November 19, 1934, as amended by P.C. 109/2420 of September 17, 1936, grants retiring allowance in lieu of quarters, rations, fuel and light to officers of the Force whilst on retiring leave pending pension. The rates by rank of these allowances are as follows: deputy commissioner, \$170 per month; assistant commissioner, \$155 per month; superintendent, \$145 per month; inspector, \$130 per month.

A Under Section 16 of the Public Works Act, c. 166, R.S., contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, there were no bonds held in respect of this Department.

B This account is authorized under the provisions of the Royal Canadian Mounted Police Act, c. 160, R.S., section 21, and amendments thereto. All moneys received by personnel of the Force over and above their pay and allowances are deposited to this Fund and benefits are payable therefrom as directed by P.C. 7/1945 of August 1, 1936, and amendments thereto. The receipts and closing balance include an amount of \$40,900 which represents bonds held in custody in the Department of Finance, and which had been inadvertently omitted in exhibiting the status of the account in previous years.

Royal Canadian Mounted Police Dependents'				
Pension Fund .....	\$ 355,029 10	\$ 81,548 97	\$ 29,399 20	\$ 407,178 87

This fund was established under the provisions of the Royal Canadian Mounted Police Act, c.160, R.S., and amendments, whereby a widows' and dependents' pension fund is maintained by 5 per cent contributions thereto from the pay of constables. Disbursements as authorized by Part 4 of the Act, as amended, comprise (a) refunds of contributions without interest on termination of service or on promotion to a commissioned rank, if the contributor so elects (b) pensions to widows and annuities to children of deceased contributors or (c) lump sum payments, at the discretion of the Minister, to the estates of deceased contributors who are not survived by widows.

	\$ 163,056 04	\$ 92,278 20	\$ 101,739 84	\$ 153,594 40

A The Royal Canadian Mounted Police Act, c.160, R.S., section 5, and amendments thereto, directs that service of officers and constables of former provincial police forces taken over by the Royal Canadian Mounted Police may count for pension purposes, subject to payment therefor. Payment for this prior service was in some instances made by provinces concerned, and in others by the personnel, and the amounts are credited to this account. As pensions to these men are a direct charge to Consolidated Fund, the amount to the credit of each man is transferred to Revenue when he is pensioned. Withdrawals also represent payments to time expired personnel not eligible for pension.

B Deductions for War Savings Certificates from the salaries of police personnel and employed civilians not paid by Central Pay Office are credited to this account pending transmittal to the agency concerned.

\* These adjustments were necessitated by the following: In compiling the details of revenues after the close of the fiscal year, it was discovered that an amount of \$3,153.47 had been credited to Privileges, Licences and Permits instead of being credited to Proceeds from Sales, to Services and Service Fees and to Miscellaneous, as indicated by the amounts of the adjustments under these classes of Ordinary Revenue. Since the books for the fiscal year were closed, it was not possible to correct the official accounts.

Certified correct.

Expenditures.....	\$ 224,444 67

This allotment was authorized to provide for expenses in connection with the above conference which was held at Quebec City in September, 1944.

The following payments for board and lodging, hotel reservations, special train service, official entertainment, etc., are included in the expenditures: Canadian National Railways, \$11,811.24; Chateau Frontenac Hotel, \$158,635.07; The Citadel, \$16,126.56; Clarendon Hotel, \$6,994.96; Department of National Defence—Army Services, \$10,203.99.

<b>Allotment: Laurentian Terrace Hostel Revolving Fund (P.C. 151/4857 of June 15, 1943). \$</b>	<b>1 00</b>
<b>Expenditures.....</b>	<b>nil</b>

Under authority of P.C. 6042, July 13, 1942, the Laurentian Terrace Hostel was constructed by the Department of Public Works to provide housing accommodation for junior female employees in the public service in the City of Ottawa. The hostel is operated under the direction of a board of management, which is authorized to fix and collect the charges for accommodation, meals and other services.

The allotment authorized is only a nominal sum since all moneys received from resident employees for accommodation, meals, etc., are credited to this account, and are in excess of requirements for operating expenses and administrative costs. See the Appendix to this Section, for Balance Sheet and Income Statement for year ended March 31, 1945.

Receipts for the year amounted to \$144,867 while disbursements were \$111,803.76, leaving a credit balance of \$33,063.24 in the account. The latter amount, consisting of operating surplus of \$27,536.13 for 1944-45, an addition of \$107.90 to the surplus for 1943-44, and cash surplus of \$5,419.21 at March 31, 1945, was transferred to Special Receipts.

<b>Allotment: To provide for settlement of claims approved by the Japanese Fishing Vessels</b>	
<b>Disposal Committee .....</b>	<b>10,829 70</b>
<b>Expenditures..... \$</b>	<b>10,829 70</b>

The Japanese Fishing Vessels Disposal Committee was appointed under authority of P.C. 288, January 13, 1942, and by P.C. 3737, May 5, 1942, was empowered, with the approval of the Minister of Fisheries, to make payments in settlement of claims made upon the Government for damage to and deterioration of impounded fishing vessels and equipment. Subsequently, under authority of P.C. 6247, July 20, 1942, all the unfinished business of the Committee in respect of vessels and equipment was transferred to the Custodian of Enemy Property, an official of this Department.

The above amount was paid to the Custodian to meet outstanding claims for damage to impounded Japanese fishing vessels and equipment in British Columbia and in addition to reimburse the Japanese for actual expenses incurred in bringing their vessels from places of seizure to Fraser River moorings and Prince Rupert and returning to their homes.

Under the terms of P.C. 2/2323, April 4, 1941, amended by P.C. 2/2787, April 22, 1941, the Canadian Shipping Board is authorized to charter any suitable vessels, irrespective of registry, that can be secured for use in any essential Canadian export and import trade in regard to which the Board may deem it necessary. Working capital was to be provided from the War Appropriation for a revolving fund, to which expenditures were to be charged and revenues credited. Receipts for the current fiscal year totalled \$362.57 while disbursements were \$4,900.03, resulting in the above charge to the War allotment.

<b>Allotment: Export Permit Branch—Administration.....</b>	<b>156,540 00</b>

<b>Allotment: Gift of Wheat to Greece.....</b>	<b>6,748,800 00</b>
<b>Expenditures.....</b>	<b>\$ 6,748,748 09</b>

P.C. 92/4430, May 27, 1942, authorized the purchase and transfer of 15,000 tons of wheat per month to be provided as a gift to the people of Greece. The Government of Sweden agreed to charter Swedish ships to transport the wheat, for which expenditure it will be reimbursed by the Greek Government.

This year there were 132,115 long tons of wheat and 1,378 long tons of flour purchased and shipped making a total of 419,965 long tons of wheat and 1,378 long tons of flour to date. Towards the close of the fiscal year, the service was transferred to and is being continued by the United Nations Relief and Rehabilitation Administration and is dealt with under the Canadian Mutual Aid Board section of this report.

<b>Allotment: Shipping Priorities Committee—Administration.....</b>	<b>49,782 00</b>
<b>Expenditures.....</b>	<b>\$ 48,278 14</b>

Under P.C. 8487, October 31, 1941, a Shipping Priorities Committee was appointed for the purpose of ascertaining shipping cargo space requirements, having regard to the necessities of the war effort and the extent to which they can be met by use of ships of Canadian registry or by ships provided by the United Kingdom Ministry of War Transport; also to present to competent authority of the Government of the United States requests for the allotment of cargo space in ships controlled by that body.

A distribution of expenditures follows: salaries and other pay-list items, \$42,325.46; travelling expenses, \$1,899.47; telegrams and telephones, \$1,420.96; printing and stationery, \$2,394.03; sundries, \$238.22.

As of March 31, 1945, there were 20 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. This payment was made to Lee T. Turner, contractor, for installation of elevator in the Canadian Embassy Annex, Washington.

<b>Allotment: Special Investigation on Pre-Fabricated Houses .....</b>	<b>21,230 00</b>
<b>Expenditures .....</b>	<b>\$ 15,347 14</b>

Under the terms of P.C. 141/2595, April 12, 1944, investigations were undertaken to explore in Canada, the sources, kinds and costs of suitable housing materials available in prefabricated form and the type of organization that would best enable Canadian industries to participate in the supply of such material for the United Kingdom post-war houses.

A distribution of expenditures follows: salaries, \$12,300; travelling expenses, \$2,946.57; sundries, \$100.57.

H. J. Wiser, who was paid at the rate of \$25 per day, received \$7,400. Travelling expenses of \$300 or over were paid to: A. Todhunter, \$804.23; H. J. Wiser, \$2,142.34.

<b>Allotment: Canadian Export Board—Administration .....</b>	<b>41,767 00</b>
<b>Expenditures .....</b>	<b>\$ 40,344 59</b>

The Canadian Export Board was established under authority of P.C. 70, January 31, 1944, for the purpose of purchasing civilian goods for export to the British Commonwealth of Nations and other countries where emergency wartime trade control measures have been adopted. It was considered that, under existing trading conditions and in the best interests of Canadian export trade, there was need for a Canadian Government export agency for the execution of export transactions relating to markets that cannot be served by normal commercial facilities, until such time as trade can again be conducted by and through normal peacetime trade channels.

This allotment was provided to cover administrative expenses of the Canadian Export Board.

A distribution of expenditures follows: salaries and other pay-list items, \$31,039.54; telegrams, telephones and postage, \$3,119.52; travelling expenses, \$1,723.48; printing and stationery, \$3,669.88; equipment, \$753; sundries, \$39.17.

As of March 31, 1945, there were 25 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows. Salary rates include war duties supplements where applicable but do not include cost of living bonus. Employee in receipt of war duties supplement is indicated by an asterisk. M. L. B. Ball, \$3,000; \*T. L. Costello, \$3,000; C. B. Dohoney, \$4,320; R. D. Elliott (on loan from Canadian National Railways) \$2,400; G. B. Reynolds, \$2,520; G. A. Torrance, \$3,720; E. J. Wadley, \$4,500; H. D. Walmsley (on loan from Canadian National Railways) \$3,300.

Travelling expenses of \$300 or over were paid to: E. G. Shafer, \$771.22; E. J. Wadley, \$922.64.

<b>Allotment: Canadian Export Board—Revolving Fund .....</b>	<b>\$ 1 00</b>
<b>Expenditures .....</b>	<b>nil</b>

An amount of \$50,000 was allotted to provide the Board with working capital, but was later reduced to the above token amount of \$1. The only transaction during the year necessitating the use of this allotment was an order amounting to \$68,276 from the Federation of Iceland Co-operative Societies for fertilizer compound. This amount was received from the said Federation and, in turn, paid to Alberta Nitrogen Products Limited. Funds required for all other transactions handled by the Board were received from the purchasers concerned prior to shipments and payment of invoices, said transactions being accounted for through the Open Account in the usual way.

A This account is operated pursuant to the provisions of section 163 Canada Grain Act, c. 5, 1930, whereby an accountable advance not exceeding \$500,000 may be made out of the Consolidated Revenue Fund to the Board of Grain Commissioners for working capital and to meet freight charges and weighing and inspection fees on grain shipped to or discharged from government elevators, such charges and fees being subsequently recovered from owners of the grain.

B P.C. 9144, October 6, 1942, approved of the sale of the Steamer *Pele* to D. L. Goodison, Blenheim, Ont., for \$40,000. The vessel was later resold under Ministerial authority to the present contractor, Vincent A. Barrie in 1944.

The amount of \$5,000 shown as receipts represents the second annual instalment of repayment of capital which was deducted from the subsidy (see page Y-14) paid to the contractor. Interest due on the unpaid balance, amounting to \$976.19 (also deducted from the subsidy) appears in the revenue section of this Department under Return on Investments.

Harbour Dues—The remuneration and expenses of harbour masters, amounting to \$18,331.98, were paid from harbour dues revenue.

The remuneration of the wharfingers and certain expenses authorized for making the wharves serviceable, amounting to \$48,675.82, were paid from the Wharves and Piers revenue. In certain instances, agreements are entered

into by the Department for fixed yearly payments for the use of a wharf, pier or breakwater. These amounts are paid direct to the Department. The rates of remuneration for wharfingers are authorized by the Governor in Council at 50 per cent of the first \$200 collected or any portion thereof and 15 per cent of all collections over \$200. In a few instances, special rates have been established with the approval of the Governor in Council.

Radio Message Tolls—This amount represents the Department's portion of moneys received from foreign Administrations, ship owners, etc., for radio and domestic point to point messages relayed or received through the Department's East and West Coast Radio Service via various public utilities.

Cost of Collection of Radio Licence Fees—It is provided under Section 14 (a) of the Canadian Broadcasting Act, c. 24, 1936, that the moneys received from licence fees in respect of private receiving licences and private station broadcasting licences, less the cost of collection and administration as determined by the Minister, shall be deposited to the credit of the Canadian Broadcasting Corporation. The net revenue for the year, before deducting cost of collection, amounted to \$4,000,801.22. The cost of collection for the year 1944-45 amounted to \$217,348.60, which includes the total of the expenditures under Vote 406, and was deposited to the credit of the Receiver General as revenue of the Department of Transport.

Canals revenue consists of \$95,355 from linesmen's fees, \$27,968.09 from power service and the balance, \$162,131.90, from wharfage, wintering and lying up charges.

Government Shipbuilding Program—In the year 1929, six ships were transferred from the Canadian Government Merchant Marine Limited to the Canadian National (West Indies) Steamships Limited, at a value

totalling \$933,071.63. In 1944, the Canadian National (West Indies) Steamships Limited completed paying all arrears of interest due to the Dominion and it was decided that the balance of the Company's surplus for the year could be utilized to reduce the above liability. Accordingly, the sum of \$583,870.84 was remitted to this Department as payment on account and credited to Government Shipbuilding Program.

D The Canadian Marconi Company operates certain departmental East Coast and Great Lakes radio stations. Under terms of the agreement, the Department reimburses the Company for direct operating expenses, plus an additional 27½ per cent to cover overhead expenses, plus 10 per cent for profit. The amount of revenue accruing to the Company at such stations, from traffic or any other source, is to be deducted from the amount payable to the Company. Final settlement for the fiscal year 1944-45 could not be effected by the time the books of the Dominion were closed for the fiscal year. When the adjustment is made in 1945-46, the amount collected by the Company will be credited to the Revenues of the Department. The total payments to the Company during the fiscal year amounted to \$159,901.35, consisting of \$152,352.70 on account of current year's costs and \$7,548.65 adjustment due on 1943-44 costs.

The following is a statement showing the details of the direct operating costs (not including cost of living bonus or percentage for overhead and profit), for 1944-45, of departmental East Coast and Great Lakes radio stations operated by the Canadian Marconi Company:

\* Transferred to Loans and Investments, Active Accounts.

In accordance with Section 29 of the National Harbours Board Act, c. 42, 1936, certificates of indebtedness, bearing interest at 3½ per cent, were issued to the Government, to cover the above expenditures.

A Under the agreement of sale of the City of Saint John properties to the Saint John Harbour Commissioners as of August 1, 1927, the commissioners assumed full liability for City of Saint John bonds amounting to \$1,467,164.96 maturing at various dates from 1932 to 1954. The Dominion Government guaranteed these bonds as to principal and interest. During the year, bonds totalling \$47,500 matured and the amount was advanced by the Dominion Government. The principal of the unmatured bonds outstanding at the close of the harbour financial year, December 31, 1944, amounted to \$590,229.31. Similarly, debentures totalling \$158,400, issued on January 2, 1924, by Three Rivers Harbour Commissioners and maturing January 2, 1944, were redeemed during the year, this amount being advanced by the Dominion Government.

B Advances were made to the following harbours: Halifax, \$16,550.06; Saint John, \$28,317.27.

#### DIRECTOR OF MERCHANT SEAMEN

<b>Allotment: Headquarters Administration.....</b>	<b>72,000 00</b>
<b>Expenditures.....</b>	<b>\$ 59,165 58</b>

Under the provisions of P.C. 14/3550 of May 19, 1941, and P.C. 149/9130 of November 22, 1941, authority was granted for the construction, equipment, maintenance and operation of Seamen's Manning Pools, Training

Cadets, War Training Institutions and Facilities, and for the extension of existing Nautical Schools. In the operating arrangements, it was provided that seamen and trainees would receive board and lodging accommodation, and pay at approved rates. Officers, seamen and trainees handled under this scheme are to hold themselves available for service on any ship controlled by the Allied Nations to which they may be assigned by the Director of Merchant Seamen.

Expenses for accommodation given in the Pools, incurred on behalf of other than Canadian merchant seamen, will be collected from the respective Governments or shipping interests concerned. The major items outstanding at the close of the fiscal year are transferred to the Open Account—Loans and Advances, British Ministry of War Transport.

P.C. 14/3550 of May 19, 1941, made provision for the appointment of a Director of Merchant Seamen to be charged with the administration and operation of Manning Pools, Training Schools and all attendant facilities, together with such regional directors and staff as required.

Manning Pools have been established at Montreal, Halifax, Vancouver and Saint John with a Reserve Pool at Sydney, N.S.

Instructional schools have also been established at Prescott, Ont., and at Hubbards, N.S.

An office has been established in London, England, primarily for the recruiting of United Kingdom Merchant Navy Officers to supply deficiencies in the Canadian Merchant Navy, and for the general care of Canadian Seamen landed in the United Kingdom.

A Canadian Pool has also been established at Liverpool, England.

A distribution of expenditures follows: salaries, \$39,094.16; cost of living bonus and other pay-list items, \$3,079.20; travelling expenses, \$5,657.74; sundries, \$11,334.48.

As of March 31, 1945, there were 17 salaried employees being paid from this account. A list of those who were receiving salaries at annual rates of \$2,400 or over on that date follows: E. H. Cameron, \$5,000; J. MacCourt, \$3,780.

Canad White Star Ltd. was reimbursed for the salaries of the following officers on loan to the Department: G. McGonigal, \$3,000; A. Randles, \$4,350 (one-half of salary of \$8,700).

Travelling expenses of \$300 or over were paid to: G. McGonigal, \$1,191.10; A. Randles, \$4,007.56.

## RAILWAY SERVICE

<b>Allotment: Design, construction and operation of additional harbour and transportation facilities at the Port of Halifax.....</b>	<b>28,425 00</b>
<b>Expenditures.....\$</b>	<b>28,424 11</b>

P.C. 148/2980, April 30, 1941, authorized the Minister of Munitions and Supply and the Minister of Transport to enter into an agreement with the Canadian National Railways to design, construct and operate additional harbour and transportation facilities at the Port of Halifax. A distribution of expenditures follows: construction of sewers, \$5,929.92; rental of tugs, \$3,079.92; construction of longshoremen's quarters, \$8,033.84; acquisition of land, \$7,093.32; miscellaneous, \$4,287.11.

Payments of \$5,000 or over were made to: Canadian National Railways, \$20,902.85; Florence B. McCurdy, Halifax, \$7,093.32.

<b>Allotment: Contribution by the Government of Canada towards the reduction of freight rates on 150,000 gross tons of iron ore to be shipped from Steep Rock Mines to Duluth or other Minnesotan Ports.....</b>	<b>11,948 00</b>
<b>Expenditures.....\$</b>	<b>11,947 99</b>

P.C. 8423 of September 18, 1942, provided authority for assistance to the extent of 20 cents per gross ton to the Canadian National Railways in the reduction of the freight rate between Atikokan and Port Arthur on the first 5,000,000 gross tons of ore shipped from the Steep Rock Mines.

Owing to man power and material shortages due to war conditions, the ore loading dock under construction at Port Arthur was not completed before the close of the 1944 navigation season.

The initial production of ore from the mine was ready for shipment before the close of the 1944 navigation season and it was necessary to provide an alternative route through Duluth or other Minnesotan ports to handle the shipments pending the completion of the ore dock and facilities at Port Arthur.

To meet this situation, P.C. 6946 of September 5, 1944, authorized that the present contribution be increased to 70 cents per gross ton to apply on such ore, not exceeding 150,000 gross tons in all, as may be required to be routed via Duluth or other Minnesotan ports.

Payments were made to the Canadian National Railways.

<b>Allotment: Construction and equipment of accommodation for freight handlers at Saint John, N.B.....</b>	<b>12,312 70</b>
<b>Expenditures.....\$</b>	<b>12,312 70</b>

P.C. 142/10933, December 2, 1942, granted authority to Wartime Housing Limited to proceed with the construction of bunk and dining houses at Saint John, N.B., to provide accommodation for railway freight handlers engaged in handling export and import freight for the Ministry of War Transport of the United Kingdom. The project was completed in 1944.

Payments were made to Wartime Housing Limited.

<b>Allotment: Installation of Equipment on Merchant Ships (Degaussing).....</b>	<b>340,000 00</b>
<b>Expenditures.....\$</b>	<b>269,058 69</b>

P.C. 98/6379, August 19, 1941, as amended, authorized the Canadian Government to absorb the total cost of degaussing all Canadian registered ships, as well as foreign flag vessels either seized in prize or requisitioned

by the Canadian Government that have been or may be fitted with this special defensive apparatus. A distribution of expenditures follows: new permanent installations, \$233,687.41; renewals of existing equipment, \$27,071.16; repairs, \$8,300.12.

Suppliers receiving \$5,000 or more: Babcock, Wilcox and Goldie McCulloch, Ltd., \$18,844.71; Northern Electric Co., Ltd., \$228,542.04; Saint John Dry Dock and Shipbuilding Co., Ltd., \$6,894.66.

---

<b>Allotment: Overhaul and Repair of Canadian National (West Indies) Steamship Connector</b>	<b>260,470 21</b>
<b>Expenditures</b>	<b>\$ 260,470 21</b>

---

Owing to the scarcity of shipping tonnage, P.C. 2677 of April 17, 1944, authorized the payment of the costs of overhauling and repairing the Canadian National (West Indies) Steamship *Connector*. Under normal circumstances, this vessel would have been scrapped, as its condition would not warrant heavy expenditures for repairs, and, for this reason, the expenditures were not considered as a proper charge against the operating expenses.

Payments were made to the Canadian National (West Indies) Steamships, Ltd.

## ADJUSTING ENTRIES

### Non-Active Accounts

Net increase in Canadian National Railways Securities Trust Stock—Canadian National Railways Capital Revision Act, c. 22, 1937.....	\$ 22,400,052 60
---	------------------

The Canadian National Railways Securities Trust Stock was increased by \$22,400,052.60 during the year which was accounted for as a capital gain through the Proprietor's Equity Account. The charge is offset by a similar amount included as an adjusting entry under Revenue (see that section hereof). The amount represents the cash surplus of the Railway System, less capital losses in respect of which His Majesty has not made cash reimbursement to the Railway, as hereunder:

\* Net advances under War Appropriation Act, 1944. The authorizations were \$20,824,624.

A Under authority of Section 8 of the Canadian National Railways Capital Revision Act, 1937, the balances then standing in Public Accounts in respect of: Canadian Government Railways—Open Accounts; Canadian Government Railways—Stores Accounts; and the St. John & Quebec Railway—Open and Stores Accounts were adjusted as prescribed in the Act and the residue was consolidated under the title of 'Canadian Government Railways Working Capital'.

This amount is carried against the Canadian National Railways, without interest, as representing a fair approximation of the amount of C.N.R. Working Capital utilized for Canadian Government Railways purposes.

B Transactions in connection with advances made to the Canadian National Railways during the fiscal year ending March 31, 1945, for capital purposes, purchase of outstanding securities and retirement of maturing obligations under the authorities quoted. The net advances show an increase of \$67,297,013.

C Transactions in connection with advances made by the Government to the Canadian National Railways under terms of hire-purchase agreements. During the current fiscal year, the advances were increased by \$16,310,980.24.

D This item covers an amount appropriated by Parliament in the fiscal year 1937-38 in the form of a loan for working capital. Prior to 1937, the Canadian National (West Indies) Steamships Limited utilized the working funds of the former Canadian Government Merchant Marine Ltd., but following the sale of the fleet and the refund of its working capital to the Dominion, it became necessary to provide funds for the Canadian National (West Indies) Steamships Company Limited.

E An amount of \$41,759.53 was transferred from the Generally—Unforeseen Item of Vote 407, listed as a Government-Owned Enterprise Non-Active Account, to Loans and Investments as an Active Account and used for Capital Expenditures in Montreal Harbour and Vancouver Harbour.

The following is a distribution of total advances:

	<u>Montreal</u>	<u>Vancouver</u>	<u>Total</u>
Vote 407.....	\$ 18,767 33	\$ 22,992 20	\$ 41,759 53

In accordance with Section 29 of the National Harbours Board Act, certificates of indebtedness bearing interest at 3½ per cent per annum, totalling \$41,759.53 were issued to the Government.

F The debit balance as at April 1, 1944, represented the value of the work performed by the Department of Transport not recovered at that date. During the fiscal year, payment was made in full.

G The debit balance represents the outstanding portion of 1944-45 accounts rendered the British Ministry of War—Transport for board and lodging accommodation provided United Kingdom seamen in the various manning pools.

H Under authority of P.C. 7617 dated October 1, 1943, as amended by P.C. 4478 dated June 22, 1944, the Department of Pensions and National Health was authorized to arrange through the Department of Transport for the construction, on behalf of the Village of Dawson Creek, B.C., of a sewage disposal system at that village at an estimated cost of \$110,000. The debit balance as at March 31, 1945, reflects the expenditure at that date.

Authority was granted by P.C. 8423 dated September 18, 1942, for the Minister of Transport to enter into an appropriate agreement with the Canadian National Railway Company to assist in the development of the iron ore deposit owned by the Steep Rock Iron Mines, Limited, near Atikokan, Ont., as a protection against the possible shortage of ore to meet war requirements. The Minister of Transport was further authorized to reimburse the Canadian National Railway Company for the cost of construction of spur line and dock facilities, subject to the Government receiving from the railway 6 cents per ton on all ore handled over the dock, such receipts to be applied towards amortization of the cost of the facilities without interest. The debit balance as at March 31, 1945, represents the total disbursements to date.

A This account is credited with fees collected by the Department of Transport in respect of private receiving licences and private station broadcasting licences; it is debited with all moneys released to the Corporation from time to time by the Minister of Finance, and with the costs of collection of such fees. The balance on hand reflects the amount available to the Corporation at the close of the fiscal year.

As the Canadian Broadcasting Corporation is under the jurisdiction of the Minister of National War Services, the balance sheet and operating statement of the Corporation are shown in the Appendix to the section pertaining to that Department.

B The Intercolonial and Prince Edward Island Railway Employees' Provident Fund was established for the purpose of providing retiring allowances to be paid to employees on the staff of the railways who are retired on account of old age, physical or mental infirmity, etc., under authority of c. 22, Statutes of 1907 and amendments. The receipts consist of (a) employees' contributions (1½ per cent of their monthly salary or wage); (b) contribution by the railways each year (\$100,000); (c) special contribution made by the railways to offset the deficit as at December 31, 1942, and (d) Dominion Government contributions (see Vote 392) charged to the appropriations provided by Parliament, all of such moneys being deposited by the Canadian National Railways to the credit of this account. The disbursements which cover retiring allowances are made by the Canadian National Railways; the closing balance represents the unexpended balance of the fund as at that date.

C This item covers moneys received from the liquidator of Dominion Shipbuilding and Repairing Co., Ltd., to pay claims of creditors. The amount was previously reported under Department of Transport Suspense and the current year's transaction represents the transfer from the latter account.

D Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1944-45, bonds so held in respect of the Department of Transport amounted to \$434,000.

- E This account is credited with the reserves made from earnings by the pilotage committee, and debited with disbursements made at the direction of the committee.
- F The transactions in these accounts represent moneys received by the Board and deposited to the credit of the Receiver General in accordance with Section 23 of the National Harbours Board Act. They cover deposits of current revenue, security deposits and reserve funds which have been allocated for the replacement of fixed assets and other purposes. Expenditures of the Board are debited to the relative accounts.
- G Unpaid wages of members of ships' crews who have been lost at sea as well as compensation for loss of personal effects are credited to this account pending direction as to payee.
- H The original deposit, made on July 7, 1937, represents donations through the Department of Transport toward a trophy or trophies in connection with civil aviation, and is to be held until medals have been struck and the price has been ascertained. This year's receipts represent interest on bonds to the value of \$200, which are included in the closing balance.

- A These accounts were established by P.C. 1913 of April 22, 1941, and P.C. 3715 of May 6, 1943, respectively, under the authority of the War Measures Act and War Appropriation Acts, and through them, all moneys having to do with the costs of employees' compensation, affecting defence projects, are controlled for accounting purposes. Applicable deductions from the payrolls of the various defence projects are credited to these accounts, which are charged with audited costs of compensation and a fair and reasonable proportion of provincial Workmen's Compensation Boards' costs of handling compensation matters relative to employees of His Majesty. The closing balances represent the amounts available to meet compensation claims.
- B Under a by-law passed in 1943, the Board established a pension plan for permanent salaried employees, the scale of benefits being the same as provided under the Civil Service Superannuation Act, 1924, as amended. The balance in this fund represents the difference between contributions made by employees, together with an equal amount contributed by the Board, and benefits paid.
- C Under authority of the Canada Shipping Act, Part VI, each Pilotage Authority shall, within its district, have power from time to time, by by-law confirmed by the Governor in Council, to make certain regulations relative to the conducting of the pilotage business of the district, said regulations to provide for the establishment of a fund for the relief of superannuated or infirm licensed pilots, or of their wives, widows or children provided that the rate of contributions to such fund shall not be less than 5 per cent of the Pilots' earnings. The rates of contribution at the present time are: Halifax, 5 per cent; Sydney, 10 per cent;

Saint John, 7 per cent; Montreal, 7 per cent; and British Columbia, 7 per cent. These accounts show the transactions in the various funds during the fiscal year. Below is a comparative statement showing the amounts invested in bonds and held in cash at dates shown.

A Under authority of P.C. 1594 dated April 22, 1940, pursuant to the provisions of the War Measures Act, c. 206, R.S., ships seized in prize and either requisitioned for use by the Canadian Government or condemned by the Court as prize, are operated on behalf of the Government of Canada by the Canadian Government Merchant Marine Limited. The balance as at March 31, 1945, represents the amounts on deposit with the Minister of Finance and is made up as follows: insurance, \$2,701,700.64; operating surpluses, \$2,843,329.67; prize cargoes, \$264,729.57.

B Under P.C. 5742, July 19, 1943, the Minister of Munitions and Supply was authorized to enter into an agreement with the Trans-Canada Air Lines providing for the operation and maintenance of an air transport service between Canada and the United Kingdom to be known as the "Canadian Government Trans-Atlantic

Air Service" for the carriage of official passengers, goods and mail for the duration of the war. Said agreement provided that the corporation be reimbursed for all expenditures made on account of operation and maintenance of the service. It was further provided that the rates for the carriage of mail be fixed by agreement between the Minister of Munitions and Supply and the Postmaster General, that the maintenance and operation expenses be applied against such earnings, and, in the event of a deficit, same to be paid out of funds allotted from time to time from the War Appropriation. The credit balance as at March 31, 1945, represents the excess of receipts for the carrying of official passengers, goods and mail, over maintenance and operation expenses.

- C This account is credited with moneys received by the Department of Transport for such purposes as: (a) deposits to cover cost of operating canal services after regular hours and after close of navigation, (b) deposits to cover wharfage charges that might accrue, and (c) prepayment of work and repairs for firms and individuals. The main items are \$2,688.30 for construction of apron for Canadian Pacific Airlines at Fort St. John, B.C. Airport; \$5,280 pilots' earnings reserved for rental of C.G.S. *Citadelle*; \$13,573.80 insurance and salvage on pilotage boat *Camperdown*.
- D In the pilotage districts of Halifax, Saint John and Sydney, the by-laws, made under the Canada Shipping Act and approved by the Governor in Council, provide that the general district expenses, including purchase, charter or hire of pilot boats and the maintenance, repair and operation of the same, shall be the first charge on the pilots' earnings. The pilotage earnings are credited to this account, while the expenses as aforesaid are debited hereto. If, at the end of the year, there remains a surplus of earnings over expenses, such surplus is usually divided pro rata among the pilots, but the pilotage committee may reserve a portion for future contingencies. In the latter event, such reserve is carried to the relative undivided surplus account (see under Deposit and Trust Accounts, page Z-62).
- E To this account are credited all moneys collected by the Department of Transport, East Coast Radio Service for radio messages. The charges collected are apportioned to the public utilities concerned and disbursements made accordingly from this account. At the close of each fiscal year, moneys earned by the Department of Transport are transferred to revenue. The balance remaining in the account represents the amounts that have not been apportioned.
- F All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of issue are credited to this account.

## DEPARTMENT OF VETERANS AFFAIRS

The Department of Veterans Affairs was established October 14, 1944, under authority of the Department of Veterans Affairs Act, c. 19, 1944-45.

Section 5 of this Act reads as follows:

"The duties, powers and functions of the Minister shall extend and apply to the administration of statutes enacted by the Parliament of Canada, and of orders of the Governor in Council, as are not by law assigned to any other Department of the Government of Canada or any Minister thereof, relating to the care, treatment, training, or re-establishment in civil life, of any person who served in the naval, military or air forces of His Majesty, any person who has otherwise engaged in pursuits relating to war, and of any other person designated by the Governor in Council, and to the care of the dependents of any such person, and shall extend and apply as well to all such other matters and such boards and other public bodies, subjects, services and properties of the Crown as may be designated, or assigned to the Minister by the Governor in Council."

The above duties, powers and functions were formerly vested in (a) the Minister of Pensions and National Health and (b) the Minister of Mines and Resources (respecting Soldier's Settlement Act and Veterans' Land Act). Details of expenditures made in previous years were reported in the Public Accounts under Department of Pensions and National Health, and Soldier Settlement of Canada.

Vote 292 (and Vote 519, Supplementary Estimates) European War Pensions.....	33,000 660 00
Expenditures.....	\$37,130,435 77

These pensions are for the 1914-18 War. Pensions for the present war are paid from the War Appropriation. Pensions, gratuities and grants awarded under the Pension Act in respect of:—

A Disabled and deceased ex-members of the Canadian Expeditionary Force .....	36,913,283 74
B Disabled and deceased ex-members of the British Forces (Supplementary Pensions) .....	52,174 51
C Deceased ex-members of the Allied Forces .....	17,302 88
D Disabled and deceased members of the Militia whose disabilities or death occurred after the War .....	59,284 00
E New Zealand Pensions (Recoverable) .....	31,687 35
Burial Grants .....	56,703 29
	<u>\$ 37,130,435 77</u>

- A On March 31, 1945, there were 91,084 active pension accounts, including 17,221 dependents' cases; this compares with 92,487 accounts, including 17,243 dependents' cases on March 31, 1944.  
 B Ex-officers, and dependents of deceased ex-officers, who served with the British Forces and were domiciled in Canada at the outbreak of war, receive payments supplementary to British Pensions to bring the sum of the two pensions up to the Canadian scale. There were 230 such cases in payment on March 31, 1945; 38 South African pensions were also similarly supplemented.  
 C Dependents, of ex-members of the forces of His Majesty's Allies who died as a result of war and who were domiciled in Canada at the outbreak of war, receive supplementary pensions up to the Canadian scale. On March 31, 1945, such supplementary pensions in payment were: Belgian, 1, French, 31, Italian, 3.  
 D 139 cases were in payment on March 31, 1945.  
 E The New Zealand Government is billed at the close of each fiscal year and the refund is deposited to Ordinary Revenue—Refunds of Expenditure.

Vote 203 (and Vote 520, Supplementary Estimates) War Veterans' Allowances.....	8,650,000 00
Expenditures.....	<u>\$8,473,260 83</u>

The provisions of the legislation under which these allowances are payable are similar in character to those of the Old Age Pensions Act in so far as income is concerned. The maximum allowance issuable is \$20 a month for single persons and \$40 a month for married persons, except in cases of special circumstances when a further amount of \$10.41 a month for single persons and \$20.83 for married persons may be granted. The total income of recipients may not exceed \$390 a year for single men or \$755 for married men.

A comparative statement of the number of allowances in payment follows:

	March 31, 1945	March 31, 1944
Allowances		
Veterans over 60 years of age.....	16,898	16,080
Veterans unable to maintain themselves because of disabilities or economic handicaps .....	7,303	7,768

	<u>13,394</u>	<u>6,174</u>

<b>Vote 204 Unemployment Assistance</b> .....	100,000 00
<b>Expenditures</b> .....	\$ 39,997 25

Payments from this vote are made to augment the pensions of veterans by an amount sufficient to ensure that they receive remuneration equal to the amount of municipal assistance afforded to non-pensioned veterans and civilians.

Approximately three hundred and forty pensioners received assistance during the year.

<b>Vote 205 (and Vote 521, Supplementary Estimates) Hospital and Other Allowances</b> .....	659,000 00
<b>Expenditures</b> .....	\$ 648,670 79

On March 31, 1945, 1,149 patients in hospital were receiving hospital allowances. The rates of allowances are authorized in the treatment regulations of the Department, (P.C. 4465 of June 1, 1944, which cancels all previous regulations). Commencing at \$60 a month for single men, they increase according to rank and number of dependents of the ex-soldier. Pensions are suspended during periods of hospitalization.

The expenditure includes allowances amounting to \$21,891.25 for clothing and comforts provided to patients who, although eligible to receive treatment, are limited to this form of allowance.

<b>Vote 206 (and Vote 522, Supplementary Estimates) Decoration Awards</b> .....	50,090 00
<b>Expenditures</b> .....	\$ 34,329 93

Awards are made to men who, for their conduct in the present war, have received any of the following decorations: Victoria Cross, Distinguished Conduct Medal, Distinguished Flying Cross, Distinguished Flying Medal, Military Cross and Conspicuous Gallantry Medal.

Awards paid during the fiscal year were in respect of the following decorations: Distinguished Conduct Medal, 6; Distinguished Flying Cross, 72; Bar to Distinguished Flying Cross, 1; Distinguished Flying Medal, 204; Military Cross, 2; and Conspicuous Gallantry Medal, 3.

<b>Vote 207 (and (a) Vote 523, Supplementary Estimates; (b) Vote 466, Further Supplementary Estimates) Widows' Compassionate Allowances to be paid under terms and conditions approved by the Governor in Council</b> .....	720,000 00
<b>Expenditures</b> .....	\$ 717,913 60

This vote is provided for the payment of compassionate allowances to widows, who are in necessitous circumstances, of persons who served in the Armed Forces of Canada during the war of 1914-18.

On March 31, 1945, there were 2,156 allowances in force.

<b>Vote 524 To provide hereby, notwithstanding anything contained in the Consolidated Revenue and Audit Act, or in any other statute or law, for the payment out of the Consolidated Revenue Fund of compassionate allowances awarded by the War Veterans' Allowance Board to orphaned dependent children of veterans of the Great War 1914-18 and of the South African War, who are in necessitous circumstances, and not otherwise provided for; at such rates (not exceeding, however, \$365 per annum in the case of a single child and \$730 per annum in the case of two or more children) and in such circumstances and upon such terms as may be prescribed by the Governor in Council</b> .....	5,000 00
<b>Expenditures</b> .....	\$ 2,898 76

On March 31, 1945, 12 allowances were in force.

<b>Re-establishment Credits, War Service Grants Act, c. 51, 1944</b> .....	\$1,121,923 20

#### Vote 210 (and Vote 527, Supplementary Estimates) Employers' Liability Compensation.. 75,000 00 Expenditures.....\$ 66,493 26

Under this scheme of assistance, which is designed to remove from employers any added financial risk that might be involved by employing disabled veterans, the costs arising from industrial accidents are borne by the Government. The Workmen's Compensation Boards and employers are reimbursed for medical care and compensation, including capitalization of awards covering permanent disabilities and fatalities.

The above expenditures cover claims submitted to the Department through the Workmen's Compensation Boards and payments thereto were: Nova Scotia, \$6,175.68; Quebec, \$4,550.51; Ontario, \$23,048.90; Manitoba, \$3,152.17; Saskatchewan, \$1,422.43; Alberta, \$7,828; British Columbia, \$16,141.38.

Payments to the Canadian National Railways of \$3,405.04 and to the Canadian Pacific Railway Co. of \$769.15 were also made for claims.

<b>Vote 211 Grant to Last Post Fund</b> .....	<b>85 000 00</b>
Expenditures.....	\$ 40,913 61

The Last Post Fund is the name of a patriotic society. Its aim is to provide for the burial of honourably discharged ex-service men who were in destitute circumstances at the time of their decease.

Payment is not made of the grant as such, but the Society is recouped from this vote for burial expenditures plus administration charges, less contributions from municipalities for the cost that would otherwise have been incurred in the burial of these men as indigents.

<b>Vote 212 Grant to Canadian Legion</b> .....	<b>9,000 00</b>
Expenditures.....	\$ 9,000 00

The Government contribution is limited to 50 per cent of the actual expenses of the Canadian Legion for the fiscal year, with a maximum contribution of \$9,000.

The Legion's expenditures for the year, supported by statements certified by a firm of chartered accountants, amounted to \$35,712.33.

## PENSIONS AND OTHER BENEFITS

<b>Vote 241 Pensions payable to men on Active Service, North West Rebellion, 1885, and General Pensions</b> .....	<b>16,000 00</b>
Expenditures.....	\$ 13,821 43

This expenditure is distributed as follows: Non-Permanent Active Militia, \$11,122.93; North West Rebellion, \$2,422.50; Civil Flying (P.C. 2187, October 20, 1922), \$276.

<b>Militia Pensions Act, 1901, c. 133, R.S.</b> .....	<b>\$2,227,534 95</b>
---	-----------------------

This statutory appropriation provides for service pensions to officers and men of the Permanent Army, Navy and Air Services.

Deductions from Pay and Allowances of officers appear under the revenues of the three services concerned.

On March 31, 1945, 2,089 pensions were in issue, of which 299 were in respect of dependents of deceased officers.

<b>Annuity to Colonel John T. C. Thompson, Appropriation Act, No. 3, c. 53, 1939</b> .....	<b>\$ 4,999 92</b>

The amount shown as expenditure from this vote, \$1,375,263.85, is the net after applying the sum of \$107,100 received from other departments of the government in payment for work undertaken by Soldier Settlement on behalf of such departments. The departments concerned and amounts involved are:—National Defence—Army Services, Dependents' Allowance Board, \$67,600; Veterans Affairs, \$39,500.

<b>Vote 337 Payment to the Government of the United Kingdom on account of losses under the 3,000 British Family Agreement of August 20, 1924, and the New Brunswick 500 British Family Agreements of August 4th, 1927, and August 27th, 1935.....</b>		<b>15,000 00</b>
<b>Expenditures .....</b>		<b>\$ 14,947 68</b>

Under the agreements with the Government of the United Kingdom, losses resulting from the operation of the schemes are shared between the two governments in proportion to the advances made by each government.

Generally speaking, the Canadian Government furnished the land, while the United Kingdom Government supplied the stock and equipment. Proceeds of sales of reverted properties are credited along these lines, i.e., the Canadian Government's account is credited with moneys derived from the sales of land, while the United Kingdom Government's account is credited with sales of stock and equipment. Relative collections are remitted to the United Kingdom Government monthly.

When properties are finally disposed of, the losses sustained by each government are calculated in accordance with the agreement. On this basis, if the remittances referred to above exceed the United Kingdom Government's residual equity, such excess is recovered; conversely, if the remittances are less than such equity, the Canadian Government pays the difference, and this vote is provided for the purpose of absorbing this cost as it relates to transactions dealt with in 1944-45.

<b>Allotment: Detention Allowances on behalf of Canadian Seamen.....</b>	<b>150,000 00</b>
<b>Expenditures.....</b>	<b>\$ 142,831 27</b>

---

P.C. 12/4209, June 12, 1941 (as amended by P.C. 87/5204, July 16, 1941) provides as follows:

- "1. (a) That compensation by way of detention allowance may be awarded to the personnel of ships of Canadian Registry or licence, and persons of Canadian Nationality serving on any ship not of Canadian registry or licence which the Transport Comptroller certifies was engaged in essential war work on behalf of the British Commonwealth or its Allies at the time the voyage in question commenced, and persons of Canadian Nationality employed upon fishing vessels or boats engaged in the fishing industry of Canada in tidal waters, for loss occasioned by the discontinuance, in whole or in part, of the remuneration for employment of which they were theretofore in receipt, in consequence of their detention resultant from capture or internment in a foreign country.
- (b) The compensation in each case shall be in such sum, and such sum only, as shall assure the continued receipt by or on behalf of the person during the period of his detention of the remuneration theretofore paid to or in respect of him by his employer.
- (c) In the case, however, of a fisherman engaged upon a proceeds-sharing basis, such allowance shall be a sum equivalent to a due proportion of his earnings from such engagement over the preceding twelve months.
- (d) Notwithstanding any other part of these Regulations, the Canadian Pension Commission shall, when dealing with the case of a person of Canadian nationality who served on a certified non-Canadian ship, subtract from the detention allowance payable the amount of any detention allowance payable to the claimant under the laws of the country in which the ship was registered or licensed.

2. That award and payment of detention allowances be effected by the Canadian Pension Commission upon essential official information provided the said Commission to that end by the Department of External Affairs or other appropriate Department, such Department being responsible for the due provision of the information in question.
3. That the said Commission be authorized to pay to the dependents of the person to whom such allowance is awarded such portion of the amount awarded as detention allowance in any case as they in their discretion deem suitable and to retain the balance of such amount to be paid to such person or to his personal representatives after the end of the period of detention in respect of which the detention allowance is awarded.
4. That the payment of such detention allowances be made retroactive to September 10th, 1939.
5. The Secretary of State for External Affairs shall undertake the negotiations recommended in paragraph 4 of the Committee's recommendation."

This allotment was provided to cover the cost of the total allowances to the seamen concerned for the fiscal year 1944-45. The amount shown above as expenditures (\$142,531.27) was transferred to the open account "Detention Allowances Fund, Canadian Seamen" (see page ZA-47) from which payments are made in accordance with the provisions of the foregoing Order in Council.

Generally, in connection with the above accounts, there are parliamentary appropriations provided, as authority for certain loans and advances made through the above accounts. The appropriations in the present year and the accounting therefor follow:

<b>Vote 413 To provide for Soldier Land Settlement and British Family Settlement net advances.....</b>	<b>96,000 00</b>
<b>Expenditures.....</b>	<b>\$ 48,219 28</b>

These expenditures are included in the disbursements of the above Open Accounts as follows: Soldier Land Settlement, \$38,694.46, the difference in this case being occasioned by adjusting entries; General Land Settlement, \$9,440.49; Purchased and Free Lands, \$84.33. They comprise: taxes, \$28,768.93; taxes, Indian soldier settlers, \$32.84; insurance, \$2,329.62; miscellaneous advances, \$17,087.89.

<b>Vote 414 To provide for purchase of land and improvements; cost of permanent improvements to be effected; removal of encumbrances; land development, Provincial lands; farm machinery, stock and equipment under the Veterans' Land Act.....</b>	<b>20,500,000 00</b>
<b>Expenditures.....</b>	<b>\$ 8,039,027 08</b>

These expenditures are included as disbursements in the above Open Account for Veterans' Land Act advances and were for the purposes stated above. The difference between the above expenditures and the amount shown as disbursements in the Open Account is occasioned by adjusting entries.

A This account relates to advances made to veterans of the 1914-18 war and further transactions with all purchasers of reverted properties.

The Soldier Settlement Balance Sheet shows gross loans as \$117,315,684.32 and Farmers' Creditors Arrangement Act reductions charged back from General Land Settlement as \$1,523,831.71, making a total of \$118,839,516.03. From this total is deducted the value of lands transferred to the British Family Settlement Scheme, \$8,449,332.67, legislative reduction of loans, \$25,949,731.53, and repayments of principal, \$47,171,395.88, resulting in a debit balance of \$37,268,855.93 at March 31, 1945.

Receipts consist of repayments of principal, \$3,128,507.03, refunds, \$967.16, and an amount of \$252,526.48 included in the item of \$324,874.69 under Write-Down of Assets written off under legislative authority. Disbursements are payments of taxes, insurance and other charges, \$39,661.62.

B The General Land Settlement account relates to the advances made by the Dominion to the British Family Settlement and the New Brunswick Settlement Schemes, to which schemes the United Kingdom Government contributed. Under the agreements with the United Kingdom Government, the accounts relating to these two schemes are audited annually under the direction of the Auditor General and copies of the audit report are transmitted to His Majesty's Secretary of State for Dominion Affairs. The equity of the United Kingdom Government in the schemes amounted to \$1,556,382.66 made up of outstanding loans of \$1,547,761.47 and overdue interest of \$8,621.19.

Receipts consist of (a) repayments of principal, \$537,369.05; and (b) an amount of \$72,348.21 included in the item of \$324,874.69 under Write-Down of Assets written off under legislative authority. Disbursements include payment of taxes, insurance and other charges.

C When the Soldier Settlement Board was established, certain tracts of land were acquired by purchase or otherwise and the transactions herein are in connection with portions of this land in which the Dominion Government still has a financial interest. Receipts are derived from sales of land on cash or terms while disbursements are payment of taxes.

D This is a clearing account for the United Kingdom's portion of advances, and repayments of same, under the 3,000 British Family Settlement Scheme and the New Brunswick 500 Family Settlement Scheme. Debit balances are paid by the United Kingdom Government while credit balances are remitted to it.

E This account relates to advances made to veterans of the present war and purchase of properties for future settlement.

Receipts consist of repayments of principal, \$79,459.72 and refunds of \$24,177.25. Disbursements are: purchase of land for veterans, \$614,621.84; purchase of properties for future settlement, including permanent improvements effected, \$7,144,057.14; purchase of bulk building material, \$234,216.02; purchase of bulk stock and equipment, \$35,308.26; purchase of farm equipment, \$33,686.87.

G Moneys are credited to this account pending distribution to the proper accounts.

H This account accumulates the value of write-downs to the non-active category of the investment of the Dominion Government in soldier and general land settlement loans.

C A fund of \$12,000 (of which \$5,000 was paid on January 13, 1942) was established by the donor to be used for the benefit of members and ex-members of the Royal Canadian Air Force and their families.

D Donations to this fund are made by individuals and are used for the benefit of Canadian Servicemen and their dependents.

- E Besides minor accounting adjustments, this account is credited with the amount of total allowances made under the provisions of P.C. 12/4209, June 12, 1941 (as amended by P.C. 87/5204, July 16, 1941), to Canadian Seamen interned by the enemy, such amount being charged to an allotment of the War Appropriation (see page ZA-29). It is debited with payments made to, or on behalf of, the seamen concerned as provided for in the above-mentioned Order in Council.
- F Represents War Service Gratuities held by the Department for mental, tubercular and other long treatment cases which were transferred to the treatment strength of the Department on discharge from the Canadian Expeditionary Force; and also the gratuities payable to men discharged from the C.E.F. who cannot be located for the time being.
- G Moneys held in this account include: (a) pensions and War Veterans' Allowances of those placed under administration of the Canadian Pension Commission; (b) donations, legacies, gifts, bequests, etc., received by the Department and to be disbursed for the benefit of patients in departmental hospitals; (c) personal funds of patients in departmental hospitals; (d) profits of canteens operated in various departmental hospitals, which are used for the benefit of the patients therein.
- H Represents War Service Gratuities paid under the War Service Gratuities Act, 1944, and held by the Department for men under treatment. Payment in full is made when treatment is complete.

A This fund was authorized under c. 54, Statutes of 1920 and subsequent amendments, for the purpose of insuring the lives of ex-members of the Canadian Expeditionary Force. Receipts are (a) payments of premiums and (b) interest credited at the rate of 4 per cent per annum by the Department of Finance and charged to Interest on Public Debt. Disbursements represent payments of death and disability benefits and cash surrender values.

B P.C. 9745, December 27, 1945, authorized the establishment of this fund, to be administered by the Director, Veterans' Land Act. Moneys are made available to the fund by transfers from the annual appropriations of the department (see Vote 338 this year) and are calculated as follows:

- Each insurable property acquired by the Crown under the Veterans' Land Act shall be insured in the Fund at a value, not exceeding replacement value, as certified by the Director, and registered as an insured property until sold or otherwise disposed of.
- With respect to each property insured in the Fund there shall be paid to the Fund an annual premium at the rate of 0.5 per cent of insured value.
- Adjustment of premiums on any cancelled insurances shall be on a pro rata basis.

Payments from the fund are made for the purpose of repairing or replacing property which is duly insured therein, and which is damaged or destroyed by fire.

M This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and predecessor Companies for capital expenditures and deficits, had such interest been paid in the Dominion. The interest, however, was never taken into the accounts of the Dominion but interest amounting to \$530,892,567.67 was shown in the books of the Railway. The total amount of interest collected up to December 31, 1946 was \$874,781,067.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railway Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

(a) Amount paid by Dominion in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.

(b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company. (See detailed explanation in Appendix I.)

(c) Of this amount \$7,380,012 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the creation of a fund to be held by the Government to guarantee a dividend of 3 per cent per annum for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional shares. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix E, Page 29).

(a) Difference between conversion of pound sterling at \$486½ and at \$486 charged to Consolidated Deficit Account of Canada.

(b) Adjustments to loans under authority of the Canadian National Railway's Capital Revision Act of 1937—Capital expenditures on wharves (\$1,006,527.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$660,389.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$73,823,120.38; losses amounting to \$10,333,534.35 during years 1937 to 1944 due to line abandonments in respect of which, the Government has not made cash reimbursements to the railway and net capital loss of \$1,474,971.24 on sale of S.S. *Prince David* and S.S. *Prince Robert* less the capital gain of \$19,105,631.38 on repatriation of Canadian National Railway securities and increase in Dominion's Equity in Canadian National Railways due to surplus earnings of the system for the calendar years 1941 to 1944—\$87,745,931.64.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,883,912 was originally due February 1, 1884, and \$4,527,000 on November 7, 1888. Later, the aggregate of these two amounts, \$7,410,912 was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,735,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,102,521.33. This amount included interest of \$308,609.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under assets, Loans and Advances—Miscellaneous, Schedule "G".

## APPENDIX M

## CALCULATION OF ACCRUED INTEREST ON LOANS

NOTE.—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures (the first) and such interest been accrued on the books of the Dominion. The interest however was never taken into the accounts of the Dominion, but interest amounting to \$530,832,897.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$74,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railway Securities Trust as provided for by the Canadian National Railway Revision Act of 1937.

Report of the Auditor General to the  
House of Commons with respect to  
accounts examined and audited in  
accordance with the provisions of the  
Consolidated Revenue and Audit Act,  
1931, and other legislative enactments

---

## AUDITOR GENERAL'S REPORT

1. The accounts for the fiscal year ended March 31, 1945, have been audited in accordance with the provisions of the Consolidated Revenue and Audit Act, 1931. The audits, as in previous years, were made by means of comprehensive tests. Audit certificates, which appear in the Public Accounts, were given subject to the reservations and observations set out in this report to the House of Commons.

2. Financial provisions in several statutes which regulate expenditures were varied during the fiscal year by means of orders in council made under the authority of the War Measures Act:—

The Civil Service Act, c. 22, R.S., as amended by c. 40, Statutes 1932, exempts from the provisions of the Act the position of postmaster when the revenue of the office does not exceed \$3,000 per annum. Order in Council P.C. 161 8202 of October 25, 1944, extends the exemption to offices "where the annual revenue of the post office, less 16½ per cent, does not exceed \$3,000 per annum". The Order in Council is to have effect "until such time as the collection of one cent additional War Tax is discontinued, or until such time as the payment of commission to Revenue Postmasters for the collection of this extra revenue shall have been authorized."

The Judges Act, c. 105, R.S., provides that, when a judge is in travel status, his living allowance be \$10 in cities and \$6 elsewhere. Section 38 directs that no remuneration, in addition to judicial salary, be paid "for any duty or service, whether judicial or executive", which a judge may perform for the Government of Canada. Order in Council P.C. 50 8550 of November 8, 1944, vests in the Treasury Board a power to fix "remuneration, moving or transportation expenses and living allowance" to any judge appointed to act as "commissioner or arbitrator on any commission of inquiry or arbitration relating to or arising out of the prosecution of the present war."

The Militia Pension Act, c. 133, R.S., requires an adjustment of pension awards whenever a recipient is employed in the public service. The purpose is to avoid the total of salary or wages, plus pension payments, exceeding the pay and allowances of the individual when granted pension. A number of pensioners have been in the employ of the Inspection Board of the United Kingdom and Canada. They continued to draw pension without adjustments being made. Order in Council P.C. 120 8058 of October 18, 1944, directs that "recovery of overpayments of... militia pension, which have been made prior to November 1, 1944, ... to pensioners under the Militia Pension Act who have been employed by the Inspection Board of the United Kingdom and Canada, be waived."

The National Housing Act, c. 46, Statutes 1944, provides a scheme for the financing of house construction by owners. Section 4 empowers the Government of Canada to enter into agreements with lending institutions, and to participate up to 25 per cent of the loan. The same section permits an undertaking to be given to the end that if losses are sustained, the Government will assume the loss up to 15 per cent of the aggregate amount of the share of the lending institution in all joint loans within the class. Order in Council P.C. 392 of January 18, 1945, provides that the pro-rata loss of the Government be not taken into calculation in computing the amount payable to the lending institution under the guarantee. A like change was made by the same order in council to section 8 (2) (b), which relates to losses arising out of loans for the construction of houses to be rented.

The Old Age Pensions Act, c. 156, R.S., as amended, regulates awards by the sum of private income of the applicant or recipient. Order in Council P.C. 3377 of May 29, 1944, increases by \$60 annually the amount of private income which a pensioner may receive without diminishing an award. In certain circumstances a consequence is that it permits couples to receive up to \$120 a year additional income before an award becomes subject to revision.

The Pension Act, c. 157, R.S., as amended, permits \$180 per annum to be paid to a dependent parent of a deceased soldier when a widow or orphaned children also receive a pension. Order in Council P.C. 117/3088 of April 27, 1944, increases the amount to \$360.

The Veterans' Land Act, c. 33, Statutes 1942, contemplates sales agreements with veterans involving not more than \$3,600 for land, etc., and not more than \$1,200 for livestock and farm equipment. By Order in Council P.C. 7990 of October 14, 1943, the maximum for land, etc., was increased to \$4,800. On April 13, 1945, a further Order in Council (P.C. 2020) directs that the \$6,000 combined maximum be continued, but that the value of land, improvements and building materials may represent all or any part of the \$6,000. Thus the value of the livestock and farm equipment which may be sold is the difference between the cost of the land, etc., and \$6,000, but the cost of the livestock and farm equipment may not exceed \$1,200 in any event.

The War Service Grants Act—Section 7 of c. 51, Statutes 1944-45, is varied by Order in Council P.C. 9440 of December 19, 1944. The section now reads:—

7. Payment of war service gratuity to members of the forces shall be made in monthly instalments, payable in arrear, not exceeding the amount of pay and allowances, *including dependents'*

*allowance, paid to, or in respect of such member of the forces for the thirty days immediately preceding his discharge unless, solely in consequence of his posting to a special discharge unit or establishment prior to discharge, a lower rate of pay and allowances was in issue to a member at the date of discharge, in which case no instalment shall exceed the pay and allowances, including dependents' allowance, in issue to such member for the thirty days immediately preceding his posting from the unit, establishment or ship where he last served in his normal capacity or trade, and including also, in the case of a member of the naval forces, lodging and provision allowance, and, in the case of a member of the military or air forces, subsistence allowance at the standard rates payable in Canada, notwithstanding that, at the date of his discharge, he was not receiving such allowance.*

The words in italics are the changes made by the Order in Council. Order in Council P.C. 792 of February 6, 1945, extends the benefits of the Act to personnel subject to the National Resources Mobilization Act, 1940, who are despatched to operational theatres abroad. Order in Council P.C. 55/1111 of February 21, 1945, brings the Canadian Women's Army Corps within the scope of the Act.

The War Veterans' Allowance Act, c. 48, Statutes 1930, as amended, provides a scheme of annual allowances up to \$240, if the veteran is a bachelor or a widower, and up to \$480, if a married man or a widower with children. In December, 1941, monthly supplements of \$5 and \$10 were authorized. Order in Council P.C. 2/602 of January 31, 1944, increases the supplements to \$10.41 and \$20.83, respectively. P.C. 161/7746 of October 4, 1944, exempts as income in determining the amount of allowance payable, any war service gratuity payable in respect of a deceased member of the Forces, and P.C. 162/7746 of the same date extends the benefits of the Act to veterans of the North West Rebellion and to persons who have served in a war theatre or are pensioners of the present war.

3. Various departments, statutory bodies and Crown corporations made the equivalent of tax payments to municipalities during the fiscal year. In the majority of cases these were in the form of ex gratia contributions, those concerned relying on section 125 of the British North America Act:—

125. No lands or property belonging to Canada or any province shall be liable to taxation.

to establish immunity from municipal levies. It was noted that an opinion of the Deputy Minister of Justice was sought by the Department of Public Works as to the liability of the Crown for taxes levied on the tenant of Crown property at Peterborough. He advised that as "there is no covenant by the Crown to pay such taxes, I am of opinion that the Crown is under no liability to pay them." In some instances agreements exist whereby the Crown undertakes to make annual payments over a period of years. In the list which follows, payments for such services as water or garbage removal or for special services (payment of \$30,000 to Brockville for a sewage extension in connection with the Army camp and \$126,920.55 for the chloramination of the Greater Vancouver water supply are examples) are not included, nor are cases where the Government occupies property under lease and has agreed to pay taxes:—

*City of Ottawa.*—\$100,000 was paid to the City under the authority of c. 11, Statutes 1944-45.

*City of Halifax.*—In addition to the usual charge for water, there is a levy, calculated by assessed valuations, for "fire protection" or "pipe rate" expense. Lump sum payments are made with respect to this levy: Customs House \$500, Post Office Building \$1,500, Camp Hill Hospital \$400, Rockhead Hospital \$240 and National Defence Departments' properties \$14,000.

*Town of Sackville.*—The Canadian Broadcasting Corporation, on November 2, 1944, advised the Town that it would make an annual grant "covering municipal services rendered, as, for example, police and fire protection", in respect of staff houses, at the rate of \$60 per dwelling.

*City of Quebec.*—Snow removal charges of \$252.72 were paid with respect to streets facing three Post Office buildings. The National Battlefields Commission paid \$874.08 to the City for snow removal. Of this amount, \$450 was with respect to work on l'Arène des Braves; the balance relates to assessments for snow removal services levied against the Commission on a lineal foot frontage basis for properties adjoining city streets.

*City of Three Rivers.*—By Order in Council P.C. 2152 of March 18, 1943, authority is given the Minister of Public Works to pay the City \$1,325.91 annually until December 31, 1947, for snow removal, street flushing, street cleaning, etc., of walks and roadways adjacent to the Dominion Public Building.

*City of Westmount.*—War Assets Corporation paid \$3,000 in lieu of 1945 municipal taxes.

*City of Peterborough.*—The Crown has rented Crown properties on Louis and Charlotte Streets, deriving \$2,940 by way of rent from the various tenants. For a considerable period, 12 per cent of the rentals was paid to the City. In the year 1944-45 the payment was \$352.40. Notice was given to the City in November, 1944, that the Department of Public Works did not intend to make further payments.

*Town of Port Hope.*—In 1944 the Crown appropriated all shares of Eldorado Mining and Refining Limited. The property of the Company in Port Hope is registered in the corporate name and municipal taxes of \$1,326.52 were paid.

*Town of Leaside.*—Aero Meters Limited, a Crown corporation, made a contribution of \$2,038.32 in lieu of 1944 municipal taxes. Another Crown corporation, Research Enterprises Limited, contributed \$101,236.31. Of this, \$52,350 is related to the year 1944 and \$48,886.31 to 1945.

*Township of Toronto.*—This municipality has made an interim claim on Crown corporation, Victory Aircraft Limited, for \$36,596.17. The Company paid \$30,000, which is subject to adjustment. The arrangement calls for payment of the amount necessary to maintain in 1944 the liquid surplus position of the

municipality at that of the 1942 level. The actual amount will be determined following the audit of the Township's accounts. A payment of \$5,000 was also made to the Malton Public School Board. This was made subject to adjustment after operating costs of the Board are established.

*Township of Sarnia.*—\$5,000 was paid in lieu of 1944 municipal taxes by Polymer Corporation Limited.

*City of Hamilton.*—The Department of Public Works paid \$536.29 for street watering and area rental charges in connection with the principal Government building in the City.

*City of Guelph.*—\$42.30 was paid with respect to the year 1944 for frontage charges, street flushing, etc., in connection with the Customs and Post Office buildings.

*Town of Melville.*—This municipality now levies a service charge for the maintenance and operation of its sewage and disposal plant. Previously, the practice had been to absorb such costs in the general tax. The 1944 payment by the Department of Public Works was \$156.

*Town of Gravelbourg.*—This municipality also makes a service charge for sewer services. The payment in 1944 was \$60.

*Salmo Board of School Trustees.*—The Crown corporation, Wartime Metals Corporation, paid \$500 in 1944 in lieu of school taxes.

*Wartime Housing Limited* has agreements with municipalities which provide for annual payments of \$24 for each two-bedroom house or suite and \$30 when there are more than two bedrooms. When the houses are permanent in character, the amount is fixed by the rates applicable to buildings of like nature in the municipality. Hostel buildings are subject to special arrangements. In the year ended March 31, 1945, Wartime Housing Limited paid out \$573,509.19 under these agreements.

*Soldier Settlement Lands.*—Whenever soldier settlement lands cease to be held by any person under agreement for sale, lease or otherwise, the properties are not subject to taxation. Order in Council P.C. 1776 of July 28, 1937, authorizes the Minister to make grants to taxing authorities to an amount not exceeding the tax assessment which might be imposed were the occupancy of the lands such as would bring them within the category defined by section 4 (5) of the Soldier Settlement Act. Payments in the fiscal year 1944-45 amounted to \$26,385.56.

*Veterans' Lands.*—Order in Council P.C. 113/798 of February 7, 1945, authorizes grants to be made to municipalities, not exceeding the tax assessment which might otherwise be imposed, with respect to lands held for the purposes of the Veterans' Land Act but which are not under sale or lease agreement to a veteran. Payments in the fiscal year 1944-45 totalled \$48,841.14.

As section 125 of the British North America Act merely removes liability of levy, the payments have been accepted in the audit as permissive charges to the votes involved.

4. The accounts of Canada are regulated and presented to the House of Commons in accordance with the general scheme adopted in 1878 when receipts approximated \$22,000,000 and expenditures \$31,000,000. In the year last ended, there were days when financial transactions equalled 1878 annual totals. Corporate and statutory administrative instrumentalities were then rarely employed. They now approximate 40 in number. Public property in 1878 consisted, in the main, of Crown lands and other natural resources. To-day, hundreds of millions of dollars are invested in commercial real estate, plant, materials and supplies. Only in a few instances are assets of this nature taken into the Balance Sheet; when that is done the rule is to take original cost as the value. Functions of administration have multiplied, and some departmental activities are now commercial undertakings. It is reasonable to anticipate that there will be post-war contractions in administration; but it is inconceivable that ever again will it be practicable, as it was in 1878, to regard all financial transactions of the Government as susceptible to effective and efficient regulation by the application of rules common to all. These considerations prompt the expression of opinion that thought should again be given to the provisions of the Consolidated Revenue and Audit Act, 1931, and allied legislation.

5. Section 50 (2) of the Consolidated Revenue and Audit Act, 1931, directs that:—

50. (2) In reporting the result of his examination and audit to the House of Commons, the Auditor General shall call attention to every case in which

- (a) a grant has been exceeded; or
- (b) moneys received from sources other than the grants for the year to which the account relates have not been applied or accounted for according to the direction of Parliament; or
- (c) a sum charged against a grant is not supported by proof of payment; or
- (d) a payment so charged did not occur within the period of the account, or was, for any other reason, not properly chargeable against the grant, or was in any way irregular; or
- (e) a special warrant authorized the payment of any money; or
- (f) an objection of the Auditor General was overruled by the Governor in Council or the Treasury Board; or
- (g) a refund or remission of any tax, duty or toll has been made on the authority of any Act of Parliament;

or to any other case which the Auditor General considers should be brought to the notice of Parliament.

No parliamentary grant was exceeded, nor was any special warrant issued to authorize a payment. No objection of the Auditor General was overruled by the Governor in Council or the Treasury Board. To the extent practicable, transactions were scrutinized carefully with the recording of the receipt or disbursement. Any transactions which did not appear to conform to parliamentary or executive directions were noted forthwith to the appropriate officer. Thus many transactions, which might otherwise have necessitated audit observations to the House of Commons, were suitably adjusted before the accounts for the year were closed. Consequently, the subject matter of this report is, in the main, founded on the general direction which closes the above quotation. Interspersed, under appropriate headings, are statements and observations which are inserted as aids to readers of the Public Accounts.

## THE BALANCE SHEET OF CANADA

6. The Balance Sheet as at March 31, 1945, was presented for audit in substantially the same form as in 1943-44. A summary of the financial position as at March 31, 1945, is:—

### Liabilities—

Floating Debt .....	\$ 165,067,379 13
Deposit and Trust Accounts.....	993,601,448 15
Insurance, Pension and Guaranty Accounts.....	406,471,918 47

Excess of Expenditure over Revenue for the fiscal year ended March 31, 1945.....	2,558,277,124 80

Balance, March 31, 1945.....

\$11,298,362,017 77

7. *Liabilities.*—These include only those liabilities which have been ascertained and brought to account. Interest accrued but not due (except with respect to War Savings Certificates) and current obligations incurred for goods received and services rendered, not paid for in the fiscal year, are not included. Obligations payable in other than Canadian currency, such as those portions of the Funded and Floating Debt payable in London and New York, are recorded in the Balance Sheet at par of exchange.

8. The Income War Tax Act, as amended by c. 28, Statutes 1942, provides for the refunding, after the termination of the war, of a portion of the tax, together with 2 per cent interest from the first day of October next after the end of the year in which the refundable portion of the tax is levied. The estimated liability for the refundable portion of the tax on personal incomes was revised at the fiscal year-end to \$60,000,000 for 1942 incomes and \$130,000,000 for 1943 incomes. Interest for 12 months on \$60,000,000 and for 6 months on \$130,000,000 accrued during the fiscal year, but no charge to interest on public debt was made; nor was a liability for the interest set up in the Balance Sheet.

9. During the year \$31,022,663.17 was added to the Reserve for Contingent Liabilities. This represents the net total of reserves of eleven Munitions and Supply Crown companies, three operators of Crown plants and three Crown-operated plants. In setting up this amount, \$29,847,853.11 was charged to expenditures of the Department of Munitions and Supply for the year under review, and the remainder, \$1,174,810.06, to Active Asset advances

10. *Active Assets*.—Revenues in arrears and stores are not included in the assets, with the exception of the inventories of the departments of Public Printing and Stationery and Transport and the metals purchase accounts of the Royal Canadian Mint. Assets held in other than Canadian currency are recorded at par of exchange.

11. The reserve for possible losses on the ultimate realization of Active Assets was increased \$25,000,000 during the year. At March 31, 1945, this reserve was \$125,000,000 against assets aggregating \$4,538,819,509.49. The adequacy of the reserve is a matter of opinion. It is neither required nor regulated by statute nor does its existence release or relieve a debtor from his obligation to the Crown. It is a valuation adjustment of Active Assets, arbitrarily made in five successive years, for balance sheet purposes, and as such, influences the amount of the Net Debt.

12. Changes in the investment in plant and working capital advances to Polymer Corporation Limited, chemical plants at Calgary, Niagara Falls and Valleyfield and brass processing plants at New Toronto and Montreal, decreased Active Assets by \$7,214,178.20. The investment in these plants was taken into the Dominion Balance Sheet in the 1943-44 fiscal year. Working capital advances decreased by \$9,175,714.33, while investment in plant and equipment increased by \$1,961,536.13. The total investment in these six plants at March 31, 1945, was \$98,216,808.01. This includes assets costing \$1,262,742.17 which have been transferred to War Assets Corporation for disposal.

13. The investment in Polymer Corporation Limited, exclusive of working capital advances, is listed in the Balance Sheet as an Active Asset of \$50,191,364.25. This represented original cost, but in July, 1945, the Department of Munitions and Supply authorized the Corporation to regard \$26,610,065.80 as current worth for the purpose of accumulating, in its accounts, reserves for replacements. The investment in the chemical plant at Valleyfield, including working capital advances, is recorded as an Active Asset of \$1,459,958.04. On May 15, 1945, sale of the plant, its equipment and work in process was authorized for \$700,000. Recorded values of such Active Assets are therefore open to question. On the other hand, there are many capital outlays of a similar character which are not included in the Balance Sheet, even as Non-Active Assets.

14. Order in Council P.C. 8423 of September 18, 1942, authorized the Minister of Transport to enter into an agreement with the Canadian National Railway Company to assist in the development of the iron ore deposit owned by the Steep Rock Iron Mines, Limited, in the vicinity of Atikokan, Ont., by

- (a) assisting the railway to reduce the rate on the first 5,000,000 tons of ore handled, to the extent of 20 cents per ton, to be paid by the Government to the railway;
- (b) paying the cost of construction of a spur from the railway to the mine and the cost of construction of the necessary ore dock at Port Arthur, the estimated cost of these facilities being from two million to two and one-half million dollars; the spur and the dock to be operated as a public facility by the railway and to be maintained by the railway subject to the Government receiving from the railway 6 cents per ton on all ore handled over the dock, such receipts to be applied towards amortization of the cost of the facilities without interest.

The 20 cent subsidy was authorized following representations by the mining company as to the effect of the \$1.32 per gross ton rate for transport of the ore to Port Arthur and handling the ore over the dock. Order in Council P.C. 3487 of May 11, 1944, revised the estimated cost of construction to \$3,000,000. Disbursements to March 31, 1945, totalling \$1,754,581.31, were charged to Active Assets—Miscellaneous Investments. In his Introduction to the 1944 Public Accounts the Deputy Minister of Finance stated, at page xv:—

Offsetting these liabilities (and in a measure explaining their existence, because much of the Dominion's debt is attributable to the loans, advances, and investments which form a large part of the assets) are what are known as Active Assets, following the classification adopted in the budget speech of 1920. Essentially, they consist of the earning assets (that is, assets which yield interest or profits and dividends) together with very liquid assets such as cash and bullion.

As recovery of construction costs of the railway and dock facilities is to be obtained from a transportation subsidy payable by the Government, the classification of this \$1,754,581.31 as an active asset is not compatible with the description given in the last sentence of the above quotation.

15. *Net Debt*.—Liabilities being \$15,712,181,527.26 and Active Assets \$4,413,819,509.49, the Net Debt of Canada was \$11,298,362,017.77 at March 31, 1945. It was represented by:—

Non-Active Assets—		
Balance, April 1, 1944.....	\$1,533,029,163 01	
Net increase during 1944-45.....	24,757,367 02	
Balance, March 31, 1945.....		\$ 1,557,786,530 03
Consolidated Deficit Account—		
Balance, April 1, 1944.....	\$7,207,055,729 96	
Net increase during 1944-45.....	2,533,519,757 78	
Balance, March 31, 1945.....		9,740,575,487 74
Net Debt, March 31, 1945.....		\$11,298,362,017 77

16. The over-all deficit and increase in the Net Debt during 1944-45 was \$2,558,277,124.80, comprising increases of \$24,757,367.02 in Non-Active Assets and \$2,533,519,757.78 in Consolidated Deficit Account.

17. *Non-Active Assets*.—These total \$1,557,786,530.03 and are listed, in summary form, as Schedules K and L to the Balance Sheet. They include those items charged to appropriations designated as Capital in Appropriation Acts, and certain advances and investments which are considered to be neither revenue producing nor readily convertible into cash.

18. The principal transaction during the fiscal year was an adjustment of the value of Canadian National Railways Securities Trust Stock, which represents the Government's equity in the Canadian National Railways System. Surplus earnings of the System for the calendar year 1944 of \$23,026,924.35 were reduced by \$626,871.75 by reason of the abandonment of dock facilities at Seattle. Thus there was a net increase of \$22,400,052.60 in the book value of the Securities Trust. Non-Active Assets account was augmented to record the increase in the Government's equity in the system. The method employed is in accord with the provisions of the Canadian National Railways Capital Revision Act, 1937. In summary form, transactions affecting Non-Active Assets accounts were:—

Capital Expenditure .....	\$ 3,163,752 02	
Government-owned Enterprises—Non-active Advances.....	525,767 33	
Other Charges to Non-Active Asset Accounts.....	22,400,052 60	
		\$26,089,571 95
<i>Less:</i>		
Capital Refunds.....	728,195 16	
Government-owned Enterprises—Repayments of Non-Active Advances .....	568,003 60	
Other Credits to Non-Active Asset Accounts.....	36,006 17	
		1,332,204 93
Net Increase .....		\$24,757,367 02

19. *Consolidated Deficit Account*.—This account records the accumulated deficits, less surpluses, on current account since Confederation. The balance of \$9,740,575.487.74 at March 31, 1945, is an increase of \$2,533,519,757.78 over that accumulated at the previous year-end. The increase is due to:—

Total Expenditures .....	\$5,245,611,924 00	
Less: Charges to Non-Active Asset Accounts.....	26,089,571 95	
Expenditure charged to Consolidated Deficit Account....		\$5,219,522,352 05
Total Revenues .....	2,687,334,799 20	
Less: Credits to Non-Active Asset Accounts.....	1,332,204 93	
Revenue credited to Consolidated Deficit Account.....		2,686,002,594 27
Net Increase .....		\$2,533,519,757 78

20. *Contingent Liabilities.* In addition to the direct debt recorded in the Balance Sheet, the Government of Canada has indirect or contingent liabilities in consequence of guarantees given and obligations assumed. Particulars of contingent liabilities, as at March 31, 1944, were set out in Part I, pages 28 and 29 of the Public Accounts, 1944. In fulfilment of these guarantees, \$35,246,805.83 was disbursed during 1944-45:—

- (a) Under the Dominion-Provincial Taxation Agreement Act, c. 13, Statutes 1942-43, provision is made for the payment to each province of the amount by which collections in any year of its tax on the sale of gasoline are less than the net receipts from this source in the fiscal year ended nearest to December 31, 1940. Gasoline tax revenues thus guaranteed aggregate \$56,734,905.96. Payments during 1944-45, totalling \$10,356,874.39, were made as follows: British Columbia, \$624,600.85; Manitoba, \$274,990.21; New Brunswick, \$359,012.70; Nova Scotia, \$480,000; Ontario, \$7,694,885.09; Prince Edward Island, \$19,020.70; Quebec, \$778,602.24; Saskatchewan, \$125,762.60.
- (b) Payments to lending institutions of losses incurred on loans under the Home Improvement Loans Guarantee Act, c. 11, Statutes 1937, amounted to \$7,784.18. The cumulative total of claims paid to March 31, 1945, was \$454,018.35. Of this amount, \$52,203.97 had been recovered as at that date.
- (c) Under the Seed Grain Loans Guarantee Act, c. 13, Statutes 1938, a guarantee was given with respect to loans made by chartered banks for purchasing seed grain and providing other assistance to farmers in connection with seeding operations during the spring of 1938 in the Provinces of Alberta and Saskatchewan. A provision of the Act required that loans be guaranteed in the first instance by the government of the province concerned, the liability of the Dominion Government being limited in respect of principal to \$1,900,000 for Alberta and \$14,500,000 for Saskatchewan. During 1941-42 the Province of Alberta paid to the interested banks all outstanding loans, and the Dominion's liability with respect thereto was cancelled. During 1944-45, in fulfilment of its guarantee, the Dominion paid \$16,468,852.49 covering claims by the chartered banks for the outstanding loans and interest thereon in Saskatchewan. The payments were charged to Active Assets—Loans and Advances to Provincial and Municipal Governments, and in accordance with the provisions of section 5 (iii) of the Act, the Province delivered a Treasury bill for a principal amount of \$16,468,852.49 to the Minister of Finance. \$582,331.11 was recovered from the Province during the year.
- (d) \$8,413,294.77 was paid to the Canadian Wheat Board during the year and charged to the liability account—Reserve for losses on wheat marketing guarantees. This payment was in fulfilment of guarantees given pursuant to the Canadian Wheat Board Act, c. 53, Statutes 1935, to enable the Board to discharge its liability to certain chartered banks in connection with the marketing of the 1939 wheat crop. Of the total, \$8,226,850.19 represents amounts previously provided on the basis of calculations made as at July 31, 1944, and \$186,444.58 the interest accruals from August 1, 1944, to the date of payment.

21. The Contingent Liabilities of the Dominion as at March 31, 1945, are set out in the Public Accounts as Schedule V to the Balance Sheet, Guaranteed Securities and Other Guarantees.

## REVENUES

22. Cash receipts and other credits to Revenue for the fiscal year ended March 31, 1945, were \$2,687,334,799.20, which is a decrease of \$77,682,914.20 when compared with the corresponding total of the previous year. A comparison by classifications with those of 1943-44 is:—

	1943-44	1944-45
Ordinary .....	\$2,570,094,423 99	\$2,300,097,373 42
Special .....	193,636,613 89	363,505,168 25
Credits to Non-Active Assets.....	1,193,370 20	568,003 60
Capital Refunds .....	93,305 32	728,195 16
Adjusting Entries .....		22,436,058 77
	<u>\$2,765,017,713 40</u>	<u>\$2,687,334,799 20</u>

23. *Adjusting Entries.*—These are bookkeeping adjustments and do not involve any receipt of cash. Contra entries appear in expenditures, so that the deficit for the year is not affected. The principal item is the net credit due to the increase in the Dominion's equity in the Canadian National Railways, which was applied in accordance with the provisions of the Canadian National Railways Capital Revision Act, 1937. (Note Para. 18 above.)

24. *Capital Refunds.*—Refunds of previous years' expenditures and other credits to Capital Account during 1944-45 were \$728,195.16. Of the total, \$20,579.40 was on account of canals, \$37.50 on account of railways, and \$707,578.26 for miscellaneous public works.

25. *Credits to Non-Active Assets.*—A repayment of \$549,096.08 in connection with the indebtedness of the Canadian National (West Indies) Steamships Limited was the principal item in the classification.

26. *Special Revenues.*—This classification records refunds and adjustments of special relief expenditures and war expenditures of previous years, donations, sale of surplus war assets, and other non-recurring revenues which have not been classified as ordinary revenue. Receipts and credits on Special Account were \$363,505,168.25. The items comprising this total were:—

Canadian Wheat Board—

Reduction in Reserve Account established to meet operating deficits of the Board, on the basis of calculations made as of July 31, 1944	\$ 589,360 17
Surplus on operations of special wheat and oats and barley accounts.	2,624,659 06
Refunds of previous years' war expenditures.....	298,626,384 64
Miscellaneous war revenues.....	45,883,833 51
Sale of surplus war assets.....	8,403,283 67
Transfer of asset value of property disposed of under lease-purchase option agreements from Consolidated Deficit Account to Active Assets.....	7,143,065 95
Refunds of previous years' special relief expenditures.....	52,506 33
War donations, \$177,023.92, and non-war donations, \$48.....	177,071 92
	<u>\$363,505,168 25</u>

27. The reduction in the reserve established to meet the operating deficits of the Canadian Wheat Board is an accounting adjustment resulting from the Board's improved balance sheet position in respect of the 1939 crop. The amount of \$2,624,659.06 relates to the surpluses, inclusive of interest to April 30, 1945, in the special accounts established in March, 1942, for adjusting the prices of wheat stocks and stabilizing the prices of oats and barley in Western Canada. \$2,280,689.96 was on account of wheat and \$343,969.10 on account of oats and barley.

28. The \$298,626,384.64 classified as refunds of previous years' war expenditures consists of recoveries which are applicable to previous fiscal years' expenditures or which could not be allocated to current or previous years' accounts.

29. Miscellaneous war revenues, which amounted to \$45,883,833.51, include profits derived from the operation of Crown companies and plants, rentals of buildings and equipment (the cost of which had been charged to War Appropriation), return on plant investment and working capital loans, licence fees with respect to war activities, and fines and forfeitures received by reason of infractions of wartime regulations.

30. The \$8,408,286.67, representing sale of surplus war assets, includes payments by the Departments of National Defence for charges for jigs, tools, dies, etc., consumed in production and not included in the billing prices of items delivered. The Government of the United Kingdom may have a claim to a portion of these moneys.

31. The \$7,143,065.95 item is an adjustment of previous years' war expenditures, whereby the asset value of property disposed of under lease-purchase option agreements is recorded as Active Assets.

## ORDINARY REVENUES

32. Revenues on ordinary account amounted to \$2,300,097,373.42. This is \$211,902,626.58 less than the revenue forecast of the Minister of Finance in his Budget Speech of June 26 1944. A comparison of the Budget estimate and the realized revenue for the fiscal year is:—

	Estimated	Collected

	<u>\$2,542,000,000</u>	<u>\$ 2,300,097,373 42</u>

33. Amounts totalling \$219,500,000 were transferred to Funded Debt to record the increase in the estimated liability of the Dominion for the refundable portion of the Personal Income and Excess Profits Taxes. \$95,000,000 of the total was with respect to Personal Income Tax, \$70,000,000 being for estimated amounts relating to 1944 incomes. The remaining \$25,000,000 adjusts the provision made in prior years for the refundable tax on 1913 and 1942 incomes. Of the \$124,500,000 set up in respect of Excess Profits Tax, \$65,000,000 refers to estimated 1944-45 collections refundable, and \$42,500,000 and \$17,000,000 represent adjustments of prior years' provision covering the refundable portion of 1943-44 and 1942-43 collections, respectively. Consequently, of the \$219,500,000 deducted from the current year's revenues, \$84,500,000 relates to previous fiscal years.

34. Non-tax revenues for the fiscal year were \$145,470,725.07, an increase of \$12,187,785.34 compared with the previous year. A comparison by classifications is:—

	1943-44	1944-45

## Department of Agriculture

35. The United States Government advanced to the Agricultural Supplies Board moneys for the acquisition of milkweed. The Board deposited the moneys in the Bank of Montreal, Ottawa, and issued cheques in payment of expenditures incurred. Attention is drawn to the

matter because the Consolidated Revenue and Audit Act, 1931, directs that moneys received from other governments for a special purpose be deposited in Consolidated Revenue Fund and that payments be made by the Comptroller of the Treasury. A statement of the account is:—

Advances received .....	\$69,380

		\$54,380 00
Expenditures to April 30, 1945.....		44,653 54

### Department of Finance

36. Refunds and remissions of taxes on mutual insurance companies, exigible under Part III of the Special War Revenue Act on policy holders' dividends, were made during the fiscal year under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931. Of the \$134,936.97 total, \$2,098.81 was refunded and \$132,838.06 remitted. Refunds and remissions of \$1,000 or more were:—

Canadian Millers Mutual Fire Insurance Company.....	\$ 3,106 13
Central Manufacturers Mutual Insurance Company.....	4,196 64
Commerce Mutual Fire Insurance Company.....	3,633 63

### Department of Fisheries

37. A number of lessees of oyster fishing rights have enlisted. The Department, while lessees are in His Majesty's Forces, has waived obligations to pay rentals and to perform development work on leaseholds. Rental waivers in the fiscal year totalled \$118. The Department relied on Order in Council P.C. 2401 of June 7, 1940, as authority for the action taken.

38. By exercise of the discretion vested in the Minister by section 75 of the Fisheries Act, confiscated equipment was returned to the offenders in 7 instances.

### Department of Insurance

39. Penalties amounting to \$6,071 were collected during the fiscal year from companies which did not file certain statements within the time specified by the statutes under which they are authorized to transact business in Canada. Amounts totalling \$5,700 were refunded subsequently under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931. No refund exceeded \$1,000.

### Department of Mines and Resources

40. Royalty tax on the export of placer gold from the Yukon Territory in the fiscal year amounted to \$11,029. The tax of  $2\frac{1}{2}$  per cent was levied by computing 29,410.34 ounces as worth \$15 per ounce. The tax is imposed under section 83 of the Yukon Placer Mining Act, c. 216, R.S., which declares that "gold for the purpose of estimating such royalty shall be valued at \$15 per ounce." This valuation was established when the monetary value of gold was \$20.67 per ounce. The \$15 valuation is explained by the fact that gold exports involved are not refined gold. As the commercial price of gold is currently \$38.50, the Yukon Placer Mining Act's valuation may merit consideration.

41. The Bureau of Mines collected \$1,481.93 for assays and analyses and \$15,150.83 for treatment of metals. Several divisions of the Bureau perform tests and investigations for departments of government and the general public. Scales of fees exist, but most of the work is done without charge. The Bureau's Chemical laboratories performed 24,524 determinations, 1,566 gold assays and 294 silver assays in the year. These include tests made for other divisions. The scales of fees for such tests range from \$2 to \$7. Had all been assessed even the minimum rate, the revenue would have been \$52,768. The actual revenue received was \$1,481.93. Information provided is to the effect that the policy of free service is founded on the consideration that work performed in times of peace is in the nature of development, while in wartime it is mainly for departments, boards and commissions intimately connected with the prosecution of the war. In view of the fact that a comparable activity, the National Research Council, makes charges for work performed, attention is drawn to this Department's policy.

### Department of Munitions and Supply

42. Aero Timber Products Limited, a Crown company, logged aero grade timber in British Columbia for aircraft production programmes in Canada and elsewhere. The Company operated at a loss because sales were at prices fixed by the Timber Controller. Order in Council P.C. 7394 of October 5, 1943, authorizes the Timber Controller

to establish such surcharges on the selling prices of aero grade lumber as in his opinion are necessary to provide sufficient additional revenue to enable Aero Timber Products Limited to reimburse it for its costs of the production of Sitka spruce logs of aero grade.

Upon receiving notification of any such surcharge each seller of aero grade lumber shall charge to and collect from the buyers thereof such surcharge, and pay to Aero Timber Products Limited the amounts so collected.

The Order in Council cites, as authority for the making, the provisions of the War Measures Act and the Department of Munitions and Supply Act.

43. Surcharges were established by the Timber Controller and were collected on all sales of aero grade lumber. A result was that Aero Timber Products Limited received moneys assessed as surcharges on lumber sales resulting from timber produced by others. Attention is drawn to the matter because it appears to be questionable if either the War Measures Act or the Department of Munitions and Supply Act delegates to the Governor in Council a power to tax. The administrative view is set out in a letter from the Deputy Minister of Finance, the material part being:—

It is quite obvious that the surcharges authorized by P.C. 7394 were designed by the Department of Munitions and Supply to effect price adjustments, and while in the case of wood not actually the property of the Company, such surcharges have the characteristics of a tax, they do not, in the opinion of the officers of the Department of Munitions and Supply and of this Department, constitute a tax. On the basis of the facts as reported to me, I feel these surcharges may properly be considered as "price adjustments" and accordingly I am satisfied that there has been no violation in their application.

The surcharges were discontinued on June 30, 1945. During the period in which they were levied, the surcharges totalled \$2,501,028.88.

44. The Department estimates that \$240,505,018 was recovered, to March 31, 1945, by reason of renegotiation of contracts, cost audits or by voluntary refunds by contractors. The sum is a cumulative total since the outbreak of war. When renegotiating a contract, it is not departmental practice to take notice of contractors' payments by way of income or excess profits taxes, but a consequence of a Munitions and Supply settlement often is that the contractor files a revised taxation return, and a tax refund results.

45. The Department does not limit profits' investigations to prime contractors. Profits of sub-contractors and suppliers are also under scrutiny. With respect to suppliers, various prime contractors have been directed to list the names of their suppliers since 1940, who, in turn, are required to file audited financial statements. By use of these and other data, approximations of "war" business and profit thereon are calculated. Whenever profit appears excessive, negotiations are commenced to effect an adjustment. The Department advises that, in arriving at a settlement, it takes into consideration many factors, including: (a) the type of business, (b) the nature of the production processes, (c) the experience of the Department with respect to the operating efficiency of the concern, (d) the co-operation given the Services and (e) the financial and manufacturing risks taken. It also advises that, wherever possible,

a comparison is made with the profits of other enterprises in a similar line of business. The Department claims that every possible care is exercised to settle rates of profit at levels consistent with the Department's regular purchasing policy and at the same time give due recognition to the value of the contractors' services to the national war effort.

46. During the year lease agreements, relating to government capital assets and containing purchase option provisions, were made with Atlas Steels Limited and Algoma Steel Corporation Limited under the authority of Orders in Council P.C. 1174 of February 22, 1945, and P.C. 627 of February 1, 1944, respectively. A value of \$7,711,450.06 was placed on the capital assets involved. The sum has been included in the Active Assets of the Dominion Balance Sheet. The transactions involved accounting adjustments: expenditures were reduced by \$568,384.11 and \$7,143,065.95 recorded as a special receipt.

47. Revenues totalling \$10,985,731.14 represent (a) surpluses recorded by 2 Crown companies, (b) changes since April 1, 1944, in surpluses of 6 Crown companies, and (c) profits of operators of 2 Crown plants. These have been recorded in the Department's accounts as revenues, and corresponding increases made on the expenditures side in advances charged against the companies and plants.

### Department of National Defence—Air

48. On July 14, 1934, the Senior Air Officer of the R.C.A.F. authorized a benevolent fund to be established for the benefit of R.C.A.F. personnel and their dependents. Three Service trustees were named in 1937 to administer the fund, which then amounted to \$8,292.46. The trust agreement prohibited any distribution of principal. An Air Force Order of October 31, 1941, directed contributions to be credited to the benevolent fund from the following sources: (a) a percentage of the net proceeds of sports events and motion picture shows, (b) collections made at divine services, (c) net proceeds of annual air displays and visitors' day, (d) 1 per cent of the gross sales of canteens and messes, (e) R.C.A.F. share of profits paid into Auxiliary Services Fund, (f) proceeds from Navy, Army and Air Force Institutes, and (g) subscriptions or contributions from friends of the R.C.A.F.

49. During the 1942 session of Parliament a Committee of the House of Commons inquired into Service Canteens and in its report is to be found:—

Your Committee has examined the Air Force Administrative Order of the Royal Canadian Air Force Benevolent Fund and has noticed that neither officers nor other ranks now serving in the Royal Canadian Air Force will be eligible after discharge for assistance from the fund. This fund was started in peace time with the very laudable object of assisting Air Force personnel while in the service. However, with the great increase in numbers many Air Force canteens having large gross sales have been established. Should the war continue for a few years longer and should one per cent of the gross sales continue to be paid to the Benevolent Fund, it is certain that a very substantial sum will have accumulated—a sum much greater than is likely to be required for the benevolent purposes of even a greatly enlarged peace time air force. It is not fair to take a portion of the gross sales from the canteens which are now being patronized by those who are not likely to be in the Force after the close of hostilities unless they will be entitled to the same benefits from the fund as those who remain in the Force. Your Committee, therefore, recommends that no further payments be made to the R.C.A.F. Benevolent Fund until it is provided that all ranks now serving in the Royal Canadian Air Force will be eligible for the benefits both during service and after discharge.

50. Steps were taken to create a corporation under Part II of the Dominion Companies Act. The applicants for letters patent were the Deputy Minister of National Defence for Air, 3 civilian officers of the Department, 9 Service officers and the following: the Honourable A. P. McNab, Regina, Mr. Justice Savard, Montreal, and Messrs. C. L. Burton, Toronto, H. E. Sellers, Winnipeg, R. P. Bell, Halifax, Clarence Wallace, Vancouver, James Walker, Edmonton, D. L. MacLaren, Saint John, and H. C. Bourke, Charlottetown. Letters patent issued on April 1, 1944, for a corporation to be administered by 15 directors (since increased to 20). The membership is limited to 100 persons who are nominated by the Board of Directors. The letters patent empower the corporation (a) to succeed to and take over the assets held by the trustees of the Benevolent Fund, (b) to receive gifts, grants or donations, (c) to invest and administer the moneys, and (d)

to expend all or any moneys received or held by the corporation, both principal and interest thereon, to relieve distress and promote the well being of members or ex-members of the Royal Canadian Air Force or of their dependents and for the costs of the administration of the affairs of the corporation.

51. Prior to the issue of letters patent, the Secretary of State intimated that they would issue only on receipt of an opinion of the Deputy Minister of Justice that the issue would effectively terminate the trusteeship of the existing trustees. On November 25, 1943, the Deputy Minister of Justice wrote:—

It will be necessary in addition to the incorporation to make provision whereby the funds will be transferred from the present trustees to the corporation and relieving the trustees from liability in connection with such transfer. I am advising the Department of National Defence for Air that to do this it will be necessary to obtain an Act of Parliament or to pass an Order in Council under the War Measures Act.

To implement this, Order in Council P.C. 4770 of August 16, 1944, authorizes the Minister of National Defence for Air, after audit of the trustees' accounts, to direct

the said trustees to assign, transfer and make over all moneys, valuables and assets of the said fund to the corporation. . .

The order in council further directs:—

That the said corporation be and is hereby empowered, upon all said moneys, valuables and assets as disclosed by the said report of the said auditor being transferred to the corporation, to give to the said trustees receipts therefor;

That upon the said receipts being given to the said trustees they shall be forthwith and forever discharged from all or any liability in respect of the said moneys, valuables or assets or in respect of their management thereof or otherwise as said trustees aforesaid;

That, notwithstanding anything contained in the said trust agreement, the corporation shall, upon the said moneys, valuables and assets being transferred to it, thereafter hold and, in its discretion, expend the same for the objects for which the said corporation is constituted, subject always to the said The Companies Act, 1934, the said letters patent and the by-laws of the corporation.

The amount transferred was \$610,885.55.

52. The desirability or otherwise of creating a corporation is not a matter of audit concern. Attention is drawn to the matter for two reasons:—

- (a) some of the sources from which the moneys were derived point to the conclusion that receipts should have been credited to Consolidated Revenue Fund;
- (b) there is no clear authority which permits the Governor in Council to give the directions he has with respect to the moneys.

## Department of National Revenue

### CUSTOMS AND EXCISE DIVISIONS

53. Attention is drawn to orders in council referred to in the four following paragraphs, because the enactments relied upon do not clearly confer the powers exercised.

54. Customs Tariff Item 706 permits free entry of various articles imported by accredited representatives of other governments. Section 89 of the Special War Revenue Act exempts these imports from sales tax. Order in Council P.C. 80/9555 of December 28, 1944, permits relief of the group from various internal taxes, whenever the country they represent extends comparable exemptions to Canadian officers stationed abroad. The excise taxes listed include those relating to cable, telegraph and telephone messages, transportation, cheques, automobiles, tobacco and wines. In addition, there may be exemption from sales tax on automobiles, tobacco, alcoholic beverages and electricity, as well as from the Retail Purchase tax. The order in council states that the authority for the making is section 33 of the Consolidated Revenue and Audit Act, 1931, which permits the Governor in Council, "whenever he deems it right and conducive to the public good", to remit any duty or toll.

55. Order in Council P.C. 88/2969 of April 25, 1945, but with retroactive effect to April 1, 1944, extends like relief to the Governor General and the members of his staff who are not citizens of Canada. This order in council is made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931.

56. A resolution adopted by the Council of the United Nations Relief and Rehabilitation Administration at Atlantic City in 1943 recommends that member governments accord to the

Administration, facilities, privileges, immunities and exemptions which they accord to each other, including exemptions from taxation. To implement this recommendation, Order in Council P.C. 9132 of December 15, 1944, directs:—

- (a) The Administration shall be exempt from income and corporation taxes, customs duties, excises, on cables, telegrams, radio and long distance telephone messages sent by and charged to the Administration, on documents issued by the Administration, on transportation, hotels, seats, tickets and other sleeping accommodation where the transportation company agrees periodic interest in the Administration, and on sales and excise taxes on purchases of the Administration when the amount of the purchase exceeds \$25 at one time.
- (b) Representatives, officials or other employees of the Administration, resident in Canada, other than persons who were ordinarily resident in Canada prior to their employment with the Administration, shall enjoy immunity from taxation on official salaries, allowances or other emoluments received from the Administration.
- (c) The Minister of National Revenue may, by regulation, provide for exemption from taxes and duties in respect of articles imported for the personal or official use of representatives of member governments on the Council and its Committees and of officials and employees of the Administration.

The authority relied on to make this Order in Council is stated as being section 2 (1) of the United Nations Relief and Rehabilitation Administration Act, 1944:—

2. (1) The Governor in Council may, . . . make such Orders in Council, and do such things as appear to him to be necessary for carrying out the Agreement. . . . or any resolutions of the Council of the United Nations Relief and Rehabilitation Administration or its Committee, in carrying out the provisions of the Agreement.

57. Attention is also drawn to Orders in Council P.C. 27 253 of February 3, 1938, and P.C. 27 307 of February 9, 1939. The object of these is to exempt, from excise duty levies, spirits and tobaccos acquired by the accredited representatives of other governments. The authority relied on to make the orders in council is stated as being sections 126 and 262 of the Excise Act. Section 126 is:—

126. The Governor in Council may make such regulations as to him seem necessary or expedient for giving effect to any of the provisions of this Act.

Section 262 authorizes the making of regulations concerning tobacco held by bonded manufacturers. Neither section appears to be clearly appropriate for the purpose of the orders in council—in so far as they grant exemption from duty for the benefit of this special class.

58. In last year's report attention was drawn (Para. 36) to an order in council dated May 9, 1944. For record purposes, as the order in council was made in the fiscal year now being reported upon, the observation is repeated. The order in council, P.C. 80/3440, states that it is made under the authority of section 12 (1) of the Customs Tariff Act and section 284 (1) of the Customs Act. It directs that:—

Whenever it appears to the satisfaction of the Minister that the process of manufacture into which imported goods have entered has resulted in the production of saleable by-products, the drawback otherwise payable in respect of such imported goods shall be reduced by a sum proportionate to the value of such by-products; that is to say, by a percentage equivalent to the percentage value of the by-products in relation to the total value of the goods manufactured or produced, excepting that drawback claims filed in respect of bituminous coal converted into coke shall be paid in respect of the full quantity of coal processed and represented in the coke covered by the drawback claim, without deduction for merchantable by-products or waste.

If Parliament intends that the words "when converted into coke" in items 1019, 1049 and 1070 of the Customs Tariff Act have their general and ordinary meaning, the regulation trenches on the legislative power, since, by the treatment authorized with respect to bituminous coal converted into coke, it permits payment of drawback not only in respect of the portion of imported coal attributable to the coke covered by a drawback claim, but also the portions attributable to the relative merchantable by-products and waste. An estimate is that the application of the order in council resulted in drawback payments in respect of such merchantable by-products and waste of over \$575,000 during the fiscal year 1944-45.

59. The fur trade is subject to various levies imposed by the Special War Revenue Act. The following administrative practices are noted:—

- (a) Section 80b imposes an excise tax equal to 25 per cent of the current market value of the fur contained in any garment, robe or other article imported into Canada. Under departmental instructions, this tax is being collected only on such articles as collars, muffs, caps, neck pieces and robes. The Department explains that the tax is not collected on the fur content of such articles as fur trimmed coats, dresses, hats, etc., because of the administrative difficulties which arise in valuing the bits and pieces of fur that are used in the ornamenting and trimming of the various articles.

(b) In 1924 the practice was adopted of not licensing Canadian furriers producing articles of fur, such as neck pieces, fur coats, muffs, hats, etc. The authority relied on is section 95, which permits the Minister to

direct that any class of small manufacturer or producer selling his product exclusively by retail shall be exempt from payment of consumption or sales tax on goods manufactured or produced by him and persons so exempted shall not be given a licence.

The use of the expression "small manufacturer" appears to imply that, unless the business be a modest one, the manufacturer be licensed. As there are manufacturers in the fur trade with turnovers comparable to those of many manufacturers in other fields of production, who are licensed and subject to the tax, attention is drawn to the administrative practice.

60. A statutory requirement is that duties on goods entered inwards, except those warehoused, be paid at the time of entry. Many United States publishers, or their authorized agents, were permitted, under conditions approved by the Department, to defer payment of war exchange tax on imported newspapers and other periodicals. This was made the subject of an observation to the Department. Attention was also directed to the fact that safeguards to ensure ultimate collection of the full amount due did not appear to be adequate. The Department undertook to introduce suitable safeguards forthwith.

61. Approximately 1,700 publications of a religious, educational, scientific, philanthropic, agricultural, labour and fraternal nature are permitted entry without payment of the war exchange tax. Approximately 350 religious publications qualify for exemption under Order in Council P.C. 3713 of May 6, 1943, which was made under the War Measures Act. It is questionable if the Department has power to grant exemptions to the remainder.

62. Section 141 of the Special War Revenue Act requires that retail purchase tax, payable on importation of goods listed in Schedule VI to the Act, be paid by the importer or transferee, by affixing to the customs import entry an excise stamp or stamps to the amount of the tax. The Department, nevertheless, issued a regulation providing that, "effective October 15, 1942, it will no longer be necessary to affix excise stamps to the customs import entry in payment of the retail purchase tax. This tax will be collected and accounted for in the same manner as all other excise taxes on imported goods." The explanation provided is that it is frequently impracticable to put stamps on customs import entries because many entries are made out on trains or at highway points where stamps are not available either in suitable denominations or in sufficient quantities to meet requirements. The Department has under consideration the question of obtaining an amendment to the legislation.

63. Claims for refunds of duties and taxes are sometimes recognized under authority of section 33 of the Consolidated Revenue and Audit Act, 1931, when goods, imported for use in manufacture or for further manufacture, are subsequently damaged or spoiled and later exported as scrap, or destroyed under customs supervision. Examples are two claims of \$2,093.69 and \$2,125.31 approved by Orders in Council P.C. 55/4520 and P.C. 149/8990 of June 14, 1944, and November 29, 1944, respectively, and paid to Dominion Engineering Works, Limited, Montreal. The sums represent the full amount of duty and war exchange tax paid, in each case, on a seamless bronze shell, imported from the United States for incorporation into a paper-making machine, but which was damaged in the process of incorporation and returned to the original manufacturer for replacement and credit at scrap value. It is a proviso of subsection 1 of the section that no duties of customs or excise paid shall be remitted or refunded if the goods, after payment of duty, are lost or destroyed by fire or other unavoidable accident. Consequently, present practice has this effect: if articles become unusable by fire, no relief may be extended; but if the articles become unusable by shop accident, or as a consequence of acts of negligence or incompetency on the part of the importer's servants, a refund may be made.

64. Order in Council P.C. 89/8058 of October 18, 1944, grants authority to remit excise duty, in excess of \$1.50 per proof gallon, on spirits distilled from wine produced at a registered winery from native fruits, when such spirits are used exclusively by wine manufacturers licensed under the Excise Act and regulations as bonded manufacturers. The order in council is made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931. Attention is drawn to this because it may be that it trenches on the field of Parliament. The Department explains that the action was taken to meet seasonal conditions during a period

when Parliament was not in session. It was intimated that steps would be taken to seek a suitable amendment. Remissions in the year as a result of this order in council amounted to \$442,443.31.

65. The Governor in Council authorized remissions and refunds of customs duties, excise duties and excise taxes during the year totalling \$3,659,812.33. The sum does not include:—

- (a) refunds or remissions of customs duties and excise taxes on materials and plant equipment, etc., imported or purchased in Canada, for the fulfilment of war orders and contracts of the United Kingdom or Allied Governments, including British Dominions, and for certain other activities associated with the war; nor
- (b) reductions in revenue as a result of changes in the rates of duties and taxes by order in council under the provisions of section 284 of the Customs Act, or under the War Measures Act.

66. A list of refunds and remissions in excess of \$1,000, authorized under section 33 of the Consolidated Revenue and Audit Act, 1931, is:—

67. Descriptions with respect to amounts exceeding \$50,000 are:—

*Associated Screen News Ltd.*—Motion picture projectors, and accessories and equipment therefor, were imported on behalf of auxiliary service organizations for use in the education and entertainment of the members of the armed forces.

*Bright, T. G. & Co. Ltd.*—This refers to excise duty in excess of \$1.50 per proof gallon leviable on spirits distilled from wine produced at a registered winery from native fruits and used exclusively for improving the quality of native wine.

*Hebrew Communities in Canada*—This refers to passover bread or matzos and matzos products imported for use during the Passover Season.

*Polymer Corporation Limited.*—This refers to machinery and equipment, plans, drawings, etc., in connection with the synthetic rubber plant at Sarnia.

*Steel Co. of Canada Ltd.*—This refers to steel ingots, imported from the United States to supplement the Canadian steel production for the war programme, on which the import duty and war exchange tax were remitted to enable them to be sold in Canada at ceiling prices.

68. By various orders in council made under the authority of the War Measures Act, refunds or remissions in excess of \$1,000 were made to:—

69. Descriptions with respect to the items are:—

*Boeing Aircraft of Canada Limited.*—This refers to materials and parts to be incorporated into and form a constituent part of aircraft components for the United States Government, and also to equipment, machinery and tooling imported to be used in the production of such aircraft components.

*Canada and Dominion Sugar Company Limited.*—This remission of duty was with respect to three automatic beet dumps, of a class not made in Canada, which were imported to replace manpower in the unloading of beets at weigh stations in the beet growing territory.

*Canadian National Railways; Michigan Central Railway; Pere Marquette Railway; Wabash Railway.*—The duties were assessed on repairs effected in the United States to locomotives, railway cars and coaches to be returned to Canada.

*Department of National Defence—Army.*—This refers to importations from the United States in connection with joint research projects, of which 75 per cent of the cost is being borne by the United States Government.

*Owners of Norwegian M/V "Polarbjorn."*—This refers to a cargo of seal blubber, seal pelts and other products of the seal fishery, estimated at 100 tons, landed in Canada from a sealing expedition.

*Shell Oil Company of British Columbia, Limited.*—This remission was made on "synthetic" crude petroleum consisting of a blend of petroleum products imported in place of crude petroleum, since the Company's Vancouver refinery is not equipped to extract certain valuable strategic products which would otherwise be lost to the war effort.

*Union Tractor and Harvester Company Limited.*—This relates to repair work, parts, etc., in connection with machinery of the United States Government used on the Alaska Highway and Canol projects.

*United States Armed Forces.*—Duties and taxes were remitted on alcoholic beverages imported for personal use by United States Armed Forces.

70. The excise taxes derived from (a) the sale of postage stamps used on cheques, bills of exchange, promissory notes, receipts to banks, money orders and travellers' cheques, and (b) stamp taxes on letters and post cards and on Post Office money orders and postal notes are not included in the Department's statement of revenues. The collections are reported by the Post Office Department as Postal Revenue.

71. Section 102 of the Special War Revenue Act permits the Minister to appoint stamp vendors. By Order in Council P.C. 67 932 of April 22, 1939, it is directed that chartered banks and other persons authorized to sell excise stamps "may be allowed or paid a remuneration or commission at the rate of 2 per cent of the face value of all individual purchases. . . amounting to \$10 or over, such commission to be allowed or paid at the time of purchase. . . ." In the fiscal year \$200,689.62 was deducted as commissions at time of purchase. The Revenue is thus under-stated by that amount. The matter is also noted because it involves the authority of the Governor in Council to exercise an appropriating power with respect to revenue. The Act does not specifically vest such a power in the Governor in Council.

#### TAXATION DIVISION

72. Orders in council now referred to were made under the War Measures Act and have the effect of amending or suspending certain provisions of the Income War Tax Act as indicated:—

- (a) P.C. 82 2705 of April 18, 1944, extends the provisions of section 4 (c) (as amended by section 4 of c. 14, Statutes 1943) to any member of the Canadian Army (Active Force) and the Royal Canadian Air Force carried on the strength and within the establishments of Canadian Hospital Ships and of Ships' Conducting Staffs.
- (b) P.C. 3254 of May 2, 1944 (amending P.C. 1087 of February 21, 1944) provides exemption from payment of the portion of the "taxes otherwise payable", as referred to in section 7A of the Income War Tax Act (sometimes referred to as the Refundable Portion), and also income tax on one-fifth of the pay (including dependents' allowances) and all subsistence allowances received abroad, to the duties overseas of Auxiliary Service Supervisors, who are personnel of such organizations as Canadian Legion War Services, Inc., the National Council of the Y.M.C.A., Knights of Columbus Canadian Army Huts and Salvation Army Canadian War Services, who have been selected by the Royal Canadian Navy, the Army and the Royal Canadian Air Force for service with the said forces.
- (c) P.C. 115 3735 of May 19, 1944, permits the payment of taxes owing by individuals or estates, in respect of income of the year 1943, to be deferred from April 30 to August 31, 1944, and grants exemption, for that period, from payment of the interest accruing under section 48.
- (d) P.C. 76/8058 of October 18, 1944, relieves members of Canadian Naval, Military and Air Forces who have served overseas on the strength of an overseas unit, outside of the Western Hemisphere; and of Auxiliary Services who have served overseas, outside of the Western Hemisphere, and worked with, or were attached to, an overseas unit of the Canadian Active Service Forces, from the payment of interest, for the period they were outside the Western Hemisphere, on any outstanding income tax liability, if the tax is paid within one year from the date on which the taxpayer returns to Canada.
- (e) P.C. 128, S367 of October 31, 1944, directs that moneys granted to a discharged person under the provisions of paragraphs 6, 8 and 9 of Order in Council P.C. 5210 of July 13, 1944, known as the Post-Discharge Re-establishment Order, shall not be liable to taxation under the Income War Tax Act.
- (f) P.C. 1748 of March 13, 1945, extends to December 31, 1945, the period of operation of subsection 5 of section 8. This authorizes certain tax credits, by way of deductions from tax of contributions and expenses made and incurred on prospecting for base metals, strategic minerals, oil and gas. The Order also extends the period during which expenditures may be incurred under subsections 6, 7, 8, 9, 10 and 11 of section 8 of the Income War Tax Act.

73. In the Auditor General's report for the fiscal year 1937-38 it is stated:—

On page v of the Introduction to my last report, I referred to the opinion of the Department of Justice that the personal files of taxpayers in possession of the Income Tax Division do not fall within the scope of the examination required by section 45 (1) of the Consolidated Revenue and Audit Act, and I stated that, in view of this opinion, I had referred the matter to the Minister of Finance for such action as the Government might deem advisable. At the request of the Minister of Finance the opinion was reconsidered by the Deputy Minister of Justice, who subsequently stated that "the Auditor General has the same powers of audit of income taxes as he has with regard to the revenue of any other department, except in so far as the documents mentioned in section 81 of the Income War Tax Act are concerned. He is not permitted to see these documents for two reasons: first, because he is precluded by the provisions of said section 81, and second because he has no power to review the findings of the Minister." Consequently, I cannot satisfy myself regarding the accuracy of assessments of Income Tax, nor ascertain on behalf of Parliament that the provisions set forth in the Income War Tax Act, with regard to these assessments, have been properly applied by the Income Tax Division.

Consequently, audit of transactions relating to income and excess profits taxes and succession duties has been in the nature of audit tests of the accounts of assessments brought on charge in the accounts of the individual taxpayer, the treatment of tax deductions at the source and the collection procedure relative to both of these. Audit tests during the year, at several of the district offices, disclosed that collections of arrears of taxes were proceeding slowly. While this was partly attributable to shortages of staff, the attention of the Division has been drawn to the desirability of making certain that neither weaknesses in internal organization nor inefficient procedures are contributory factors.

74. Section 3 of the Income War Tax Act was amended by c. 14, Statutes 1943-44, by adding a further subsection. This provides that:—

Any payment. . . in connection with any duty, office or employment, whether as allowances on a per diem or other periodic basis, living allowances or expenses, or otherwise. . . shall be salary of such person and taxable as income for the purposes of this Act. . .

The amendment followed a decision of the Exchequer Court that a per diem allowance in issue was not "income" as defined in the Income War Tax Act (*Maurice Samson v. Minister of National Revenue* [1943] Ex. C.R. 17). An undertaking was given by the Minister of Finance in the House of Commons on April 15, 1943:—

This is not in the law, but it is the undertaking I am prepared to give: That persons serving the government on an allowance, if they can show to the satisfaction of the government that it was their clear understanding that they were not to be taxable on this allowance either in whole or in part, will receive treatment in accordance with this clear understanding under the Consolidated Revenue and Audit Act, and these remissions may apply to classes of public servants as well as to individuals.

During the year 1944-45 exceptions were made by executive orders, presumably by reason of this undertaking:—

(a) Order in Council P.C. 95/5177 of July 7, 1944, made under authority of section 33 of the Consolidated Revenue and Audit Act, 1931, authorizes remissions totalling \$21,966.77 to 27 employees of the Crown and 2 of the Bank of Canada. This sum represents the tax for the years 1940, 1941 and 1942 on "allowances received. . . in compensation for out-of-pocket expenses incidental to the performance of their duties." The per diem allowances involved amounted to \$72,944.46.

(b) Orders in Council P.C. 198/7505 of September 27, 1944, P.C. 92/8685 of November 14, 1944, P.C. 142/185 of January 10, 1945, and P.C. 107/637 of January 31, 1945, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, authorize remissions totalling \$31,369.44 to 24 employees of various government departments, being the tax for the years 1940, 1941 and 1942 in respect of payments "received by these employees as compensation for the expense of living apart from their respective homes in the performance of their duties." The per diem allowances involved totalled \$84,314.75.

75. Orders in Council P.C. 73/5275 of July 11, 1944, and P.C. 120 8848 of November 22, 1944, made under authority of section 33 of the Consolidated Revenue and Audit Act, 1931, authorize remission of the tax due and exigible for the year 1943 on special subsistence allowances paid to personnel of the Canadian Army, the Royal Canadian Air Force and the Royal Canadian Navy, who served in the Yukon, the Northwest Territories, Northern Canada, Newfoundland and the United States during that year.

76. Order in Council P.C. 103/7934 of October 14, 1944, made under authority of section 33 of the Consolidated Revenue and Audit Act, 1931, authorizes remission of the tax assessable for 1944 and subsequent years in respect of allowances received by employees of the Air Services Division of the Department of Transport "as compensation for the expense of living in Newfoundland and Labrador in the performance of their duties."

77. Order in Council P.C. 6020 of August 1, 1944, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, provides that:—

. . . any additional tax found due by reason of including the amount received from the encashment of Wheat Participation Certificates with the other income of the farmer in the year of encashment, over and above that tax which would have been claimed if the farmer had been taxable in the year of receipt of the Wheat Participation Certificate, be remitted in any individual case.

The amount involved is not stated in the Order in Council.

78. Relying on the provisions of section 33 of the Consolidated Revenue and Audit Act, 1931, the Governor in Council authorized, because of exceptional circumstances, refunds and remissions of income or excess profits taxes to various persons. In those cases involving less than \$1,000, the relief granted totalled \$2,493.47; while refunds and remissions exceeding \$1,000 were made to:—

Allanson Armature Mfg. Co. Limited, Toronto.....	\$ 1,885 25
Dominion Foundries and Steel Limited, Hamilton.....	641,476 44
Estate of E. A. Dunlop, Ottawa.....	2,848 32
Gillies Bros. Limited, Braside.....	10,201 31
Riverside Ranching Company Limited, Medicine Hat.....	3,162 07
Wellesley Hospital, Limited, Toronto.....	3,196 10

79. Sutton-Horsley Company Limited, Leaside, was engaged in munitions production. The Crown first took management control and later acquired ownership. A provision of the purchase agreement was that the Company should be deemed not to have been in receipt of

any income on its own behalf from January 3, 1940, to date of contract, save as to the sum of \$7,243, paid to shareholders during that period. Order in Council P.C. 1,3656 of May 15, 1944, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, gives effect to this by declaring income or excess profits taxes which might have been exigible under the law prior to contract or purchase to be cancelled and remitted.

80. By use of the provisions of the War Measures Act, relief was granted to Mr. and Mrs. J. F. Flemons, Ottawa, from income tax with respect to income received "during any year in which they are engaged in their present duties with the Canadian Postal Censorship."

81. Relief was granted to Canadian General Transit Company Limited, Montreal, of \$28,070.61, and to McColl Frontenac Oil Company Limited, Montreal, of \$8,598.72, by orders in council made under the authority of the War Measures Act. In both cases the corporations had tank cars under lease from United States owners. The owners refused to lease any additional cars unless they were relieved from the necessity of paying the tax imposed by section 27 of the Income War Tax Act. The Canadian companies paid full rentals to the owners and, in addition, assumed the tax payable to the Canadian Government. The sum of remissions represents the tax payments.

82. The War Measures Act is also cited as authority for Order in Council P.C. 3980 of May 26, 1944, which relieves Goodyear Tire and Rubber Company of Akron from income or excess profits taxes on royalty payments in respect of a patented process utilizing certain ingredients known as "Amines", which the Polymer Corporation (a Crown company) represented it planned to use in the Canadian synthetic rubber programme. The remission is granted consequent on an undertaking to reduce any royalties payable in this regard by or on behalf of the Crown from  $2\frac{1}{4}$  cents to three-eighths of one cent per pound.

83. Remissions of income and excess profits taxes were also made in compliance with agreements entered into under the terms of section 8 of the War Exchange Conservation Act. These remissions are not reported in detail as the relative agreements are, by the Act, laid before Parliament.

### Post Office Department

84. Gross revenues in the fiscal year were \$79,550,199.96. Expenditures amounted to \$68,107,665.14, of which \$13,478,384.07 was paid out of postal revenues and \$54,629,281.07 charged to parliamentary appropriations. There is, therefore, an apparent surplus of \$11,442,534.82. Were services which are rendered to or by the Post Office, without charge, brought into the accounts, and were it practicable to allocate all revenues to the proper heads of account, it is probable that a deficit would exist in postal operations. This is exemplified by the fact that a substantial sum, probably in excess of \$20,000,000, would be transferred to the Department of National Revenue, as representing collections from the Special War Revenue taxes, paid by postage stamps, on mail matter, cheques, etc. Another factor affecting Post Office revenues is the basis of payment for the carriage of mail by Trans-Canada Air Lines. Under the relative agreement, which conforms with the Trans-Canada Air Lines Act, 1937, new rates are established each year. These are applied to the total number of miles flown by the Corporation's aircraft. If the Corporation ends a year with a profit, rates are reduced in the succeeding year to offset one-half of the profit; but if it had a deficit, then the rates for the current year "shall be fixed so as to produce an increase in the sum total to be paid on account of the said rates equal to the deficit in the preceding year." Thus, instead of rates being calculated in relationship to operating costs as applied to the Department's mail space requirements and distances necessarily flown, payments may, in part, be in the nature of subsidies to the Corporation in respect of unprofitable activities which have little or no relationship to the requirements of the Post Office. In the fiscal year 1944-45 payments to Trans-Canada Air Lines were \$3,868,821.60.

85. The Department is striving to improve its accounting procedures, but the situation still is that accounting controls may not be regarded as satisfactory with respect to money orders, postal notes and postal note scrip issued and outstanding.

86. Pending reimbursement from the country concerned, British and foreign money orders cashed in Canada are charged to the account reflecting the liability for "money orders and postal notes outstanding". In consequence, the liability as shown by the Department's

balance sheet is understated to the extent that settlements for such orders, less any compensating items, were not received prior to the close of the fiscal year. On the other hand, a liability is being built up which it is unlikely will have to be met in respect of old outstanding money orders and postal notes. Experience demonstrates that, even after allowing for increases in issues, the value of orders and notes redeemed each year is less than the value of those issued. The liability includes \$100,663.31 in respect of premiums on Canadian orders payable in U.S. funds. As in 1943-44, this figure represents the premiums collected on orders issued during the last quarter of the fiscal year and may therefore differ considerably from the true liability, but under the present method of accounting it is impracticable to establish the correct figure.

87. Postal note stamps (scrip) used by the public during the fiscal year in the making of remittances amounted to: \$242,606.48 attached to postal notes and \$636,939.01 used separately. Compared with the previous fiscal year, these figures are increased by \$58,139.57 and \$255,934.91, respectively. Among the reasons for the introduction of "postal note scrip" was that of obviating payment of disproportionate commissions to postmasters who are compensated out of postage stamp sales. No fee is charged for scrip; and furthermore, remittances in this form escape the excise tax payable on other remitting instruments.

88. Discounts were paid in some cases to postage meter and postage register machine users who were not engaged in selling postage stamps to the public. It is debatable if such persons are "agents" of the Department within the terms of section 7(o) of the Post Office Act.

89. The Department is deducting 5 per cent from monthly commission warrants of revenue postmasters who have authorized the Department so to do. The moneys are deposited in a special account in the Post Office Savings Bank. Withdrawals may be made on application of officers of the revenue postmasters' association. The purpose is to accumulate a fund which may later be used in establishing a superannuation scheme for revenue postmasters. It is a proviso that should no superannuation plan materialize, the money will be returned, with interest. A general executive order applicable to the public service directs that, (a) no power of attorney be recognized in respect of salaries, wages or superannuation allowances, except with Treasury Board authorization, and (b) no power of attorney be acted upon if the person designated to receive is an officer, clerk or employee in the service of Canada. Treasury Board consent was not obtained to the deductions from commission warrants.

### Department of Public Printing and Stationery

90. A surplus of \$17,535.82 resulted from the year's operations of the Printing branch and was credited to Revenue.

91. The Stationery branch ended the year with a surplus of \$71,155.25 on the year's operations. This amount was applied as a reduction of the deficit of \$75,980.44 brought forward from the previous year. The balance of the deficit, \$4,825.19, remains as a charge against the statutory advance provided to the King's Printer.

### Department of Secretary of State

92. Section 28 of the Naturalization Act, c. 138, R.S., vests in the Governor in Council a power to make regulations with respect to the imposition and application of naturalization fees. A schedule of fees has been established. It allows clerks of the courts to retain the \$5 fee paid by the applicant "on filing applications with the court for a decision that the applicant is fit and qualified to be naturalized", and the \$1 fee "on filing Declaration of Intention with Court", with the proviso that if in any calendar year a clerk of court collects fees in excess of \$2,000, the excess be surrendered to Consolidated Revenue Fund. This proviso has not been invariably respected. The result is that excess fees retained have accumulated to an amount of \$132,860.54 as at March 31, 1945. A division is: Calgary (Supreme) \$3,735; Dauphin (County) \$95; Edmonton (Supreme) \$29,292.94; Hamilton (General Sessions of the Peace) \$125; Lethbridge (District) \$345; Montreal (Circuit) \$34,366.29; Port Arthur (District) \$1,740; Prince Albert (District) \$12.50; Sandwich (Supreme) \$45.50; Saskatoon (District) \$495; Sudbury (General Sessions of the Peace) \$65; Toronto (General Sessions of the Peace) \$41,996.25; Vancouver (County) \$8,400; Welland (County) \$950; Wetaskiwin (District) \$1,445; Windsor (General Sessions of the Peace) \$65; Winnipeg (County) \$6,687.06.

### Soldier Settlement of Canada

93. Order in Council P.C. 10472 of November 19, 1942, was made under the authority of the War Measures Act. Its purpose is to reduce sales agreements' interest rate to  $3\frac{1}{2}$  per cent in those cases where the soldier settler enlisted in the present war. On March 28, 1945, Order in Council P.C. 8346 was made under the same authority. It extends the benefit of the  $3\frac{1}{2}$  per cent rate, "from and after the standard date in 1944", to all soldier settlers who have not abandoned their land and whose agreements have not been terminated, rescinded or assigned. Attention is drawn to the matter, not because of the concession to the soldier settlers, but because a consequence is that if a soldier settler subsequently assigns his equity in the agreement to another, who need not necessarily be a returned man, that individual secures the benefit of the  $3\frac{1}{2}$  per cent rate.

### Department of Trade and Commerce

94. Test examinations of records of the Export Permit Branch disclosed the need of improvements being made in revenue control practices and accounting procedures. The Department has made changes in procedure to strengthen the system and to safeguard the revenue.

### Department of Transport

95. Under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, remissions were made of fines amounting to \$14 levied under radio Acts. Under the same authority, \$7,965.39 was remitted to the Consolidated Oka Sand and Gravel Company Limited, being (a) reduction in wharfage charges on sand during the years 1937 and 1938, \$7,173.54, and (b) lying-in-charges, August 1933 to February 1935, \$791.85.

96. The Department's attention was directed to inadequacies in the accounting control of revenue at headquarters of the Steamship Inspection Branch, and suggestions for improvement of the system were made. The Department advises that the recommendations will be given effect as soon as the volume of work and staff conditions in the various offices of the Steamship Inspection Branch permit.

### Wartime Prices and Trade Board

97. Fines amounting to \$488,673.68 were received during the year for infractions of Wartime Prices and Trade Board regulations. \$1,871.27 was subsequently refunded by order of the Governor General in the exercise of the pardoning power. The Board reports that fines amounting to \$236,289.61 were outstanding at March 31, 1945. Of this amount, \$103,797.25 was in the hands of provincial and municipal authorities pending decision as to final disposition. Of the \$132,492.36 remaining uncollected, \$6,230 was in suspense pending the outcome of appeals.

## APPROPRIATION GRANTS

100. *Annual Appropriation Acts*.—Amounts totalling \$305,101,757.28 were granted for the fiscal year ended March 31, 1945. Expenditures were \$260,868,310.14, of which \$251,662,312.25 was for general purposes and \$9,205,997.89 for active loans and advances. Thus, \$14,233,447.14 granted by the annual Appropriation Acts lapsed at the year-end and was written off in accordance with the provisions of section 32(1) of the Consolidated Revenue and Audit Act, 1931. Departments which had appropriation balances in excess of \$500,000 lapse are:—

Agriculture .....	\$4,209,417 16

101. Votes which had balances in excess of \$500,000 lapse were:—

*Agriculture*.—Votes 25, 466 and 431 provided \$917,474.76 for subsidies for cold storage warehouses. Of this amount, \$777,619.75 lapsed.

Vote 31 provided \$4,265,000 for wheat acreage reduction payments. Of this amount, \$2,297,454.24 lapsed.

*Finance*.—Vote 412 provided \$2,000,000 for the Dominion's share of advances, not exceeding \$3,200 per house, made jointly with approved lending institutions for the construction of new houses, and for the payment of losses in connection with the National Housing Act. Of this amount, \$923,008 lapsed.

*Fisheries*.—Vote 83 provided \$1,000,000 for Canada's share of the expenses of the International Pacific Salmon Fisheries Commission to overcome obstructions to the ascent of sockeye salmon at Hell's Gate Canyon and at other points on the Fraser River Watershed. Of this amount, \$906,845 lapsed.

*Labour*.—Vote 108 provided \$15,000,000 for the Government's contribution to the Unemployment Insurance Fund. Of this amount, \$2,253,820.70 lapsed.

*Munitions and Supply*.—Vote 175 provided \$4,500,000 for payments in connection with movements of coal. Of this amount, \$2,187,496.99 lapsed.

*National Health and Welfare.*—Vote 511 provided \$1,000,000 for departmental administration, including expenses incidental to organization. Of this amount, \$791,646.24 lapsed.

*Post Office.*—Votes 246 and 540 provided \$19,703,199 for air and land mail services. Of this amount, \$3,131,394.02 lapsed.

*Public Works.*—Vote 543 provided \$900,000 for the purchase of the Royal College of Physicians Building, London, England. The whole amount lapsed.

*Reconstruction.*—Vote 567 provided \$1,500,000 for departmental administration and other expenses. Of this amount, \$1,418,355.20 lapsed.

*Transport.*—Vote 386 provided \$2,400,000 for the construction of a ferry vessel for the Prince Edward Island ferry service. Of this amount, \$1,776,318.68 lapsed.

Votes 396 and 591 provided \$2,419,250 for the construction and improvement of airways and airports. Of this amount, \$339,121.37 lapsed.

*Veterans Affairs.*—Votes 202 and 519 provided \$38,000,000 for European War Pensions. Of this amount, \$869,561.23 lapsed.

Votes 208 and 525 provided \$6,879,058 for care of patients. Of this amount, \$574,860.77 lapsed.

Vote 414 provided \$20,500,000 for purchase of land, improvements and farm machinery, etc., under the Veterans' Land Act. Of this amount, \$12,400,972.92 lapsed.

102. Active loans and investments of \$9,205,997.89 were made under the authority of the following votes:—

Vote 414	Veterans' Land Act advances for purchase of land, improvements, farm machinery, etc. ....	8,039 027 08
		<u>\$9,205,997 89</u>

103. *Continuing Appropriations.*—In addition to expenditures incurred under the authority of annual appropriations, payments totalling \$575,503,296.54 were made under the authority of various statutes which authorize charges to Consolidated Revenue Fund without further appropriation. Expenditure for interest and other charges for servicing the public debt, old age pensions, provincial subsidies and compensation to provinces with respect to taxation agreements, and salaries of the Governor General, lieutenant-governors and judges comprised more than 80 per cent of the total.

104. Active loans and investments totalling \$110,368,224.97 were also made under the following statutory authorities:—

Canadian National Railways Refunding Act, 1938 .....	\$ 35,000,000 00
Canadian National Railways Financing and Guarantee Act, 1940 .....	425,434 16

	<u>\$110,368,224 97</u>

105. *War Appropriation Acts.*—Appropriations totalling \$3,650,000,000 were provided to defray expenditures and to make loans and advances for:—

- the security, defence, peace, order and welfare of Canada;
- the conduct of naval, military and air operations in or beyond Canada;
- promoting the continuance of trade, industry and business communications, whether by means of insurance or indemnity against war risk or in any other manner whatsoever; and
- the carrying out of any measure deemed necessary or advisable by the Governor in Council in consequence of the existence of a state of war.

106. Section 2 of the War Appropriation Act No. 2, 1944, provides that any moneys received by way of refund or repayment of any advance, loan or expenditure made under the authority

of that Act or previous like Acts may, with the approval of the Governor in Council, be re-expended, advanced or loaned for the purposes enumerated. Pursuant to this provision, the Governor in Council by P.C. 63/2662 of April 17, 1945, authorized re-expenditure of such sums of money as might be required from the excess credit balances of approximately \$120,000,000 in the Munitions Production Allotment Fund. Treasury Board allotted amounts totalling \$68,100,000. Thus, in all, a total of \$3,718,100,000 was available for expenditures, advances and loans under these provisions of the Act.

107. Section 3 of the War Appropriation Act No. 2, 1944, reads:—

3. (1) The Government of Canada may act as the agent of the Government of any British or foreign country allied with His Majesty for any purpose which, in the opinion of the Governor in Council, will aid directly or indirectly in the prosecution of the war, and any obligations or costs incurred temporarily or assumed by the Government of Canada in the exercise of the powers hereby conferred may be paid out of any unappropriated moneys in the Consolidated Revenue Fund.

(2) Any expenditure required to be made by the Government of Canada under any contract for munitions of war and supplies entered into by the Government of Canada for the purpose of enabling any company wholly-owned by the Government of Canada to fulfil its obligations in respect of orders received by such company from the government of any British or foreign country allied with His Majesty may be paid out of any unappropriated moneys in the Consolidated Revenue Fund.

Advances totalling \$365,148,920.08 were made under the authority of this section as follows:—

108. As to the last, under the authority of the War Measures Act, the Exchange Fund Act and section 3 quoted above, Order in Council P.C. 6840 of August 30, 1943, as amended, authorized loans of \$900,000,000 to the Foreign Exchange Control Board. During the year, \$265,000,000 was advanced. The total outstanding advances as at March 31, 1945, were \$850,000,000. Interest is paid at the rate of 1 per cent per annum.

109. The section above quoted has been part of the annual War Appropriation Acts since 1939, and it has been utilized each year. As a consequence, \$1,368,358,046.20 was the sum recoverable, as of March 31, 1945, from:—

112. *The War Appropriation (United Nations Mutual Aid) Acts 1943 and 1944.*—These Acts appropriated \$1,800,000,000 to be administered by the Canadian Mutual Aid Board to the end that war supplies and such other commodities, articles or services as may be designated by the Governor in Council as essential to the conduct of the war or to the relief and maintenance of any United Nation may be made available to signatory nations to the Declaration by United Nations, dated January 1, 1942, the United Nations Relief and Rehabilitation Administration and to any other nation or authority which may be designated by the Governor in Council as being associated with Canada in the prosecution of the war. Of the total of \$1,800,000,000, \$912,603,220.34 was spent in the previous fiscal year. Consequently, \$887,396,779.66 was available for expenditure during 1944-45. Disbursements during the fiscal year were \$803,345,702.75, leaving \$84,051,076.91 available for expenditure in subsequent years.

113. *The War Appropriation (United Kingdom Financing) Act, 1942.*—Under this authority, \$1,019,148.27 was advanced to the Canadian National Railways to enable the Company to acquire certain of its sterling securities which had been repatriated from the United Kingdom.

## EXPENDITURES

114. Total expenditures of the fiscal year, including write-down of assets but exclusive of loans, advances and investments treated as active assets, were \$5,245,611,924. This is a decrease of \$76,641,581.27 when compared with the preceding year. A comparison by principal classifications with those of the previous year is:—

General—	1943-44	1944-45
Ordinary .....	\$ 630,380,759 90	\$ 767,375,932 89

	\$5,322,253,505 27	\$5,245,611,924 00
	<hr/>	<hr/>

115. *Adjusting Entries.*—As explained in Para. 23, these are bookkeeping adjustments which involve no outlay of cash. The principal item is \$22,400,052.60 relating to the Canadian National Railways' surplus, which is referred to in Para. 18 of this report.

116. The main item in the category of "Other Charges" is an increase of \$25,000,000 in the general reserve set up in the Balance Sheet of Canada for possible losses on the ultimate realization of active assets.

117. *Government-Owned Enterprises.*—Expenditures under this classification consist of (a) the operating deficits of \$773,383.66 for the Prince Edward Island Car Ferry and Terminals and \$58,907.04 for the Churchill Harbour for the calendar year 1944, and (b) non-active advances to the National Harbours Board amounting to \$525,767.33. In harmony with past practice, this classification comprises only the losses of and non-active advances to those Government-owned enterprises which were established before the war and which are operated as separate corporations. The administrative expansion since 1939 in the use of public enterprises of an industrial or commercial nature is not reflected in this accounting classification.

118. *Capital Expenditures.*—Expenditures charged to appropriations designated as Capital in the schedules to the annual Appropriation Acts amounted to \$3,163,752.02. The charges were allocated as follows:—

Authority	Purpose	Amount
Vote 381	River St. Lawrence Ship Channel—contract dredging in the St. Lawrence River and Montreal Harbour, including cost of administration .....	\$ 953,984 47
Vote 384	Hudson Bay Railway—construction and improvements.....	6,457 60
Vote 386	Construction of an icebreaker—railway car—highway vehicle —passenger ferry vessel for the Prince Edward Island car ferry service .....	623,181 32

		<hr/>
		\$3,163,752 02
		<hr/>

119. *Special Expenditures*.—Expenditures classified as Special amounted to \$7,505,786.39. This is a decrease of \$29,990,520.64 when compared with the Special Expenditures of the previous fiscal year, in which wheat acreage reduction payments totalled \$30,950,345.72. Particulars of 1944-45 disbursements are:—

<u>Authority</u>	<u>Purpose</u>	<u>Amount</u>
Vote 29	Prairie Farm Rehabilitation Act and Water Storage.....	\$1,918,874 93
Vote 30	Prairie Farm Assistance Act Administration.....	188,155 82

Vote 470	Administrative expenses of the Agricultural Prices Support Act, 1944 .....	7,641 78
		<hr/> \$7,505,786 39

This classification was adopted in 1930-31 to cover expenditures for unemployment and agricultural relief and for unemployment relief projects initiated to alleviate the effects of the depression. The purpose was to permit a fair year-to-year comparison of ordinary expenditures. Many charges now included are of the nature of ordinary expenditures. It is questionable if the present classification now serves the purpose originally intended.

## ORDINARY EXPENDITURES

120. Ordinary expenditures totalled \$767,375,932.89 in 1944-45, a net increase of \$136,995,172.99 over the corresponding total in the previous fiscal year. Appropriations and expenditures thereunder, classified by departments, were:—

### Salary Payments

The observations now made relate to salary transactions generally and include those charged to War Appropriation.

121. Overpayments amounting to \$5,009.84 and underpayments amounting to \$586.56 were drawn to the attention of the Central Pay Office. As of June 1, 1945, overpayments recorded for the fiscal year 1944-45 showed accounts amounting to \$5,936.59 uncollected. Outstanding overpayments for the previous fiscal year, reported in Para. 89 of the last report of this Office as \$7,000 at June 1, 1944, have been reduced to \$2,996.42.

122. Recovery of overpayments made prior to March 31, 1945, was waived by executive order in the following cases:—

*Department of Mines and Resources.*—By Order in Council P.C. 35/798 of February 7, 1945, made under the authority of the War Measures Act, authority was granted to “waive recovery of overpayments in the amount of \$1,425.01, representing annual increases paid to 23 seasonal immigration inspectors as a result of a misunderstanding of the term ‘Total Service’ with respect to regulations governing the payment of annual increases to temporary employees.”

*Department of National Revenue.*—Order in Council P.C. 108/2969 of April 25, 1945, waived recovery of overpayments of \$60 to each of 3 customs truckmen. It was stated that the overpayments, which occurred during the period October 1, 1944, to March 31, 1945, were occasioned by the misinterpretation of an order which provided for a revision in the salary range for the class “customs truckman”.

*Post Office Department.*—Order in Council P.C. 152/185 of January 10, 1945, made under the authority of the War Measures Act, waived recovery of an overpayment of \$10 representing the amount of War Duties Supplement incorrectly paid to a clerk in the Financial Branch during the period from November 1, to December 31, 1943.

Order in Council P.C. 145/2247 of April 4, 1945, waived recovery of an overpayment of \$50 which was due to an error in the calculation of a salary gratuity paid in January, 1943, to the widow of a former employee.

Order in Council P.C. 156/2247 of April 4, 1945, waived recovery of an overpayment of \$19.76 to a clerk during the fiscal year 1943-44.

*Department of Secretary of State.*—Order in Council P.C. 18/4488 of June 23, 1945, waived recovery of a salary overpayment of \$60 occasioned by the premature promotion of a principal clerk, Companies Branch, to a position of head clerk, effective from July 1, 1944, when the position of head clerk was not vacated until January 1, 1945.

*Department of Trade and Commerce.*—Recovery of overpayments to 2 employees amounting to \$509.96 and \$159.24, prior to August 1, 1944, and resulting from improper application of the provisions of the Public Service Cost of Living Bonus Order, was waived by Order in Council P.C. 120,9151 of December 6, 1944.

123. War duties supplements are authorized in respect of specific duties undertaken by an employee in a stated position and at a stated location. Upon any change in duties, classification or location, payment ceases. Nor are they payable during periods of leave in excess of thirty days. In one instance the Treasury Board, after payment had been made without authority, sanctioned payment of \$2,361.62, by way of supplements, to 3 employees of the Department of National Defence, Army. The Board's Minute states that the action was taken because, (a) recovery of overpayments from the employees concerned would involve considerable hardship, and (b) the overpayments were not the fault of the employees. War duties supplements were subsequently authorized in the customary manner.

124. The attention of the Comptroller of the Treasury was directed to two accounts of the Department of Reconstruction which had been paid without authority. An employee, classed as permanent, was paid salary at the rate of \$5,100 per annum from January 1 to April 30, 1945, although no certificate of appointment had been issued. A temporary employee was paid at the rate of \$4,800 per annum from December 16, 1944, to January 14, 1945, under similar circumstances. The appointment of the permanent employee was certified by the Civil Service Commission in May, 1945, and a certificate authorizing the employment of the temporary employee was issued in July, 1945.

125. Order in Council P.C. 10 1751 of March 16, 1945, grants authority for payment of \$123.13 to an Employment and Claims Officer, Grade 1, Campbellton, N.B., being salary for the period from September 24 to October 25, 1944, inclusive, during which period he was suspended from duty. It was observed that, under section 51 of the Civil Service Act, application had been made for relief, but the Commission was of opinion that the employee had no claim to payment of salary during the period of suspension, because of his failure to observe regulations of National Selective Service.

126. An employee of the Bank of Canada was appointed, by order in council, to a temporary position in the Department of Labour. The appointment took effect as of July 1, 1943. He was transferred to the Department of Trade and Commerce on Sept. 15, 1944. The man died on January 5, 1945. Section 56 of the Civil Service Act permits payment of death gratuity, equal to two months' salary, to the widow of a deceased employee only if he has been in the civil service "at least two years". Order in Council P.C. 115/798 of February 17, 1945, made under the authority of the War Measures Act, directs payment of \$800 to his widow:—  
this amount representing two months' salary of the deceased who was employed in the public service for a period in excess of two years—payment to be made from Vote 348, Dominion Bureau of Statistics—Statistics, Main Estimates, 1944-45.

The apparent intent is to declare service with the Bank of Canada as being the equivalent of employment in the public service.

127. The National Research Council employs a large staff in its industrial divisions. Rules which regulate temporary employment in the public service require periodic Treasury Board consent to temporary positions. The Council secured authorizations for 52 temporary positions which were, in the main, related to ordinary activities of the Council. It did not apply to have its establishments approved for approximately 1,200 employed in its shops, etc. Salary and wages payments were made to these employees notwithstanding the provisions of the executive rules.

128. It has been ruled by the Deputy Minister of Justice that sick leave may not be granted under Civil Service Act regulations to an employee whenever the employing department has information that the employee does not intend to return to duty at the termination of the leave granted. Nevertheless, sick leave with pay from January 1 to April 30, 1945, was approved on February 12, 1945, and six months' retiring leave from May 1, 1945, was approved on April 6, 1945, for an employee of the Post Office Department who had been certified as totally incapacitated, for the purposes of a superannuation application, by his attending physician on January 29, 1945, and by the Department of National Health and Welfare on February 20, 1945.

129. Section 46 of the Civil Service Act permits deputy heads to grant vacation leave "not exceeding eighteen days in any one fiscal year." It is provided that if vacation leave is not granted in the year, the credit may accumulate for one year. Any further accumulation requires the consent of the Governor in Council. The Deputy Minister of Labour allowed a permanent employee the leave permissive by section 46 and, in addition, granted leave with pay for 18 days in March. The explanation provided is that it was given "in lieu of annual leave not granted for first year of service." The employee has a continuous service record since January 15, 1912, and has been on the staff establishment of the Department of Labour since April 1, 1922. The grant of leave with pay under the circumstances is without precedent and, as the concurrence of the Governor in Council was not sought, is contrary to the law. The Department has since advised that the money will be recovered.

130. A cost of living bonus is paid to members of the public service, (a) who are employed on a full time basis, (b) whose total compensation is less than \$108 per month, and (c) who have submitted statutory declarations claiming head of household status. The obligation

is on the employing department to certify that the original declaration is correct, but it is left to the employee to give notice of any change in status which would affect the benefits. As many changes in dependency have taken place since the first declarations were submitted in 1944, the audit view is that it would be in the interests of good administration to require new declarations because of the definitions applicable:—

*Head of household* means a married man or woman, a single or divorced person, widow or widower, who maintains a self-contained domestic establishment, and who actually supports therein a person wholly dependent upon him and connected with him by marriage, blood relationship or adoption.

*A person connected with the employee by marriage* means the wife or husband, parents, uncle, aunt, nephew, niece, grandparents and great-grandparents of the employee's wife or husband, stepchildren, brothers-in-law and sisters-in-law.

*A person connected with the employee by blood relationship* means parents, foster parents, grandparents, great-grandparents, children, grandchildren, great-grandchildren, brother or sister, uncle or aunt, nephew or niece.

*Connection with the employee by adoption* shall include adoption in fact as well as legal adoption.

131. Payments resulting from appointments made by orders in council which do not state the authority relied upon were accepted as subject to qualification. Three instances are:—

The Civil Service Commission, acting under section 49 of the Civil Service Act, on October 2, 1944, promoted (effective September 1, 1944) D. V. Paterson from clerk grade 1 to customs excise examiner. His salary was thereby increased from \$960 to \$1,200. On October 18, 1944, Order in Council P.C. 64 8058 gave him "temporary appointment" as from July 25, 1944, as "Customs Officer, Naval Stores Depot, Montreal", with salary of \$960, plus a living allowance of \$900. Order in Council P.C. 67/333 of January 17, 1945, by implication repeals the earlier order in council, for it changes the salary rate to \$1,200 from September 1, 1944, and directs "payment of actual and reasonable accountable expenses for the period July 25, 1944, to November 30, 1944, inclusive, for which the usual detailed accounts will be submitted, and a living allowance of \$900 per annum, effective December 1, 1944."

Order in Council P.C. 169/8990 of November 29, 1944, authorizes the temporary appointment of O. J. Firestone at \$3,000, as Research Assistant, Department of Reconstruction, with effect from December 1, 1944. Civil Service Commission certificate dated January 27, 1945, names him "Assistant to the Director General of Economic Research" as and from December 1, 1944, at a salary of \$3,480.

Order in Council P.C. 50/1981 of March 24, 1945, converts a position of Millwright and 2 positions of Machinist in the Department of Mines and Resources into "Maintenance Repairmen" and fixes rates of pay for the class. No class of "Maintenance Repairman" is to be found in the Civil Service Classification Lists.

132. In the course of the year-end audit, orders in council were observed which were directed to have effect as from a date in 1944-45, but as they were made subsequent to the year-end, any resulting payments will be a charge to 1945-46 appropriations:—

Order in Council P.C. 263/3859 of May 30, 1945, with effect from January 3, 1945, authorizes the temporary employment of W. E. Harris as District Superintendent of Rehabilitation, London, at \$5,000 per annum. On June 15, 1945, the Civil Service Commission certified the appointment as of January 3rd at \$3,300 plus \$1,700 special allowance.

The position of Solicitor to the Treasury is a Civil Service Act classification. The classification rate provided is \$5,400-\$5,700. By Order in Council P.C. 56/3859 of May 30, 1945, a salary rate of \$7,000 is fixed as from January 1, 1945. The Order in Council accepts a recommendation of the Treasury Board that the class "be exempt from the provisions of subsection 2 of section 12 of the Civil Service Act, which provides that in each class there shall be a minimum and maximum salary rate and such intermediate rates as may be considered necessary to provide increases between the minimum and maximum." Order in Council P.C. 55 3859 of the same date authorizes the temporary appointment of J. R. Tolmie as "Acting Solicitor to the Treasury, Department of Finance", with salary of \$7,000 from January 1 to December 31, 1945.

None of the orders in council listed in this and in Para. 131 cites the authority relied on to act independently of the provisions of the Civil Service Act. In the case of D. V. Paterson, he has continued to be regarded as a contributor under the Civil Service Superannuation Act, an order in council of August 24, 1945, directing that the previous orders in council be construed as providing that he "be appointed temporarily on loan". On the other hand, J. R. Tolmie, who was a contributor as a permanent officer of the Income Tax Division, Department of National Revenue, has been regarded, since June 1, 1945, as a temporary employee and no deductions are currently being made for Superannuation Act purposes. It will also be observed that in the cases of Messrs. Firestone and Harris, the administrative application given by the Civil Service Commission has not followed the terms of the respective orders in council.

### Department of Finance

133. Bonds of the Fourth, Fifth, Sixth and Seventh Victory Loans were sold to members of the armed forces and the public service through an instalment purchase plan by means of payroll deductions. The cost to the subscriber was \$100.80 per \$100 bond, being the par

value plus accrued interest at 3 per cent on the unpaid subscriptions. Due to delays in estimating the number and denominations of the bonds required for delivery to the subscribers, orders were not placed currently with the Bank of Canada, and the accrued interest paid on the bonds when purchased and delivered to the Employees' Instalment Purchase Branch of the Department of Finance exceeded the amount of interest borne by the individual subscribers. In consequence it was necessary to supplement the balances in the subscription accounts by \$302,339.52, as follows:—

Fourth Victory Loan.....	\$ 15,319 17
Fifth Victory Loan.....	57,474 19
Sixth Victory Loan.....	156,751 53
Seventh Victory Loan.....	72,794 63
	<hr/>
	\$302,339 52
	<hr/>

Order in Council P.C. 3638 of May 22, 1945, authorized the transaction as a charge to Interest on Public Debt.

134. Section 43(1) of the Savings Banks Act, c. 15, R.S., provides for payment of interest on Post Office Savings Bank deposits at a rate not exceeding 4 per cent. The rate, which is fixed by the Governor in Council, is currently 2 per cent. All transactions relating to the fiscal year 1944-45 had not been entered in the Savings Bank's records when the Government accounts for the year were closed. The \$581,041.74 charged to Interest on Public Debt is consequently an estimate of the interest accretions to March 31, 1945, and is subject to revision. It is not anticipated that any material adjustment will be required when final calculations of the depositors' accounts at March 31, 1945, have been made.

135. Under the provisions of sections 4, 8 and 14 of the National Housing Act, 1944, the Minister of Finance may, with the approval of the Governor in Council, enter into contracts with approved lending institutions to join in the making of loans to assist in the construction of houses or rental housing projects, including the construction of houses on farms or in small or remote communities. Agreements which contain the following clause have been made with lending institutions:—

1. (4) In order to safeguard the interests of the mortgagees and to protect the mortgage security, where a joint loan has been made to a farmer the Company may join with the Minister in making such supplemental joint loans as may be prescribed by the regulations for the purpose of assisting the farmer to continue the normal operations of the farm. Before making any such supplemental joint loan the company shall obtain the prior approval of the Minister except in such cases as may be prescribed by the regulations.

Order in Council P.C. 393 of January 18, 1945, made regulations under the provisions of sections 5, 10 and 31 of the National Housing Act, 1944. Paragraph 12 deals with supplemental loans:—

12. In order to safeguard the interests of the mortgagees and to protect the mortgage security where a joint loan has been made the Company with the approval of the Minister except as hereinafter provided may make supplemental joint loans on behalf of the Minister and the Company for the following purposes

- (i) to enable the farmer to purchase seed,
- (ii) to enable the farmer to purchase gasoline or other fuel for the operation of tractors or stationary engines,
- (iii) to enable the farmer to purchase binder twine,
- (iv) to enable the farmer to purchase fertilizer,
- (v) otherwise to enable the farmer to continue the normal operations of the farm,

provided that in any case where the amount of such supplemental joint loan in any year is not in excess of \$200 the Company may make the supplemental joint loan on behalf of the Minister and the Company without the prior approval of the Minister.

It does not appear that the terms of the legislation authorize participation in loans to farmers for the purchase of seed, motor fuel, binder twine and fertilizer, or for enabling them to continue the normal operations of farming.

### Department of Fisheries

136. *Votes 76, 77 and 83.*—Fisheries treaties between Canada and the United States provide that each country appoint commissioners and pay their salaries and expenses. Other expenditures are shared jointly, but are paid in the first instance by Canada. The total expenditures under Votes 76, 77 and 83 were \$317,344.26. The United States' share was \$158,452.31, the details being: Pacific Halibut, \$26,662.65; Pacific Salmon, \$38,634.66, and Hell's Gate Salmon, \$93,155. During the year the outstanding accounts of the previous year, \$19,479.25, were collected and a further amount of \$28,590.83 was received on account of the current year's accounts, leaving a balance of \$129,861.48 outstanding at the close of the fiscal year 1944-45. This amount is recorded in the Dominion Balance Sheet as a receivable from the United States Government.

### Department of Mines and Resources

137. *Vote 165.*—An Indian day school and teacher's cottage at Constance Lake, Ont., were constructed at a cost of \$7,817.24. The contract took the form of paying the contractor \$1 an hour for his supervision and reimbursing him the cost of labour. Materials were provided by the Department. As this does not appear to be a "day-labour" work, for the purposes of section 36(1) (b) of the Public Works Act, attention is drawn to the transaction.

138. *Vote 507.*—This is a supplementary grant of \$7,000 for Indian welfare, training and education. The records disclose that, prior to the appropriation of the sum, the Indian Affairs Branch had entered into an arrangement with Church authorities for the construction of an addition to the File Hills Residential School, which is owned by the Crown but operated by the United Church of Canada. The money was advanced to the Church and receipted vouchers were later submitted in evidence of payment, etc. The method employed is not that contemplated by section 36 of the Public Works Act, which requires tenders to be invited and a contract authorized by the Governor in Council. The Department's explanation is that construction had to be rushed to provide housing for the children.

### National Film Board

139. Reference has been made in previous reports to a survey, which was carried out in co-operation with the Board, of its financial and administrative operations. The more important recommendations dealt with the following matters: financing by use of a revolving fund, the encumbrance system, estimates procedures, cost allocation, materials control and staff regulations. Resulting from the survey report, improvements in routine and establishment of procedures have been made. The Board does not invariably follow practices which regulate departments of government. In the course of audit it was observed that purchases of articles, costing \$627.95, had been made from public employees without first obtaining the customary concurrence of Treasury Board. In four of the instances the vendors are associated with work of the Board. In another instance it was noted that travel regulation scales were not applied to reimburse an employee for the use of his automobile. Instead of the customary mileage rate, settlement was made on the basis of gasoline purchases and charges for greasing, washing, storing and minor repairs. The explanation given was to the effect that as the car was being used in New York City, the regulations were unsuitable. The Board expended \$210 for fluorescent electric light fixtures. Ordinarily, such purchases are regarded as controlled by section 9 of the Public Works Act, and to be made by the Public Works Department as a charge to its votes.

140. Order in Council P.C. 107/5547 of July 19, 1944, authorizes the Board to pay a newsreel film editor a monthly living allowance of \$40 while on an assignment in New York. Effect has not been given to this plan. Instead, in the period from August 1st to March 31st he was paid living expenses on the basis of a detailed accounting. Hotel and meal charges were \$1,981.45. When converted into Canadian dollars, these payments average \$275 monthly.

## National Research Council

141. *Vote 357.*—In addition to moneys appropriated for its services, the National Research Council, by section 10(e) of the Research Council Act, c. 177, R.S., expends moneys received through bequests, donations or otherwise. Receipts of this nature are credited to special accounts. A summary of operations in these accounts is:—

Balances in accounts, March 31, 1944.....			\$1,192,145 75
Receipts—			
Net amount charged to Vote 357.....	\$	29,673 59	
Contributions from private firms, sundry revenues arising from research work, royalties, bond interest, etc.....		616,910 19

			<hr/>
Balances in accounts, March 31, 1945.....			<u>\$1,453,662 61</u>

The accounts are as follows:—

Outstanding advances in hands of committees and individuals..			\$ 18,834 68
Funds on deposit with Receiver General of Canada—			
Trust Fund .....	\$429,612 79		
Special Fund .....	65,941 41		
Royalties and Patent Rights Fund.....	32,071 07		
Sir Frederick Banting Fund.....	745,202 66		1,272,827 93
			<hr/>
Dominion of Canada bonds held for the Royalties and Patent Rights Fund .....			162,000 00
			<hr/> \$1,453,662 61

142. The Council, without exception, assesses a fee for services. This is either based on total cost, cost without the inclusion of overhead, or it may be an established rate without regard to cost of service. All revenues thus collected are placed in Special Fund, and from that fund, irrespective of the year, moneys are transferred to whatever vote or fund may be in need of supplementary aid. Collectible amounts outstanding at March 31, 1945, total \$319,256.28, which, when collected in 1945-46, will be credited to Special Fund, although the assessments are calculated for the most part on costs originally paid from votes and war allotments of the previous year. The Council regards these collections as revenues, which, under section 10(e) of the Research Council Act, it may expend as it sees fit.

## Department of National Revenue

## TAXATION DIVISION

143. *Vote 191.*—When mail or cheques are received without the necessary postage or excise stamps being affixed thereto, it is the practice to make good the deficiency. In the fiscal year such charges amounted to \$4,127.35 for postage and \$3,891.43 for excise tax. The explanation given is that the cost of recovering the deficiencies from the persons concerned would exceed the resultant revenue.

## Royal Canadian Mounted Police

144. Section 20 of the Royal Canadian Mounted Police Act directs that the Governor in Council may, by regulation, determine the pay and allowances for the Force. Order in Council P.C. 102/2340 of March 24, 1943, approves a general living allowance at rates of \$2.25 for married men and \$1.50 for single men who are non-commissioned officers or constables. General living allowance is granted to those members who live outside of barracks. Six members

of the Force, of single status, attended a three months' instructional course at Rockcliffe. While in barracks they received the general living allowance of \$1.50 per day, although furnished with lodging and subsistence. The Department has not taken action to adjust the payments.

### Department of Transport

145. During the year two defalcations occurred in the Hamilton District office of the Civil Aviation Division. Two members of the Department of Transport were involved. In one instance the shortage was \$868.62, and was a consequence of withholding refunds of advances, etc. The amount was recovered and the officer dismissed. In the other case \$10,202.40 is involved. The fraud was effected by payroll manipulations. The employee was sentenced to the reformatory for two years less one day. No recovery of the loss is anticipated.

146. Payments for injuries sustained by public employees in the course of duty are charged to Consolidated Revenue Fund under the authority of section 3 of the Government Employees Compensation Act, c. 30, R.S. When the compensated employee is in the service of the National Harbours Board, that Board reimburses the sum paid to Consolidated Revenue Fund. But no like reimbursement is made by the Canadian Broadcasting Corporation when the injured person is one of its employees, although the Canadian Broadcasting Act contemplates that the Corporation be financed solely by receipts from its operations, revenues from licences and specific parliamentary grants.

### Department of Veterans Affairs

147. Section 36 of the Public Works Act requires that contracts for public works, which involve \$5,000 or over, be awarded under the direction of the Governor in Council. The Director of Veterans' Lands entered into a cost-plus-a-fee contract for the construction of 10 houses in British Columbia. No order in council was sought, section 7 of the Veterans' Land Act, 1942, being relied upon for authority. That section empowers the Director to acquire

such lands and buildings situate in any part of Canada and such other property including building materials, livestock, farm equipment and commercial fishing equipment as the Director may deem necessary.

On March 23, 1945, the Deputy Minister of Justice advised the Director that in his opinion the Act did not vest in him a power to engage in the construction of homes for veterans. Order in Council P.C. 2227 of April 13, 1945, made under the authority of the War Measures Act, adds the following section to the Veterans' Land Act:—

7A. (1) The Director may for the purposes of this Act

- (a) erect on any land acquired by him such buildings or such other improvements as the Director may deem necessary;
- (b) enter into any contract with any person, firm or corporation, or with any province, city, town or municipal authority, for the erection of such buildings and for effecting such other improvements as the Director may deem necessary;
- (c) grant any roadway, right of way, easement or other right or interest in, over or upon any land necessary for effecting or facilitating the erection of buildings or making of improvements referred to in paragraphs (a) and (b) of this subsection.

(2) For the purposes of this section, "improvements" shall include works for sewage disposal, works for drainage, works for the supply of water, gas, electricity and other services, roads and the cost of preparing plans of subdivisions.

## WAR EXPENDITURES

148. War expenditures for the fiscal year ended March 31, 1945, exclusive of \$803,345.702.75 paid under the War Appropriation (United Nations Mutual Aid) Acts, amounted to \$3,615,100,612.46, a decrease of \$59,319,261.05 compared with like expenditures in the previous fiscal year.

149. The War Appropriation Acts provide that moneys available thereunder shall be allotted by Treasury Board. A summary of allotments to departments, expenditures, and loans and investments is:—

Department	Allotments	Expenditures	Loans, Investments, etc.	Lapsed

## Department of Finance

150. The House Conversion Programme, which the National Housing Administration applies, is designed to relieve the housing situation in some urban areas and contiguous municipalities. The Governor in Council, relying on the War Measures Act, authorized the Minister of Finance to acquire, by way of lease from owners, suitable buildings for conversion into multiple housing units, and to rent the housing units so created to suitable tenants. The Minister is empowered by the orders in council to acquire buildings and to

enter into contracts for rebuilding, remodelling, reconditioning, rehabilitating, converting, changing and altering the buildings, provided that the average estimated cost of construction for units created in any one building shall not exceed the sum of \$1,500 per unit (provided that the estimated cost of construction for units containing more than one bedroom shall not exceed the sum of \$2,000 per unit and that such cost shall not be included in determining the average estimated cost of construction of the other units in the buildings).

Acting under this authority, 247 projects, providing a total of 1,922 housing units, had been completed or were under construction as of March 31, 1945. The cumulative costs of construction were \$4,056,737.12 to that date. One hundred and ninety-four projects, representing 1,525 housing units, were reported as completed at the fiscal year-end. Examinations of records

of completed projects disclose that the cost of converting 91 buildings containing 703 residential apartments had been estimated, for the purpose of obtaining authority to proceed, at \$991,204, but actual outlays were \$1,441,139.75. On 33 projects actual costs exceeded estimates by 50 per cent or more; in the case of two projects the excess was 125 per cent.

151. Order in Council P.C. 6812 of August 30, 1943, authorizes expenditures of \$500,000 and designates the cities of Quebec and Montreal as areas in which the Minister of Finance may acquire suitable buildings for conversion into multiple housing units "to sublet to suitable tenants at reasonable rentals. . ." Order in Council P.C. 259 of January 24, 1944, authorizes a further outlay of \$500,000 for the same purpose, and amplifies the earlier scheme by providing, among other things, that the Minister

may purchase or rent all equipment, furniture, etc., necessary to carry out the provisions of this order.

Among the properties brought within the scheme is that located at 3430 McTavish Street, Montreal. One apartment in this building was not rented to a tenant but was held for the use of visiting officers of the National Housing Administration. The rental from April to June, 1944, was charged to administrative expenses, but for the period from July, 1944, to the fiscal year-end no further rental was credited. An amount of \$714.01 was also charged to War Appropriation for articles to furnish the apartment. The nature of certain of the furnishings and supplies is such that they do not appear to qualify within the phrase "necessary to carry out the provisions of this order". As public expenditure was authorized to relieve an acute housing shortage, with outlays to be recovered out of rentals paid by bona fide tenants, the Department was queried as to authority relied on:—

- (a) to retain the apartment for the use of officers of the National Housing Administration;
- (b) to charge rental to Consolidated Revenue Fund;
- (c) to order and pay for the furnishings and other items for the apartment in question.

While no formal reply has been received, the apartment was sublet to a tenant as from July 2, 1945.

152. Among properties acquired for the House Conversion Programme were buildings situated at 1100-1120 Elgin Terrace, Montreal. These consisted of 11 houses, then producing rentals of \$1,650 monthly. Departmental records disclose that the agreement with the Minister was made four days after the properties were acquired by the owner. The agreement provided that the estimated cost of conversion should not exceed \$1,500 per apartment, with the proviso that should the cost of the work exceed that amount, any excess was to be paid by the owner. The Crown reserved the right to make incidental changes in plans and be the final judge of quality of material, workmanship and finish. It was agreed that the owner might use material, equipment or finish extra to that required by the plan and specifications if he paid for such work. Contracts were entered into for the conversion of the buildings on a cost plus a fixed fee basis, with a specified maximum in each case. The Crown undertook to pay a maximum of \$79,900, and, in fulfilment of his undertaking, the owner advanced \$13,000 of this amount. To March 31, 1945, the contractor has submitted accounts for \$106,088.74, including \$26,188.74 for extras and additions, for which the Crown has assumed responsibility, as it is stated that they were neither authorized nor agreed to by the owner. Many of the extras are in the nature of improvements superior to those ordinarily made to buildings under the scheme.

153. By means of the house conversion plan, 122 residential apartments became available in the Ottawa-Hull district. A survey in January, 1945, revealed that 19 of these were leased to present or former personnel of the National Housing Administration. Order in Council P.C. 9381 of December 7, 1943, empowers the Minister of Finance to "purchase or rent all equipment, furniture, etc." for apartments. Up to the year-end, resort to this Order had been made to furnish 7 apartments in the Ottawa-Hull district. Five of these were under lease to employees of the National Housing Administration. The Ottawa staff of the Administration numbered 74 persons in January, 1945.

154. C.F.L. Engineering Company of Montreal deducted \$1,585.14 from the wages of employees who were purchasing Third and Fourth Victory Loan bonds by means of the payroll deduction plan. The Company neither purchased bonds to cover the applications received nor set aside in a special account the amounts deducted. In July, 1943, the Company went into bankruptcy. The employees sought relief from the National War Finance Committee.

Order in Council P.C. 41 7730 of October 6, 1943, authorized the Committee to pay the amounts deducted on receipt of assignments of claims against the Company. In March, 1945, the trustee issued a final dividend statement allocating the balance in his hands among the preferred creditors, including wage earners, but no provision was made for the claims assigned to the Crown, which were not classed as preferred. The exclusion of the Government's claim from the preferred class was contested, and in June, 1945, \$1,182.91 was received from the trustee, representing 75 per cent of the Crown's claim.

### House of Commons

#### 155. Order in Council P.C. 2/4225 of May 21, 1943, authorizes:—

payment of an accountable advance to the Empire Parliamentary Association (Canadian Branch) to cover expenses of an Empire Delegation visiting Canada in connection with matters arising out of the War, chargeable to funds to be allotted from the War Appropriation.

On May 24, 1943, a \$25,000 cheque was issued to the Association. Section 32 of the Consolidated Revenue and Audit Act, 1931, requires that accountable advances "which remain unaccounted for at the termination of the fiscal year, shall be repaid or accounted for within fifteen days thereafter." Treasury Board may grant an extension of time, but not exceeding sixty days. When an accounting was proffered it included advances of \$600 each, made on March 31, 1944, to three Members of Parliament and a Senator, for expenses to be incurred in attending meetings of the Association in Australia. On August 4, 1944, Treasury Board directed the Comptroller of the Treasury to accept \$19,000.12 as expenditures chargeable to the \$25,000 advance. Simultaneously, the four \$600 payments above noted were ordered transferred to 1944-45 fiscal year accounts and charged to War Appropriation. The balance of moneys held by the Association was refunded to Consolidated Revenue Fund on March 8, 1945.

### Department of Labour

156. Expenditures of the British Columbia Security Commission for the year amounted to \$2,136,762.74, of which \$282,822.67 is classified as administration costs. \$1,853,940.07 of the expenditure was incurred in movements, placement, housing and care of Japanese. Offsetting revenues were \$144,516.29. Medical expenses and hospitalization of Japanese amounted to \$254,232.72, the aggregate cost of such services during three years of operation by the Security Commission being in excess of \$700,000. A Japanese boy, born in Canada, has been a patient in the Queen Alexandra Solarium, Victoria, since March, 1942. Expenses to March 31, 1945, have amounted to \$3,556.75. Enquiries as to the reason why the patient is not cared for in an institution operated by the Commission elicit the information that further operative treatment is necessary. It is noted that 21 Japanese are being maintained in the Provincial Mental Hospital at a daily cost of \$1.35, or over \$10,000 annually. Attention is drawn to this outlay because section 92 of the British North America Act designates the establishment and maintenance of asylums as an object of provincial responsibility.

157. Mr. Justice G. B. O'Connor of Edmonton is chairman of the Wartime Labour Relations Board, and Mr. Justice M. B. Archibald of Halifax is chairman of the National War Labour Board. Ottawa is headquarters of the Boards. Order in Council P.C. 80/5000 of June 29, 1944, accepts the following submission by the Minister of Labour:—

The undersigned has the honour to refer to Orders in Council P.C. 1895 and 1896 of March 16, 1944, appointing Mr. Justice G. B. O'Connor, Chairman of the Wartime Labour Relations Board and to P.C. 1986 and 1987 appointing Mr. Justice M. B. Archibald, Chairman of the National War Labour Board;

And to report that while authority has been granted to pay the travelling and living expenses of the Chairmen above referred to while absent from their places of residence, the undersigned arranged with Messrs. Justice O'Connor and Archibald that Mrs. O'Connor and Mrs. Archibald's necessary living and travelling expenses while absent from their places of residence, while accompanying their husbands in the discharge of their duties, would be paid by the Department;

The undersigned, therefore, begs to recommend that authority be granted to pay the necessary living and travelling expenses of Mrs. O'Connor and Mrs. Archibald while away from their homes accompanying their husbands while they are discharging their duties as Chairmen of the Boards to which they have been appointed.

The Order in Council is silent as to the authority relied on for the making. Attention is drawn to the provision for payment of expenses of Mesdames O'Connor and Archibald, as it is an exception from practice. In the fiscal year \$8,658.33 was paid to Judge O'Connor and \$6,150.01 to Judge Archibald by way of travel and living expenses. These sums include claims paid

with respect to travel and living expenses of Mrs. O'Connor and Mrs. Archibald when travelling from home to Ottawa, at Ottawa, and when travelling with their husbands to various points in Canada.

### Department of Mines and Resources

158. The National Advisory Committee for Children from Overseas was constituted under authority of the War Measures Act by Order in Council P.C. 3869 of August 13, 1940. It consists of the High Commissioner for the United Kingdom of Great Britain and Northern Ireland and citizens of each Province who are selected by the Minister of Mines and Resources. The function of the Committee is to advise and report to the Minister with respect to any matter relating in any way to the welfare of children moved to Canada from the United Kingdom. It has authority to carry out appeals for funds to help defray costs and to help pay any expenditures incurred by the Government. The Minister is empowered, by Order in Council P.C. 1866 of March 24, 1941, to execute agreements with the Provinces relative to the placement, care and inspection of the children. Payments to the Committee amounted to \$55,000 in the fiscal year. Since inception, \$183,800 has been advanced. A statement of receipts and disbursements of the Committee since 1940 is:—

Receipts—			
Grants from the Government of Canada.....	\$183,800 00		
Donations .....	72,706 76	\$256,506 76

### Department of Munitions and Supply

159. Substantially every war contract of the Department and its corporate agencies provides for termination or cancellation at the option of the Government. The Minister of Munitions and Supply settles claims under terminated contracts by negotiation and agreement with the contractors concerned, and by Order in Council P.C. 8397 of November 1, 1944, he may arrange settlements with sub-contractors. The Governor in Council on February 13, 1945, by Order in Council P.C. 929, directed that: (a) payments by way of settlement of termination claims be made by the Department of Munitions and Supply, and allotments of funds for the purpose be provided out of the War Appropriation; and (b) in a settlement the sum of progress payments or accountable advances made prior to termination be repaid by the Department of Munitions and Supply to the department, board or agency which originally made the progress payments or accountable advances. The accounting adjustment terms of this order in council did not take effect until the beginning of the fiscal year 1945-46. In the interval, payments were charged to the appropriations from which payments under the contracts would have been made had they not been terminated.

160. During the fiscal year a further sum of \$1,963,965.85 was paid to the United Kingdom Government on account of its equity in Canadian munitions plants which were transferred to Canada as of April 1, 1943. This payment brings the amount paid to the United Kingdom Government to \$203,963,965.85. It is estimated that \$63,861.65 remains to be paid. Canada, by the same agreement, assumed the liabilities, obligations and commitments of the United Kingdom, then estimated at \$30,000,000, with respect to its contracts for capital investment as at April 1, 1943. Total payments on this account amount to \$18,196,499.69, of which \$40,711.76 was expended in the fiscal year.

161. Various orders in council authorize the Emergency Coal Production Board to assist coal mines in order to maintain and stimulate the production of Canadian coal. Up to the year-end the Board had expended \$13,842,523.82 by way of production subsidies, wage equalization subsidies and other grants. Of these, grants totalling \$2,255,215.22 were considered by the Board at the year-end as satisfactorily accounted for by the recipients. The remainder, of which subsidies to the Dominion Coal Company Limited and the Acadia Coal Company Limited constitute the major portion, are regarded as subject to adjustment. The Board also made loans for capital expenditures. These totalled \$1,978,116.32 at the year-end and appear as

Active Assets in the Balance Sheet. The administrative opinion is that recovery of loans, including accrued interest, amounting to \$234,903.86, is doubtful. Repayments past due on other loans total \$10,632.10. This is to be recovered from subsidy payments.

162. Order in Council P.C. 41/7430 of September 22, 1943, authorizes the Minister of Munitions and Supply to assume a risk which would ordinarily be covered by builders' risk insurance when vessels are under construction. One claim was noted: \$165,006.27 was paid to the Canadian Fairbanks-Morse Company Limited to reimburse it and its sub-contractor, Vaughan Shipbuilding Company Limited, for loss by fire of work in process and materials necessary to carry out a Mutual Aid Board's contract.

163. The salaries and expenses of the Montreal office of the Director General of Explosives, which were paid by Allied War Supplies Corporation, were charged to administrative expenses of non-operating Crown companies. Similar treatment was given to salaries and expenses of the Machine Tool War Service Committee and other related departmental agencies, which were paid by Citadel Merchandising Co. Limited. These salaries and expenses would more properly have been charged to departmental administrative expenses.

164. Instances were noted of legal accounts being paid without submission to the Department of Justice for taxing, as is required by Order in Council P.C. 103/2025 of July 28, 1939. The departmental view is that the order in council is not applicable to legal services performed on the instructions of officials of the Department of Munitions and Supply, because section 6 of the Department of Munitions and Supply Act vests in the Minister a power to engage the services of any person or firm in carrying out the provisions of the Act.

165. Examinations were made of the records and procedures of the Central Inventory Records Division. This division is responsible for the compilation and maintenance of complete inventories (including transfers of possession) of buildings, machinery, equipment, real estate, etc., acquired, constructed or controlled by the Department of Munitions and Supply. It was observed that the Records Division lists only Crown assets in private contractors' plants. While procedures had been devised to record transfers of Crown assets from one plant to another, full application has not been given to the plan. The inventory records may not be accepted as reliable until steps are taken to record all property and to trace and record transfers of all assets.

#### MUNITIONS PRODUCTION ALLOTMENT FUND

166. The Department uses a revolving fund procedure to finance operations when it functions as a principal in the procurement and production of components and materials necessary to produce munitions. Operating capital was advanced from War Appropriation and was ultimately recovered from receipts for the completed products.

167. In summary form, transactions were:—

<i>Munitions Production—</i>			
Receipts and realizations from sales of products.....	\$616,582,467 54		
Disbursements and charges.....	484,994,494 93	\$131,587,972 61	
<i>Aircraft Production—</i>			
Receipts and realizations from sales of products.....	108,580,863 59		
Disbursements and charges .....	83,015,718 50	25,565,145 09	
<i>General Munitions Production—</i>			
Receipts and realizations from sales of products.....	77,517,812 55		
Disbursements and charges.....	52,583,471 58	24,934,340 97	
<i>General Munitions Production (Mutual Aid)—</i>			
Receipts and realizations from sales of products.....	393,743,270 16		
Disbursements and charges.....	356,011,611 41	37,731,658 75	
<i>Miscellaneous Stores—</i>			
Receipts and realizations from sales of products.....	43,295,750 64		
Disbursements and charges.....	31,506,067 71	11,789,682 93	
		231,608,800 35	
<i>Ship Production—</i>			
Disbursements and charges.....	150,741,458 94		
Receipts and realizations from sales of products.....	125,278,313 33	25,463,145 61	
		\$206,145,654 74	

168. At the commencement of the fiscal year the Department's investment in the revolving fund account was \$789,983,803.31. This was reduced during the year by \$206,115,651.74. The investment will ultimately be recovered by charges to those who receive the manufactured products and by disposals to War Assets Corporation. Until that is done the \$583,838,148.57 is reflected in the Public Accounts as expenditures incurred by the Department of Munitions and Supply. The changes in the investment, by programmes, during the year were:—

	March 31, 1944	March 31, 1945
Munitions Production .....	\$340,202,700 95	\$208,614,728 34
Aircraft Production .....	50,207,680 15	24,642,535 06
General Munitions Production.....	76,670,395 10	51,736,054 13
General Munitions Production (Mutual Aid).....	182,612,960 71	144,881,301 96
Miscellaneous Stores .....	26,685,547 11	14,895,864 18
Ship Production .....	113,604,519 29	139,067,664 90
	<u>\$789,983,803 31</u>	<u>\$583,838,148 57</u>

169. In addition to this investment, advances of \$2,318,099.67, in connection with the Avro Anson programme, were liquidated during the fiscal year. Similarly, advances totalling \$71,474,572.97 at March 31, 1944, by the Department of National Defence (Navy) were reduced to \$5,899,185.04 by March 31, 1945.

170. *Munitions Production.*—Most of the plants in the Production Pool are now on a "billing for cash" basis, a value having been placed on their products. These prices are used by the plants in invoicing shipments to the consignees, who pay the consignor plant for goods received. Consignor plants rarely required further advances in 1944-45. Shipments of goods for which a price had not been established were reported to the Department, which recovered from consignees.

171. Projects and Crown companies operating through the Pool have accumulated reserves for price adjustments which exceed \$120,000,000. These represent the difference between invoice charges and cost of production. Of this amount, \$6,198,515.50 only is recorded in the Balance Sheet of Canada as a reserve for contingent liabilities. The Department does not regard the reserve as moneys available to make refunds to departments and agencies which received the goods. It states that the reserves are set up to absorb (a) costs not taken into consideration when fixing billing prices, and (b) costs which arise as a result of terminations in the various plants. There is a degree of inconsistency in departmental practice because similar reserves relating to the Crown companies, Research Enterprises Limited and Small Arms Limited (both operate as part of the Production Pool), have been utilized, in part, to make refunds to consignee governments and agencies.

172. The accounting system devised to record Pool transactions is not fully efficient because:—

- deliveries to plants of materials and components up to December 31, 1942, have not been fully established and verified. These were on a "free issue" basis. The accounting is proceeding slowly;
- prices have not been fixed for the production of some plants because reliable information as to production costs is lacking;
- prices for components and materials supplied to plants are not periodically revised to conform with actual costs of production.

173. An agreement between the United Kingdom and Canada provides that the net equity of the United Kingdom in the Pool as at August 31, 1943, is to be determined as soon as possible. The equity, if any, is to be included in the settlement of the interest of the United Kingdom in munitions contracts which were transferred to Canada on that date. Only when values are placed on all free issues and deliveries from the commencement of the plants' operations can the respective equities of the United Kingdom and of Canada in the Production Pool be confirmed.

174. *Aircraft Production.*—Transactions under this heading relate to working capital advances to Crown companies and to several private companies producing aircraft and aircraft primary materials.

175. *General Munitions Production*.—Disbursements and receipts arise from working capital advances to Crown companies, Crown plants and certain private companies whose products are not included within the scope of the Production Pool. Included are three automotive companies which are provided, on a monthly basis, with their cash requirements over and above projected billings. Amounts no longer required by the companies are remitted to the Department. During the fiscal year there was a material reduction in outstanding advances to Ford Motor Company of Canada Limited and General Motors Products of Canada Limited.

176. *General Munitions Production (Mutual Aid)*.—This division of the account records transactions relating to progress payments, working capital advances and payments for components for embodiment into completed articles and for stores to be delivered in future years. The contracts involved are those

- (a) of the Governments of Australia, New Zealand and the United Kingdom which have been made a part of the Canadian Mutual Aid programme; and
- (b) made subsequent to September 1, 1943, to fill requisitions of the Canadian Mutual Aid Board.

The intent is to recover outlays from the Mutual Aid appropriation as deliveries are made. However, while an adequate system was devised to record and recover outlays, the audit discloses that recordings are not complete for either of the past two fiscal years. Consequently, there has not been a complete accounting to the end that this account and the Mutual Aid appropriation are in balance.

177. *Miscellaneous Stores*.—This account is applied to finance stockpiles of various materials. One of the items is cloth for re-sale to manufacturers of uniforms, etc. Departmental policy is to re-sell at prices approximating cost, but as of March 31, 1944, a loss of \$397,067.57 had been sustained. Charges in 1944-45 were increased, with the result that the previous loss was converted into a profit of \$615,971.36 by March 31, 1945. Cloth inventories declined from \$13,650,502.43 to \$7,439,914.07 during the year. Cloth inventory shortages written off during the year amounted to \$3,036.11.

178. The precise financial position is not calculable with respect to the outcome of the programme to procure and sell to dealers domestic wood fuel. The accounts are on a cash, rather than accrued, basis. Calculated on the average cash cost per cord, a loss of \$1,529,178.82 on sales had been sustained to March 31, 1945. Frequently there was a wide margin between cost to procure and selling price, the latter being regulated by ceiling prices set by Wartime Prices and Trade Board. No complete physical inventory of wood in stockpile was taken at the year-end, consequently it is not known what losses may have been suffered in the value of wood held for future sale. The \$1,529,178.82 loss has been charged to War Appropriation, as well as capital expenditures of \$429,248.19.

179. During the year losses of \$39,792.86 sustained in the purchase and re-sale of chrome ore were written off to expenditures and the account closed.

180. Losses, as ascertained to May, 1944, on the purchase and sale of molybdenum ore were written off to expenditures. These amounted to \$281,225.35.

181. Expenditures totalling \$152,599.64 had been made for materials for portable refrigerator units, gasoline storage tanks and special steel bars. These materials were transferred to War Assets Corporation for disposal.

182. During the year, \$503,239.82, recoverable on account of United States customs duty on gilding metal slabs, was reduced by \$64,654.09. The duty is paid on metal consigned to the Superior Steel Corporation of Carnegie, Pa., which ships to plants of Defence Industries Limited or to the Dominion Arsenal, after treating the metal. Recovery of duty by way of drawback is applied for by the British Ministry of Supply Mission at Washington.

183. *Ship Production*.—The greater portion of the transactions represent working capital advances to the Crown company, Wartime Shipbuilding Limited. These are recovered from the proceeds of billings for ships delivered.

### Departments of National Defence

184. Reference was made in last year's report (Para. 170) to payments to the Treasurer of the United States on account of purchases of munitions delivered to the Government of Canada. Further payments of \$18,000,000 and \$38,850,000 were made during the fiscal year on Navy and R.C.A.F. account. As at March 31, 1945, the cumulative total of advances for the three Services amounted to \$401,159,501.30. Certified billings submitted by the Government of the United States and applied against advances amounted to \$114,328,060.74, leaving a balance of \$286,831,440.56 outstanding at the close of the fiscal year.

185. The practice of paying United States suppliers in advance of the receipt of certified invoices was generally discontinued during the fiscal year. Only under special circumstances was payment made before delivery. The amount of outstanding vouchers relating to prior years was considerably reduced during the year. The cumulative total of such unvouched payments at March 31, 1945, was:—

1940-41 .....	\$ 3,904 98
1941-42 .....	1,488,237 29
1942-43 .....	221,325 39
1943-44 .....	571,527 01
1944-45 .....	99,056 36

186. *Termination Charges.*—Action was taken during the fiscal year to terminate uncompleted contracts for supplies and stores which were no longer required because of the termination of the British Commonwealth Air Training Plan and the anticipated early conclusion of European hostilities.

187. As a result, 179 termination claims, totalling \$2,066,096, were paid out of Air appropriations. Of these, 31 were interim claims, amounting to \$542,503.83. Payments from Army appropriations amounted to \$792,697.21 with respect to 49 claims, of which 4 were interim claims amounting to \$473,222.59. Of 8 claims totalling \$85,767.82, charged to Navy appropriations, 4 were interim claims amounting to \$73,111.23.

188. Certain termination claims related to construction contracts for the R.C.A.F. and Army. These involved surplus materials and supplies taken over by the Services on instructions of the Department of Munitions and Supply. The greater number of claims were paid prior to the production of proper certification as to receipt of the materials by the Services. Steps are being taken to bring these stores under proper control.

189. Prior to February 13, 1945, all payments on cancellation claims on contracts entered into by the Department of Munitions and Supply were paid by the requisitioning department out of funds provided from the War Appropriation for the purchase of supplies. Order in Council P.C. 929 of that date directs all payments of this nature to be consolidated under the Department of Munitions and Supply. The purpose is to facilitate and expedite settlement of termination claims. The order in council directs the Department of Munitions and Supply to reimburse departments the sum of progress payments or accountable advances made prior to termination. As no funds were allotted to the Department of Munitions and Supply for this purpose in the fiscal year 1944-45, the Departments of National Defence were charged with all payments until the end of the year.

190. *War Service Gratuities.*—Post audit tests of awards of Army war service gratuities disclosed an inordinate number of errors in computations of service. The plan contemplates that certain debit balances, which relate to pay and allowances, be recovered from gratuities. Consequences resulting from errors in service computations may be: (a) under- or over-payment of gratuity, (b) failure to recover debit balances, or (c) establishing an erroneous service period for the purposes of the re-establishment credit scheme which is administered by the Department of Veterans Affairs. Steps were taken to effect remedies.

191. The Naval pay accounting system is such that Naval computations of gratuity cannot readily be checked, and are not being checked, by officers of the Minister of Finance before cheques issue. No centralized pay system is operated by the Navy, whose basic pay records are often four or more months in arrears before delivery to Naval headquarters. The

Audit Office has temporarily discontinued its post audit of awards, because (a) it now requires over a day's time of an experienced examiner to audit one account, and (b) while few awards audited were found to be free from error, the sum resulting was almost always less than the cost of making the audit. The Department is aware of the situation and is planning corrective action.

192. R.C.A.F. overseas pay records for the period from May, 1941, to April, 1943, are retained overseas and, therefore, are not referred to when calculations are made. With this exception, R.C.A.F. documentation and the Treasury check of service computations are adequate and tests disclosed no errors of importance.

193. *Militia Pension Act.*—In 1938-39 there were approximately 1,400 contributors under the Act. The number is now in excess of 4,800. The increases are mainly in Army (from 1,000 to over 2,300) and in Air (from 305 to 2,066). Contributions in 1938-39 were \$179,027.16 and in 1944-45 the sum was \$715,594.37. On the other hand, disbursements by reason of awards increased from \$1,548,537.55 to \$2,227,534.95 in the same period. It will thus be observed that current contributions represent about one-third of the outgo. In the 1944-45 fiscal year, 275 awards were made under the Militia Pension Act. In the case of those who were contributors prior to May 1, 1929, pension awards are computed on pay and allowances as of the date of retirement; in all other cases a 3 year average is applicable. A survey of awards made in 1944-45 shows that, when promotions have been frequent, the pension award generally approximates or exceeds the pay and allowances of 1939. Illustrations are:—

194. Personnel below the rank of Warrant Officer II do not contribute to pension. Included in the 275 awards are 45 to non-contributors.

195. The sum of allowance (commonly known as dependents' allowance) paid for the support of wives and minor children is included in computations for pension awards. In view of the relatively young age at which many are retired to pension, it is self-apparent that the inclusion takes into calculation and perpetuates for life a transitory cost which normally ends on death, marriage or coming of age of the dependent.

196. *Service Estates.*—Examinations of estates of deceased Service personnel disclosed weaknesses in the procedure for accounting for estate assets as well as for personal property which was received by the Estates Branch to deliver to next of kin. The Department has taken action to establish more complete control over the effects in question.

#### Department of National Defence—Army

197. During the fiscal years 1942-43, 1943-44 and 1944-45, payments were made to the Department of Munitions and Supply for allocation to projects operating through the Munitions Production Allotment Fund. The sums were set up as advance payments on production

for the Department of National Defence, which would be settled by deductions from billings made by the Department of Munitions and Supply. Sums outstanding at March 31, 1945, were:—

Regina Industries Ltd., 1942-43.....	\$ 432,000 00
1943-44 .....	162,000 00
Montreal Locomotive Works Ltd., 1944-45.....	32,795,697 78

Up to the year-end, the Pricing Committee had not finalized the billing price for certain items, therefore these outlays are still treated as advances.

198. Contracts were made early in the war with the Kincaid Manufacturing Company of New Jersey, for the supply of 1,392 oxygen cylinders. The contracts did not contain an inspection clause. \$28,441.53 was paid the Company before delivery. On inspection being made in Canada, it was found that 657 cylinders were not up to standard and could not be used. Before an adjustment could be made, the contractor went into liquidation and no recovery was effected. Order in Council P.C. 52/5045 of July 18, 1945, authorizes the \$28,441.53 to be written off as a loss.

199. Reference was made last year (Para. 172) to an overpayment in connection with a contract with Johnson Bros. Co. Ltd., Brantford, for the construction of buildings for the Army Training Centre at Camp Ipperwash. Adjustment of the overpayment was made during the fiscal year. The effect was to increase the cost of the gravel supplied by \$2,614.80 over the original contract price. This was due to unauthorized actions on the part of the Camp Engineer which precluded Johnson Bros. Co. Ltd. from utilizing its own equipment or obtaining the gravel from sources other than the Shaw Construction Company. Departmental law officers, while of the opinion that the Department could deny liability on the ground that the transaction was effected without proper authority, considered that the Shaw Construction Company "ought not to be penalized for what, in effect, was a most unbusinesslike and slack manner in which the Department's officers handled the matter." The Camp Ipperwash construction contract provided unit prices "for any alterations by way of additions to or deletions from the work." The Treasury Cost Accounting Division reported overcharges of \$4,239, as certain additions were provided for by amendments to the contract and were completed at prices higher than those provided in the main contract. The Department took the position that "each amendment constituted a formal alteration to the terms of the original contract and became a separate minor agreement authorizing a decrease of or increase on the original bid price."

200. An electrical transmission line, to supply power to the Longue Pointe Ordnance Depot, was constructed by Montreal Light, Heat and Power Consolidated at a cost of \$38,554.07, which was reimbursed to the Company by the Crown. By contract entered into on July 10, 1942, the supplier undertook to rebate to the Crown 10 per cent of the monthly power accounts until \$30,154.71, being the cost of materials used in the construction of the transmission line, was rebated. In September, 1944, attention was directed to the fact that rebates provided for in the contract had not been received. \$5,930.74, representing the accumulated rebates to June 30, 1944, was recovered and arrangements made for the recovery of the balance.

201. Tests made at a representative Supply Depot of the Royal Canadian Army Service Corps demonstrated that regulations respecting the accounting for fuel, and salvage and sale of kitchen by-products, containers, etc., were not being fully implemented. An Army order was published calling the attention of all concerned to the regulations covering accounting for fuel. With respect to salvage, the Department advises that the regulations had been misinterpreted at the Depot concerned and gave assurance that corrective action had been taken.

202. Tests of practices of command and district paymasters in checking unit ration accounts indicate that some made a complete check of the accounts, while others made checks on a test basis only. The power to exercise a discretion as to the extent of check of unit ration accounts was made the subject of a query because of the risks of abuse. On February 20, 1945, instructions were issued directing that a complete check be carried out.

203. Examinations of records in offices of local committees functioning under the control of the Dependents' Board of Trustees disclosed that, pending completion of investigations, some cheques were held for a considerable period of time. As the Comptroller of the Treasury records the expenditure at time of issue, expenditures of the Board have been accepted in the audit

as subject to the qualification that certain cheques may not, in fact, have been delivered to the payees. Local offices' practices did not permit a ready tabulation of the sum involved, but in February the Board initiated a plan which should, in future, readily establish cheques held.

204. Following an examination of the civil pay records of a representative Ordnance Depot, attention was drawn to irregularities in the submission of time sheets and to the unauthorized employment of casual labourers to perform duties of classified positions, such as packer and helper. Assurance has been given that corrective steps have been taken and that casual labourers will be engaged hereafter in accordance with the regulations.

205. Test surveys of civil pay records of Royal Canadian Engineers' establishments in various Military Districts disclosed that methods of recording time of casual labourers were inadequate in certain respects. There was inadequate supervision in compilation of time records, and unauthorized methods of compensating for overtime work were in use. Attention was also drawn to the undesirability of a timekeeper also performing the duties of a paymaster. General instructions, applicable to all Engineer establishments, were subsequently issued.

### Department of National Defence—Navy

206. Order in Council P.C. 113, 3303 of April 23, 1943, authorizes advances to the British Admiralty covering services rendered and stores supplied to the Royal Canadian Navy. These advances are applicable to accounts in process of examination and also to services rendered but not billed at the time a payment on account is made. Treasury Board on March 29, 1945, authorized advances of \$40,146,633.47 as a charge to 1944-45 appropriations. \$6,810,485.47 is in respect of the estimated outstanding liability for the construction of 17 ships. The balance is in respect of estimated liabilities for stores, equipment and services rendered. The amounts, although charged to 1944-45 expenditures, are recorded in the accounts as an advance against which claims are to be applied when received.

207. Under the authority of the Department of Munitions and Supply Act, section 7 (iii), the Minister of Munitions and Supply authorized the Department to place orders for urgently required supplies. Naval Storekeepers at Shelburne and Sydney, whose local purchase authority was limited to \$100 per order, circumvented this limitation by issuing several orders on the same day for a similar commodity, with the result that purchases were effected in excess of \$100. Departmental action has been taken to prevent a repetition.

208. The Department of Public Works did not notify mariners that certain areas of Esquimalt Harbour were non-navigable while dredging operations were being carried out. \$558.75 was paid to the contractor by way of compensation for delays and interruptions consequent on traffic in the waters by naval craft. The Department states that it is of the opinion that a clause in the contract which reads, "the contractor must not obstruct or inconvenience navigation", is inapplicable in this instance. The practice of securing the concurrence of the Governor in Council to any ex gratia payment was not followed in this case. The payments were made initially by the Department of Public Works and then transferred as charges to Navy.

209. Order in Council P.C. 3655 of May 26, 1941, made under the authority of the War Measures Act, permits the Minister of National Defence for Naval Services to furnish Sea Cadet Corps with arms, ammunition and equipment. Order in Council P.C. 60/10160 of November 18, 1942, authorizes, (a) the issue of articles of uniform "to Sea Cadets at a cost not to exceed \$15, such uniform to be made available to all Sea Cadet Corps at the rate of \$7.50 per uniform", and (b) that the repayment of the \$7.50 be: \$2.50 at the time of requisition, \$2.50 one year after delivery and \$2.50 two years after delivery. Audit examination of the account, as of July 31, 1944, disclosed that the amount outstanding on account of uniforms supplied under the first order in council is \$21,103.14, and \$59,568.98 under the second order in council. In all, \$34,188.68 was in arrears as of that date.

210. Two unit price contracts for the construction of a breakwater and wharf at Gaspe, P.Q., were awarded in 1940 to Messrs. Chretien and Dunn. Because of unsatisfactory progress, the contracts were cancelled on April 16, 1941, after \$16,040 had been paid to the contractors. The works were completed by the Department of Public Works by day labour. The cost exceeded the contract prices of \$77,920.61 by \$10,514.80. The contractors filed a

Petition of Right, claiming damages of \$26,184.27. A counterclaim of \$10,514.80 was filed by the Department of Public Works. A settlement was effected by payment of \$3,606.73 for work performed immediately prior to the cancellation of the contract and \$600 for legal costs.

211. The internal audit of pay and allowances is performed by the Comptroller of the Treasury. Resulting observations are not communicated directly by the Comptroller to accounting officers concerned; instead, they are transmitted by means of Naval headquarters comments and directions. The war expansion of the Navy was not accompanied by a modernizing of its pay accounting procedures. Test audits by this Office have repeatedly disclosed that the pay accounting system is unsatisfactory. The Department has constituted a committee to revise completely the Naval pay accounting system. This is wholly desirable, but it is problematical if defects of years may be speedily overcome during general demobilization.

212. Article 385B of the Canadian Naval Regulations places a duty on officers and ratings to draw attention to any overpayments of emoluments, and states that: "It must be clearly understood that if any such overpayments are retained they must be refunded." On discovery of any overpayment, the Naval Accountant Officer is required to take immediate steps to effect recovery. Nevertheless, Order in Council P.C. 74/6270 of August 9, 1944, states that store allowances paid to two officers in the amounts of \$235.75 and \$153, "which were approved in error by Naval Service Headquarters, be confirmed, the said allowances having been paid and received in good faith." P.C. 64/333 of January 17, 1945, authorizes the amounts paid during the period 1922 to August 13, 1943, to "officers and ratings serving in shore establishments for docking and undocking H.M.C. Ships be allowed to stand, and that no recovery be made on account of these payments which were made contrary to the provisions of Canadian Naval Regulations, Article 357, and K.R. & A.L., Article 1627." The Order in Council does not state the amount of the overpayments involved, as no separate record was maintained of expenditure for this allowance during the period above mentioned. P.C. 69/9151 of December 6, 1944, and P.C. 193/1647 of March 9, 1945, authorize the waiving of the recovery of overpayments to prevailing rate employees, resulting from an adjustment of their wage rates, amounting to \$148.24. It is long established practice to require civil and Service personnel to refund any overpayment of salary or pay, therefore the foregoing cases are exceptions.

### Department of National Defence—Air

213. During the year, 38 inspections were made at civil operated training schools. Twenty-four were of a routine nature and 14 were final inspections, consequent upon the disbandment of the schools. While various matters were made the subject of audit observations, these have either been satisfactorily disposed of or are under investigation by the Department.

214. Test inspections disclosed that changes made in the system of control at equipment depots (noted in Para. 198 of last year's report) have been reasonably effective, with the exception of certain difficulties still to be overcome, mainly in connection with faulty identification of equipment received. Accumulated deficiencies and overages since the outbreak of war have still to be adjusted.

215. Test audits of civil pay records were made at 26 units. Satisfactory conditions were found at only one unit. The most prevalent irregularities relate to basic attendance and time-keeping records and classification of employees. Unfamiliarity with or failure to implement departmental instructions with regard to control and administration of civilian personnel appears to be the cause of the unsatisfactory state of affairs.

216. Progress payments, totalling \$169,454.77, were made to the Allanson Armature Manufacturing Company, under a cost-plus contract authorized by Order in Council P.C. 5548 of June 30, 1942. The contract, which was for spare parts for magnetos, was amended from time to time until the sum was settled on April 5, 1944, at \$130,747.57. To date \$2,000 of the overpayment of \$38,707.20 has been recovered. A \$36,783.59 cancellation of contract claim by the contractor was under consideration at the fiscal year-end.

217. Order in Council P.C. 9733 of December 16, 1941, authorized Fleet Aircraft Limited to proceed with the production of 500 Cornell II aircraft, the cost to be charged to the Department of National Defence (Air). A formal contract was not executed until August, 1944. In February, 1944, War Supplies Limited (a Crown corporation) assumed responsibility for

half the order, for delivery to the United States Government, and a recovery of \$3,337,500 was received from War Supplies Limited on February 17, 1944, representing approximately half the expenditure to date. Attention was drawn to the fact that a further sum should have been recovered, and, as a result, an additional amount of \$110,069.26 was received on October 3, 1944.

218. The R.C.A.F. requisitioned the Department of Munitions and Supply for a 114-ft. motor vessel. Order in Council P.C. 5235 of June 29, 1943, recites:—

That tenders were invited from five firms, all those in the vicinity considered to have the available building capacity and experience in this type of construction, and that tenders were received from two firms, namely, LeBlanc Shipbuilding Co. Ltd. and Vaughan Shipbuilding Co. Ltd., quoting prices of \$76,113 and \$173,321, respectively.

While the tender price of Vaughan Shipbuilding Company is stated as \$173,321, the tender submitted reads \$273,321. The LeBlanc Shipbuilding Company was awarded the contract and proceeded with the work. The contractor, discovering it had under-estimated its costs, sought relief, and Order in Council P.C. 7709 of October 13, 1944, converts the contract into a cost-plus agreement. The Order in Council states:—

That LeBlanc Shipbuilding Co. Ltd., has now advised that the cost of constructing this vessel will be in the neighbourhood of \$129,500, sales tax extra, an increase of approximately \$63,747, sales tax included, over the price originally agreed upon;

That LeBlanc Shipbuilding Co. Ltd., has advised that this increase is due primarily to the fact that the original estimate was too low, and to higher labour costs;

That in view of the foregoing, and since LeBlanc Shipbuilding Co. Ltd. has been unable to submit an accurate estimate of the costs of construction, the above contract has been re-negotiated and it is now proposed, subject to the approval of Your Excellency in Council, to amend the said contract to provide for payment of the costs of construction of the vessel required, as determined by Government Cost Audit, together with a fee by way of profit amounting to 5 per cent of such costs;

That the expenditure involved under the contract, as amended, is increased by \$63,747 to \$139,860.

As of October 21, 1944, the contractor reported expenditures to date as being \$162,094.10. Order in Council P.C. 2220 of April 2, 1945, states that a Government cost audit establishes \$193,288.37 as the cost of the vessel and authorizes that amount to be paid. This includes 5 per cent profit to the contractor. It was noted that contracts for two similar vessels were made with the Newcastle Shipbuilding Co. Ltd., Nanaimo, at a cost of \$146,664 each. These vessels were delivered at a cost of \$151,900.72 each, which includes extras of \$5,236.78.

219. Order in Council P.C. 6065 of August 4, 1944, authorized the Department to take over from Fairchild Aircraft Limited certain spare parts and raw materials, to the value of \$2,907,760, remaining upon completion of various contracts. The Order in Council states:—

That certain raw materials and fabricated parts procured in connection with the production of the said airplanes and spare parts under the various contracts have become surplus to the company's requirements as a result of the cancellation of the production of the said 40 airplanes above mentioned;

That certain other raw materials and fabricated parts procured in connection with the production of the said airplanes and spare parts under the various contracts have become surplus to the contractor's requirements for the following reasons:—

- (a) obsolescence due to changes in design of the airplanes;
- (b) the overpurchasing and overproduction necessary to provide for spoilage and other contingencies arising out of normal manufacturing practice;
- (c) inaccurate bills of material provided to the contractor by its licensor.

The R.C.A.F. took no detailed inventory and has recorded in its stores accounts only such items as it considers have a value to the Department. Consequently, it may not be regarded that the transaction has been adequately vouched.

220. Building contracts for additional accommodation and hangar alterations were made by the Department with the operating companies at the civil operated schools at De Winton, Alberta, and Caron and Assiniboia, Saskatchewan. In each case, cost-plus contracts with a ceiling price of \$6,000 were used. The maximum contract which may be placed departmentally is \$5,000. On an observation being made with respect to the matter, the Department of Munitions and Supply accepted the action of the Department. Expenditures to the end of the fiscal year were \$6,000 in each case.

221. Contracts were made with Canadian Kodak Limited for supplies of film. Although the price was the same on all contracts, not all contained an audit clause. Treasury cost audits and self-audits by the contractor disclosed profits in excess of those permitted by contracts which included an audit clause, and refunds of \$10,410.66 were made. As comparable products were involved in the other contracts, it was suggested that the Department should

review prices paid. This was done, with the result that \$12,142.07 was refunded in March, 1945. The matter is noted because the original disbursements were made in more than one fiscal year.

222. Construction contracts frequently provide that the Crown will pay for material on hand when the contract is completed or cancelled. As a rule, the sum involved is not substantial. When materials are in short supply, a contractor frequently wants the material for other works and often he is allowed to remove it. Adequate control was not exercised by the Department over such materials, due to no detailed inventory being promptly taken nor subsequent transactions suitably recorded. The Department has taken remedial action.

223. Order in Council P.C. 49/2100 of March 28, 1945, authorizes \$3,053,768.95 to be disbursed in settlement of certain inventory items in the holdings of aircraft repair and overhaul contractors. An inter-departmental committee established that there were in stock substantial quantities of parts, etc., which have no value because of obsolescence. The loss was accepted by the Crown on the ground that over-provisioning was inevitable because of frequent changes in programmes and specifications consequent upon the exigencies of the war. Audit tests were made of contractors' stores records at 95 plants. At 35, satisfactory conditions were reported. At the remaining 60 various irregularities were disclosed, mainly due either to failure on the part of the contractors to realize their responsibility under their contracts for keeping auditable stores records, or to ineffective supervision and instruction in procedure by the R.C.A.F.

224. At the year-end, advances of \$17,638.83 to the High Commissioner's Office, London, were not distributed and charged to the expenditures of the year. Included in the total is \$16,973.60 representing expenditures incurred in the fiscal year 1943-44.

### National Research Council

225. The Council caused an addition to be constructed to the medical laboratory of Queen's University. The addition is currently regarded as a public work of Canada. The contract, dated October 25, 1944, with Doran Construction Co. Ltd., was executed on behalf of the Council by Professor G. B. Reed of the University. The plans and specifications were prepared by the Department of National Defence. The contract is on a cost-plus-a-fee basis. The contractor has been paid a fee of \$1,000 and a further \$1,500 for engineering, superintendence and other services. Total expenditures of \$23,625.38 have been charged to War Appropriation. Attention is drawn to the transaction because the records do not disclose either that tenders were invited or consent of the Governor in Council sought, as is required by section 36 of the Public Works Act.

### Department of National War Services

226. Order in Council P.C. 156/4433 of June 10, 1944, sanctions a plan whereby the Canadian Red Cross Society should pack an additional 90,000 food parcels weekly. The programme of the Society would then be 190,000 parcels:—

- (a) 80,000 parcels for Canadian and British prisoners-of-war in Europe;
- (b) 80,000 parcels for Allied prisoners-of-war in Europe;
- (c) 30,000 parcels for Canadian and other Commonwealth prisoners-of-war and civilians in the Far East;

190,000 parcels weekly.

The Order in Council states that this programme

will require an additional annual expenditure of approximately \$14,300,000, of which it is anticipated that \$9,000,000 will be contributed by the Canadian Red Cross Society, the British and Australian Red Cross Societies, and by the Allied Governments, and

That these parcels will contain Canadian supplies, and it is deemed to be in the Canadian interest that Canada should take the public, as well as the real responsibility, for providing them.

\$5,000,000 was allotted to be used, to the extent necessary, as contributions by the Government of Canada. The Order in Council authorizes the Minister of National War Services

to arrange with the Canadian Red Cross Society, or the British, or Australian Red Cross Societies, and with Allied Governments, that payments be made by one or all of them towards the cost of the prisoner-of-war food parcel programme outlined hereinabove in a manner satisfactory to the Department of Finance and the Foreign Exchange Control Board.

The \$5,000,000 was disbursed without the Department verifying either the number of parcels packed and shipped or the payments of contributions by others concerned.

### Post Office Department

227. Advances totalling \$700,000 were made to finance a scheme which has been established to enable individual members of the armed forces stationed overseas to purchase cigarettes. These deliveries are made from the tobacco companies' "consignment stock" which is in the custody of the Canadian Postal Corps overseas. The advance is of the nature of a revolving fund and is administered by the Corps. As the advance is to be repaid on conclusion of the scheme, it would have been preferable, from an accounting viewpoint, had the transactions in connection therewith been recorded in an open account. This would avoid inflation of war expenditures in the year of the making of the advance and of revenues in the year of repayment.

### Department of Public Works

228. The Telegraph Service purchased  $8\frac{1}{2}$  nautical miles of used submarine cable in Halifax. The price was \$4,125, f.o.b. supplier's warehouse. The cable was inspected, accepted and shipped by the Department to Vancouver. The freight was \$1,046.56. The cable, when delivered in Vancouver on August 18, 1944, was in such condition that a crew of 7 men worked approximately three weeks repairing it. Three and a half miles were thus made usable. The balance was junked as being without value. Inquiries point to the public loss being due to either inefficient inspection prior to acceptance, or damage in transit by reason of summer heat.

### Department of Veterans Affairs

229. War pension awards to 9,092 casualties of the present war were examined. Errors noted were brought to the attention of the administrative services. Action taken resulted in reductions or cancellations amounting annually to \$8,600.76. Five pensioners received sums to adjust underpayments detected during audit.

230. Order in Council P.C. 1/2938 of April 22, 1944, approves the purchase of a parcel of land in Beechwood Cemetery, Ottawa, containing space for 2,567 graves. The purchase price is \$64,175. The terms of the purchase provide for an initial payment of \$6,250 and like annual payments commencing August 15, 1944, with a final payment of \$7,925 in August, 1952. Two payments have been made, together with a payment (approved by the same order in council) to the Toronto General Trusts Corporation of \$38,505 for perpetual care of 2,567 graves. Information provided is to the effect that 12 burials have been made in this plot to March 31, 1945. The Order in Council postpones

the payment of any tax which would be exigible under the Income War Tax Act and the Excess Profits Tax Act in respect of the year 1944, the same to be paid hereafter in that proportionate part that the instalment paid in each year hereafter bears to the total purchase price, such payments, however, to be reduced and the tax to be accordingly remitted by the difference that the rates of tax in force in any year hereafter result in a tax less than the said proportionate part of the 1944 tax liability.

and directs:—

that the said Company be not liable to tax in respect of the said payment of \$38,505 paid over to the Toronto General Trusts Corporation for the establishment of a Perpetual Care Fund.

The War Measures Act is the cited authority to grant the relief.

231. The Post Discharge Re-establishment Order, P.C. 5210 of July 13, 1944, made under the authority of the War Measures Act, directs that service in the Armed Forces shall be treated as insurable employment for the purposes of the Unemployment Insurance Act. The scheme contemplates that the Government contribute to the Unemployment Insurance Fund the sum of employers' and insured persons' contributions. Audit tests of contributions to the Fund disclose some over-contributions. These arise chiefly because the service has included periods of leave without pay when the men were granted leave to work on farms, in mines or in other essential industries. Absences without leave account for further overpayments. Following discussions with administrative officers, changes have been made in the procedure to provide for verification of all claims with Armed Service records. Over 26,000 payments have been made as at June 30, 1945. Payments during the fiscal year amounted to \$462,618.31.

### Wartime Information Board

232. Section 5 of the Public Printing and Stationery Act requires that the King's Printer approve all accounts for advertising before payment. The Board submitted a \$1,226.56 account for street car advertising. The King's Printer's office returned the account uncertified, stating that it was not prepared to audit accounts of this nature. The account was thereupon paid.

233. The Board expended \$175 for pamphlets purchased from the Canadian Institute of International Affairs and paid the Canadian Broadcasting Corporation \$978.94 for 6,000 copies of another pamphlet. The authority to make the payments, other than through the King's Printer, was made the subject of a query. The reply was to the effect that section 5 of the Public Printing and Stationery Act was regarded as inapplicable, because the order in council establishing the Board provides that "the Board may enter into contracts with any person or corporation for carrying out any of the provisions of this Order."

234. Travel accounts of the Board were utilized in order to have administrative consideration given to the application of a tax statute of the United States which provides for an exemption of public officers and members of Service Forces from the passenger revenue tax of 15 per cent on all passenger, sleeping car, parlour car and reserved seat tickets issued and paid for in the United States when the cost is ultimately a charge to the Canadian Government. Audit examination of travel accounts of the Board indicated that advantage was not being taken of this exemption in all cases. Steps have since been taken by the Comptroller of the Treasury to make certain that the benefits of the exemption are sought by all departments.

235. Two payments of \$5,000 each were made to the Canadian Council of Education for Citizenship. File records point to the conclusion that, at the time the payments were made, the Council was financially wholly dependent on the grant. The effect of the payments was to remove actual disbursements for public objectives from statutory and executive rules which regulate public expenditures. Both payments were made without obtaining prior concurrence of the Governor in Council, but Order in Council P.C. 112/9151 of December 6, 1944, approves the disbursements.

236. Two payments totalling \$600 were made to the Canadian Association for Adult Education, to finance speaking tours of public speakers. The arrangement was that the sums would be regarded as advances to the Association, which would obtain an accounting from the speakers. As it is an unusual arrangement, attention is drawn to the transactions.

## WAR APPROPRIATION (MUTUAL AID)

237. The Canadian Mutual Aid Board administers funds provided by the War Appropriation (United Nations Mutual Aid) Acts, 1943 and 1944, and also moneys provided from the War Appropriation for military occupation relief.

238. The War Appropriation (United Nations Mutual Aid) Act, 1943, appropriated \$1,000,000,000 to make available Canadian war supplies to nations who are signatories to the Declaration by the United Nations of January 1, 1942, and also to any other nation or authority which may be designated by the Governor in Council as being associated with Canada in the prosecution of the war. The appropriation continues in effect until exhausted. In the fiscal year 1943-44, charges to the appropriation were \$912,603,220.34. Thus, \$87,396,779.66 was available on April 1, 1944. The War Appropriation (United Nations Mutual Aid) Act, 1944, appropriates an additional \$800,000,000. Total expenditures for the fiscal year 1944-45 amounted to \$803,345,702.75. This means that \$84,051,076.91 remained available for expenditure after March 31, 1945.

239. A distribution of expenditures is:—

The United Kingdom .....	\$598,751,972 70
The Union of Soviet Socialist Republics.....	87,436,954 43
Australia .....	47,672,519 12
France and Colonies.....	17,551,778 84
China .....	14,676,879 43
India .....	14,431,200 30
New Zealand .....	7,796,734 35
British West Indies.....	3,881,858 20
United Nations Relief and Rehabilitation Administration.....	11,092,753 97
Administration expenses .....	53,051 41
	<u>\$803,345,702 75</u>

240. Disbursements in connection with the United Nations Relief and Rehabilitation Administration include a contribution of \$7,644,500 to its Central Committee. The remainder was for foodstuffs and supplies.

241. The Board disbursed \$14,159,835.63 during the year to discharge commitments of the Commonwealth of Australia and Dominion of New Zealand under the British Commonwealth Air Training Plan. Orders in Council P.C. 2294 of March 30, 1944, and P.C. 8551 of November 10, 1944, designated the services rendered by Canada in the training of airmen as being services "essential to the conduct of the war or to the relief and maintenance of any United Nation."

242. Several departments serve as procurement agents for the Board. Disbursements by these departments were:—

Agriculture .....	\$ 78,246,029 34
Fisheries .....	3,184,945 68
Munitions and Supply.....	599,662,614 51
Trade and Commerce .....	95,370,757 32
	<u>\$776,464,346 85</u>

243. Administrative practice subsequent to January 15, 1944, is to charge Mutual Aid appropriation only for stores actually delivered. That is, Mutual Aid moneys are not applied in making progress payments, working capital advances nor payments for component articles. Funds for such purposes were provided from War Appropriation in accordance with Order in Council P.C. 9546 of December 14, 1943. \$220,000,000 was the sum thus applied. At March 31, 1945, the funds so employed had been reduced to \$144,881,301.96. This will be a charge to Mutual Aid appropriation when deliveries are made by contractors. While an adequate system has been devised to record and recover outlays representing the final costs of all articles making up a Mutual Aid Board requisition for supplies, the recordings are not complete for either fiscal year. Consequently, there has not been a complete accounting to bring into agreement the Mutual Aid appropriation with funds provided from the War Appropriation.

244. Order in Council P.C. 2092 of March 23, 1944, authorizes an agreement accepting \$119,317,061.20 (subject to final accounting calculations) as the value of the interest of the United Kingdom in uncompleted munitions contracts in Canada placed by the Department of Munitions and Supply. These were acquired by Canada on August 31, 1943. The equity of the United Kingdom in the contracts consisted of (a) working capital advances, (b) progress payments to contractors, and (c) stores and components in the possession of contractors for embodiment into completed articles. \$120,000,000 was paid to the United Kingdom on account in the previous fiscal year. Final settlement between the two Governments had not been made by the close of 1944-45.

245. Order in Council P.C. 9484 of December 21, 1944, authorizes assumption, as of July 1, 1944, of munitions contracts in Canada placed by the Department of Munitions and Supply on behalf of the Government of New Zealand. The Order estimates that the sum involved will not exceed \$1,500,000. The expenditure will be a charge to this appropriation.

246. Order in Council P.C. 1728 of March 13, 1945, transfers from the Department of National Defence to the Board responsibility for applying the general policy with respect to providing supplies for the relief of civilian populations in Europe during the period of military responsibility therefor. Expenditures of \$50,198,770.18 were incurred, chiefly for automotive equipment and wheat.

247. Section 4 of the Act permits the Mutual Aid Board to "contribute, exchange, deliver, transfer title to or possession of or otherwise make available war supplies to any of the United Nations." During the war the Government of Canada has, as a charge to War Appropriation, constructed many cargo vessels. A Crown company, Park Steamship Company Limited, manages the ships, generally by chartering them to operators. The United Kingdom Ministry of War Transport solicited charters for fifteen 4,700 ton cargo ships in the possession of the Company, the charter hire to be paid as a charge to the Mutual Aid appropriation. Ships come within the phrase "war supplies", but charter hire does not. Therefore, in order to achieve the financial objective, the Mutual Aid Board technically chartered the 15 ships from the Company and made them available to the United Kingdom Ministry.

248. The Board's arrangement with the Ministry of War Transport was that charter hire of 6 ships commence from the date of delivery, but with respect to the other 9, it was to commence at the expiration of six months from date of delivery. Like terms were imposed by the Board on Park Steamship Company. It is the arrangement relating to the 9 to which attention is drawn. The effect is that no charter charge is levied for the first six months' use. The Board may, under the legislation, make free contributions to any of the United Nations, but that appears to be qualified by the provision that the donation of war supplies must be those which have been acquired as a charge to the appropriation for Mutual Aid purposes. In this instance the 9 ships were constructed as public property of Canada for the use of Canada, and the outlay charged to another appropriation.

## WAR CORPORATIONS

### Department of Finance

#### CANADIAN WOOL BOARD LTD.

249. This Company deals in domestic and other wools and in related commodities and products, to provide for civilian requirements. It operates under an agreement with the Minister of Finance, and the outstanding shares, other than directors' qualifying shares, are in the name of the Minister. The order in council which authorized incorporation names the Auditor General as auditor.

Sales for the year ended March 31, 1945, totalled \$21,107,132.96. Cost of sales amounted to \$22,653,716.26; thus the gross loss was \$1,546,583.30. Subsidy receipts were \$1,720,909 with respect to losses on sales of imported fleece wool, yarns, piece goods and rayon. The Company, consequently, had \$174,325.70 available to meet warehousing, administrative and other expenses. These expenses totalled \$515,181.39. The resultant loss for the year was \$340,855.69 and was applied in the Company's accounts against advances received from the Department of Finance.

Inventories of commodities and products at March 31, 1945, totalled \$11,546,359.24, including \$624,312.32 for wool, tops, yarns and fabrics in the hands of processors.

#### COMMODITY PRICES STABILIZATION CORPORATION LIMITED

250. This Company buys and sells commodities and subsidizes firms and individuals for the purposes of controlling prices of goods, wares and merchandise in Canada. Order in Council P.C. 9870 of December 17, 1941, provides that the Auditor General be auditor of the Company. The deficit for the fiscal year was \$103,741,866.70. It represented subsidies paid, \$86,372,214.84; net loss on commodity trading, \$16,266,763.83; administrative expenses, \$1,100,169.13; adjustments in respect of previous fiscal years, \$10,671.05; less other income, \$7,952.15. The audit report to the shareholders contained the following observations:—

Subsidies paid by the corporation are subject to adjustment under the provisions of Limitation on Subsidies undertakings and contracts, and, in the case of commodities exported or used as ships' stores, to refund under the Repayment of Subsidy Order. Subsidies paid are also subject, in some instances, to investigation and adjustment by officers of the corporation after payment. Therefore, payments now recorded may not be regarded invariably as final.

Subsidy claims in process, but not approved at March 31, 1945, have not been considered as liabilities of the fiscal year ended that date.

The management has certified that all commodities in inventory at March 31, 1945, were held in warehouse or were in transit at that date. Due to the volume of stock on hand, particularly in the case of tea, it was not possible to reconcile completely the corporation's inventory records with stock in warehouse at February 28, 1945, as certified by the several warehousemen. No deficiency was noted during the course of the audit. However, some adjustments may be necessary on the final disposal of stocks.

In addition to direct cash subsidies, some importers are subsidized indirectly by being granted partial and, in some cases, complete relief from the payment of import duties and taxes on certain commodities, under the authority of orders in council.

#### WARTIME FOOD CORPORATION LIMITED

251. This Company pays subsidies authorized for foodstuffs which may be in short supply. It is a subsidiary of Commodity Prices Stabilization Corporation Limited, and the outstanding shares, other than directors' qualifying shares, are in the name of the parent Corporation. The Company operates under an agreement with the Minister of Finance and the Commodity Prices Stabilization Corporation Limited. The Auditor General is named its auditor by by-law of the Company.

Subsidy payments amounted to \$3,544,972.50 and administrative expenses to \$50,662.20 for the year. The total expenditure of \$3,595,634.70 was applied, in the Company's accounts, against the advances received by it from the Department of Finance.

## WARTIME SALVAGE LIMITED

252. This Company, which ceased business as of December 31, 1944, dealt in waste paper, raw sugar bags and collapsible metal tubes. It operated under an agreement with the Minister of Finance, and the outstanding shares, other than directors' qualifying shares, were in the name of the Minister. Under an agreement with the Minister of Munitions and Supply, the Company acted as an agent for the Department of Munitions and Supply in the acquisition and sale of scrap iron and steel and pig iron. The order in council authorizing the Company's incorporation names the Auditor General its auditor.

Sales of waste paper, raw sugar bags and collapsible metal tubes during the period from April 1 to December 31, 1944, totalled \$248,712.13, while cost of sales totalled \$234,820.78. The resultant gross profit being \$13,891.35. Storage and handling charges and administrative expenses, etc., amounted to \$19,589.32. The net loss of \$5,697.97 was applied in the Company's accounts against the advances received by it from the Department of Finance.

Sales of scrap iron and steel and pig iron totalled \$199,114.45, while cost of sales was \$263,773.06, the resultant gross loss being \$64,658.61. Added to this loss were scrap iron and steel subsidies of \$141,386.82 and administrative expenses of \$27,696.31, less a credit of \$31,213.40 arising from a reduction of the reserve for possible inventory losses. The net loss of \$202,528.34 was applied, in the trust accounts maintained by the Company, against the advances received by it from the Department of Munitions and Supply under the agency agreement.

The Company's assets were taken over and its liabilities assumed by the Department of Finance as at December 31, 1944, and the agency agreement with the Department of Munitions and Supply terminated as of that date.

## SUGAR ADMINISTRATOR

253. The Sugar Administrator is responsible, under the direction of the Wartime Prices and Trade Board, for the importation of cane sugar and the acquisition of domestic beet sugar, and for the sale of such sugars to refiners and other authorized users.

The Administrator's activities are regulated by Order in Council P.C. 3223 of October 21, 1939, as amended. Profits realized from the sale of sugar are, by authority of the Order, retained by the Administrator, and form a reserve for the stabilization of sugar prices in Canada. Surplus funds are invested in Dominion of Canada bonds. The investments are arranged through the Bank of Canada, and the securities are held by the Bank in safekeeping for the Administrator.

Financial transactions relating to the purchase and sale of sugar do not involve the Consolidated Revenue Fund; consequently, the accounts are regarded for audit purposes as similar to those of Crown corporations. Administrative expenses are not included in the accounts. They are paid by the Wartime Prices and Trade Board and charged to the allotment made from the War Appropriation for the Board's administrative expenses.

The regulations established by the Order provide that the Administrator's accounts be audited by the Auditor General. The accounts were audited for the Administrator's fiscal year ended August 31, 1944, and a report was made to the Wartime Prices and Trade Board.

## Department of Munitions and Supply

254. As at March 31, 1944, the Department had 27 companies in operation. Subsequently, 2 companies were incorporated and 11 ceased business. The new companies, with dates of incorporation, are:—

Turbo Research Limited—July 7, 1944  
Aero Meters Limited—August 22, 1944

and those which ceased business, with the relative dates, are:—

Machinery Service Limited—April 30, 1944  
War Assets Corporation Limited—July 11, 1944  
North West Purchasing Limited—October 31, 1944  
Cutting Tools and Gauges Limited—January 31, 1945  
Wartime Oils Limited—March 31, 1945  
Veneer Log Supply Limited—April 30, 1945  
Aero Meters Limited—May 31, 1945  
Atlas Plant Extension Limited—May 31, 1945  
Defence Communications Limited—June 30, 1945  
Polymer Sales & Service Limited—June 30, 1945  
Quebec Shipyards Ltd.—June 30, 1945

All, with the exception of Polymer Sales & Service Limited, actually ceased active operations prior to March 31, 1945. War Assets Corporation Limited was, of course, succeeded by the corporation created by the Surplus Crown Assets Act, c. 21, Statutes 1944-45.

255. The companies were incorporated under the authority of section 6 of the Department of Munitions and Supply Act, with the exception of Eldorado Mining and Refining. Order in Council P.C. 535 of January 27, 1944, made under the authority of the War Measures Act, directed that all issued capital stock of Eldorado Mining and Refining Limited, a company created under the Ontario Companies Act, be appropriated and vested in the Crown. It also declared the Company to be a body corporate and politic within the legislative authority of the Dominion of Canada. A charter was granted as of January 28, 1944, under the Dominion Companies Act, in the name of "Eldorado Mining and Refining".

256. Shares of the companies, other than directors' qualifying shares, are in the name of the Minister, and all directors have filed assignments of shares held. Allied War Supplies Corporation, Eldorado Mining and Refining and Wartime Metals Corporation were incorporated without share capital.

257. The agreements entered into between the Minister and the various companies were authorized in each case by the Governor in Council.

258. Section 6 of the Department of Munitions and Supply Act requires that the accounts of corporate bodies created for its purposes be audited by the Auditor General (in the case of Northern Transportation Company Limited, a subsidiary of Eldorado Mining and Refining, the audit obligation is imposed by resolution of the shareholders). The certified balance sheets and related statements are published in the Public Accounts, the period covered being the fiscal year ended March 31, 1945, with the following exceptions:—

Aero Motors Limited—August 22, 1944 (the date of incorporation) to May 31, 1945 (the date of ceasing business).

Atlas Plant Extension Limited—April 1, 1944, to May 31, 1945 (the date of ceasing business).

Cutting Tools and Gauges Limited—April 1, 1944, to January 31, 1945 (the date of ceasing business).

Defence Communications Limited—April 1, 1944, to June 30, 1945 (the date of ceasing business).

Eldorado Mining and Refining—January 28, 1944 (the date of incorporation) to December 31, 1944 (the end of the Corporation's fiscal year). For its subsidiary, Northern Transportation Company Limited, the period was for the subsidiary's fiscal year ended December 31, 1944.

Machinery Service Limited—April 1 to April 30, 1944 (the date of ceasing business).

North West Purchasing Limited—April 1 to October 31, 1944 (the date of ceasing business).

Polymer Sales & Service Limited—In this case two sets of statements are published: one for the year ended March 31, 1945, and one for the period from April 1 to June 30, 1945 (the date of ceasing business).

Quebec Shipyards Ltd.—April 1, 1944, to June 30, 1945 (the date of ceasing business).

Turbo Research Limited—July 7, 1944 (the date of incorporation) to March 31, 1945.

Veneer Log Supply Limited—September 1, 1944 (the commencement of the Company's fiscal year) to April 30, 1945 (the date of ceasing business).

War Assets Corporation Limited—April 1 to July 11, 1944 (the date of dissolution under the Surplus Crown Assets Act).

259. The companies maintain their books of account on an accrual basis in accordance with accepted commercial accounting practice, and thus conform with the requirements of sections 111 and 112 of the Dominion Companies Act. Their activities are, in general, financed by means of bank overdrafts guaranteed by the Crown.

260. Title to capital assets in use by the companies is vested in the Crown, with the exception of Eldorado Mining and Refining and Northern Transportation Company Limited, where title is vested in the companies. For this reason, apart from the exceptions mentioned, capital assets do not appear in the published balance sheets of the companies concerned, other than by way of footnotes giving the cost valuation of the Crown-owned capital assets in the companies' charge. In the cases of Wartime Housing Limited and Wartime Metals Corporation, capital expenditures appear in trust account sections of the published balance sheets because incurring of capital expenditures for the Crown is a purpose for which they were created. The capital assets in the charge of the companies totalled \$408,787,132.23 as at March 31, 1945, broadly classified as follows:—

Buildings, equipment, etc., used for manufacturing and operating purposes..	\$ 82,118,930 69
Dry cargo vessels and tankers in the charge of Park Steamship Company Limited. ....	251,563,208 22
Housing project assets in the charge of Wartime Housing Limited. ....	72,176,715 93
Other .....	2,928,277 39
	<u>\$408,787,132 23</u>

## AERO METERS LIMITED

261. This Company was incorporated to terminate the activity formerly carried on by Sutton-Horsley Company Limited, Leaside. The assets and liabilities of that Company had been previously taken over by the Crown and were transferred to the Crown Company as at June 30, 1944. The excess of assets over liabilities, after adjustment, was \$176,997.65. This does not take into consideration the extent to which materials, general stores and work in process proved to be surplus to requirements.

During the period from the Crown Company's inception to May 31, 1945, the value of goods delivered, on the basis of interim billing prices, totalled \$886,166.48. The cost of goods delivered was \$760,911.11 (after deducting \$429,939.48 for the cost of materials, general stores and work in process included in surplus declarations and contract termination claims). This left an excess of \$125,255.37 for the period under review. The amount was recorded in the Company's accounts, to the credit of Dominion of Canada Advances Account as at May 31, 1945. Aero Meters Limited ceased business on May 31, 1945. Its assets and liabilities were taken over by the Department.

## AERO TIMBER PRODUCTS LIMITED

262. This Company produced Sitka spruce logs in special aero grades, to sell to sawmill operators for conversion into aero grade lumber. Log felling and bucking operations were discontinued in April, 1944. However, for the balance of the fiscal year the Company continued to gather in its logs and to liquidate its inventories.

It was the Company's policy, during the period of its logging operations, to select special Sitka spruce trees and log them individually, leaving surrounding trees standing. This selective method of production necessarily resulted in higher logging costs than are ordinarily associated with general logging operations. On the other hand, the Company was directed to sell at existing price levels, which were considerably below its cost. By Order in Council P.C. 7394 of October 5, 1943, the Timber Controller was authorized to establish surcharges on the selling prices of aero grade lumber, with the object of recovering to the Company its production costs.

Net log sales for the year ended March 31, 1945, amounted to \$1,831,110.12. The cost of logs sold, including \$868,983.15 for the cost of logs acquired from sub-contractors, totalled \$2,657,314.26, while administrative expenses were \$66,897.76. To the resultant net operating loss of \$893,101.90 was added \$296,580.84 for bonuses paid to Queen Charlotte Island operators (to reimburse them for bonuses paid to employees who had worked more than 100 days continuously) together with \$28,082.49 (net) for cash discounts. After offsetting against net operating loss, as thus increased, \$1,386,032.20 for surcharge on lumber sales, a net profit for the year of \$168,266.97 resulted.

After applying this amount against the balance of \$3,296,448.07 at the debit of Deficit Account at the beginning of the fiscal year, the balance at the debit of that account as at March 31, 1945, was \$3,128,181.10. It is understood that the British Ministry of Supply, which was a heavy purchaser of aero grade lumber, has agreed to share in the ultimate deficit of the Company.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$1,012,406.89.

## ALLIED WAR SUPPLIES CORPORATION

263. This Corporation supervises, directs and administers Government-owned chemical, explosive and ammunition-filling projects which are operated by private contractors.

The projects are financed directly by the Department, and the expenditures incurred by the Corporation and recorded in its accounts are those relating to administrative costs. During the year ended March 31, 1945, these totalled \$468,501.80, including \$80,117.67 for the salaries and expenses of the Montreal office of the Director General of the Chemical and Explosives Production Branch of the Department.

## ATLAS PLANT EXTENSION LIMITED

264. This Company was created by reason of the relationship resulting from an agreement between the Crown and Atlas Steels Limited. It acted to May 31, 1945 (when it ceased business) as the financial intermediary between the Crown and Atlas Steels Limited, by making loans to the latter to extend its plant for war production purposes and to provide additional working capital. It also received repayments from Atlas Steels Limited.

Prior to May 31, 1945, all repayments required by the agreement to be made by Atlas Steels Limited out of its operating profits to December 31, 1944, had been received by the Crown Company. Order in Council P.C. 1174 of February 22, 1945, provided for the final settlement of the indebtedness to be effected by means of a transfer to the Crown Company of inventories to the total cost value of \$645,563.09, with a cash settlement for the balance then remaining. Settlement was made on that basis. The materials taken over by the Company in connection with this settlement were declared surplus by it to the Department.

In addition to acting in the capacity referred to above, the Company also made payments, on behalf of the Department, in connection with plant additions and machinery and equipment supplied as "capital assistance" to Atlas Steels Limited. The amounts so disbursed to March 31, 1944, totalled \$9,889,451.01, while \$145,697.66 was disbursed during the period under review, making a total of \$10,035,148.67 to May 31, 1945. Of this total, \$8,156,338.07 was for building additions and immovable equipment, title to which, as provided for by the governing orders in council, is vested in Atlas Steels Limited.

#### CITADEL MERCHANDISING CO. LIMITED

265. This Company acts, on the Department's behalf, in acquiring machine tools for the use of contractors authorized to receive capital assistance from the Crown. It also, on the Department's behalf, leases machine tools to contractors.

During the year ended March 31, 1945, expenditures for machine tools totalled \$2,744,772.13, compared with the corresponding total of \$30,263,814.24 during the preceding year. Machine tool rentals totalled \$447,104.11 for the year.

Administrative and warehouse expenses and special outlays totalled \$373,532.26. The "special outlays", totalling \$94,740.98, were for the salaries and expenses of the Machine Tool War Service Committee and of other related departmental agencies.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a book value of \$1,603,306.07. Of this total, \$391,251.66, mainly in warehouse buildings, was in use by the Company, while \$1,212,054.41, principally in machine tools, was held for disposal on behalf of the Department.

#### CUTTING TOOLS AND GAUGES LIMITED

266. This Company, which ceased business as of January 31, 1945, reprocessed worn and damaged cutting tools for manufacturers of munitions, and acquired and sold surplus cutting tools. It also acted in purchasing inspection gauges for delivery to the Inspection Board of the United Kingdom and Canada and other public agencies, and assisted industry generally in the procurement of shop gauges.

Gross income from service charges and sales of reprocessed cutting tools totalled \$144,142.04 for the period from April 1, 1944, to January 31, 1945, and the gross profit on sales of surplus cutting tools for the same period amounted to \$61,537.03. The total income was therefore \$205,679.07. Operating costs for the period were \$164,731.52, after deducting \$84,823.14 for the portion of administrative expenses applicable to services rendered by the Company in the procurement of gauges and cuttings tools, which amount was recovered from the Department. When the resultant net profit of \$40,947.55 was credited to Surplus Account, the balance at the credit of that account became \$62,679.67 as at January 31, 1945. This balance was cleared by a dividend paid to the Minister as representing the Crown. The assets were taken over and the liabilities assumed by the Department as at January 31, 1945.

#### DEFENCE COMMUNICATIONS LIMITED

267. This Company, which ceased business as of June 30, 1945, incurred expenditures, on behalf of the Department, in extending existing communications facilities in Eastern Canada and Newfoundland, and in constructing new facilities in those areas, in order to meet the enlarged requirements of the Armed Services. During the period from inception to June 30, 1945, works performed for the foregoing purposes had a recorded value of \$2,482,332.97.

Administrative expenses from April 1, 1944, to June 30, 1945, totalled \$147,591.13, and were applied, in the Company's accounts, against the advances received by it from the Department. The assets were taken over and the liabilities assumed by the Department as at June 30, 1945.

## ELDORADO MINING AND REFINING

268. Eldorado Mining and Refining Limited was a company incorporated under the laws of the Province of Ontario. On January 28, 1944, the Government of Canada appropriated its shares, tendering \$1.35 per share to the holders. On this basis, the cost was \$5,271,812.10.

The expropriating Order in Council, P.C. 535 of January 27, 1944, created a new corporation, Eldorado Mining and Refining, to take over the assets and assume the liabilities of the former company. This corporation is one without share capital.

As of January 28, 1944, the book value of the net assets of the former company was \$4,496,870.76. The appropriation of the shares costing \$5,271,812.10, there was a deficiency of \$774,941.34 between that sum and the book value of the net assets. This deficiency was charged to Capital Deficit Account.

Subsequent to January 28, 1944, the assets taken over were revalued:—

## Reductions—

Revaluation of marketable mining shares of other companies to market prices of January 28, 1944.....	\$ 29,572 50	
Revaluation of non-marketable mining shares and non-operational mining claims, to nominal value of \$7.....	1,521,999 00	
Deferred development expenses on non-operational mining claims (written off).....	177,746 27	
Sundry (net) .....	1,926 27	\$1,731,244 04

## Increases—

Inventories revalued to cost of production.....	222,991 50	
Capital assets revalued at net appraisal as at January 28, 1944..	474,435 96	
Investment in Northern Transportation Company Limited (a wholly owned subsidiary), revalued to book equity as at December 31, 1943, per certified balance sheet.....	71,647 36	769,074 82
		<u>\$ 962,169 22</u>

This \$962,169.22 was charged to Capital Deficit Account, as was also \$224,479.78 resulting from adjustments of accounts payable and accrued liabilities of the predecessor company, as at January 28, 1944.

Consequently, the balance at debit of Capital Deficit Account as at December 31, 1944, was \$1,961,590.34. This sum may be regarded as the deficiency between the recorded value of net assets (as adjusted) and the cost of acquisition by the Government of Canada.

Revenues from sales of ore concentrates and radium, together with custom refining income and radium rentals, totalled \$2,615,820.32 for the period from January 28 to December 31, 1944. Production costs, including selling and administrative expenses and special charges (net) amounted to \$2,385,881.20. There was therefore a profit of \$229,939.12 before providing for income and excess profits taxes. After providing \$103,464.25 for these taxes (taking the refundable portion of excess profits tax into consideration), the net profit for the period was \$126,474.87. This amount was carried to the credit of Surplus Account.

As at December 31, 1944, the capital assets of the Corporation totalled \$2,109,923.59, at adjusted valuations, while reserves for depreciation totalled \$336,791.60, giving a total net book value of \$1,773,131.99.

The published Balance Sheet as at December 31, 1944, carries the following explanatory footnote:—

Order in Council P.C. 3329 of May 7, 1945, recites that prior to the acquisition by His Majesty of all the shares of the capital stock of the predecessor Company, Eldorado Mining and Refining Limited, that Company had entered into certain agreements relating to the sale or other disposition of its products, respecting which agreements there is reason to suppose that there have been irregularities. The Order empowers the Minister of Munitions and Supply to cause an inquiry to be made into and concerning any or all matters relating to the affairs of Eldorado Mining and Refining Limited and the present Corporation (including matters relating to any sales or sales agency agreements entered into). The inquiry is now in progress and it may be established, as a result, that amounts are recoverable by the Corporation by reason of irregular transactions which may be found to have taken place.

The audit certificate was made subject to the foregoing observation, as the inquiry had not been completed when the audit report was delivered to the members of the corporation.

## FEDERAL AIRCRAFT LIMITED

269. This Company supervised the Anson production programme until it was terminated on March 31, 1945. Associated with this supervisory activity, the Company purchased, stored and distributed, under a centralized plan, certain aircraft materials and parts required by the

contractors engaged in the Anson production programme, together with Anson parts required as spares by R.C.A.F. establishments. Commencing August 28, 1944, the Company acted as an agent of War Assets Corporation in selling surplus Crown-owned aircraft parts and materials, including those accumulated in the hands of Anson contractors and in its own central stores. On October 1, 1944, the Company assumed supervision of various aircraft production programmes. This was made the subject of Order in Council P.C. 8493 of November 7, 1944, which defines the Company's duty as that of administering

all existing formal contracts heretofore administered by the Aircraft Production Branch of the Department of Munitions and Supply, as well as the negotiation and administration of all future contracts covering the manufacture, supply, overhaul and repair of aircraft in Canada, and all major parts, components and accessories of aircraft or the design, construction, equipment and operation of aircraft plants, overhaul plants and facilities for any such purposes.

Payments to contractors in connection with these programmes continued, however, to be made and recorded by the Departments concerned.

The adjusted value of Anson production work in process as at April 1, 1944, was \$13,199,654.81. Production costs amounted to \$6,598,768.84 for the year, while miscellaneous income totalled \$672,040.25. From the resultant net total of \$19,126,383.40, an amount of \$2,514,860.03 was deducted for the book value of aircraft parts and materials, in the hands of contractors, rendered surplus to requirements by the reduction in the production programme (exclusive of surplus parts and materials sold). Thus, \$16,611,523.37 was the recorded cost of completed Anson units delivered during the year.

The inventory of aircraft parts and materials in the Company's central stores was \$5,237,683.43 as at April 1, 1944. Parts and materials received during the year had a recorded value of \$9,352,319.20, while deliveries to contractors and to R.C.A.F. establishments, together with materials sold and sundry adjustments, totalled \$8,236,862.24. The \$6,353,140.39 balance represents the book value of parts and materials rendered surplus to requirements by reduction in the Anson production programme, and it was charged to the Department of Munitions and Supply as at March 31, 1945.

Warehouse expenses for the year totalled \$194,352.35, of which \$31,232.46 was charged to War Assets Corporation and \$28,843.90 to the Department, leaving an amount of \$134,275.99 to be absorbed in Anson production costs.

Proceeds from the sale of surplus aircraft parts and materials, under the agency arrangement with War Assets Corporation, totalled \$898,017.18 for the period from August 28, 1944, to March 31, 1945.

Administrative expenses were \$762,390.08 for the year, of which \$330,505.67 was charged to the Department (\$262,079.87 in respect of aircraft production supervision and \$68,425.80 in respect of Anson contract terminations), while \$34,764.57 was charged to War Assets Corporation for agency services rendered. The remaining \$397,119.84 was absorbed in Anson production costs.

#### MACHINERY SERVICE LIMITED

270. This Company, which ceased business as of April 30, 1944, acted in repairing machine tools for the account of Citadel Merchandising Co. Limited and for manufacturers of munitions.

Actual operations were discontinued towards the close of the preceding fiscal year, and expenditures incurred in April, 1944, were limited to administrative expenses associated with the winding up of the Company's affairs. These totalled \$8,790.75 and were charged to Deficit Account, making a balance of \$63,037.30 at the debit of that account as at April 30, 1944.

This Deficit Account balance was assumed by the Department as at April 30, 1944, and the assets were taken over and the liabilities assumed by Citadel Merchandising Co. Limited as at the same date. The custody, administration and control of the Crown-owned capital assets previously in use by the Company were also assumed at that date by Citadel Merchandising Co. Limited.

#### MELBOURNE MERCHANDISING LIMITED

271. This Company acquires and stores wool and other commodities and makes sales thereof, mainly to textile and other manufacturers having munitions contracts.

Sales during the year ended March 31, 1945, totalled \$15,390,050.83. Cost of sales being \$14,304,806.94, the resultant gross profit was \$1,085,243.89. Warehouse expenses were \$162,997.48; administrative expenses \$36,898.75, and special charges (net) were \$11,601.51. The net profit for the year was consequently \$873,746.15, and was credited to Surplus Account.

Surplus Account was also credited with \$500,000, transferred from reserve for losses on special sales of commodities expected to be made from stocks which may be found surplus to

Canadian military requirements. Other smaller credits to the account totalled \$80,931.50. A charge of \$1,600,000 was made to Surplus Account to set up a reserve for loss and damage of wool by fire. This was in respect of the fire which occurred at Depot Harbour on August 14, 1945. On that date the Company's accounts for the year had not been finally closed and therefore it was practical to establish such a reserve in the balance sheet for the year ended March 31, 1945. After recording the foregoing transactions, the balance remaining at the credit of Surplus Account was \$254,864.97 as at March 31, 1945.

The reserve for losses on special sales of commodities stood at \$1,661,400 as at March 31, 1945. Since no satisfactory basis exists for estimating the losses which may be suffered in future special sales, this reserve may, in part, be in the nature of a general reserve.

Inventories of wool and other commodities on hand as at March 31, 1945, totalled \$12,615,014.64, including \$846,886.98 for wool, wool tops, etc., in the hands of processors and manufacturers.

#### NATIONAL RAILWAYS MUNITIONS LIMITED

272. This Company manufactures naval guns and gun carriages. Directors and officers of the Canadian National Railways serve also as its directors and officers.

The value of goods delivered during the year ended March 31, 1945, on the basis of interim billing prices, together with \$186,342.30 for work completed under special orders, totalled \$5,214,311. The cost of goods delivered during the year amounted to \$2,666,132.61, leaving an excess of \$2,548,178.39 which was carried to Reserve for Adjustment of Interim Billings Account.

The balance at the credit of this reserve account as at March 31, 1944, was \$2,378.30. After adding the above-noted excess for the year, together with an adjustment of \$130,000 in respect of billings issued in previous years, the balance at the credit of the account was \$2,680,559.69 as at March 31, 1945. Inventories of materials and supplies and work in process on hand at that date totalled \$1,868,598.63.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$5,115,725.32.

#### NORTHERN TRANSPORTATION COMPANY LIMITED

273. This Company was a wholly owned subsidiary of Eldorado Mining and Refining Limited. Consequently, when the Crown appropriated the shares of Eldorado on January 28, 1944, Northern Transportation Company Limited became part of the public investment. The Company is engaged in transporting, by water, the general supplies required by the parent Company, together with the ore concentrates produced by that Company. The route traversed is that between Waterways, Alberta, and Port Radium, Northwest Territories. The Company, in addition, carries on a commercial transportation business serving the Mackenzie River District between Waterways and Aklavik.

Revenues for the year ended December 31, 1944, amounted to \$1,066,690.05. Operating and administrative expenses and special charges (net) totalled \$1,089,093.46, including \$108,904.47 for ordinary and special depreciation. The resultant net loss of \$22,403.41 for the year was charged to Surplus Account. After absorbing this charge, the balance remaining at the credit of Surplus Account was \$44,979.62 as at December 31, 1944.

As at December 31, 1944, the capital assets of the Company amounted to \$1,351,961.38, at cost, while reserves for depreciation totalled \$452,399.80, giving a net book value of \$899,561.58.

#### NORTH WEST PURCHASING LIMITED

274. This Company, which ceased business as of October 31, 1944, acted as a procurement agency to assist the United States Government in obtaining supplies from Canadian sources, for the construction, maintenance and operation of the highway to Alaska. Administrative expenses incurred by the Company during the period from April 1 to October 31, 1944, totalled \$17,454.68, and this amount was applied in the Company's accounts against the advances received by it from the Department.

#### PARK STEAMSHIP COMPANY LIMITED

275. This Company supervises and controls the operation of Crown-owned dry cargo vessels and tankers, through the medium of established Steamship Companies acting as managing operators.

Income for the year ended March 31, 1945, totalled \$63,648,691.08, while operating expenses were \$35,510,174.40, giving a net profit for the year of \$28,138,516.68. This does not include any charge for depreciation. Title to the dry cargo vessels and tankers being vested in the Crown, no depreciation thereon is recorded in the Company's accounts. The profits shown as earned by the Company may be regarded as recovery of capital expenditures. The profit accumulated from the Company's inception to March 31, 1945, was \$37,811,917.68.

Amounts recorded as profit include only profits from completed voyages for which accountings have been made by managing operators. There is also an accumulated balance of \$9,437,002.70 at the credit of Open Voyage Suspense Account as at March 31, 1945, representing the estimated net earnings from completed voyages for which accountings had not been received from managing operators up to the time the Company's accounts were closed for the year. The nature of the Company's activities is such that lapses of several months are often unavoidable between the date of completion of a voyage and the submission of the relative accounting by the managing operator concerned.

As at March 31, 1945, the Company had in its charge 136 dry cargo vessels and 19 tankers, with a total interim cost valuation of \$251,563,208.22.

#### POLYMER CORPORATION LIMITED

276. This Company manufactures Buna S and Butyl rubber and other products associated with the production thereof.

Sales of rubber and other products during the year ended March 31, 1945, totalled \$29,460,753.10, while the cost of sales amounted to \$25,383,240.59, giving an operating profit for the year of \$4,077,512.51. After deducting \$1,141,921.97 for pre-production expenses, previously deferred, and \$464,016.72 for preliminary plant alterations, etc., and adding miscellaneous credits totalling \$43,718.33, the net profit for the year was \$2,515,292.15. This was carried to Surplus Account.

Also credited to Surplus Account was \$84,824.59 for an adjustment (net) in respect of materials received from and supplied to Rubber Reserve Company (a United States Government corporation) in the previous year. Charges against the account were \$420,936.33 for the deficit as at March 31, 1944, and \$967,685.30 for the portion written off, of the administrative expenses capitalized during the period of plant construction. The resultant balance at the credit of Surplus Account was \$1,211,495.11 as at March 31, 1945. Inventories of materials and manufacturing supplies, work in process and finished goods totalled \$2,677,557.39 as at that date.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$48,820,758.80. Included in manufacture costs for the year was a charge of \$3,662,768.31 as a provision for replacements of these assets. This charge was based on the estimated replacement values of the several major units comprising the Crown-owned plant, at rates based on the estimated average operational life of the assets comprising each of the several units, for the periods during which the units had been in operation.

#### POLYMER SALES & SERVICE LIMITED

277. This Company (formerly Fairmont Company Limited) ceased business as of June 30, 1945. It acquired and stored crude and synthetic rubber and made sales thereof to manufacturers having contracts with the Crown for the production of war supplies, and to manufacturers engaged in essential civilian production.

As stated in Para. 252 of last year's report, stocks of rubber were revalued upwards in 1943 to the equivalent of current replacement prices, and an offsetting Inventory Appreciation Reserve established. Order in Council P.C. 5750 of July 20, 1943, authorized the Company to collect surcharges (based on tire deliveries) from the Department of National Defence and other organizations, for the proportion of rubber going into the production of war supplies, and also to collect from Commodity Prices Stabilization Corporation Limited amounts from time to time estimated for the loss incurred on the proportion of rubber going into the production of civilian goods.

The Company's sales of \$21,202,776.15 for the year ended March 31, 1945, plus surcharge and stabilization income of \$10,470,645.92, totalled \$31,673,422.07. The cost of sales (computed on the basis of the valuation established in 1943) totalled \$31,327,380.79. There was thus a gross profit of \$346,041.28. After deducting warehousing expenses of \$83,713.75, scrap

rubber expenses of \$137,087.22 and administrative expenses of \$78,812.67, and adding special adjustments (net) of \$22,015.41, there was a recorded net profit of \$68,443.05. This was credited to Surplus Account.

A special credit of \$1,134,551.56 to Surplus Account resulted from Inventory Appreciation Reserve being adjusted downwards to the difference between replacement cost and ceiling selling price value of an estimated normal five months' supply of crude rubber. On the other hand, a special charge of \$1,250,000 was made against Surplus Account to increase Reserve for Unascertained Losses and Other Contingencies from \$1,750,000 to \$3,000,000. This reserve exists to provide against losses which may result by reason of the fact that some irrevocable letters of credit were outstanding at the time of Japan's entry into the war. After recording these Surplus Account entries, the balance at the credit of the account was \$530,564.95 as at March 31, 1945.

As the Company ceased business on June 30, 1945, reference is now made to operating results for the three months' period. Sales totalled \$4,762,268.80, while subsidy and stabilization income amounted to \$1,570,844.54. The net profit totalled \$227,213.23 and was credited to Surplus Account.

A special charge of \$529,356.17 was entered against Surplus Account for the purpose of increasing the Inventory Appreciation Reserve. It was explained that the action was taken in anticipation of an early increase in the price of crude rubber. It was approved by Directors' resolution of June 13, 1945, "to protect the Company against loss in the event of changes in the price of crude rubber." The amount is the equivalent of 5-55 cents per pound of the crude rubber on hand at May 31, 1945. The Department of Munitions and Supply approved the action taken.

The audit certificate to the Balance Sheet as at June 30, 1945, is qualified by the following observation:—

An undisclosed general reserve exists to the extent that the amount shown for Inventory Appreciation Reserve is in excess of an amount equivalent to the difference between the inventories of crude and synthetic rubber at market value, and their ceiling selling price value as at June 30, 1945.

This qualification was considered necessary since the adjustment of the Reserve concerns possible increases in price which Polymer Corporation Limited, not Polymer Sales & Service Limited may be required to pay for crude rubber. No qualification would have been necessary had the balance in the Reserve been adjusted to an amount equivalent to the difference between the book value of the inventories, at the market prices in effect as at June 30, 1945, and the corresponding value computed at ceiling (or realizable) prices.

Having transferred \$529,356.17 from the Surplus Account, there remained \$228,422.01 to the credit of the account when the Company ceased business on June 30, 1945. This was cleared by a recorded distribution, prior to dissolution, of net assets to the Government of Canada. The Company's assets were thereupon taken over and its liabilities assumed by Polymer Corporation Limited.

#### QUEBEC SHIPYARDS LTD.

278. This Company, which ceased business as of June 30, 1945, operated the shipyards of Morton Engineering and Dry Dock Company Limited and George T. Davie & Sons Limited at Quebec and Lauzon, respectively. The use of these shipyards was appropriated under the authority of Order in Council P.C. 5526 of July 14, 1943. Quebec Shipyards Ltd. was financed by advances received from Wartime Shipbuilding Limited.

The recorded cost of ships in course of construction as at April 1, 1944, was \$12,579,516.10. Production costs from April 1, 1944, to June 30, 1945, totalled \$20,057,012.87. This included the recorded operating costs, to December 9, 1944, of the plant operated on behalf of the Department by Anglo-Canadian Pulp & Paper Mills Limited, Shipbuilding Division, in fitting out certain ships launched by the Company.

After deducting from the \$12,579,516.10 and \$20,057,012.87 totals referred to in the preceding paragraph, \$2,318,653.69 for the cost of work in process turned over to the Morton and Davie Companies (thereafter operating under contract with the Department) and \$1,027,241.86 for the cost of commercial work completed, the recorded cost of ships delivered during the period under review was \$29,290,633.42.

The Crown-owned capital assets in the yard of the Davie Company were returned to the charge of that Company, along with its own assets, on June 30, 1944. As from December 9, 1944, the Crown-owned capital assets previously in the charge of Anglo-Canadian Pulp & Paper Mills Limited, Shipbuilding Division, were used in the Crown Company's operations.

These assets, along with those in the charge of the Morton Company prior to the incorporation of the Crown Company, were placed in or returned to the charge of the Morton Company, along with its own assets, on February 28, 1945.

#### RESEARCH ENTERPRISES LIMITED

279. This Company manufactures special technical equipment of various kinds. Goods delivered during the year ended March 31, 1945, had a value of \$59,612,868.39, on the basis of interim billing prices established by the Pricing Committee of the Department (after giving effect to an adjustment of \$5,000,000 in the Department's favour in respect of charges made during the year). Production costs amounted to \$57,295,845.08, while special charges (net) were \$1,972,181.21, a total of \$59,268,026.29. The \$344,842.10 balance was carried to Reserve for Adjustment of Interim Billings Account, which amounted to \$7,436,953.44 as at March 31, 1945.

At the fiscal year-end the Company established a reserve of \$15,000,000 to provide for adjustments anticipated with respect to materials rendered surplus to requirements. Of this amount, \$10,000,000 was regarded as applicable to contract terminations, and was offset against advances received from the Department. After deducting the reserve amount from the book value of inventories, their net value was \$22,505,974.61 as at March 31, 1945.

By Directors' resolution, a reserve of \$1,500,000 was established as at March 31, 1944, for the cost of research and experimental services rendered by the National Research Council. Charges entered against the account during the year under review amounted to \$174,646.33. A further \$1,000,000 was added to the reserve in the year, with the result that the balance at credit of this reserve account was \$2,325,353.67 as at March 31, 1945.

Experimental and administrative expenses of \$140,130.75, incurred by Turbo Research Limited during the period from July 7, 1944, the date of incorporation, to March 31, 1945, were borne by Research Enterprises Limited, in accordance with the terms of an agreement between these companies and the Minister, as authorized by Order in Council P.C. 5932 of July 28, 1944.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$8,522,177.02.

#### SMALL ARMS LIMITED

280. This Company manufactures rifles and other small arms. Goods delivered during the year ended March 31, 1945, had a value of \$9,832,514.16, on the basis of authorized interim billing prices fixed by the Pricing Committee of the Department. The cost of the deliveries amounted to \$8,445,149.99, leaving an excess of \$1,387,364.17 for the year, which was carried to Reserve for Adjustment of Interim Billings Account, supplementing the balance of \$911,450.63 in this account at the beginning of the year. Charges to the reserve account during the year were \$299,427.57 for import and sales taxes applicable to tools, gauges, cutters and fixtures purchased in previous years, and \$905,787.77 for refunds made in respect of goods delivered during the year ended March 31, 1944. The resultant balance at credit of the account as at March 31, 1945, was \$1,093,599.46. Inventories of materials, work in process and finished goods on hand at the end of the fiscal year totalled \$1,660,542.82.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$7,576,917.96.

#### TURBO RESEARCH LIMITED

281. This Company is engaged in research work with respect to gas turbines and rocket propulsion. It operates under an agreement with the Minister and Research Enterprises Limited. This provides that its expenses are to be reimbursed by Research Enterprises.

During the period from July 7, 1944, the date of incorporation, to March 31, 1945, engineering and experimental expenses amounted to \$126,156.57, while administrative expenses amounted to \$13,974.18, a total of \$140,130.75.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$181,503.87.

#### VENEER LOG SUPPLY LIMITED

282. This Company (it ceased business as of April 30, 1945) acted in acquiring logs suitable for the production of aircraft veneer, for resale to Canadian veneer manufacturers and for export to the United Kingdom.

The Company's fiscal year-end was August 31st, and during the year ended August 31, 1944, net sales amounted to \$1,915,697.86. Purchases during that year were \$1,710,009.95, while log inspection and administrative expenses totalled \$96,910.52. The resultant net profit of \$108,777.39 for the year was credited to Surplus Account, giving a balance of \$243,689.71 in that account as at August 31, 1944.

Subsequent to August 31, 1944, no further purchases or sales of logs were made, but the Company acted in a supervisory capacity in connection with contracts entered into with logging contractors by Canadian veneer manufacturers and the British Ministry of Supply. Log inspection and administrative expenses totalled \$14,313.35 during the period from September 1, 1944, to April 30, 1945. After charging this amount to Surplus Account, and crediting that account with adjustments totalling \$4,200.78, the resultant credit balance of \$233,577.14 at April 30, 1945, was cleared from the account by recording a distribution of net assets to the Crown, preparatory to dissolution. The assets were taken over and the liabilities assumed by the Department as at April 30, 1945.

#### VICTORY AIRCRAFT LIMITED

283. This Company manufactures heavy bombers. During the year ended March 31, 1945, Lancaster aircraft and spares delivered were valued at \$72,208,924, on basis of interim billing prices, as set by the Department. Production costs totalled \$66,749,894.84, after deducting \$3,122,450.67 for the costs incurred in connection with special orders, leaving an excess of \$5,459,029.16 which was carried to Reserve for Adjustment of Interim Billings Account. After absorbing the debit balance of \$3,866,838.38 brought forward from the previous year, the balance at the credit of this account as at March 31, 1945, was \$1,592,190.78. As at March 31, 1945, inventories of materials, general stores, work in process and finished goods had a book value of \$26,415,062.58.

The Company's accounts do not reflect the value of engines, propellers, etc., supplied free of charge by the United Kingdom, or the value of unbilled aircraft parts and materials received from the Department.

As at March 31, 1945, the Company had in its charge Crown-owned capital assets with a cost valuation of \$7,036,304.20.

#### WAR ASSETS CORPORATION LIMITED

284. This Company was incorporated in anticipation of legislation regulating the disposal of surplus Crown assets. \$250,000 was subscribed by the Department as share capital for the financing of its operations. Section 19 of the Surplus Crown Assets Act, c. 21, Statutes 1944, dissolved the Company, and its assets and liabilities were transferred to the new corporation, War Assets Corporation, on July 11, 1944.

Order in Council P.C. 3500 of May 11, 1944, authorized the Company to retain a commission of 3 per cent in connection with the sales made of surplus Crown assets. During the period from April 1 to July 11, 1944, net proceeds from sales, after deducting the authorized commission, totalled \$374,254.39, and this amount was recorded to the credit of the Receiver General.

Administrative expenses during the period from April 1 to July 11, 1944, totalled \$35,240.18. After deducting \$11,574.87 for commissions earned, the net expenditure of \$23,665.31 was charged to Preliminary Administrative Expenses Account, enlarging the opening balance of \$14,598.36 at the debit of the account to \$38,263.67 as at July 11, 1944.

#### WAR SUPPLIES LIMITED

285. This Company contracts with departments and agencies of the United States Government for the supply of munitions and supplies manufactured in Canada. Contracts with Canadian suppliers are placed by the Department to cover commitments made by the Company.

As at April 1, 1944, the amount recorded by the Company as due from the United States Government was \$71,557,035.22 U.S. This included \$33,500,000 U.S. as the estimated value of shipments made but not yet invoiced as at that date. During the year ended March 31, 1945, shipments made totalled \$225,177,864.08 U.S., while collections deposited to the credit of the Receiver General of Canada amounted to \$245,910,441.99 U.S. The resultant balance remaining due as at March 31, 1945, was \$50,824,457.31 U.S., which includes \$27,-000,000 U.S. as the estimated value of shipments made but not yet invoiced as at that date.

Administrative expenses charged in the Company's accounts for the year ended March 31, 1945, totalled \$68,017.67 U.S. Office accommodation and other services were received free of charge from the British Supply Mission, Washington, to January 1, 1945. The Mission had not submitted its accounts for January, February and March by the time the Company's accounts for the year were closed.

The charges made to departments and agencies of the United States Government, on the basis of existing contracts, are subject to final adjustment in accordance with the provisions of an agreement regarding the limitation of profits by Canadian contractors and of capital expenditure recoveries by the Government of Canada. To March 31, 1945, interim refunds totalling \$50,000,000 U.S. had been made, on the Company's behalf, to the War Department and the Maritime Commission, on account of the anticipated liability in this connection.

#### WARTIME HOUSING LIMITED

286. This Company constructs and operates housing projects to accommodate war workers and returned service men.

The capital expenditure incurred for each project is authorized by order in council. To March 31, 1944, capital expenditures incurred in connection with authorized projects, under administration by the Company, were \$65,986,870.38, and a further \$6,189,845.55 was spent during the year ended March 31, 1945. The total expenditure to March 31, 1945, was therefore \$72,176,715.93 and was represented by: land, \$1,195,788.08; land improvements, \$12,106,263.23; buildings, \$56,198,535.87; and equipment, furnishings, etc., \$2,676,128.75.

Housing rentals were \$5,363,236.14 for the year ended March 31, 1945, while operating expenses amounted to \$2,483,739.75. This includes \$298,950.71 for the net cost of operating staff houses, and \$280,317.23 for the net cost of operating cafeterias. From the resultant housing project operating profit of \$2,879,496.39 was deducted \$455,923.88 for head office administrative expenses, while \$151,828.59 was added for miscellaneous income and other credits. The net profit for the year was thus \$2,575,401.10. This result is achieved without including any charge for building depreciation. Title to housing projects is vested in the Crown, and although a reserve has been established for the replacement of the equipment, furnishings, etc., no depreciation of buildings is recorded in the Company's accounts. The profits shown as earned by the Company may be regarded as recovery of the capital expenditures incurred in connection with housing project buildings. The profit accumulated from the Company's inception to March 31, 1945, was \$5,288,696.21.

The Company also undertakes special projects, including the development of municipal services at cities where housing projects are located, and the erection or rehabilitation of buildings for the use of Government departments. These expenditures, which are recoverable, totalled \$2,634,934.73 as at April 1, 1944. Expenditures were \$398,644.33 and recoveries \$1,198,284.47 in the year. There was therefore \$1,835,294.59 recoverable as at March 31, 1945.

#### WARTIME METALS CORPORATION

287. This Corporation has acted in developing and operating marginal and sub-marginal base metal mining properties, and in addition it supervised a number of other such properties on behalf of the Department. Costs incurred with respect to the latter properties were not recorded in the Corporation's accounts, being regarded as departmental expenditures.

To March 31, 1945, capital expenditures had been incurred on six projects. Of these, 4 were closed down as at that date; one was in "stand-by" status, and the other was in operation.

Sales of metal and mineral concentrates, including deliveries, billed at cost, for the account of the Department, totalled \$909,449.88 for the year ended March 31, 1945. Mining and milling expenses and other direct costs, including royalties, totalled \$956,778.05, the resultant loss on mining and milling operations for the year being \$47,328.17. After adding \$56,903.27 for head office administrative expenses and \$28,163.50 for expenses incurred in closing down mining projects, together with other charges (net) of \$2,056.76, the net loss for the year was \$134,451.70. After charging this net loss, the balance at the debit of Deficit Account as at March 31, 1945, was \$328,515.46, this balance being applied, in the Corporation's accounts, against the advances received by it from the Department.

## WARTIME OILS LIMITED

288. This Company, which ceased business as of March 31, 1945, acted in making advances to oil drilling and exploration companies for the drilling of wells in marginal and sub-marginal areas of the Turner Valley oil field.

Advances are recoverable from production, to the extent that surpluses remain, month by month, after production expenses and royalties have been paid. To March 31, 1945, advances totalling \$3,874,763.88 had been made in connection with 21 wells which were brought into production. Repayments in respect of these advances totalled \$667,607.31, leaving \$3,207,156.57 outstanding as at March 31, 1945.

Advances of \$228,632.28 were made in connection with one well which was not brought into production and was abandoned. After allowing for an estimated realizable value of \$16,000 for drilling equipment, the loss on these advances was \$212,632.28, and was applied in the Company's accounts against the advances received by it from the Department.

Administrative expenses incurred by the Company during the year ended March 31, 1945, totalled \$20,233.18. The assets were taken over and the liabilities assumed by the Department as at March 31, 1945.

## WARTIME SHIPBUILDING LIMITED

289. This Company finances and supervises both the cargo shipbuilding programme and the naval shipbuilding programme (except wooden ships and small boats) on behalf of the Department.

The recorded value of ships in course of construction, including ship conversion work in process, at the commencement of the fiscal year, was \$124,607,207.38. During the year construction costs and expenses totalled \$245,473,375.93, while the interim billing price of ships delivered and conversion work completed during the year was \$284,427,156.21. The resultant recorded value of ships in course of construction, including ship conversion work in process, was \$85,653,427.10, as at March 31, 1945.

To March 31, 1945, the cumulative total of billings issued at authorized interim billing prices, with respect to ships delivered, exceeded the cumulative total of the estimated costs thereof by \$4,643,410.42. This amount was carried at the credit of Interim Billings Adjustment Account in the Company's records as at that date.

Administrative expenses of the Company during the year totalled \$942,261.90.

## Department of Reconstruction

## WAR ASSETS CORPORATION

290. This Corporation, which is established by the Surplus Crown Assets Act, was organized on July 12, 1944. Its function is to dispose of surplus Crown assets. In addition, the Corporation acts for the Department of Reconstruction and other government departments in performing special services, including, to March 31, 1945:—

- (a) rehabilitation of property of contractors whose plants had been added to or altered for the performance of contracts with the Department of Munitions and Supply;
- (b) settlement of property leases when no longer required for war purposes, including the rehabilitating of the premises;
- (c) scrapping of war property, including munitions, where offsetting revenue is negligible.

In accordance with the provisions of the Act, the Corporation took possession of all property and assets of, and assumed all obligations and liabilities of or incurred by the predecessor company, War Assets Corporation Limited. The balance due the Receiver General by that company, and thus assumed by the Corporation, as at July 12, 1944, was \$331,198. During the period from July 12, 1944, to March 31, 1945, gross proceeds from sales of surplus Crown assets totalled \$9,116,131.55. Direct charges and operating expenses deductible from gross proceeds totalled \$418,611.77, while the percentage retained by the Corporation in accordance with section 15 of the Act amounted to \$260,925.59, the resultant net proceeds from sales being \$8,436,594.19. After deducting remittances made to the Receiver General during the period under review, the balance owing the Receiver General was \$2,055,800.44 as at March 31, 1945.

The income earned by the Corporation between July 12, 1944, and March 31, 1945, and applied towards meeting its administrative expenses, totalled \$261,617.77. This is represented almost entirely by the \$260,925.59 authorized percentage retained from net proceeds of sales.

No fees had been settled, before the accounts were closed, with respect to special agency services rendered to the Department of Reconstruction and other departments. Administrative expenses for the period were \$799,948.72, which includes \$38,263.67 for the preliminary expenses of the predecessor company. The resultant excess of expenditure over income for the period was, therefore, \$538,330.95.

291. Section 18 of the Act reads:—

18. The corporation shall, as soon as possible after the thirty-first day of March in each year, and in any event within three months thereof, submit an annual report to the Minister in such form as the Auditor General may prescribe, containing in reasonable detail particulars of surplus Crown assets, sold or otherwise disposed of during the accounting period, and the Minister shall lay the said report before Parliament.

The Corporation was requested to state what it considered to be feasible and in the public interest. The material part of the President's reply, dated November 28, 1944, is:—

A review of our experience with operations to date, in my opinion, would indicate that the form of the annual report to be submitted to the Honourable the Minister should embrace the following:—

1. Report to the Minister by the President of the Corporation, covering, generally, such matters as:
  - (a) Policies which have been adopted and those contemplated with respect to disposal of surplus assets, the results achieved thereby and anticipated trends;
  - (b) Comments on operating costs;
  - (c) Points of interest relating to major specific assets and special types of stores transferred to the Corporation awaiting disposal action;
  - (d) Comments with respect to warehousing and security measures taken to protect the Crown's interest;
  - (e) General comments on matters that will engage the attention of the Corporation but are not presently apparent.
2. Balance Sheet.
3. Operating Statement, showing revenue and administrative expenses in reasonable detail, following, substantially, the form of the interim monthly statements that are now being prepared.
4. Analysis of Liability to the Receiver General of Canada, showing:
  - (a) Net proceeds realized from the sale of surplus Crown assets;
  - (b) Less amount of authorized deduction from the net proceeds as per paragraph (a), representing revenue to the Corporation;
  - (c) Less amount of remittances to date.
5. Statistical analysis of net proceeds of sales, for the account of the Receiver General of Canada, by the Corporation's Disposal Divisions, which presently are as follows:
  - Aircraft
  - Consumer Goods
  - Durable Goods
  - Mechanical
  - Radio and Radar
  - Real Estate
  - Steel

These would be further broken down in broad categories by types of stores and the whole of the foregoing would reconcile with figures disclosed in 4 (a) above.

Considerable study is being given to this phase and it is believed that the information to be contained therein might be supplemental to the report, but of such a character that it would bring out the salient features of assets sold or otherwise disposed of during the period. In fact, you may decide it should form a constituent part of the report.

Assets authorized to be consigned or transferred to the Corporation for disposal on behalf of other Governments, e.g., United States, United Kingdom, etc., would be treated separately, on their merits, the net proceeds, less the Corporation's authorized deduction for administrative expenses, accruing to the credit of the respective Governments. The financial position would be reflected in the Balance Sheet.

On December 6, 1944, the following letter was addressed by me to the President:—

I have your letter of November 28th with respect to the annual report to Parliament of War Assets Corporation, as required by section 18 of the Surplus Crown Assets Act.

A reading of the discussion in the House of Commons prompts me to lean to the view that perhaps the House expects more than a statistical analysis of net proceeds of sales (Item 5 of your letter). It may be that you so plan. That is, major or exceptional sales in a category will be shown individually. For example, it may well be that Parliament will be equally interested in the liquidation of a substantial investment, by the taking of a loss, as it will be in a liquidation which results in a profit.

Assuming such a possibility is being anticipated in your plans, the outline you give, I think, should result in a comprehensive report for 1944-45.

## BALANCE SHEET ACCOUNTS

The observations which follow are with respect to various accounts in the Balance Sheet of Canada.

### Assistance to Indians

292. Section 94B of the Indian Act authorizes the granting of loans for co-operative projects. These are made subject to such terms and conditions as the Governor in Council may stipulate. The principal is listed in Loans and Advances, Schedule G to the Balance Sheet, and the amount outstanding at March 31, 1945, was \$3,098.18, along with \$48.32 by way of matured interest. During the year the attention of the Department was drawn to the fact that interest, amounting to \$6,697.26, had been credited in error to the account over a period of years. The money was transferred to Revenue.

### Civil Service Insurance Fund

293. Premium income during the fiscal year was \$372,146.10, and 6 per cent interest, amounting to \$1,020,244.35, was added to the fund. Death claims of \$330,023.82 and payments on surrendered policies amounting to \$44,477.19 were charged to the account. The balance of the fund at March 31, 1945, was \$18,019,711.73.

### Civil Service Superannuation Account

294. The amount standing to the credit of this account at March 31, 1945, was \$79,147.-228.02, which is a net increase of \$11,694,628.13 in the fiscal year. Credits to the account were:—

Contributors' payments .....	\$3,503,568 47
Government's contribution .....	2,340,793 07
Interest .....	2,701,150 74
Retirement Fund transfers .....	7,606,263 07
No. 2 Fund transfer.....	1,655,010 66

A 1944 amendment to the Civil Service Superannuation Act granted to 3,500 contributors to the Retirement Fund an opportunity to transfer to the Superannuation Act's plan, and about 2,500 did so by March 31st. This resulted in \$7,606,263.07 being transferred from Retirement Fund to the credit of the Superannuation Account. The 1944 legislation directed that Superannuation Fund No. 2 be closed. This fund existed for a pension scheme which is no longer utilized to make pension awards. The \$1,655,010.66 balance to the credit of the fund was transferred to the Superannuation Account, which is now liable for payments to 20 annuitants who were granted pension under the old scheme. As of April 1, 1945, the annual cost of these 20 annuities was \$23,108.68. Expenditures charged to the Superannuation Accounts totalled \$6,112,157.88 in the fiscal year 1944-45. Annuity payments of \$5,830,404.31 and withdrawal allowances totalling \$224,834.41 were the principal items.

295. The definition "civil servant" was extended by the 1944 amendments to include any employee in the Civil Service who is certified or determined pursuant to regulations made under the Act or designated by the Treasury Board to be for the purpose of the Act a permanent employee. Regulations were approved by Order in Council P.C. 38/1731 of March 14, 1945. Among requirements are that the employee must have five years' continuous service in a position of continuing indeterminate duration and submit a medical certificate as required by section 3 (2) of the Act. Prior to the promulgation of these regulations, Treasury Board designated 1,794 employees. All were reported as being in positions of continuing indeterminate duration, with over five years' continuous service to their credit. No medical certificates were required. Many were over retiring age. The titles and rates of pay schedules indicate that numerous positions had never been classified by the Civil Service Commission, nor had rates of pay been approved.

## Contractors' Security Account

296. Contractors are required, by section 16 of the Public Works Act, to furnish security for the satisfactory performance of work. Cash deposits totalled \$2,477,034.73 at March 31, 1945. Interest at the rate of 2 per cent is allowed on deposits. Government bonds may also be deposited as security by contractors. These are held in custody by the Minister of Finance, but the value is not recorded in this account.

## Government Annuities

297. The Government Annuities Act, c. 7, R.S., empowers the Governor in Council to set the interest rate to be used in computing the value of annuities. In 1908, the year of enactment, a 4 per cent rate was authorized, and it has never been changed. Another provision calls for the return of purchase moneys, improved by interest, when an annuitant dies before his contract becomes payable. The 1908 legislation set a 3 per cent interest rate for this purpose. It was increased to 4 per cent in 1920. Attention is drawn to these interest rates because, for a number of years, public borrowings have been effected at 3 per cent.

298. Section 4(b) of the Government Annuities Act authorizes the sale

of an immediate or deferred annuity to any two persons... during their joint lives, and with or without continuation to the survivor.

No provision is made for the sale of joint annuities guaranteed for a term of years certain, but contracts of this nature were entered into freely and their legality was not doubted until 1944. Annuities officers had construed an opinion given by the Deputy Minister of Justice in 1911, covering an unusual individual case, as providing authority to enter into such contracts. The Justice Department had also approved a form of contract. A contract was referred to the Deputy Minister of Justice in 1944, to establish the legality of payments for a guaranteed term of years to the estate of a last surviving annuitant. Several changes had been made in the terms of this contract, all of which were stated by the Justice Department as made without authority. An extract from the opinion given by the Deputy Minister of Justice on November 14, 1944, is:—

- (a) the Minister has no authority to convert an annuity payable to one person into a joint annuity payable to two persons;
- (b) the Minister has no authority to enter into a last survivor annuity for a guaranteed period;
- (c) the Minister has no authority to convert a joint annuity into an annuity on the life of one person;
- (d) the date of maturity of a contract cannot be altered after the death of one of the annuitants.

Further sales of joint annuities, guaranteed for a number of years certain, were suspended. The Deputy Minister of Labour advises that legislative amendments are under consideration. It is presumed that if these are recommended to Parliament, suitable provision will be made to correct the situation with respect to the existing contracts, 1,451 of which were vested as at March 31, 1945.

299. An executive direction, given by use of section 48 of the Consolidated Revenue and Audit Act, 1931, requires returns of premiums to be pre-audited. Doubt being entertained as to the extent of the administrative discretion, two certificates were refused in order to have the scope of authority determined. In one case, the holder of a contract applied for refund of certain premiums on the ground that he had believed, when the payments were made, that the annuity would not be taxable. Subsequently he had learned he was in error. In this instance no misrepresentation was alleged. The Deputy Minister of Justice supported the viewpoint of the Audit Office, namely, that as no misrepresentation had been shown when the annuity was purchased, the contract was irrevocable and, consequently, there was no authority to return moneys paid. The second case was one where there had been misrepresentation as to taxation status when the contract was made. The proposed settlement provided for the cancellation of the contract and return of premiums with 3 per cent interest, all to be a charge to the Annuities account. The sum representing interest was queried, (a) as an improper charge to the account, and (b) as it was by way of damages, the Minister lacked power to pay the amount. The matter was settled by the Governor in Council authorizing the payment as a charge to the 1945-46 vote for the administration of the Annuities Act.

300. In 1931 the following amendment was made to the Annuities Act:

An annuity shall not be granted or issued on the life of any person other than the actual annuitant, nor for an amount less than ten dollars a year; and the total amount payable by way of an annuity or annuities to any annuitant or to joint annuitants shall not exceed twelve hundred dollars a year.

This Act shall not affect any existing contract for an annuity.

Prior to 1931, an arrangement had been made with the Director of Technical Education of the Province of Quebec whereby professors engaged in various technical schools would be covered by a group scheme. Such a plan is permissive by the Act:—

Employers of labour may, pursuant to agreement entered into with their employees in that behalf, such agreement to be of a form approved by the Minister, contract with His Majesty for the sale to such of their employees as are domiciled in Canada of annuities otherwise purchasable by such employees as individuals under this Act;...

Each professor contributes 5 per cent of his salary and the Province pays a like amount, so long as the individual is in its employ. A contract is issued in the name of the person concerned. As many of the teachers start payments at a relatively early age, the expectancy is that, when the annuity becomes payable, the amount will exceed \$1,200 annually. This presents no problem so far as contracts made prior to 1931 are concerned. It may be with respect to those issued subsequently. The views of the Department were solicited. It has furnished a copy of an opinion given by the Deputy Minister of Justice on September 29, 1931, the material part of which is:—

...I may say that upon consideration of the documents submitted I am of opinion that, although there appears to be no formal document evidencing the agreement entered into by your Department with the Province of Quebec, there was nevertheless an arrangement entered into under the authority of section 6 of the Government Annuities Act whereby your Department undertook to sell annuities upon the terms of certain regulations duly made in that behalf to members of the staff of the technical schools in Quebec, whether theretofore or thereafter appointed, and I think the arrangement thus entered into is a contract within the meaning of section 2 of the amending Act of this year. It follows, therefore, that persons joining the said staff subsequent to the amending Act are entitled to annuity contracts upon the same basis as those who joined previously thereto.

Regardless of what may be permissive by the legislation, the practice does not appear to be in harmony with the objective of the amending legislation, and it is for this reason that attention is drawn to the matter.

### Government Officers' Guarantee Fund

301. There was a net increase of \$72,490.79 in this fund during the year, the balance at March 31, 1945, being \$372,999.17. Premium receipts, at the rate of 20 cents per \$100, totalled \$64,513.02, and interest at 2½ per cent per annum totalled \$8,752.80. Payments in respect of 3 defealcations amounted to \$904.74, while a small amount of \$129.71 was received on account of a defealcation in preceding years. As premium payments are charged against departmental appropriations, the Crown both pays and receives the benefit. Consequently, this method of bonding government employees is designed primarily to serve an accounting purpose. The interest on the fund for the year was more than sufficient to cover defealcation claims. As no public object is achieved by accumulating credits beyond normal needs, a reduction or discontinuance of premium payments should be considered.

### Immigration Guarantee and Special Funds

302. At March 31, 1945, the balance in this account, appearing in the Balance Sheet under Schedule R, Sundry Suspense Accounts, was \$435,323.68, made up of the following:—

Cash bonds as security for entry.....	\$ 32,550 00
Deposits for deserters .....	373,256 79
Miscellaneous .....	29,516 89
	<hr/>
	\$435,323 68

303. The deposits in connection with deserters are collected from owners of vessels in accordance with section 53 of the Immigration Act, c. 93, R.S., and are held in this Fund without interest, pending apprehension of the deserter. In the event of failure to apprehend the deserter, section 53 (9) applies:—

53. (9) In case such deserter fails to return to the vessel or is not deported under the provisions of this Act within a period of three years from the date such deposit was made, the Minister may, in his discretion, direct that such deposit be forfeited to His Majesty or that it be returned to the depositor; provided that no such deposit shall be so returned until the depositor has furnished such security as the Minister considers necessary to insure that any expense incurred by His Majesty in the detention, maintenance, transportation, subsistence, medical or hospital treatment or deportation in case such deserter shall be found in Canada after the return of such deposit, shall be paid by the depositor.

Departmental attention has been drawn to the fact that many deposits have been held for 20 years or longer. The Department is reviewing these accounts to the end that all that may properly be treated as revenue be credited to Revenue Account.

## Indian Trust Fund

304. The balance in the Indian Trust Fund (Schedule N to the Balance Sheet) was \$16,637,651.37 as of March 31, 1945. The Fund consists of a Capital account, \$13,061,711.84, and a Revenue account, \$3,575,939.53. The Fund, as a whole, has increased \$2,827,002.69 in the past ten years, the increase in the last fiscal year being \$844,466.90. There are 462 Band accounts, each being a separate trust. All administrative costs are charged to parliamentary appropriations.

305. Capital and Revenue accounts' receipts and disbursements were:—

306. In addition to the cash balance in the Fund, \$415,265.58 is owing on land sale agreements, \$47,315.56 on account of loans and \$13,996.93 on sales of timber. It is estimated that current rental leases should produce \$1,712,490.95, if payments are made as they mature.

307. Sales of lands and timber have increased the sum standing to the credit of Capital account. Moneys in Capital are disbursed with Indian Band and Governor in Council approval for the capital purposes which are set out in the Indian Act.

308. The chief source of income to the Revenue account is by way of interest payments by the Crown for the use of Fund moneys. Six per cent is paid on a portion, but 5 per cent is

the more general rate. It was authorized by the Governor in Council on June 5, 1917. Disbursements are regulated by the Indian Act. Payments consist of (a) cash distributions to all members of a Band, (b) relief to the sick, indigent or needy, and (c) assistance to improve means of livelihood on the reserves, in agriculture, fishing, mining, lumbering, etc.

### King's Printer's Advance Account

309. The statutory advance of \$700,000 may be supplemented by \$1,300,000 from War Appropriation under authority of Order in Council P.C. 124/7590 of October 1, 1943. To this total of \$2,000,000 is added amounts due the King's Printer, under current billings, by the Houses of Parliament and departments.

310. At the close of the year, the total outstanding as a charge to the Advance Account was \$2,223,524.82 (Departmental Working Capital Advance—Schedule B), composed of:—

Statutory .....	\$1,832,299 54
War Appropriation .....	391,225 28
	<hr/>
	\$2,223,524 82

### Munitions and Supply Suspense Account

312. Shown in the liabilities in the Balance Sheet, under the classification Sundry Suspense Accounts, is an item of \$40,063,237.19. This consists of moneys received but held in suspense at March 31, 1945, pending decision as to the Governments, or accounts, which should receive the benefit. The major portion is the result of refunds by contractors of profits, after cost audits by the Treasury and the renegotiation of contracts by the Department. Also included are moneys received from Park Steamship Company Limited, a Crown corporation, being funds which are in the nature of deferred revenue, because they represent earnings from voyages for which the accounts had not been closed at the year-end.

## Northwest Territories Account

313. Net revenues from the sale of alcoholic beverages and proceeds of fines resulting from infractions of the ordinance are held in a special account (Schedule N to the Balance Sheet). Transactions are regulated by an ordinance made under the authority of section 10 of the Northwest Territories Act. A statement of the account since it was opened in 1939 is:—

Receipts—			
Profits from sale of alcoholic beverages.....	\$388,977	47	
Fines .....	3,894	03	\$392,871 50
Disbursements—

314. In the fiscal year 1944-45 receipts were \$90,087.79 and disbursements \$16,317.37. The principal expenditure was by way of salary and allowances to a geographer and his assistant.

## Post Office Savings Bank

315. There were 222,250 depositors as of March 31, 1945, an increase of 39,035 in the year. Deposits and interest credits in the fiscal year were \$19,159,434.33. Withdrawals amounted to \$13,977,299.22. In all, 875,140 transactions (deposits and withdrawals) were recorded. The balance of \$33,468,686.68, reported in the Public Accounts as standing to the credit of the Post Office Savings Bank Account on March 31, 1945, was not reconciled by the Department with the aggregate amount of the depositors' accounts. It was stated in last year's report, at Para. 315, that: "Although the Department has installed mechanical equipment to facilitate and expedite the recording of transactions, the accounts were not up to date when the 1943-44 Accounts of Canada were closed." This condition had not improved when the 1944-45 Accounts were closed.

## R.C.M.P. (Dependents) Pension Fund

316. Section 86 of the Royal Canadian Mounted Police Act, as enacted by c. 40, Statutes 1934, requires the Dependents' Pension Fund to be annually examined by the Auditor General. Four per cent interest, as directed by the statute, is credited to the account. A summary of the operations for the year ended March 31, 1945, is:—

Balance at credit, March 31, 1944.....		\$355,029	10
Receipts—			
Contributions from members.....	\$66,652	30	
Interest credited by Department of Finance.....	14,896	67	81,548 97

Balance at credit, March 31, 1945.....			\$407,178 87

### Securities Investment Account

317. The amount of \$335,921,665.80 in Securities Investment Account, Schedule I to the Balance Sheet, as at March 31, 1945, is the recorded value of securities acquired by the Government. These consist mainly of: (a) Government of Canada securities acquired by the Minister of Finance in market stabilization operations in Canada and New York; (b) direct obligations and guaranteed securities repatriated under the War Appropriation (United Kingdom Financing) Act, 1942; and (c) Victory bonds acquired to facilitate instalment purchases by civil servants and members of the armed forces. A summary of the holdings as at March 31, 1945, showing the par and book values of the bonds held, is:—

	Par Value	Book Value
Canada —Trading Account .....	\$298,000,000	\$297,959,593 06
Canada —Repatriation Account .....	2,957,050	2,997,944 45

New York—Trading Account .....	nil	73,721 71 (Cr.)
	<u>\$336,167,400</u>	<u>\$335,921,665 80</u>

The \$335,921,665.80 includes \$803,421.11 representing profits, and \$38,960 on account of losses on the sale of securities. No transfer of profits to revenue was made during the year, nor were the losses charged to an appropriation.

### Seed Grain and Relief Advances

318. This account is administered by the Department of Mines and Resources. The last direct loan to a settler was made in 1925. Collections of principal during 1944-45 amounted to \$70,693.70, and \$36,006.17 was written off non-active assets and charged to expenditures of the year. Interest collections totalled \$40,884.15 and interest written off, \$112,049.01. The total amount outstanding is \$6,139,105.14, of which \$2,525,263.99 is principal and \$3,613,841.15 interest. Of the principal, \$2,286,235.78 forms part of Loans and Advances, Schedule G to the Balance Sheet; the balance, \$239,028.21, is recorded with the Non-Active Assets. A statement of the account since inception in 1876 is as follows:—

Loans and Advances .....	\$16,714,147 68

### Transport Stores Account

319. Section 6 of the Department of Transport Stores Act, c. 28, Statutes 1937, as amended by c. 16, Statutes 1939, directs that the inventory of stores at the end of each fiscal year shall not exceed \$1,250,000. This amount was increased to \$1,500,000 by Order in Council P.C. 2589 of April 1, 1943, made under the authority of the War Measures Act. At the close of the fiscal year 1944-45, the Department's stores ledgers recorded an inventory of \$1,299,728.05, while the Dominion balance sheet records \$1,316,226.79 as invested in stores. The major items making up the difference of \$16,498.74 were explained by the Department to be: (a) issues of materials to the value of \$13,152.02 in excess of the amount provided for materials and stores in various votes, and (b) \$2,426.58 for accounts receivable for materials issued to the Government of Newfoundland, War Assets Corporation and others, and for containers, etc., returned to suppliers.

### Unemployment Insurance Fund

320. At March 31, 1945, the balance available for the payment of benefits was \$268,034.-459.86. Of the total, \$262,020,007.18 (book value, plus accrued interest) consisted of Dominion of Canada securities held by the Bank of Canada. The auditors of the Bank of Canada furnished a certificate to the effect that securities held by the Bank, as at December 31, 1944, had been inspected and found to be in order. Disbursements in the fiscal year for benefits amounted to \$4,966,483.51.

321. Reference was made last year (Para. 323) to the desirability of revising the basis of amortization for securities acquired at prices above par. Amortization adjustments subsequent to April 1, 1945, will have the effect of adjusting the book value of the securities to their redemption values at the first callable date.

322. Fines amounting to \$2,066.02 were received during the fiscal year for violations of the Unemployment Insurance Act, of which \$25 was remitted by order of the Governor General in the exercise of the pardoning power vested in him.

323. Two years ago attention was drawn to an inconsistency in the Act which requires that the Government contribute a sum equal to one-fifth of all fines and penalties levied on employers. The sum was \$408.20 in the fiscal year 1944-45. The Advisory Committee has recommended that the Act be amended to remove this inconsistency.

324. Section 15 of the Unemployment Insurance Act provides that persons who are employed in insurable employment to a limited degree only, may be regarded as in excepted employments and no contributions collected. Section 16 states that a person who habitually works for less than the ordinary day may be granted an exemption certificate, in which event the contribution is limited to 24 cents weekly and is paid by the employer. In neither case do insurance benefits accrue to the employed persons. All persons working less than four hours a day (half-time civil servants are examples) have been classed as being in excepted employment, although the Act would seem to indicate that their status should be that of exempted persons. It follows that the Unemployment Insurance Fund has not received all the contributions intended by the legislation.

### War Damage Insurance Account

325. Gross premium receipts during 1944-45 from the public under the general war risk insurance plan, including transit policy premiums, were \$194,401.14 as compared with \$3,138.-524.69 in 1943-44. From this total, agents' policy fees of \$3,827.56 were deducted, leaving a net premium income of \$190,573.58, which was deposited to the credit of the Receiver General. Disbursements on general account totalled \$108,410.26, and included \$24,361.32 for administration and fiduciary agents' expenses and \$84,048.94 for premium refunds. The credit balance of the account at March 31, 1945, was \$7,500,038.83. Reserves of \$372.98 are reported for the payment of remuneration to insurance companies and of policy fees to direct writing mutual insurance companies and reciprocal insurance exchanges in respect of business underwritten to March 31, 1945.

326. No claims were paid during the year, but an amount of \$50,000 was provided as a reserve for outstanding claims in connection with the ss. *Greenhill Park* explosion in Vancouver on March 6, 1945.

327. Order in Council P.C. 6469 of August 16, 1944, authorized the extension of all policies, other than transit policies, for a period of twelve months from the date of expiry, without payment of additional premium.

328. Premiums received during the year in respect of Government property totalled \$329.-669.16 as compared with \$2,088,979.78 in 1943-44. The balance at March 31, 1945, was \$3,227,781.12. No claims were paid during the year.

329. Premium levies under the special blanket insurance scheme for insuring grain in commercial storage or in transit in Canada were collected from elevator operators by the Board of Grain Commissioners to December 15, 1944, when Order in Council P.C. 9265 of December 12, 1944, authorized the discontinuance of the scheme. Premium receipts totalled \$622,896.16

as compared with \$570,659.20 in the preceding year. Disbursements included \$1,714.80 for interest at 4 per cent per annum to elevator managers, in respect of advances of levy made by them on behalf of the grain owners. The balance of \$66,606.82 consisted of refunds to operators of terminal elevators at Fort William, Port Arthur, Churchill and Vancouver of advances of levy made by them on behalf of owners of grain in store at close of business at December 14, 1944, which for competitive reasons and because of price ceiling regulations they were unable to collect at time of shipment out of elevators. Order in Council P.C. 17/1111 of February 21, 1945, authorizes the payments.

## MISCELLANEOUS AUDITS

The Consolidated Revenue and Audit Act, 1931, requires the Auditor General to examine all accounts which go to make up the Balance Sheet of Canada. There are other accounts, mainly of a commercial nature, which are audited by reason of special directions. The comments which follow relate to such accounts.

## Board of Grain Commissioners

330. The Board, during the fiscal year 1944-45, expended \$1,809,881.48. During the same period, \$1,886,587.30 was received as revenue. A summary of the revenues and expenditures of the various branches for the years 1943-44 and 1944-45 is:—

*Dominion Government Account, \$664,539.75.*—This account reflects the results of cash transactions with the Dominion Government.

Construction and operating expenses have been paid from parliamentary votes and cash receipts credited to government revenues and reported by the Department of Trade and Commerce.

Government advances for open freight account are made in accordance with the provisions of section 163 of the Canada Grain Act, to meet freight, weighing and inspection charges on grain shipped to or discharged from government elevators. These charges are recoverable from the owners of the grain.

*Surplus Account.*—The operation of the elevators from 1913-14 to March 31, 1945, resulted in a net surplus of \$9,057,151.12 after providing \$1,979,943.43 for depreciation during the period 1925 to 1933. In the present balance sheet, depreciation has been eliminated, the reserve having been transferred to surplus account, making the total \$11,037,094.55 as at March 31, 1945.

332. Sections 138 and 138a of the Canada Grain Act provide for annual weigh-overs of grain stocks in terminals and eastern elevators. Grain overages disclosed in excess of those prescribed in these sections are sold and the proceeds turned over to the Board of Grain Commissioners. Sales amounted to \$383.53 during the year and this sum was credited to the Board of Grain Commissioners' grain overage account, making a total of \$10,017.62 to the credit of the account as at March 31, 1945, as shown in the Balance Sheet of Canada.

333. Section 163 of the Canada Grain Act provides that an accountable advance not exceeding \$500,000 may be made out of the Consolidated Revenue Fund for working capital of the elevators and for freight, weighing, inspection and other charges with respect to grains received or discharged. The disbursements are recoverable from the grain owners. During the year \$1,011,355.44 was advanced and paid for freight, weighing and inspection of grain. Recoveries amounting to \$972,023.65 were credited to the advance account during the year.

334. Certificates issued under an Act respecting Wheat, c. 60, Statutes 1931, in the amount of \$31.90, were redeemed during the year. A credit balance of \$7,786.58 remains in the wheat bonus account reported in the Public Accounts for the redemption of outstanding certificates.

## Canadian Broadcasting Corporation

335. The accounts of the Canadian Broadcasting Corporation are for the year ended March 31. Comparative condensed balance sheets are:—

338. Section 20 of the Canadian Broadcasting Act, 1936, reads:—

20. The accounts of the Corporation shall be audited by the Auditor General of Canada and a statement of such accounts shall be included in the annual report of the Corporation.

An employee of the Corporation, who was stationed at Vancouver, enlisted in the R.C.A.F. on January 4, 1943. He was granted the customary leave of absence without pay. After enlistment, and as a personal decision, he moved his family to Montreal. On May 31, 1944, after discharge from the R.C.A.F., he returned to duty with the Corporation and was assigned to work in Toronto. Later he was given duties in Montreal in connection with the short wave station, then under construction. He applied to the Corporation to assume the \$712.02 expense which he had incurred in 1943 in moving his family to Montreal. The claim was accepted and submitted to the Department of National War Services for reimbursement, because expenses of the short wave station are financed by that Department. The claim was refused on two grounds: (a) he was not actively employed by the C.B.C. at the time the removal expenses were incurred, and (b) his transfer to the short wave service was not contemplated until the autumn of 1944. On January 11, 1945, the General Manager accepted the claim as a charge to the Corporation. The matter was drawn to the notice of the Ministers of Finance and National War Services, because it was regarded as doubtful if the Broadcasting Act permits corporate funds to be applied to reimburse an outlay which was neither initiated by the management nor for corporate benefit. On March 27, 1945, the Secretary of the Treasury Board wrote that the Board was drawing the transaction to the attention of the Corporation for further consideration. The payment is included in the 1944-45 expenditures of the Corporation, but information provided is to the effect that final disposition is still to be settled by the Board of Governors. Attention is directed to the case because the Canadian Broadcasting Act, in common with various other statutes relating to boards, commissions, etc., gives no specific direction as to the action which the Auditor General is to take when he is of the opinion that a payment under audit may be *ultra vires*.

### Export Credits Insurance Act

339. Part I of the Export Credits Insurance Act, c. 39, Statutes 1944, came into force by proclamation on November 21, 1944. It provides for the establishment of the Export Credits Insurance Corporation. The purpose of the Corporation is to insure exporters against loss caused by insolvency, delays in collection or inability to secure currency to pay purchase price arising from the export under contract of Canadian produced goods. From November 21, 1944, the date of incorporation, to March 31, 1945, no insurance was written. The accounts of the Corporation to March 31, 1945, were audited in accordance with section 18 of the Act:—

340. Part II of the Act provides that the Governor in Council, on the recommendation of the Ministers of Finance and Trade and Commerce, may authorize special credit arrangements with foreign countries for the purpose of facilitating and developing Canadian export trade. Contracts by an agency of the Union of Soviet Socialist Republics with various producers have been guaranteed. Collectively, these guarantees total \$3,230,000. An amount, not exceeding \$15,000,000, was authorized as a loan to the Government of the Czechoslovak Republic. As at March 31, 1945, no part of the loan had been made.

### Federal District Commission

341. The accounts of the Commission were audited in accordance with the provisions of the Federal District Commission Act, c. 55, Statutes 1927. The balance at the credit of the Commission on April 1, 1944, was \$156,182.22. Receipts during the fiscal year amounted to \$421,318.51, and disbursements were \$405,094.85, the credit balance at March 31, 1945, being \$172,405.88. During the year the Commission's accounting system and records were revised, and, effective from April 1, 1945, the accounts of the Commission were placed upon a balance sheet basis.

### Foreign Exchange Control Board

342. The fiscal year of the Foreign Exchange Control Board is the calendar year. It is directed by Order in Council P.C. 7378 of December 13, 1940, that "an annual audit of the transactions of the Board shall be made by the Auditor General in such manner as he thinks proper and he shall certify to the House of Commons that in his opinion, having regard to such examination, the transactions of the Board have or have not been in accordance with the provisions of this Order and that the records of the Board do or do not show truly and clearly such transactions." From the information and the explanations received in the course of the audit, I am of the opinion, having regard to such examinations, that the transactions of the Board have been in accordance with the provisions of the Order in Council and that the records maintained show truly and clearly such transactions.

### Inspection Board of the United Kingdom and Canada

343. In addition to performing inspection duties in Canada and the United States, the Board conducts research and experimental work as required, and acts as a liaison agent between various technical departments in Canada, the United Kingdom and the United States. The Board was formed under an agreement dated November 6, 1940 (authorized by Order in Council P.C. 5995 of October 26, 1940) between His Majesty's Governments of the United Kingdom and of Canada, respectively. The Board consists of 8 members, 4 being appointed by each Government. Financial control is exercised through 2 members of the Board (one representing each Government) who are designated as financial members.

344. The agreement provides, among other things, that the Board inspect and certify such classes of munitions and supplies as is directed by either or both Governments, and also act as agent of the Governments in performing such duties. The Governments placed at the Board's disposal, without charge, all buildings and lands in Canada held for inspection purposes, as well as all inspection tools, gauges, apparatus, drawings and specifications and other equipment owned by either of them in Canada or in the United States.

345. Funds for the Board's operation are provided in the first instance by the United Kingdom Government. The Board's financial policy, methods of accounting to the two Governments, the distribution of running costs and capital expenditures, and the disposal of assets on cessation of hostilities are governed by regulations issued under authority of the agreement.

346. Expenditures of the Board from April 1, 1944, to March 31, 1945, amounted to \$35,862,032.16 and were assessed against the two Governments as follows:—

	Running Costs in Canada	in U.S.A.	Capital Expenditures	Total
Canada's share .....	\$ 7,928,054 67	\$ 514,274 82	\$ 139,651 38	\$ 8,581,980 87
United Kingdom's share.	25,584,957 99	1,555,441 91	139,651 39	27,280,051 29
	<u>\$33,513,012 66</u>	<u>\$2,069,716 73</u>	<u>\$279,302 77</u>	<u>\$35,862,032 16</u>

347. All assessments to date are provisional and are therefore subject to revision.

348. Certain adjustments were made in the division of the running costs of the Board to March 31, 1944, the share assumed by Canada being increased by \$178,864.31 (an increase of \$192,906.08 for costs in Canada and a decrease of \$14,041.77 for costs in the United States), and the share assumed by the United Kingdom correspondingly decreased.

349. The assets and liabilities of the Board as at March 31, 1945, were:—

350. The value of "Machinery, Vehicles, Equipment, Gauges and General Stores" has been reduced by the value of stores written off due to loss or damage, but no reduction has been made for stores sold. The Board has in its possession stores to an approximate valuation of \$173,000, provided by the Department of Public Works, for which settlement has not yet been made and which are not included in the sum of \$8,028,372.74. The entries in the books of the Board being generally according to receipts and payments only, the liabilities do not reflect the unpaid accounts for goods received and services rendered.

351. Reference was made last year in Para. 351 to the fact that the Board was not complying with the requirements of the Income War Tax Act with regard to withholding tax and furnishing information in respect of per diem allowances paid to employees, as defined under section 3 (4) of the Act. With effect from December 1, 1944, the Board instituted the necessary changes in its travel regulations to comply with the Act; but in so far as the prior period is concerned, measures have not yet been taken either to comply with the Act or to obtain suitable authority to forego doing so.

## Laurentian Terrace Hostel

352. This hostel, located in Ottawa, provides accommodation for women civil servants, particularly those in junior grades. At March 31, 1945, the total capital outlay amounted to \$407,659.26, an increase of \$814.06 over March 31, 1944. Revenues amounted to \$144,347.05 and expenditures to \$116,749.70. Expenditures include neither rental nor depreciation on building. The operating profit of \$27,644.03 at March 31st, as well as the surplus cash of \$5,419.21 in the Allotment Account, after March 31st outstanding accounts had been liquidated, was credited to Consolidated Revenue Fund as Special Receipts.

## National Battlefields Commission

353. The accounts of the Commission for the fiscal year were audited pursuant to the provisions of section 14 of the National Battlefields at Québec Act, c. 57, Statutes 1908. The credit balance of the Commission at the commencement of the year was \$13,874.45. Receipts during 1944-45 totalled \$78,508.77, while disbursements amounted to \$78,251.86. Thus the credit balance at March 31, 1945, was \$14,131.36. Further progress has been made towards the introduction of an accounting system which will permit the production of more comprehensive and accurate statements of the assets and liabilities and of the operations of the Commission.

## National Harbours Board

354. The National Harbours Board Act directs that the harbours' fiscal year be the calendar year. Harbour transactions as recorded in the Public Accounts of Canada relate to the fiscal year of the Government. The accounts of the various harbours for the year ended December 31, 1944, were audited in accordance with section 34 of the National Harbours Board Act.

355. Revenues totalled \$14,154,202.66, which includes \$150,000 from the City of Montreal and \$150,000 from the Province of Quebec towards the deficit of the Jacques Cartier Bridge.

356. Expenditures amounted to \$17,251,825.70. A general classification follows: operating expenses, \$5,999,088.98; interest on debentures held by the public, \$1,014,306.58; interest due the Dominion Government, \$7,037,865.98; addition to reserve for replacements and depreciation, \$1,940,272.37, and miscellaneous charges, \$1,260,291.79.

357. A summary of revenues and expenditures and surplus or deficit on operation is:—

Harbour	Revenues	Expenditures	Surplus	Deficit

	<u>\$14,154,202 66</u>	<u>\$17,251,825 70</u>		

358. The expenses of the Head Office, Ottawa, for the year, amounting to \$153,508.61, were pro-rated and are included in the above expenditures.

359. The operating deficit for the year was \$3,097,623.04, and a further net amount of \$630,983.69 was charged to deficit account as the result of capital asset write-offs and other adjustments.

360. A condensed summary of the December 31st balance sheets of all harbours, elevators and bridges operated by the Board is:—

\*The harbour accounts of 1943 and previous years did not include the interest on a 4 per cent loan issued in 1886-87 to the former Three Rivers Harbour Commissioners. To December 31, 1944, simple interest at 4 per cent on this loan was calculated at \$170,837.85 and the amount is included in the above statement in the unpaid matured interest of the harbour.

365. Loans from the Government of Canada to the National Harbours Board to March 31, 1944, as reflected in the Balance Sheet of Canada, amounted to \$155,508,740.32. During the year 1944-45 further advances of \$567,526.86 were made and repayments amounted

to \$52,781.01, leaving the net balance of loans outstanding at \$156,023,486.17 as at March 31, 1945. Interest paid by the harbours in the Government's fiscal year ended March 31, 1945, was \$4,000,000, and is recorded as revenue of the Department of Finance:—

Halifax .....	\$ 650,000

366. Net operating surpluses of Port Colborne Elevator, \$142,739.65, and Prescott Elevator, \$147,987.68, are recorded as revenue of the Department of Transport.

### Post Office Guarantee Fund

367. The fund was established in 1898 by regulation of the Postmaster General made under authority of section 7 (g) of the Post Office Act. The fund was built up during the period from inception to April, 1919, by compulsory contributions of officers, employees, clerks and servants of the Post Office Department; since the latter date interest earned on the fund has been more than sufficient to meet all losses.

368. The Act provides that the Postmaster General may cause a fund to be set up:—

to make good losses arising from the malfeasance, misfeasance, or failure to duly discharge his duties in any matter relating to the post office... and for the indemnification of His Majesty and others sustaining such losses, by payments out of the fund....

The Postmaster General, in exercising the power, directed that a fund be established "to remove the necessity for commercial bonds of indemnity being contracted for by various individuals." Charges are made to the fund to make good losses which are not acts of malfeasance, misfeasance or of failure to discharge a public duty. Illustrations are: indemnities paid with respect to jettisoned or lost mail when in transit by air, lost insured parcels, forged money orders and fraudulent withdrawals from the Post Office Savings Bank.

369. At April 1, 1944, the fund amounted to \$389,544.12. During the fiscal year the interest increment was \$15,184.16 and the net amount of claims paid was \$6,574.60. At March 31, 1945, the fund amounted to \$398,153.68, of which \$392,290.72 was invested in Dominion of Canada bonds (par value \$411,000) and the remainder was on deposit in the Post Office Savings Bank.

### Sorel Gun Plant

370. The Government of Canada is not a shareholder of Sorel Industries Limited, but the Sorel Gun Plant's operations are under the direction of a Control Committee, 4 members being named by the Minister of Munitions and Supply and one by Sorel Industries Limited. The accounts of the Plant are subject to audit by the Auditor General. An agreement made in 1940 between the Crown and Sorel Industries Limited provides:—

- (a) for the grant, as of midnight July 31, 1940, by Sorel Industries Limited to the Minister of Munitions and Supply of possession of, and the exclusive right to use (i) the plant and equipment of the Company; (ii) certain additional plant and equipment which is to be provided by the Company; and (iii) certain lands of the Company;
- (b) for the adaptation of the said plant and equipment to the Minister's requirements from time to time for war purposes; and
- (c) for the installation in the plant or on the said lands of such further plant and equipment as the Minister thinks necessary or desirable at any time to facilitate the production of armaments and munitions.

371. The capital contribution of \$5,256,955.95 by Sorel Industries Limited consists of land, buildings, machinery and equipment which remain the property of the Company. Depreciation of \$4,754,376.51 has been provided in connection with the Company's plant; \$4,300,716.70 of this amount has been paid to the Company, and \$453,659.81 is retained in a special bank account.

372. Buildings, machinery and equipment contributed by the Dominion Government, title to which remains with the Crown, have cost \$11,183,218.20. Depreciation of \$9,455,010.21 has been provided thereon and the amount has been paid to the Receiver General.

373. A fire occurred on January 1, 1945, in one section of the Plant. A reserve of \$1,250,000 has been provided for expenditures incurred in repairing and rebuilding plant and equipment destroyed or damaged. \$698,559.76 had been expended on this account up to January 31, 1945 (the fiscal year-end of the Gun Plant Account). A portion of the expenditures will be recovered from insurance payable in connection with plant owned by Sorel Industries Limited.

### Yukon Territory Accounts

375. Revenues and expenditures of the Yukon Consolidated Revenue Fund were audited in accordance with the provisions of section 22 (1) of the Yukon Act. Improvement in the accounting system is particularly noticeable in succession duty collections, where greater attention is now being paid to more accurate assessment of estate valuations.

376. No grant was made by the Government of Canada to the Territorial Government in 1944-45. The Liquor Account surplus of \$428,228.54 as of April 1, 1944, was increased by \$270,273.66 in 1944-45, this sum representing profits from liquor sales. A transfer of \$207,500 was made from the Liquor Account to the General Account and \$200,000 to Post War Work Account, leaving a balance of \$291,002.20 in the Account.

377. The recorded assets of the Territory total \$514,676.62, made up as follows:—

General Account .....	\$ 20,174 42
Liquor Account .....	291,002 20
Post War Work Account .....	203,500 00
	<u>\$514,676 62</u>

378. No provision is made for a valuation of lands, buildings, etc., of the Territorial Government, therefore these assets are not valued for Accounts' purposes. Outstanding commitments or accounts of the Territory at March 31, 1945, did not involve any material sum.

379. Comparative statements of the Accounts for the fiscal periods 1943-44 and 1944-45 are:—

380. By reason of the war, accounting divisions of the public service, including this Office, continued to be under-staffed for the volume of work to be performed. To the extent practicable, comprehensive tests and examinations were made of all accounts. The co-operation and assistance extended by administrative and accounting officers materially facilitated the audit.
